Nondiscrimination Policy

In its active commitment to building a diverse community, Guilford College rejects discrimination on the basis of race, creed, color, religion, national or ethnic origin, gender, sexual orientation, age or disability in admission, employment or access to programs and activities. The College also seeks to avoid discrimination in the administration of educational programs, admission policies, financial aid or any other College program or activity.
Dear Student:

I invite you to join me in exploring a unique higher education institution that has faithfully served thousands of students since 1837. Guilford College is distinguished from hundreds of other small liberal arts colleges by its longstanding commitments to undergraduate teaching, social justice and a mission and set of core values rooted in our Quaker heritage.

As part of its strategic plan in 2005, the College restated its mission:

“To provide a transformative, practical and excellent liberal arts education that produces critical thinkers in an inclusive, diverse environment guided by Quaker testimonies of community, equality, integrity, peace and simplicity and emphasizing the creative problem-solving skills, experience, enthusiasm and international perspectives necessary to promote positive change in the world.”

Our core values of community, diversity, equality, excellence, integrity, justice and stewardship are enduring tenets that guide student recruitment, academic programs and business practices as well as the manner in which we interact with one another day to day. I encourage you to incorporate these values into your college experience.

At Guilford, teaching matters most. Being called a “great teacher” is about the highest accolade that a faculty member on this campus can receive, and many do. I teach a class each spring semester because it’s one way this president can stay connected with the academic program and with students and their concerns. Students and alumni speak of the student-teacher relationship as a major reason they chose Guilford, succeeded in their pursuit of a degree and remain loyal to the College.

Another one of Guilford’s distinctions is that the College prepares students to engage in principled problem-solving as a means to achieve an excellent and practical liberal arts education and as a way to contribute creative solutions to existing and emerging problems in the community, state, nation and world.

In many ways, Guilford has been teaching principled problem-solving for years, but now it is being incorporated throughout our curriculum. The College has a wide range of academic programs that include novel offerings such as forensic biology, peace and conflict studies, and environmental studies.

Guilford has transformed many lives since its founding as the New Garden Boarding School more than 170 years ago. By choosing this college, I am confident the same can happen to you. I invite you to explore the College further by visiting our website, www.guilford.edu, or speaking with a representative of our Office of Admission or Center for Continuing Education.

Good luck and God speed in all your academic pursuits,

Kent John Chabotar
President and professor of political science
Guilford College

Statement of Purpose

adopted by the Guilford College Faculty and Board of Trustees, 1985

Guilford College is an educational community which strives to integrate personal, intellectual, physical, and spiritual growth through participation in several rich traditions. These traditions include liberal arts education which values academic excellence and stresses the need in a free society for mature, broadly educated men and women; career development and community service which provide students, whatever their age or place in life, with knowledge and skills applicable to their chosen vocations; and Quakerism which places special emphasis on helping individuals to examine and strengthen their values. We believe that the wise and humane use of knowledge requires commitment to society as well as to self.

The Quaker heritage stresses spiritual receptivity, candor, integrity, compassion, tolerance, simplicity, equality, and strong concern for social justice and world peace. Growing out of this heritage the College emphasizes educational values which are embodied in a strong and lasting tradition of coeducation, a curriculum with intercultural and international dimensions, close individual relationships between students and faculty in the pursuit of knowledge, governance by consensus, and a commitment to lifelong learning.

Guilford College expects each student to develop a broad understanding of our intellectual and social heritage, and at the same time to develop a special competence in one or more disciplines. Flexibility in the curriculum encourages each student to pursue a program of studies suited to personal needs, skills, and aspirations.

While accepting many traditional educational goals and methods, the College also promotes innovative approaches to teaching and learning. Both students and faculty are encouraged to pursue high levels of scholarly research and creativity in all academic disciplines. Guilford particularly seeks to explore interdisciplinary and intercultural perspectives and to develop a capacity to reason effectively, to look beneath the surface of issues, to understand the presuppositions and implications of ideas, and to draw conclusions incisively, critically, and with fairness to other points of view.

The College desires to have a “community of seekers,” individuals dedicated to shared and corporate search as an important part of their lives. Such a community can come about only when there is diversity throughout the institution — a diversity of older and younger perspectives, a diversity of racial and cultural backgrounds, a diversity of beliefs and value orientations. Through experiencing such differing points of view, we seek to free ourselves from bias.

As a community, Guilford strives to address questions of moral responsibility, to explore issues which are deeply felt but difficult to articulate, and to support modes of personal fulfillment. The College seeks to cultivate respect for all individuals in an environment where considered convictions, purposes, and aspirations can be carried forward.
Guilford College Alma Mater
Music by Austin Scott ’43, Words by Russell Pope
arranged by Ryan Furlough ’10

Kindly light our founders kindled
Midst primeval oak and pine,
Let thy radiance, truth revealing,
Now upon our spirits shine.

Sacred mem’ries thru the archways
Of the swiftly passing years,
Still undimmed dear Alma Mater
Strengthen us, dispel our fears.

So our hearts and voices joining
Echo Guilford’s ancient fame.
Hallow’d be thine each endeavor.
Hallow’d be fair Guilford’s name.

The Guilford College Catalog contains information about the educational climate, the academic programs and the campus life at Guilford College. In addition, it explains the degree requirements and academic regulations, describes the course offerings, and lists the faculty and administrative staff. The College reserves the right to change any provision, offering, fee, or requirement at any time to carry out its objectives and purposes. Please refer to the Guilford College Catalog online at www.guilford.edu for updates.
I. Introduction to Guilford College

MISSION

Guilford’s purpose is to provide a transformative, practical and excellent liberal arts education that produces critical thinkers in an inclusive, diverse environment, guided by Quaker testimonies of community, equality, integrity, peace and simplicity and emphasizing the creative problem-solving skills, experience, enthusiasm and international perspectives necessary to promote positive change in the world.

Toward that end the College provides:

- student-centered instruction that nurtures each individual amid an intentionally diverse community;
- a challenging academic program that fosters critical and creative thinking through the development of essential skills: analysis, inquiry, communication, consensus-building, problem-solving and leadership;
- a global perspective that values people of other cultures and the natural environment in which we all live;
- a values-rich education that explores the ethical dimension of knowledge and promotes honesty, compassion, integrity, courage and respect for the individual;
- access to work and service opportunities that forge a connection between thought and action.

Guilford seeks above all to create a special kind of learning community. We are not perfect at this. Our goal of creating independent thinkers and change agents necessarily pulls against the needs of community, and our great diversity of backgrounds sometimes works against our professed acceptance and equal respect for all individuals. We are as a community at best in a perpetual state of becoming.

We intend to continue to work toward being that community: a learning community defined somewhat paradoxically by both challenge and nurture, a community which produces compassionate graduates who are independent thinkers, risk-takers and change agents possessing a strong moral compass.

CORE VALUES

The College’s seven core values are based on, and consistent with, the five Quaker testimonies. Indeed, three testimonies – community, equality and integrity – are also core values. Core values are the essential and enduring tenets of the institution.

Community. We are committed to the cultivation of positive relationships between, and common experiences among students, faculty and staff.

Diversity. We are committed to creating an academic institution where a variety of persons and perspectives are welcome. We are committed to providing an environment where students from non-white cultures and backgrounds may succeed.

Equality. We are committed to creating an institution and a society where everyone is appreciated and judged based on their contributions and performance rather than gender, race, religion, sexual identity or socio-economic condition. Through the work of this institution, we will both create awareness of and work especially to eliminate individual and institutional racism.
Excellence. We are committed to setting high standards of academic rigor in courses and creating high expectations for achievement by everyone in our community. We seek the personal and intellectual transformation of our students.

Integrity. We are committed to creating a community that acts with honesty and forthrightness, holding ourselves to high academic and ethical standards and dealing with everyone with respect.

Justice. We are committed to peacefully resolving conflict, sharing economic and natural resources, and achieving parity in educational opportunity.

Stewardship. We are committed to making decisions that will ensure the long-term survival of this institution. We must maximize the value of our human, financial and physical resources in ways consistent with our Quaker heritage.

PRINCIPLED PROBLEM SOLVING

Principled Problem Solving (PPS) is a central and unifying aspect of Guilford College's practical liberal arts educational experience. First identified and defined by faculty, staff and students as part of a campus-wide, long-range planning process, PPS builds on the knowledge, skills, interests and life experience of the Guilford and local communities and seeks to address a broad range of problems and opportunities. PPS as philosophy and practice emerges from Quaker testimonies and is grounded in Guilford's seven articulated core values (above).

The Center for Principled Problem Solving was established in 2007 to deepen the understanding of PPS at Guilford. This interdisciplinary, College-wide center promotes student, faculty, staff and community participation in PPS projects that put Guilford's core values to work in the world. These funded projects help us learn to address problems – and engage significant opportunities – critically and creatively with both courage and conscience.

The Principled Problem Solving Scholars Program was established in the fall of 2008. Twelve to fourteen students are selected each year for this program that features a combination of required academic seminars, skills development programming and PPS placements and internships. PPS Scholars take seven to eleven PPS academic credits extending over two semesters and including a six-week summer internship. Students from any discipline may apply for this program but must have a 3.0 GPA to be selected for it. A partial tuition scholarship and summer internship stipends are offered under this program.

PPS at Guilford is organized in three distinctive yet overlapping categories or levels. These levels correspond to classroom and engaged learning activities beginning in their first semester and available through the senior capstone experiences. The three levels of PPS are:

PPS Foundations. Critical thinking analysis, skills and values. Guilford students are able to generate valuable questions and approach problems and issues by writing well, making use of quantitative data, understanding historical context, possessing ethical sensitivity, learning from cross-cultural experiences and combining creativity, imagination and discipline.

PPS Practices. Case studies in the classroom. Problem-solving skills are honed and defined through the examination and analysis of real and hypothetical examples. Invited PPS speakers and conferences supplement this aspect of the PPS curriculum.
PPS Application. PPS projects and a wide range of other engaged learning and scholarship opportunities at Guilford provide our students with opportunities to put our core values to work in the world. These learning opportunities help to shape our world by addressing complex problems and identifying opportunities for advancing human fulfillment in a variety of contexts.

CAMPUS

The Guilford campus occupies 350 wooded acres in northwest Greensboro, N.C. Most College buildings show a Georgian influence. The campus includes a forest, exercise and nature trails, and a small lake. These contribute to the College’s quiet, serene and friendly atmosphere.

THE STUDENT BODY

Guilford has students from across the United States and many other countries. These include traditional-aged students, students 23 years of age or older who are enrolled in the Center for Continuing Education, and students in The Early College at Guilford, completing their high school education and two years of work toward a bachelor's degree.

Guilford recognizes the special abilities of college students with physical impairments and learning differences. Through the Office of the Academic Dean, the College endeavors to serve the individual learning needs of any such student upon request. The request should be supported by appropriate medical documentation. The plan for these students may adjust the normal instructional process with un-timed exams or innovative approaches to assignments. The Learning Commons coordinates and refers resources for these students. Guilford's normal nondiscriminatory admission policy governs the admission of these students. The standard policies on academic standing and the prescribed graduation requirements also apply.

THE FACULTY

Guilford attracts teachers of outstanding ability, creativity and enthusiasm. The faculty consists of 124 full-time members supplemented by a number of qualified part-time instructors.

The Guilford faculty has excellent professional credentials. Approximately 90 percent have earned doctoral or equivalent terminal degrees from leading universities in the United States and several other countries.

With an average student-faculty ratio of 16:1, students can consult with their teachers about their studies and careers. Students and faculty interact on a first-name basis and friendships between them are common. They often share professional and vocational interests inside and outside the classroom and participate together in campus and community activities.

The faculty's primary commitment is to undergraduate teaching. They view learning as a common venture with students into life’s key questions.

QUAKER HERITAGE

In 1837, Guilford opened its doors as New Garden Boarding School founded by the Religious Society of Friends (Quakers).

Quakerism has traditionally represented a mode of life rooted in simplicity, one that
highly regards the individual, peace and social concern. It also has been a mode of inquiry, a search for truth by the individual sustained by the whole community of seekers.

These characteristics have nourished the College from its beginnings. Guilford’s original purpose was to train responsible and enlightened leaders, both women and men. Its method was the liberal arts, viewed not as a static body of knowledge but as a stimulus to intellectual and spiritual growth.

The Friends tradition harmonizes well with the College’s atmosphere of free inquiry. Liberal education requires an atmosphere of academic and personal freedom, founded on intellectual and moral responsibility and an atmosphere of commitment to ethical values and human beings. The combination of these qualities contributes to Guilford’s character.

Through the years Guilford has remained true to the vision of its Quaker founders. It has continually sought new methods of challenging students, bringing them into contact with vital ideas and experiences and helping them to arrive at their fullest potential as individuals and as members of society.

**Friends Center at Guilford College.** Friends Center at Guilford College was established by the Board of Trustees in 1982 to strengthen the bonds of the College with the Religious Society of Friends. The center provides opportunities for education and information about Quakerism, in addition to serving as a Quaker resource center for the southeastern United States. Friends Centers sponsors the Guilford campus ministry program, the annual campus Quaker Festival Week and the Quaker Renewal Program in the wider Friends community. An advisory committee composed of representatives from the College and two North Carolina Yearly Meetings works with the center’s staff to develop Quaker studies programs on and off campus. The center also brings nationally and internationally known Friends to campus through Distinguished Quaker Visitor programs. Friends Center programs are supported by the generous contributions of members of the two North Carolina Yearly Meetings of Friends, by those of other concerned Quakers and by the College.

**Campus Ministry.** Consistent with the College’s Quaker heritage, the Campus Ministry Office works to facilitate campus religious organizations of all faiths provide assistance for emerging groups, encourage dialogue among different religious groups and aid community members in the process of spiritual discernment. Ongoing programs include small group “seekers sessions,” daily and weekly worship opportunities, fall and spring break work trips, teas, forums, and the annual Religious Emphasis Week.

**The Quaker Leadership Scholars Program.** The Quaker Leadership Scholars Program (QLSP) enables members of the Religious Society of Friends to combine their academic pursuits at Guilford with community activities in a way that strengthens their involvement with Friends. Participants commit to a four-year program involving mentoring, small-group discussions, spiritual direction, leadership development, Quaker studies and internships. Financial assistance for College costs and participation in a wide variety of Quaker activities is provided. QLSP is a cooperative program of the Guilford Initiative on Faith and Practice, the Office of Student Financial Services, and the Office of Admission, with assistance from Friends Center.

**THE GUILFORD COLLEGE COMMUNITY**

**HISTORY**

The land, described as “this majestic wilderness,” was settled in the 1750s by Quakers
who named it New Garden. John Woolman, the Quaker missionary who visited the settlers shortly thereafter, called them “planters of truth in the province.”

During the American Revolution this peaceful scene was disturbed by the decisive Battle of Guilford Courthouse, four miles to the north. Quakers cared for the wounded of both sides and buried the dead in New Garden Meeting’s cemetery. Today one can see a marker to the unknown British soldiers interred there as well as visit the battlefield, now a national military park.

By the 1830s large numbers of Quakers in the South had moved to free states in the North, owing to their opposition to slavery and involvement in anti-slavery causes. The Quakers who farmed what is now the Guilford College campus were among the founders of the southern branch of the Underground Railroad, while the Guilford Woods preserves parts of the old forest that harbored fugitives fleeing their enslavement.

To assure a continuing commitment to educate the youth of the Religious Society of Friends, the remnant Quaker community decided to establish a boarding school on a coeducational basis; it was chartered in 1834 and opened in 1837 as New Garden Boarding School. The school did not close during the Civil War, as its young men did not march off to fight, and teachers and administrators of the school refused induction into the Confederate army. Following the war, Northern Friends aided the few Quakers remaining in the South to rebuild their community, strengthening the Boarding School and preparing it to become a College, building a system of Quaker schools and schools for recently emancipated slaves and improving the economy through innovative agricultural practices.

This led to the development of Guilford College, the fourth oldest degree-granting institution in North Carolina. The College remained largely isolated until the 1920s, when the old trail to Greensboro became The Friendly Road. The street name still symbolizes the long-standing friendship between town and gown. Today the campus is an area of greenery, quiet and scholarship within Greensboro’s city limits. It is one of the very few college campuses in the nation listed by the United States Department of the Interior as a National Historic District.

THE CITY AND ITS EDUCATIONAL ENVIRONMENT

Guilford is located in northwest Greensboro, the third largest city in North Carolina. The city’s population is approximately 270,000, with about 1.6 million people living in the larger metropolitan area.

Within a 25-mile radius are located seven other colleges and universities at which Guilford students may take courses: Bennett College, Elon University, Greensboro College, Guilford Technical Community College, High Point University, North Carolina Agricultural and Technical State University and the University of North Carolina at Greensboro. The Eastern Music Festival and School, in residence on the Guilford College campus each summer since 1961, provides an exceptional summer concert series with presentations on campus by professional as well as student musicians.

Close to Guilford are New Garden Friends Meeting, Friendship Friends Meeting and Friends Homes (a retirement community that provides highly skilled volunteers in several areas of College life as well as internships and employment for Guilford students). North Carolina Yearly Meeting offices are nearby and serve the College community in various capacities.

Also in close proximity to the College is New Garden Friends School, which rounds out the multigenerational community surrounding Guilford and provides additional internship and research possibilities.
THE CLIMATE

The local climate is mild and generally pleasant, making it possible to engage in outdoor sports during every month of the year. Winters are sunny, and although there may be some snowfall, extremely cold weather is rare. Spring comes early, with flowering trees and shrubs from early March through June. Autumn is especially congenial.

ACCESSIBILITY

Guilford is easily reached from the Piedmont Triad International Airport, five miles west; from Interstate 40, two miles south; or from Interstate 85, eight miles southeast. An Amtrak station downtown affords daily access to major cities throughout the Southeast.

The College is within a half-day’s drive of both the seacoast and the mountains.
II. The Academic Program: 
An Overview and Introduction

Guilford stresses breadth and rigor in its academic program. As a Quaker-founded College, it offers an educational experience that emphasizes the study of human values and the inter-relatedness of the world’s knowledge and cultures.

The curriculum prescribes for all students a basic framework from which they choose courses. This framework consists of a set of general education requirements and completion of at least one major and one minor.

Guilford also supports students in creating individualized programs and in selecting studies which will best contribute to their own development and interests. Faculty advisors readily assist students in exploring their interests and abilities and in relating their courses of study to future plans.

Students with varied talents and aims may profit from different methods of instruction. Guilford deliberately offers a selection of educational experiences: courses combining lectures with discussion or laboratory; seminars demanding more direct participation by the student; and opportunities for independent study.

The College encourages off-campus learning and foreign study, and advisors help students design internships in the community as a way of relating study and work experiences.

THE FIVE ACADEMIC PRINCIPLES
These principles govern all courses and other educational experiences at the College.

1. Innovative, student-centered learning
Guilford embraces effective and adventurous pedagogy. Learning formats are chosen to promote dynamic exchange among students and between students and faculty. Throughout, Guilford places the individual student at the core of its educational mission. In an environment committed to the value of interdependence, each student is encouraged to develop an individual viewpoint through the sharing of ideas with other members of the College’s intentionally diverse community.

2. Challenge to engage in creative and critical thinking
Guilford emphasizes these activities: identifying and solving problems; delving below the surface of things to understand phenomena in their complexity; considering how frameworks and perspectives affect observations and analyses; appreciating the interplay of believing and doubting; and combining intuition, imagination, and the aesthetic sense with reasoning, quantitative analyses, and factual knowledge.

Students learn not only to develop and synthesize ideas but also to articulate them clearly via the spoken and written word and other forms of creative expression. In particular, Guilford emphasizes writing as a mode of both learning and communicating, and thus students write intensively throughout their years here. Guilford especially values courses that connect different ways of knowing; hence the College’s interdisciplinary emphasis.

3. Cultural and global perspectives
Guilford strives to prepare students to be citizens of the world. Thus the curriculum
is designed to encourage students and faculty to respect and learn from people of other cultures and also to foster an understanding of ecological relationships within the natural environment. By interacting with people from different cultures and gaining sensitivity to other ways of life, students deepen their academic investigation of Western and other traditions. In the process, students are challenged to envision better societies and to work collectively with others toward mutual benefit.

4. Values and the ethical dimension of knowledge

   The Quaker ethos deeply influences the academic program as it does all other aspects of College life. In particular, the curriculum nurtures the spiritual dimension of wonder, the pursuit of meaning in life, and sensitivity to the sacred. It also promotes consciousness of those values necessary to successful inquiry: honesty, simplicity, equality, tolerance.

   The College’s courses explore the ethical dimension of knowledge. This often requires close attention to such issues as gender, race, ethnicity, religion, social justice and socioeconomics in historical and contemporary contexts.

5. Focus on practical application: vocation and service to the larger community

   Noting Quaker founder George Fox’s call for schools to teach “things civil and useful,” Guilford’s teachers help their students choose majors and sequences of supporting courses that fit their interests and aptitudes and lead to work and service possibilities that will bring personal fulfillment and challenge. The College also upholds each individual’s obligation to the larger community: thus its commitment to personal responsibility, social justice, world peace, service, and ethical behavior. Rooted in the Society of Friends’ social testimonies, the College aims to help its graduates learn to evaluate the effects of their actions and the implications of their decisions.

THE CURRICULUM

   The curriculum consists of five tiers:

   I. Foundations
   II. Explorations (Breadth and Critical Perspectives)
   III. Major
   IV. Minor
   V. Capstone

   Students must complete requirements in each of these five tiers. The general education requirements consist of the Foundations, Explorations and Capstone tiers.

   Students need a minimum of 128 credits for graduation, so the remaining courses a student takes may either count as electives or establish a second major and/or minor.

   Students who expect to study abroad or who plan to spend a semester off campus in an internship program should plan ahead carefully to fulfill requirements.

   A single course may fulfill multiple requirements between the general education program and a student’s major and minor fields. Each major must consist of at least 32 discrete credits and each minor must consist of at least 16 discrete credits. For example, a student completing one major and one minor must complete at least 48 discrete credits, and one major and two minors requires at least 64 discrete credits.

I. FOUNDATIONS

   Throughout their time at Guilford, students will develop skill competencies in the following specific areas:
• Writing
• Oral Communication
• Research
• Information Technology
• Quantitative Reasoning

The platform for these competencies occurs generally in the Foundations courses; students then continue to develop these competencies during their course of studies. The IDS 400 course represents the completion of this development at Guilford.

The four required Foundations courses plus an additional quantitative requirement, which provide solid grounding in Guilford’s five academic principles, are:

1. The First Year Experience (FYE 101, FYE 102). The First Year Experience is for traditional-age students. Center for Continuing Education students and graduates of The Early College at Guilford are exempt from this requirement. FYE aids in the academic and social transition to College life.

   This requirement includes a four-credit course and a one-credit lab. The four-credit course engages students in significant interactive and values-based inquiry. With a focus on speaking, listening and experiential learning, each FYE course explores an interdisciplinary content area. The FYE 102 First Year Experience Lab helps introduce students to Guilford and includes such topics as time management, choice of career and major, honor code and academic integrity. The instructor for FYE 101 serves as the student’s academic advisor until the student declares a major.

   Students who fail or withdraw from FYE 101 may not retake this course but instead must take and pass (D- or better) an additional Historical Perspectives course, or take and pass (D- or better) an additional 400 level IDS (interdisciplinary) course. FYE 101 cannot double-count in the major or minor.

   Students who fail FYE 102 in the fall must repeat the course during the following spring semester.

   If a traditional-age transfer student enters with 12 or more transfer credits, he or she is exempt from this requirement. Traditional-age transfer students entering the spring semester with fewer than 12 credits must take the FYE 101 and FYE 102, if offered, to satisfy the requirement. If FYE 101 and FYE 102 are not offered, the student must satisfy the requirement by taking FYE 101 and FYE 102 in the following semester. Minimum grade to satisfy this requirement: D-.

Adult Transitions (GST 101). This course, an equivalent of FYE 101, is limited to adults aged 23 years or older in their first term of courses at the College. Its curriculum is geared to first-time college students and students who performed less than optimally in their prior college experience. The course acclimates students to the rigor of academics at Guilford, orients students to the College, and emphasizes critical thinking and analytical, critical reading and critical writing skills at the college level. The instructor of the course serves as the student’s academic advisor for the first semester, after which the student is assigned an advisor in the major.

Minimum grade to satisfy this requirement: D-.

2. College Reading and Writing: Many Voices (ENGL 102). This course provides a main site for identifying and working on the reading and writing skills that students need as members of the Guilford community. Course emphases include invention, arrangement,
Embracing the value of multicultural issues and perspectives in our society, the theme of the course is “Many Voices.” Readings celebrate a range of diverse populations that collectively define the American landscape, groups including Native Americans and Americans of African, Asian, Hispanic, Jewish and Arab descent.

Enrollment in ENGL 102 requires a prerequisite of either a C- or better in ENGL 101, SAT/ACT scores of 530/23, or placement by the writing director. The Department of English reviews student essays at the beginning of each semester to confirm correct placement. Students with scores of three, four or five on an English AP exam are exempt from ENGL 102.

Minimum grade to satisfy this requirement: D-.

3. Historical Perspectives (HP). (Offered by departments throughout the College). This course focuses on historical change and how individuals and groups both initiate change and respond to social, economic and political forces. Taught by professors from across the College, Historical Perspectives courses link with College Reading and Writing in a two-semester, first-year writing sequence. Course focuses include critical and research writing and responsible use of the Internet. Historical Perspectives courses are indicated with the letters “HP” at the beginning of the course title. Courses without this designation will not satisfy this requirement. This course may not double-count with Breadth, but can double-count with Critical Perspectives.

Minimum grade to satisfy this requirement: D-.

4. Foreign Language. This course provides an intensive, interactive experience in learning a foreign language and culture that prepares students to continue to be lifelong learners of languages and cultures. Such courses are offered in French, German, Japanese and Spanish.

A student can satisfy the Guilford College foreign language requirement by passing language 101 at Guilford College with a D- or better. Adult students may also satisfy the requirement by passing language 111 with a D- or better. Traditional-age students are not eligible to take FREN 111 or SPAN 111.

A student may also satisfy this requirement through one of the following means, all subject to final approval by the Department of Foreign Languages:
- pass one semester of a modern, spoken language at another accredited university. The chosen language must have both written and cultural components. American Sign Language (ASL) cannot satisfy the language requirement.
- place into language 102 or higher on one of Guilford's language placement tests. We will not accept placement scores from exams taken at other universities.
- score 3 or higher on an AP modern language exam.
- complete secondary school in a language other than English, and in a non-Anglophone country. Completion of primary education in another language is not sufficient.

Students are encouraged to continue their study of language beyond the introductory level. Incoming students who wish to continue a previously studied language must take a placement exam in the appropriate language before enrolling in a foreign language course.

For the foreign language requirement to be waived, a student must qualify for a learning disability as defined by the state of North Carolina. If the foreign language waiver is granted, the student must substitute a course with an international or intercultural emphasis that has been approved by the Department of Foreign Languages. Substitution courses may not double-count with other graduation requirements.

There is no placement exam for Japanese. Incoming students should speak directly to Hiroko Hirakawa to determine the best placement.

5. Quantitative Literacy. Guilford also has a Quantitative Literacy requirement. Students may satisfy it in several ways:
   1. Earning a Math SAT score of 650 or higher
   2. Receiving a score of 15 or below on the Guilford Quantitative Literacy test
   3. Successfully completing GST 110, a 2 credit course that focuses on quantitative literacy, or
   4. Passing (D- or above) any mathematics course offered at Guilford or a transfer course equivalent.

II. EXPLORATIONS

A. Breadth

To gain educational experiences in each of the five disciplinary divisions, students are required to take one “Breadth” course in each of these divisions. The following list identifies these disciplinary divisions, as well as the academic departments belonging to each (interdisciplinary programs like African American studies and environmental studies span the areas of study but are not primarily located in any one of them).

Not all courses taught in each of these divisions will satisfy this requirement. Those courses that do satisfy one of the Breadth requirements are so identified in individual course descriptions.

- **Arts:** art, music, theatre studies
- **Business and Policy Studies:** accounting, business, computing technology and information systems, justice and policy studies, sport studies
- **Humanities:** English, foreign languages, history, philosophy, religious studies
- **Natural Sciences and Mathematics:** biology, chemistry, geology and earth sciences, physics
- **Social Science:** economics, education studies, political science, psychology, sociology and anthropology

Minimum grade to satisfy the Breadth requirement: D- in each of the courses taken to satisfy this requirement.
B. Critical Perspectives

Additionally, each student must complete three specially designated Critical Perspectives courses. These three courses can double-count with Breadth courses, a Historical Perspectives course, major and minor courses or a capstone course. Those courses that will satisfy the Critical Perspectives requirement are so identified in individual course descriptions. Only courses so designated may be used to satisfy this requirement. The three categories are:

- **Intercultural:** an approved course which focuses on Africa, Asia, Latin America or the Middle East.
- **Social Justice/Environmental Responsibility:** an approved course which focuses on race, class, gender, sexual orientation or the environment.
- **Diversity in the U.S.:** An approved course which explores sub-cultures within the United States.

Minimum grade to satisfy the Critical Perspectives requirement: D- in each of the courses taken to satisfy one of the three requirements.

III. THE MAJOR

Each student must choose a major field of specialization. It is expected that students should declare a major online in the College’s BannerWeb system by the time they have earned 32 credit hours.

Students may pursue options outlined below, including disciplinary majors, double majors or interdisciplinary majors.

All majors require a minimum of 32 credit hours. Certain majors require a larger number of credit hours. See the major’s department in Chapter IV for all requirements for completing that major. For a student to earn a major at Guilford, the student must complete at least half of the major credit requirements at Guilford. This requirement applies to each major a student earns. The minimum grade to satisfy the major is a C- in each of the courses required for the major, unless otherwise specified for professional licensure.

If a student returns to Guilford following graduation to complete a second major, but not a second degree, the designation of the original major will not be changed, but a notation will be made on the student’s academic transcript that the requirements for the second major have been met.

Accounting, African American studies, business administration, community and justice studies, computing technology and information systems, criminal justice, education (K-6), education (9-12), forensic accounting, history, political science and psychology may be completed through either daytime or evening classes. Forensic biology is an evening major.

**Disciplinary Majors**

A disciplinary major is a major in a traditional academic discipline. A student selecting a disciplinary major completes a minimum of 32 credit hours (eight courses) in that field as specified by the program. At least half of the major must be completed at Guilford.

**Interdisciplinary majors**

An interdisciplinary major utilizes theoretical perspectives for analysis from more than one traditional academic discipline. A student selecting an interdisciplinary major completes a minimum of 32 credit hours (eight courses) as specified by the program. With the exception of integrative studies and peace and conflict studies, all interdisciplinary majors must also complete a second disciplinary major, which replaces the minor requirement. At least half of each major must be completed at Guilford.
Double Majors

A double major consist of two distinct majors, one of which must be a disciplinary major. To earn a double major, a student must complete all requirements for each of the two majors. With a double major, no minor is required for graduation. If these two majors offer different degrees (A.B., B.S., B.M., B.F.A.), only one degree will be awarded to the student. The student will choose which degree is awarded. Both majors, however, will be listed on the student’s permanent academic transcript.

Students wishing to have more than one major must complete a minimum of 32 discrete credit hours in each major. The 32 credit hours for each major must not overlap with the other major.

At least half of each major must be earned at Guilford.

IV. THE MINOR

In addition to the major course work, each student who is not pursuing a double major, triple major, B.F.A. degree or integrative studies major must choose a minor. A minor is a focused collection of a minimum of 16 credit hours that either provide a second, mini-depth area or involve study related to the major. Students are free to select any minor so long as it does not have the same name as the major: thus an English major is not allowed to complete an English minor.

