

GUILFORD COLLEGE

STUDENT HEALTH SERVICES IMMUNIZATION FORM FOR

GUILFORD COLLEGE

5800 West Friendly Avenue
Greensboro, NC 27410

P / 336-316-2194

F / 336-316-2184

A completed immunization record is required to be submitted to Student Health prior to registration for courses. This form is due by June 30.

North Carolina Law G.S. 130A-155 requires persons attending college to present an immunization record. Required immunizations are listed in Section A.

Students not meeting these requirements must be immunized during the initial 30 days of the semester or be removed from the College.

We request all students have current immunizations before coming to the College.

GUIDELINES FOR COMPLETING IMMUNIZATION RECORD

IMPORTANT

- **Our form (page 4 of this document) must be used to complete the immunization record.**
- Records must be documented in black INK and signed by a physician.
- **The records must list student's name, date of birth, sex, and address; all dates must include month, day and year of administration.**
- Your immunization records may be obtained from your physician, health department or previously attended college. These records may not fulfill all requirements as listed below. **It is your responsibility to assure compliance with required immunizations.**
- Records must include a physician's signature and address.
- **Please receive all immunizations before coming to campus.**
- Keep a copy of your Immunization Record and this document for your records.

SECTION A

IMMUNIZATIONS THAT ARE **REQUIRED** PURSUANT TO NC STATE LAW AND INSTITUTIONAL POLICY FOR TRADITIONAL STUDENTS:

- 4 DTP (Diphtheria, Tetanus, Pertussis) or (Tetanus, Diphtheria) doses; **one Td booster or Tdap must have been within the past 10 years.**
- 3 polio (oral) doses.
- 2 measles, mumps, rubella (**2 MMR doses meet this requirement**).
- Hepatitis B series (3 doses required)

Notes:

- Blood titer tests are acceptable for Measles (Rubeola), Mumps, Rubella and Laboratory test results must be attached.

International Students:

You are considered an international student if you were born outside the United States, currently live outside of the US, or have lived outside the United States for three months or more. If any of these situations apply, **- you are required to have a TB test.** If the TB test is positive, you must have proof of a negative chest X-ray, treatment documentation (if required), no active symptoms and a note from your physician stating that you do not have active TB.

You must also have all your immunizations completed before arrival:

- 4 DTP (Diphtheria, Tetanus, Pertussis) or (Tetanus, Diphtheria) doses; **one Td booster or Tdap must have been within the past 10 years.**
- 3 polio (oral) doses.
- 2 measles, mumps, rubella (**2 MMR doses meet this requirement**) **or** blood titer test showing positive immunity to all three - signed by a physician.
- Tuberculin Skin Test (PPD) and result within the **twelve months preceding** the beginning of classes (chest x-ray report required if test is positive).
- Hepatitis B series (3 doses required)
- A Physical Examination is also required. Please use our form.
- Records must be complete in English.
- Keep a copy for your records.

SECTION B

THESE VACCINES ARE RECOMMENDED BY GUILFORD COLLEGE, BUT ARE NOT REQUIRED.

SECTION C

THESE VACCINES ARE **OPTIONAL** OR FOR FUTURE USE.

REQUIRED FOR INTERNATIONAL STUDENTS ONLY: PHYSICAL EXAMINATION AND TB SKIN TEST

(Please print in black ink)

To be completed and **signed** by physician or clinic

IMPORTANT INFORMATION ABOUT MENINGOCOCCAL DISEASE

Meningococcal Disease is caused by bacteria called *Neisseria meningitides* and is spread from person to person through respiratory secretions. Some individuals can be infected with the bacteria and yet not exhibit no symptoms. They are unaware of the infection, yet can spread it to others. Others who are exposed to these bacteria will get significant infection, sometimes resulting in death. If the bacteria invade the bloodstream or other body tissues it can cause meningitis (inflammation of the membranes surrounding the brain and spinal cord), sepsis (infection of the blood stream), pneumonia, or pharyngitis (sore throat).

Studies show that freshmen entering college and residing in residential halls are at an increased risk of this disease, relative to other persons of similar age. Due to this, it is recommended by the Center of Disease Control (CDC) that this vaccine is offered for other college students wanting to reduce their risk of this disease.

The vaccinations available that prevent Meningitis do not contain live bacteria. They are 85-90% effective in preventing disease from serotypes A, C, and Y and W-35, but they do not protect against the serotype B. There is now a specific vaccine that does provide protection against serotype B. Ask your health care provider or health department about this additional Meningitis vaccine.

Guilford College recommends that students discuss the Meningitis vaccines with their primary care provider or local health department prior to coming to college. The vaccinations are also available from Greensboro area medical providers and the Guilford County Health Department.

For more information about this disease and the vaccines contact:
