How to Protect Your Personal Property

Always keep your room, suite, apartment or theme house locked, but in the event something happens to your personal property (i.e., theft, fire, accidents); it's always better to be safe than sorry because the college does not assume the liability. Residence Life recommends you check with your family's home owner's insurance policy to see if you are covered in the event something happens. If you are not covered by homeowner's, you should invest in renter's insurance or use National Student Services, Inc. NSSI provides a student personal property plan and they can be found at www.nssinc.com or call 1-800-256-6774.