Minors may be either disciplinary or interdisciplinary.

Minimum grade to satisfy the minor: D- in each of the courses required for the minor.

V. CAPSTONE INTERDISCIPLINARY STUDIES (IDS)

Each student who has senior status (a minimum of 88 credits completed) must take an interdisciplinary studies (IDS) course with a 400 level prefix (e.g., IDS 402 Business Ethics). Students may take an IDS 400 class before they have earned 88 credit hours; however, under no circumstances will the course satisfy the IDS general education requirement if the student has not already completed 88 credit hours prior to the beginning of the course. Also, students must complete their Historical Perspectives requirement before taking an IDS course.

The IDS course will allow students to draw upon the knowledge and skills gained from previous college work and explore issues that cross traditional disciplinary lines. Cross-disciplinary writing will be a principal focus.

The IDS may only double-count with Critical Perspectives, major or minor.

ELECTIVES

Sufficient electives are needed to fill out the minimum of 128 credits needed for graduation. Electives may be taken in any department or field to supplement the student’s interests.

There are some limitations on the number of credit hours a student may earn in independent studies, internships and physical education classes. For detailed restrictions please refer to the sections on independent studies, internships and physical education classes.
CRITERIA AND PROCESS FOR AWARDING HONORARY DEGREES

Background

The Guilford College Bylaws state that “This authority [of the Board of Trustees], upon the recommendation of the president, shall include but not be limited to the following illustrative functions: ... Approve all earned and honorary degrees as the faculty shall recommend.” (Section 2.2) This proposal establishes the criteria for honorary degrees and the process by which awardees would be recommended by the faculty and president.

The awarding of honorary degrees is a long standing tradition of many colleges and universities, including colleges founded by the Society of Friends. Earlham College, Haverford College and Swarthmore College all award honorary degrees, such as the Doctor of Laws, Doctor of Science, Doctor of Letters and Doctor of Humane Letters. Haverford and Swarthmore award them annually, but Earlham “reserves the privilege for individuals and times deemed by the faculty to be of particular importance.” Haverford has a tradition of selecting one Quaker recipient per year. Whittier College and Wilmington College also award honorary degrees.

The criteria and process described below have several similarities to those that Earlham and Whittier use to award honorary degrees. At Earlham¹, nominations originate with the teaching and administrative faculty, and are considered in turn by a) a committee consisting of “the President of the College, the Convener of Faculty Affairs Committee and the Chairman of the Board of Trustees;” b) the Faculty Affairs Committee and c) the faculty. Approved candidates are then presented to the board for approval. At Earlham, honorary degrees are intended to “reward distinguished achievement in the nation’s life by the conferring of honorary degrees on persons outside the College community” and “must be awarded sparingly.” Whittier² awards honorary degrees for the purposes of “(1) recognizing scholarly, artistic, public, or civic achievement and (2) furthering the mission and goals of the College by enhancing the institution’s reputation and resources.” Nominations may be submitted by any member of the community. A subcommittee of the Faculty Affairs Committee³ considers the nominations and presents selected candidates to the faculty for approval. In consultation with the chair of the subcommittee, the president prioritizes the list, which includes all candidates who have been approved by the faculty over the previous five years. The president selects candidates to receive the honorary degree, with all selected candidates to be affirmed by the Board of Trustees.

Objective

The honorary degree is one of the highest recognitions any College can bestow and is therefore not lightly granted. It is intended to honor an individual who has a sustained record of achievements of lasting significance. Associating these honorees more closely with Guilford would raise the profile of the College, thereby benefitting admissions, overall engagement and philanthropy.

The Doctor of Letters, Doctor of Humane Letters, or Doctor of Science would be

¹ “Honorary Degrees,” personal communication from Janice Bragg, Earlham College, to Erin Dell, Guilford College. (June 2, 2011)
³ Note that while Earlham’s Faculty Affairs Committee has responsibilities similar to Guilford’s, Whittier’s Faculty Affairs Committee is charged with tasks that are typically undertaken by Clerk’s Committee at Guilford.
awarded to individuals who meet the stated criteria. No more than one honorary degree would be awarded in any academic year.

Criteria

Persons nominated for consideration for honorary degrees should have made distinguished and broad contributions to society. These may be in the traditional areas of scholarship and creative arts, research and development, the learned professions, public service, philanthropy, or business and industry. It would be desirable for these contributions to reflect all or most of Guilford's core values (Community, Diversity, Equality, Excellence, Integrity, Justice, and Stewardship), with an emphasis on Excellence and Integrity. Contributions to society that reflect principled problem solving are also desirable.

It is desirable, but not required, that the people selected have had some connection with Guilford College and its mission. It is also desirable, but not required, that some recipients of an honorary degree be widely known by the general public. Persons currently serving on the faculty or staff of the College ordinarily would not be eligible.

Process

Early in the academic year, but no later than September 15, the Office of the President will solicit confidential nominations for an honorary degree from faculty, staff, students, alumni, the Board of Trustees and the Board of Visitors. Nominations will be due on or before November 1. Those making and supporting nominations should be knowledgeable in the nominee's field of accomplishment and therefore in a position to make an evaluation. Each nomination must be accompanied by a letter of nomination including a biographical sketch of the individual. Nominations may be co-sponsored by up to two individuals from the Guilford community. Nominations will be submitted to the Office of the President.

In any year in which nominations are received, the Clerk's Committee will appoint an ad hoc Honorary Degree Committee, in consultation with the President, to review the nominations and supporting material. The committee may choose to seek additional information provided that the confidentiality of the process is preserved. The committee should consider any potential conflicts of interest for any of the nominees. No later than December 1, the committee will recommend to the faculty up to three nominees to receive an honorary degree. These nominations will be considered at the December faculty meeting, and the faculty may recommend that any or none of the nominees be awarded an honorary degree. Provided that the faculty recommend at least one nominee, and based on the faculty recommendation and any additional consultation, the President will recommend the person, if any, to receive an honorary degree. The President's recommendation will be forwarded to the Board of Trustees for their review and approval. Honorary degrees will ordinarily be awarded at the opening academic convocation of the following academic year. The degree may be awarded at the spring commencement exercises on the recommendation of the Convocation and Celebrations Committee.

ACCREDITATION AND AFFILIATION

Guilford is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, Georgia 30330-4097; telephone number 404-679-4501; to award baccalaureate degrees. It is also affiliated with the Council on Post-secondary Education.

Guilford is on the list of colleges and universities approved by the American Medical Association, and the teacher education program is accredited by the North Carolina
Department of Public Instruction and the National Council for the Accreditation of Teacher Education.

Credits earned at Guilford are accepted at face value in admission to graduate and professional schools and in certification of teaching.

Guilford holds membership in a number of organizations formed by colleges and universities: the Association of American Colleges and Universities, the American Council on Education, the Council of Independent Colleges, the North Carolina Adult Education Association, the National Association of Independent Colleges and Universities, the North Carolina Association of Independent Colleges and Universities, the North Carolina Honors Association, the National Collegiate Honors Council, the Friends Association for Higher Education, The College Board, and the North Carolina Independent Colleges and Universities.

Guilford is listed in the Baccalaureate Colleges – Liberal Arts category by the Carnegie Foundation for the Advancement of Teaching.

---

### REQUIRED GENERAL EDUCATION COURSES

#### FOUNDATIONS

- **First-Year Experience – FYE 101, 102** – two courses (CCE students, graduates of The Early College at Guilford and traditional-age transfer students with 12 or more transferred credits are exempted from this requirement)
- **College Reading and Writing: Many Voices** – ENGL 102 – one course
- **Historical Perspectives** – one approved course; may double-count with major or minor
- **Foreign Language 101** – one approved course or test placement (CCE students may also use SPAN 111 to satisfy this requirement)
- **Quantitative Literacy** – test placement, GST 120 Quantative Literacy, or any Guilford math course or equivalent

#### EXPLORATIONS – BREADTH

*(courses may double-count with major or minor)*

- **Arts** – one approved course
- **Business & Policy Studies** – one approved course
- **Humanities** – one approved course
- **Natural Science & Mathematics** – one approved lab science course
- **Social Science** – one approved course

#### EXPLORATIONS – CRITICAL PERSPECTIVES

*(courses may double-count with Breadth, Historical Perspectives, major, minor, or IDS 400)*

- **Intercultural** – one approved course
- **Social Justice/Environmental Responsibility** – one approved course
- **Diversity in the U.S.** – one approved course

#### CAPSTONE (IDS 400)

*(may only double-count with Critical Perspectives, major or minor)*

- **Interdisciplinary Studies (IDS 400)** – one approved course
III. Graduation Requirements; Degrees and Cooperative or Dual-Degree Programs Offered

Graduation Requirements
Guilford College uses semester hours for units of credit.

For the baccalaureate degree, students must:
- earn a minimum of 128 semester hours of credit;
- earn a minimum cumulative grade-point average of C (2.00);
- complete a minimum of 32 semester hours of credit at Guilford;
- complete half their major(s) while enrolled at Guilford, with grades of C- or above;
- complete half their minor(s) while enrolled at Guilford;
- spend their last semester of study at Guilford;
- file their application for degree candidacy online at least one semester before their anticipated date of graduation.

Commencement is held once per year, in May. July and December graduates may participate in the next May ceremony.

Degrees Offered
Guilford offers four baccalaureate degrees: the Bachelor of Arts, the Bachelor of Science, the Bachelor of Fine Arts and the Bachelor of Music.

A student majoring in biology, chemistry or geology is awarded a Bachelor of Arts degree unless extra work is done to earn a Bachelor of Science degree. An art major may pursue either a Bachelor of Arts or a Bachelor of Fine Arts and a music major may pursue either a Bachelor of Arts or a Bachelor of Music.

Cooperative or Dual-Degree Programs
Cooperative programs are those in which students take a portion of their undergraduate work (usually three years) at Guilford, completing an additional one to two years at a cooperating institution. At the end of the specified period of time, the student receives a baccalaureate degree from Guilford and a more specialized professional certificate or degree from the second school.

Admission to Guilford does not automatically qualify students for admission to a cooperative program. Students must apply to the schools sponsoring programs that interest them, and their admission is the prerogative of those schools.

Engineering
Do you want to be an engineer with a solid foundation in the liberal arts and excellent oral and written communication skills? The Guilford physics program may be just the right one for you. At Guilford, students learn how to attack and solve complicated problems by getting to the root causes and analyzing connections between the pieces. In addition, Guilford physics students become excellent communicators to both technical and non-technical audiences. These are critical skills for a successful engineer. More than 30% of Guilford physics graduates have careers in engineering or engineering related fields. At Guilford, these students concentrated on applied physics while also benefiting from our
strong writing program and broad liberal arts education. As Nathan Knisely (class of ’11 graduate and currently a Ph.D. candidate in aerospace engineering at Georgia Tech) recently said, “Guilford’s physics/math tests were always about applying the knowledge, not just spitting it back.” Guilford-trained engineers are not only excellent in finding technical solutions to problems, they understand the relationship between technology and humankind and can communicate effectively with people of diverse cultural backgrounds and technical knowledge. The training in alternate perspectives that a liberal arts education provides will be a critical asset for 21st century engineers who will need to navigate through complicated problems and find creative solutions.

There are three ways in which Guilford students can prepare for an engineering career.

1. Students may follow the pre-engineering track of the Physics major (and Chemistry major for chemical engineering). Graduates may go to graduate school in engineering or enter the workforce directly.

2. Students may obtain a dual-degree by completing a 3-2 program in pre-engineering physics. Students in this program complete three years at Guilford satisfying all the requirements for a B.S. in pre-engineering physics except for thesis and IDS 401 before transferring to an engineering program at an accredited university. After completing the program, the student receives a B.S. in physics from Guilford as well as an engineering degree from the cooperating school. In addition to the advantages of small classes, individualized instruction, and broad background enjoyed by Guilford students, the graduate with two degrees also gains the advantage of standing out of the crowd to potential employers because of her/his two degrees.

3. Following two years at Guilford, students may transfer to an engineering school to obtain a bachelor’s degree in engineering. Two years at Guilford would provide students with a basic foundation in science and mathematics as well as experience in writing and exposure to the liberal arts. These classes at Guilford are much smaller and personalized than at a university so they provide an excellent way to begin one’s college career. This option is attractive for those students with a weak scientific background or, paradoxically, a desire to pursue physics and math in greater depth than is customary in engineering education.

All three paths for pursuing an engineering career at Guilford require careful planning. Interested students should meet with an advisor from the Physics Department as soon as possible so that the student and advisor can develop the best plan of action.

Environmental Management and Forestry

The College offers a cooperative program with Duke University leading to graduate study in natural resources and the environment. The program accepts students after three years of undergraduate study or upon completion of the baccalaureate degree.

At Duke’s Nicholas School of the Environment, students can pursue a professional master’s degree in environmental management or forestry or a doctoral degree in coastal systems science and policy, earth and ocean sciences or environmental sciences and policy.

With appropriate guidance, highly qualified students can reach a satisfactory level of preparation for graduate work in the School of the Environment after three years of coordinated undergraduate study. The student must fulfill all the general education requirements by the end of the junior year at Guilford. At the end of two full-time semesters at Duke, the student will have completed the undergraduate degree requirements, and a degree will be awarded by Guilford. After four semesters at Duke, in which a minimum of 48 credits is earned, the student may receive one of two professional degrees, either the Master of Forestry or the Master of Environmental Management, from Duke’s School of the
Environment.

The cooperative college program does not guarantee admission to Duke. Students, who wish to enter the Nicholas School of the Environment, whether after the junior year or completion of the baccalaureate, must submit an application for admission by February 15 preceding the academic year in which they desire to begin study at Duke.

An undergraduate major in one of the natural or social sciences, business or environmental science is good preparation for study at Duke, but students with other undergraduate majors are considered for admission. All prospective students should have at least one introductory course in ecology, calculus, statistics and microeconomics and a working knowledge of microcomputers for word processing and data analysis. Advisor: Lynn J. Moseley, Department of Biology.

PREPROFESSIONAL OPTIONS

Pre-Medicine, Pre-Dentistry

Students interested in careers in medicine, dentistry, podiatry, osteopathy, chiropractic, pharmacy or optometry must fulfill the prerequisites at Guilford for professional school admission. Health professions advisors provide detailed information on various careers, as well as on professional school admission requirements, application procedures and special programs for minority students. Also available are application materials, financial aid information and study materials for entrance examinations (such as Medical College Admission Test and Dental Admission Test).

A health professions advisor assists the student in planning an individualized program of study that, for most career fields, includes at least one year each of biology, inorganic chemistry, organic chemistry, mathematics and physics. Pre-medicine and other pre-health students may major in the field of their choice while obtaining specialized courses needed for graduate study. Advisor: Anne G. Glenn, Department of Chemistry.

Pre-Veterinary Medicine

Students receive solid preparation at Guilford College for admission to a school of veterinary medicine. To complete prerequisites for application, students usually major in biology. Some veterinary schools also require a course in animal nutrition, which Guilford students can take at North Carolina A&T State University through consortium arrangements, or students can take an approved online course. Advisor: Lynn J. Moseley, Department of Biology.

Pre-Law

Students planning to attend law school are urged to contact Guilford’s pre-law advisor and to participate fully in the activities of the Websterian Pre-Law Society. Students are encouraged to contact the advisor early in their undergraduate studies for both academic and law school admission advice.

There is no prescribed or preferred major for pre-law students, but law schools seek students who have demonstrated mastery of their chosen fields of study and complete a balanced liberal arts education. Pre-law students are urged to include foreign languages, the basics of accounting, political theory, logic (formal or informal), economics, analytical writing and critical thinking among their undergraduate courses. Many law schools require solid performance on the Law School Admission Test (LSAT) and a 3.00 or higher grade-point average.

The Websterian Pre-Law Society provides practice LSATs, regular meetings, guest
speakers and visits to nearby law schools. Internships at local agencies and law firms are coordinated by the pre-law advisor. Advisor: Lisa J. McLeod, Department of Philosophy.

**Pre-Ministerial**

The Department of Religious Studies offers preparation which may lead to a career in the ministry or religious education. A broad range of courses preparing the student to enter theological school directly upon graduation includes History of Christianity, Old Testament and New Testament, Contemporary Theology, Quakerism and various explorations in modern religious problems. Studies in comparative religions are offered regularly. Advisor: Eric Mortensen, Department of Religious Studies.

**NOTE:** As a Quaker-founded College, Guilford supports the peace testimony of Friends and does not offer or support courses in military science. Such courses are available on an audit basis at North Carolina Agricultural and Technical State University, also located in Greensboro, for Guilford students who want to enroll through the consortium cross-registration program.
IV. Academic Departments and Majors

The course is the basic unit of instruction and measurement of academic progress at Guilford. Almost all courses carry four credits (the equivalent of four semester hours). Exceptions include some sport studies courses, physical education courses, independent study projects, internships and seminars.

Normally, 100 level courses are introductory courses, 200 level courses are sophomore courses, and 300- and 400 level courses are junior and senior courses. First-year students may not enroll in 300- or 400 level courses unless they demonstrate exceptional maturity or background in the discipline.

Courses are generally offered by academic departments, which make available coherent patterns of courses for students to take to complete the requirement for a major. Interdisciplinary majors are also available.

ACCOUNTING (ACCT)
William A. Grubbs, Sulon Bibb Stedman Professor of Accounting, Chair
H. Garland Granger III, Associate Professor
Raymond E. Johnson, Associate Professor
Beth Parks, Visiting Assistant Professor

The increasing complexity of business, government and industry demands that able, well-educated persons be available to assume positions of responsibility. The preparation that accounting students receive at Guilford – the breadth of liberal arts – is designed to qualify them to cope successfully with today's ever-changing environment. Graduates of the program can seek the challenge of a career in public accounting or respond to the demand for persons in industrial and governmental accounting. Others choose to use their accounting background as a way of joining the ranks of management in various organizations.

Degrees Offered. The Bachelor of Science degree is offered in accounting and forensic accounting. Students who double-major in accounting and forensic accounting are required to have a minor outside the Department of Accounting.

CPA Examination. Guilford accounting graduates may sit for the CPA examination in North Carolina in the semester in which they graduate.

Approach to the 150-Hour Requirement. Most states now require 150 semester hours of coursework to complete the educational requirement for a CPA license. Since Guilford students normally graduate with 128 semester hours of credit, the Department of Accounting offers a series of five two-semester-hour credit modules so that our students may graduate with 138 semester hours of credit. This program permits a full-time traditional student to register for an extra two hours of college credit (for free) in each of the last five semesters at the College. These modules are taught on DVDs and on an independent study basis.

The major advantage of the 138-hour program is that it allows the student to attend summer school for one summer, complete the 150-hour requirement and save the cost of a fifth year of college. Using this program, a Guilford student may graduate with a degree in accounting, sit for the CPA exam and complete the 150-hour requirement within four years and a summer of study.
**Major Requirements for B.S. degree in accounting.** The accounting major provides a structure within which students gain exposure to the primary area of accounting and receive a basic grounding in statistics, economics, computers and finance. The entire major consists of 13 courses (52 credit hours): eight accounting courses and five Common Body of Knowledge courses.

The eight required accounting courses are:

1. ACCT 201 Introduction to Accounting 4 credits
2. ACCT 301 Intermediate Accounting I 4 credits
3. ACCT 302 Intermediate Accounting II 4 credits
4. ACCT 303 Intermediate Accounting III 4 credits
5. ACCT 311 Cost Accounting 4 credits
6. any three 300- or 400 level accounting courses except for the following Forensic Accounting courses: ACCT 300, ACCT 320, ACCT 330 and ACCT 412 12 credits

The five Common Body of Knowledge courses are:

7. BUS 241 Computers and Management with a grade of C- or better 4 credits
8. BUS 332 Financial Management with a grade of C- or better 4 credits
9. ECON 221 Macro: US in World Econ with a grade of C- or better 4 credits
10. One course from:
    - MATH 112 Elementary Statistics with a grade of C- or better 4 credits
    - MATH 121 Calculus I with a grade of C- or better
11. One course from:
    - IDS 402 Business Ethics with a grade of C- or better 4 credits
    - IDS 417 Ethics of Capitalism with a grade of C- or better

Total credits required for B.S. degree in accounting 52 credits

**Major Requirements for B.S. degree in forensic accounting.** The term “forensic” means “used in legal proceedings.” The two components of forensic accounting are litigation support and investigative accounting. The forensic accountant is the bloodhound of the accounting profession, sniffing out complex fraud shenanigans that other types of accountants often fail to detect. The preparation of students at Guilford is designed to broaden one’s critical thinking skills through exposure to a solid liberal arts education as well as technical training. Graduates of this program can seek a career in public accounting, internal auditing, corporate accounting, the FBI, the IRS or many other types of businesses that have established forensic accounting departments.

A forensic accounting major will provide students with the skills necessary to determine techniques to prevent and detect fraud, apply analytical techniques and computer digital techniques to detect fraud, provide expert interviewing skills of possible fraud perpetrators, and know the legal environment so one will be able to gather evidence legally and be capable of testifying as an expert witness in the prosecution of a fraud case.

A forensic accountant must develop a wide array of skills. One must be capable of analyzing potential fraud indicators, sniffing out evidence to support a fraud hypothesis, understanding human behavior that might lead to fraud, and displaying excellent oral and written communication skills. Guilford provides a liberal arts education that will develop all of these skills for a forensic accounting graduate.

The degree program consists of eight major courses and four Common Body of Knowledge courses. These courses will not only prepare a graduate for entry into the marketplace but will also prepare the graduate to take the Certified Fraud Examiners (CFE)
ACCT

exam as a recognized certification for this field of study.
The eight required accounting courses are:
1. **ACCT 200 Introduction to Fraud Examinations** 4 credits
2. **ACCT 201 Introduction to Accounting** 4 credits
3. **ACCT 300 Advanced Fraud Examinations** 4 credits
4. **ACCT 301 Intermediate Accounting I** 4 credits
5. **ACCT 302 Intermediate Accounting II** 4 credits
6. **ACCT 320 Criminology and Legal Issues for Forensic Accountants** 4 credits
7. **ACCT 330 Computer Forensics** 4 credits
8. **ACCT 412 Advanced Fraud Investigations** 4 credits

The four Common Body of Knowledge courses are:
9. **BUS 215 Business Law and Environment** 4 credits
10. **BUS 241 Computers and Management** 4 credits
11. **JPS/PSY 270 Interpersonal Communications** 4 credits
12. One course from:
   - JPS 200 Criminal Procedure
   - PSY 232 Introduction to Personality
   - SOAN 100 Introduction to Sociology
   - SOAN 103 Cultural Anthropology

Total credits required for B.S. degree in forensic accounting 48 credits

**ACCT 150. Special Topics. 1-4.** May also be offered at 250, 350 and 450 levels.

**ACCT 200. Introduction to Fraud Examinations. 4.** This course will introduce students to financial statement fraud, asset theft and corruption. The course discusses the opportunity for individuals to commit fraud, their motivation or pressure, and their rationalizations. Students will learn simple techniques for fraud prevention and detection as well as the profile of individuals who commit fraud. This course does not require any accounting background.

**ACCT 201. Introduction to Accounting. 4.** Fundamental accounting concepts as applied to business enterprises. Emphasis on analysis and recording of transactions, and the use of financial statements for decision-making. Fulfills business and policy studies requirement.

**ACCT 260. Independent Study. 1-4.** May also be offered at 360 and 460 levels.

**ACCT 290. Internship. 1-4.** May also be offered at the 390 level.

**ACCT 300. Advanced Fraud Examinations. 4.** The advanced class builds upon the foundation from the introductory class. Students will learn more advanced techniques for fraud as well as examining fraud methodology in 12 major industries. This course will cover advanced fraud prevention and detection techniques. The course involves more detailed techniques for financial reporting fraud detection as well as corruption. The course applies real world fraud cases to the material to provide students with the ability to solve more complex fraud cases. Prerequisites: ACCT 200 and ACCT 201.

**ACCT 301. Intermediate Accounting I. 4.** Theory and application of financial accounting, with an emphasis on the accounting cycle, financial statement presentations—the statement of financial position and the income statement. Present value concepts and current assets are also discussed. Prerequisite: ACCT 201.

**ACCT 302. Intermediate Accounting II. 4.** Theory and application of financial accounting,
with an emphasis on liabilities, intangible assets, operational assets and corporate equity accounts. Other topics include earnings per share, dilutive securities and long-term investments. Prerequisite: ACCT 301.

ACCT 311. Cost Accounting. 4. Development and use of production costs in planning, controlling and decision-making. Prerequisite: ACCT 201.

ACCT 320. Criminology and Legal Issues for Forensic Accountants. 4. This course will help students understand human behavior related to fraud. Students will examine theories of why individuals commit fraud, legal issues related to fraud, evidence-gathering, and the code of ethics for forensic accountants. Prerequisite: ACCT 201.

ACCT 321. Taxation of Individuals. 4. Principles of federal income tax laws relating to individuals. Prerequisite: ACCT 201. Fulfills business and policy studies requirement.

ACCT 330. Computer Forensics. 4. This course teaches students how individuals use the computer to perpetrate fraud as well as how to utilize the computer to detect it in financial statements and control systems. Students will also learn evidence-gathering and the legal elements of computer evidence.

ACCT 401. Advanced Accounting. 4. Accounting and reporting for consolidated corporations, partnerships, multinational enterprises and nonprofit organizations. Prerequisite: ACCT 303.

ACCT 411. Auditing. 4. The independent auditor's examination of the accounting control system and other evidence as a basis for expressing an opinion on a client's financial statements. Basic audit objectives, standards, ethics, terminology, procedures and reports. Prerequisite: ACCT 303 (waived for forensic accounting majors).

ACCT 412. Advanced Forensic Investigation. 4. This course examines the techniques for properly executing a forensic investigation for the purpose of prosecution. Students will learn interviewing theories and skills as well as data analysis, the proper tracing of illicit transactions and report writing. Prerequisites: ACCT 310 and ACCT 320.

ACCT 470. Senior Thesis. 4.

ACCT 490. Departmental Honors. 4.

AFRICAN AMERICAN STUDIES (AFAS)
Edwins Gwako, Associate Professor, Chair

The African American studies major is interdisciplinary and it celebrates the achievements of people of African descent in Africa and the Diaspora while addressing their pursuit of justice, equality and self-determination. The major focuses on cultures,
AFAS

societies, histories and concerns of people of African descent in Africa and the Diaspora including North America, the Caribbean and other parts of the world. It seeks to develop greater respect for scholarship as a tool for problem-solving and to prepare students to become agents of change who will pursue social justice and promote an appreciation of racial and cultural differences in the United States and the wider world.

Courses are taught from different disciplinary and philosophical perspectives, and students are encouraged to examine their own values and develop their own perspectives. Students are also encouraged to participate in the study abroad semester in Ghana and to get involved in the local Greensboro community through internships and service projects. It provides a basis for better understanding among people in multicultural societies and multiracial nations, and prepares students for a wide range of careers in such fields as criminal justice, education, law, health care, human relations, management, marketing, sports management and social work. It also lays a foundation for graduate studies in the field.

**Degree Offered.** The Bachelor of Arts degree is offered in African American studies.

**Major Requirements.** African American studies is an interdisciplinary major that requires a second disciplinary major and an advisor in each. The major requires a minimum of 32 credit hours (eight courses) with no more than five from a single department, no more than two of these courses may be at the 100 level, and at least two courses must be taken at the 300 level. Other requirements are as follows:

1. **Historical Dimensions:** one course 4 credits
   - HIST 225 African American History
   - SOAN 106 Introduction to African Heritage

2. **Creative Voices:** one course from: 4 credits
   - ENGL 230 African American Literature
   - ENGL 331 Black Women Writers
   - ENGL 332 Black Men Writers
   - MUS 110 Jazz Appreciation

3. **Theoretical Frameworks:** one course from: 4 credits
   - PHIL 261 Philosophy and Race
   - PSY 242 Psychology of African Americans
   - PSY 349 Multiculturalism and Psychology
   - SOAN 265 Racial and Ethnic Relations

4. **African Connections:** one course from: 4 credits
   - ENGL 334 African Women Writers
   - FREN 311 The Francophone World
   - HIST 241 Africa before 1800
   - HIST 242 Africa since 1800
   - HIST 343 Women in Modern Africa
   - PSCI 222 African Government and Politics
   - SOAN 215 Anthropology of Slavery
   - SOAN 234 Culture and Sexuality in Africa
   - SOAN 235 African Families in Transition
   - SOAN 358 African Cultures in Film

5. **The Americas:** one course from: 4 credits
   - ENGL 151 HP: Black Women’s History and Literature
   - ENGL 378 Caribbean Literature
HIST 308 The Underground Railroad
HIST 315 The Civil Rights Movement
JPS 365 Race in Criminal Justice
JPS 439 Understanding Oppressive Systems
PHIL 333 Individual Philosopher: W.E.B. Du Bois
PSY 213 Class, Race and Gender
REL 234 African American Religion and Theology
SOAN 267 Race and Gender in Media Focus

6. IDS one course from: 4 credits
   IDS 411 Gender and Development in Africa
   IDS 412 Race, Ethnicity, Psychology and Law
   IDS 422 Harlem Renaissance
   IDS 435 Understanding Poverty

7-8. Independent study* or internship* and/or elective course(s) 8 credits
   AFAS 260, 360, 460; AFAS 290, 390 plus one course at the 100 level or
   Any two additional courses above the 100 level or
   An eight-credit, two-semester AFAS Thesis

Total credit hours required for A.B. degree in African American studies 32 credits
*Supervised by a faculty member teaching regularly in the African American Studies Program.

AFAS 150. Special Topics. 1-4. May also be offered at 250, 350 and 450 levels.

AFAS 260. Independent Study. 1-4. May also be offered at 360 and 460 levels.

AFAS 290. Internship. 1-4. May also be offered at the 390 level.

AFAS 470. Senior Thesis. 4.

AFAS 490. Departmental Honors. 4.

ART (ART)
Adele Wayman, H. Curt & Patricia S. Hege Professor of Art, Chair
Roy H. Nydorfer, Professor
Kathryn Shields, Assistant Professor
Maia Dery, Instructor in Art and Experiential Learning
Charles Tefft, Half-time Instructor
Mark Dixon, Visiting Instructor

The Department of Art seeks to develop a studio program of high quality for its majors as well as to develop an awareness and appreciation of art in all students. The art major involves students in the visual arts, both as creative artists and as learners of multiple philosophical and art historical perspectives. It provides for an in-depth experience in making images and formulating and crafting ideas through a variety of means. Emphasis is on training in observation, technical application of skills demanded of each medium and the resolution of imagery for presentation to an audience. Focus areas for the art major include painting, drawing, sculpture, printmaking, ceramics and photography. Minors are available in art history as well as in all the studio areas (see Visual Arts).

Note: A major in art history can be achieved through the integrative studies major.
ART

Degrees Offered. Two degrees in studio art are offered. The Bachelor of Arts is for students who prefer a major in art in addition to a broad liberal arts background. The Bachelor of Fine Arts is designed for students primarily interested in becoming professional artists or in entering graduate school in studio art.

Major Requirements for the A.B. degree in art. The major requires a minimum of 44 credit hours (11 courses) without senior thesis and 46 credit hours (12 courses) with senior thesis.

The following courses are required for the Bachelor of Arts both without and with senior thesis:

1. ART 102 Two-dimensional Design 4 credits
2. ART 104 Drawing 1 4 credits
3. ART 106 Three-dimensional Design 4 credits
4. ART 140 204 211 130 221 251
5. ART 240 205 212 231 322 or 323 353
6. ART 306 221 or 323 311 308 422 453

Four approved art history courses from:
ART 100 Introduction to Visual Arts
ART 172 Arts of Africa, Asia, and the Americas
ART 235 Renaissance in Florence
ART 250 Special Topics in Art History
ART 271 Art History Survey
ART 275 Modern Art
ART 276 Contemporary Art
ART 278 History of Photography

For the major without senior thesis, additional required courses are:
9-11. Three art electives different from focus 12 credits

Total credit hours for A.B. degree in art without senior thesis 44 credits

For the major with senior thesis, additional required courses are:
9. ART 479 Professional Practices for Art 2 credits
10. ART 480 Senior Thesis I 4 credits
11-12. Two art elective courses different from focus 8 credits

Total credit hours for A.B. degree in art with senior thesis 46 credits

Major Requirements for the B.F.A. degree in art. This major, which emphasizes a more intensive study of studio art, requires a minimum of 82 credit hours (21 courses). A 3.25 average in art is required to continue to pursue the B.F.A. beyond the second semester of the junior year. The B.F.A. degree does not require a minor.

1. ART 102 Two-dimensional Design 4 credits
2. ART 104 Drawing I 4 credits
3. ART 106 Three-dimensional Design 4 credits
4. ART 205 Drawing II 4 credits
5. Seven studio in focus area courses 28 credits

12. ART 479 Professional Practices for Art  2 credits

13-15. Three approved art history courses from:  12 credits
ART 100 Introduction Visual Arts
ART 172 Arts of Africa, Asia, and the Americas
ART 235 Renaissance in Florence
ART 250 Special Topics in Art History
ART 271 Art History Survey
ART 275 Modern Art
ART 276 Contemporary Art
ART 278 History of Photography

16-21. Six art elective courses different from focus  24 credits

Total credit hours for the B.F.A. degree in art  82 credits

ART 100. Introduction to Visual Arts. 4. Overview of the principal visual arts, including their aesthetic qualities, structural forms and historical roles. Fulfills arts requirement.

ART 102. Two-dimensional Design. 4. Fundamentals of design in two-dimensional media in black and white and color. Fulfills arts requirement.

ART 104. Drawing I. 4. Basic principles of drawing in various media stressing the relationship of observation, materials and methods to form. Fulfills arts requirement.

ART 106. Three-dimensional Design. 4. Materials, techniques and concepts of three-dimensional design with a color consideration. Fulfills arts requirement.

ART 120. Introduction to Color Photography. 4. Comprehensive introduction to the theory, history, materials and practice of color photography. All student work is done on color slide film although the course includes brief introductions to color negative film and digital capture as well as new and traditional choices for producing finished color prints. Not a darkroom course. Fulfills arts requirement.

ART 130. Photography I. 4. Materials, equipment and techniques in black and white photography. Image content and composition is stressed as well as mastering the craft of creating photographic images and their presentation. Introduction to digital imaging. Fulfills arts requirement.

ART 150. Special Topics. 4. May also be offered at 250, 350 and 450 levels.

ART 172. Arts of Africa, Asia and the Americas. 4. This course introduces the artistic traditions of Africa, the Pacific Islands, India, China, Japan, and the ancient Americas. The
readings, lectures, and class discussions focus on art as a reflection and extension of values as seen in the philosophy, religion, and social customs of the cultures considered. Fulfills arts requirement.

**ART 204. Life Drawing I. 4.** Figure drawing: stress on integration of formal, expressive and structural aspects of anatomy. Prerequisite: ART 104.

**ART 205. Drawing II. 4.** Continuation of Drawing I. Exploration of creative concepts of expression. Prerequisite: ART 104. Fulfills diversity in the U.S. requirement.

**ART 211. Painting I. 4.** Fundamentals of painting: color theory, relationship of materials, techniques and ideas to visual expression. Oil and/or water-based media explored. Prerequisite: ART 102 or ART 104.

**ART 212. Painting II. 4.** Continuation of Painting I, emphasizing integration of basic pictorial concepts and including still life, landscape and the figure. Prerequisite: ART 211.

**ART 220. The American Landscape (ENVS 220). 6.** A two-part exploration. First, students undertake traditional academic inquiry, reading and discussion. The second, experiential component consists of an extended field trip and a direct photographic exploration of some of the landscapes and environments that have shaped American culture. Fulfills arts and social justice/environmental responsibility requirements.

**ART 221. Woodcut. 4.** Printmaking processes of relief printing, including linoleum, wood block, monotype. Prerequisite: ART 104 or instructor permission.

**ART 231. Photography II. 4.** Advanced photography. Developing a cohesive body of work in the fine arts or documentary tradition. Presentation and exhibition skills along with non-silver processes: toning, hand coloring and digital imaging. Prerequisite: ART 130. Fulfills social justice/environmental responsibility requirement.

**ART 235. Renaissance in Florence (HIST 235). 4.** The course discusses the history of Renaissance Florence, its economy, society, politics and culture, in relation to the other major Italian city-states. A main theme of the course is how politics and religion combine during this time and find their expression in art and culture. Fulfills arts requirement.

**ART 240. Ceramics II. 4.** Advanced ceramic techniques: throwing on the wheel, glaze preparation and formulation, kiln operation. Prerequisite: ART 140 or instructor permission.

**ART 245. Digital Darkroom. 4.** Introductory class working with Adobe Photoshop to manipulate and create images. Design principles emphasized. Fulfills arts requirement.

**ART 251. Sculpture I. 4.** Introduction of tools and techniques of subtractive sculpture in plaster, wood, mixed media and welding. Prerequisite: ART 106 or instructor permission.

**ART 254. Sculpture and the Environment. 4.** Sculpture with an emphasis on ecology. Construction processes include wood, metal and natural materials in outdoor and indoor projects. Readings on Eco Art. Prerequisite: ART 106 or instructor permission. Fulfills arts and social justice/environmental responsibility requirements.

**ART 260. Independent Study. 1-4.** May also be offered at 360 and 460 levels.

**ART 271. Art History Survey. 4.** The history of art from the Renaissance in Europe to global art of the present day.

ART 276. Contemporary Art. 4. Major artists and art movements from 1945 to the present. Fulfills arts requirement.

ART 278. History of Photography. 4. This course emphasizes familiarity with photographic technology, recognition of major photographic works, attribution to the photographer who made them, and comprehending relationships with the relevant social and historical context. These elements will be considered individually and together as appropriate in order to better understand the developments in the history of photography from 1839 to the present.

ART 290. Internship. 1-4. Majors with advanced standing may petition the department to receive academic credit for internship experiences. Advisor conferences, mid-semester progress reviews and final art staff conferences are required. May also be offered at the 390 level.

ART 305. Life Drawing II. 4. Continuation of Life Drawing I, emphasizing composition and expression. Prerequisite: ART 204.

ART 308. Advanced Photography I. 4. Self-determined study of at least two contemporary or historical photographic processes. Students will produce one or two cohesive sets of images and locate their work in the current cultural context.

ART 311. Painting III. 4. Exploration of media in relation to form and personal expression. Content issues in contemporary art will be explored. Prerequisite: ART 212.

ART 322. Color Printmaking. 4. Color monotype, collagroph, embossing. Prerequisite: ART 221.

ART 323. Etching. 4. Intaglio printmaking processes, including etching on hard and soft ground techniques, aquatint and drypoint. Prerequisite: ART 221.

ART 345. Approaches to Firing. 4. This class will explore the rich color and range of textures created by altering kiln atmospheres, firing schedules and clay bodies. There will be freedom to explore individual clay forms, construction methods and recipes. Students will actively participate in firing the two wood kilns, gaining a working knowledge of the firing process of pottery.

ART 353. Sculpture II. 4. Continuation of Sculpture I, with emphasis on developing a more personal sculptural voice, refining fabrication skills and learning about recent sculptural practices and concepts. Includes advanced metal and wood techniques, casting and mixed media installation. Prerequisite: ART 251 or instructor permission.

ART 403. Advanced Sculpture I. 4. A continuation of Sculpture II, with an increased emphasis on the development of a more personal sculptural voice and a continued engagement in new sculptural materials and processes.

ART 405. Advanced Printmaking I. 4. Exploration of techniques in selected printmaking media with emphasis on personal expression. Prerequisites: ART 221, ART 323, ART 422.

ART 408. Advanced Photography II. 4. Students develop technical expertise in either digital or traditional photographic printmaking. Builds directly on skills developed in Art 308.

ART 409. Advanced Photography III. 4. Students will complete an interdisciplinary, camera-based project exploring an issue of personal and cultural relevance. Exhibition, presentation and/or effective visual communication are emphasized.

ART 411. Painting IV. 4. Formal, philosophical and content issues of painting; emphasis on individual direction. Prerequisite: ART 311.

ART 422. Advanced Printmaking. 4. Advanced color intaglio printmaking with emphasis on the creation of a complex color image. Multi-plate printing, relief stencil, viscosity color techniques introduced and explored. Prerequisite: ART 323.

ART 477. New York Art Seminar. 1. Four- to five-day seminar on the visual arts, stressing dialogue with artists in New York City studios, museums and galleries. Course planned to acquaint students with the making and promotion of the visual arts. CR/NC.

ART 479. Professional Practices for Art. 2. Introduction to the practical skills needed for managing a career as an artist with primary focus on preparing for thesis exhibition.

ART 480. Senior Thesis I. 4. Each student must apply with a portfolio during spring semester of junior year and a first draft of a senior thesis proposal to the art faculty in the semester before their final semester at Guilford. Students who are selected are expected to work independently and complete projects that demonstrate technical proficiency and originality of concept. Prerequisites: advanced standing, a 3.25 average in art courses and permission of department chairperson.

ART 481. Senior Thesis II. 4. Each student must apply with a portfolio during spring semester of junior year and a first draft of a senior thesis proposal to the art faculty in the semester before their final semester at Guilford. Students who are selected are expected to work independently and complete projects that demonstrate technical proficiency and originality of concept. Prerequisites: advanced standing, a 3.25 average in art courses and permission of department chairperson, BFA candidate.

ART 490. Departmental Honors. 4. Specific requirements may be obtained from department chair.
The Department of Biology provides students with a strong foundation in the biological or forensic sciences. Using inquiry-based learning and scholastic rigor, our curriculum stimulates academic excellence through independent thinking, interdisciplinary applications and critical analysis to develop tomorrow's leaders in the natural sciences.

**Degrees Offered.** The Bachelor of Arts and Bachelor of Science degrees are offered in biology and in forensic biology. Through an arrangement with Duke University's Nicholas School of the Environment, a degree completion program and a master's degree program in forestry or environmental management are also available.

**Major Requirements for A.B. degree in biology.** The A.B. degree in biology is recommended for those students interested in the biological sciences whose career goals do not require courses in physics or calculus, e.g., scientific illustration, science writing or environmental law. The major requires a minimum of 40 credit hours (10 courses).

1. BIOL 111 Integrative Biology: Molecules and Cells  
2. BIOL 112 Integrative Biology: Organisms, Ecology & Evolution  
3. BIOL 291 Introduction to Scientific Inquiry  
   (Will not be accepted as transfer credit and may not be taken at a consortium school. BIOL 291 should be taken no later than the fourth biology course. As a part of the writing sequence at Guilford, it should be taken after completion of Historical Perspectives and before enrolling in IDS.)  
4. One BIOL elective course at any level  
5-6. Two BIOL elective courses at the 200 level or above  
7-8. Two BIOL elective courses at the 300 or 400 level  
9. CHEM 111 Chemical Principles I  
10. CHEM 112 Chemical Principles II  

Total credit hours required for A.B. degree in biology  
40 credits

**Major Requirements for A.B. degree in forensic biology.** This major will be valuable preparation for those interested in pursuing careers in the criminal justice system, the FBI or the SBI, as well as for work with humanitarian agencies investigating human rights abuses. In addition, students interested in law, journalism and creative writing will be able to double-major and thus acquire the knowledge needed to complement their other field of specialization.

The major requires a minimum of 32 credit hours (eight courses).

1. BIOL 111 Integrative Biology: Molecules and Cells  
2. BIOL 115 General Botany  
3. BIOL 245 Introduction to Forensic Science

www.guilford.edu
### Major Requirements for B.S. degree in Biology

The biology B.S. major is recommended for students planning to pursue graduate study in any area of biology, or in the medical, dental, veterinary or allied health professions. The major requires a minimum of 56 credit hours (14 courses).

1. **BIOL 111 Integrative Biology: Molecules and Cells**  
   4 credits
2. **BIOL 112 Integrative Biology: Organisms, Ecology and Evolution**  
   4 credits
3. **BIOL 291 Introduction to Scientific Inquiry Introduction to Scientific Inquiry**  
   4 credits  
   *(Will not be accepted as transfer credit and may not be taken at a consortium school. BIOL 291 should be taken no later than the fourth biology course. As a part of the writing sequence at Guilford, it should be taken after completion of Historical Perspectives and before enrolling in IDS.)*
4. **One BIOL elective course at any level**  
   4 credits
5-6. **Two BIOL elective courses at the 200 level or above**  
   8 credits
7-8. **Two BIOL elective courses at the 300 or 400 level**  
   8 credits
9. **CHEM 111 Chemical Principles I**  
   4 credits
10. **CHEM 112 Chemical Principles II**  
    4 credits
11. **PHYS 121 Classical and Modern Physics I or**  
    **PHYS 211 College Physics I**  
    4 credits
12. **PHYS 122 Classical and Modern Physics II or**  
    **PHYS 212 College Physics II**  
    4 credits
13-14. **Two courses from:**  
   8 credits  
   - **MATH 112 Elementary Statistics**  
   - **MATH 115 Elementary Functions**  
   - **MATH 121 Calculus I**  
   - **MATH 122 Calculus II**
   or one **MATH course**  
   4 credits  
   - **MATH 123 Accelerated Calculus**

**Total credit hours required for B.S. degree in biology**  
52-56 credits

---

All biology courses involve fieldwork and off-campus field trips. Expanded study and research opportunities are available on the Guilford campus, at the North Carolina coast, in the mountains, and at regional universities and organizations. Several biology courses are included as options for the environmental studies major. Summer field courses offer students the opportunity to study in various places around the world.

Biology (B.S.) majors are encouraged to pursue independent research projects under the supervision of a biology faculty member through collaborations with other universities, summer REUs or with Guilford faculty. This research can lead to the generation of a senior thesis (BIOL 470) or departmental honors (BIOL 490). In addition, there are numerous opportunities for student participation in independent studies (BIOL 260 or 460) and internships (BIOL 290).
Major Requirements for B.S. degree in forensic biology. The forensic biology B.S. degree is recommended for students planning to work in a public or private forensics laboratory. The major also prepares students intending to seek certification as forensic DNA analysts, forensic drug analysts, or to pursue graduate study in the forensic sciences.

The major requires a minimum of 56 credit hours (14 courses).

1. BIOL 111 Integrative Biology: Molecules and Cells 4 credits
2. BIOL 245 Introduction to Forensic Science 4 credits
3. BIOL 246/CHEM 246 Forensic Chemistry 4 credits
4. BIOL 313 Molecular Cell Biology 4 credits
5. BIOL 341 Human Anatomy and Physiology I 4 credits
6-7. Two courses chosen from: 8 credits
   BIOL 115 General Botany
   BIOL 342 Human Anatomy and Physiology II
   BIOL/CHEM 434 Biochemistry
   BIOL 443 Genetics
8. BIOL 349 Forensic Anthropology 4 credits
9. CHEM 111 Chemical Principles I 4 credits
10. CHEM 112 Chemical Principles II 4 credits
11. PHYS 211 College Physics I 4 credits
12. PHYS 212 College Physics II 4 credits
13. MATH 112 Elementary Statistics 4 credits
14. One course chosen from: 4 credits
   MATH 115 Elementary Functions
   MATH 121 Calculus I
   MATH 122 Calculus II
   MATH 123 Accelerated Calculus

Total credit hours required for B.S. degree in forensic biology 56 credits

It is recommended that students pursuing the B.S. degree in Forensic Biology take CHEM 231 and CHEM 232 and/or CHEM 341. Your academic advisor will assist you in your course planning. Forensic Biology B.S. majors are encouraged to pursue independent research projects that can lead to the preparation of a senior thesis (BIOL 470) or departmental honors (BIOL 490). Students should explore the practical aspects of a career in forensics by arranging for an internship with a local law enforcement agency or laboratory during their junior or senior year (BIOL 470).

BIOL 111. Integrative Biology: Molecules and Cells. 4. Focuses on biology's molecular and cellular aspects, including the molecular building blocks of life, genetics, and DNA, cellular structure/function, reproduction, and the energy pathways of photosynthesis and respiration. Laboratory study applies the scientific method and classroom concepts through inquiry-based exercises. Fulfills natural science and mathematics requirement.

BIOL 112. Integrative Biology: Organisms, Ecology, and Evolution. 4. Introduces the principles and concepts of the animal and plant kingdoms, including protists and fungi. Emphases include evolution, taxonomy, ecosystems, communities, population and population changes, development, anatomy, physiology, genetics, organs, and organ systems. Fulfills natural science and mathematics requirement.
BIOL 115. General Botany. 4. Introductory study of the plant kingdom including morphology, anatomy, physiology, ecology and evolution. Laboratory study includes observation of the morphology and anatomy of typical plant species and a variety of plant physiology experiments. Fulfills natural science and mathematics requirement.

BIOL 150. Special Topics. 1-4. Possible courses include: Dendrology, Vertebrate Social Behavior, Genetic Engineering and Human Disease. May also be offered at the 250, 350 and 450 levels.

BIOL 151. HP: Evolution: An Historical Perspective. 4. An examination of the views of species origins prior to Darwin, Darwin’s theories and those of his contemporaries and the history of evolutionary theory in modern times. One of the weekly class periods will be used to give students practical experience in the methods of evolutionary study, such as techniques for determining protein all types, and examining species relationships through DNA analysis. Prerequisite: ENGL 102. Fulfills Historical Perspectives requirement.

BIOL 209. Human Biology. 4. An introductory study of the human body, including the basic structure and function of the major organ systems (nervous, endocrine, circulatory, reproductive, etc.) and the effects of diet, exercise, stress and environmental change on human health. Does not count toward the major. Fulfills natural science and mathematics requirement.

BIOL 212. Environmental Science. 4. Study of the structure and function of ecosystems with reference to energy flow, nutrient cycling, population growth and regulation and community organization and dynamics. Particular emphasis on the relationship between humans and the environment. Fulfills natural science and mathematics and social justice/environmental responsibility requirements.

BIOL 224. Field Botany. 4. Taxonomic study of vascular plants involving classification, collection and identification in the field and laboratory. Prerequisite: BIOL 112 or instructor permission. Alternate years. Spring.

BIOL 233. North Carolina Freshwater Fishes. 4. A field course for those students desiring an outdoor lab science. Field studies introduce students to the diversity, distribution and ecology of North Carolina freshwater fishes. Fulfills natural science and mathematics and social justice/environmental responsibility requirements.

BIOL 235. Vertebrate Field Zoology. 4. Advanced study of vertebrates, emphasizing morphology, taxonomy, ecology and behavior of representative tetrapod species. Laboratory work includes field studies of the major groups of North Carolina tetrapod vertebrates. Prerequisite: BIOL 112. Alternate years. Fall.

BIOL 242. Natural Science Seminars (GEOL 242). 4. Studies of the biology, geology, ecology and natural history of different field areas, including East Africa, Puerto Rico or the North Carolina Outer Banks. Includes a one-to-three week trip to the area being studied, depending on when the course is offered. Students conduct research projects during the field trip portion of the course. Offered when demand and scheduling permits. Fulfills natural science and mathematics and social justice/environmental responsibility requirements.

BIOL 245. Introduction to Forensic Science. 4. Introduction to in-depth study of the application of the biological, chemical, and physical sciences to the examination of forensic evidence. Explores the underlying physiological and biochemical basis for forensic methods;
laboratory analysis includes microscopy, chromatography, hair, fingerprints, serology and introduction to DNA profiling. Fulfills natural science and mathematics requirement.

BIOL 246. Forensic Chemistry (CHEM 246). 4. Explores methods used to examine and identify evidence of criminal activity, including chemical techniques for developing fingerprints, the chemistry of explosives, drug identification, PCR for DNA profiling and STR analysis. Prerequisite: BIOL 245 or instructor permission. Alternate years. Spring.

BIOL 260. Independent Study. 1-4. May also be offered at 360 and 460 levels.

BIOL 290. Internship. 1-4. May also be offered at the 390 level.

BIOL 291. Introduction to Scientific Inquiry. 4. This course is designed to 1) build students' understanding and ability to judge scientific information from sources including, first, the media and common lay outlets, then secondary popular sources and finally peer-reviewed primary journals and research papers; and 2) help students use this knowledge to develop and refine their own writing. Prerequisites: BIOL 111, BIOL 112 and Historical Perspectives.

BIOL 313. Molecular Cell Biology. 4. A study of the structure and function of eukaryotic cells including: microscopic structure, biochemical components, the organization of macromolecules into organelles, and coordinated function of organelles in the living cell. Includes a detailed study of chromosome structure and function; DNA, RNA and protein synthesis. Prerequisites: BIOL 111, CHEM 112 or BIOL 246.

BIOL 315. Microbiology. 4. A study of microbial classification, structure, metabolism and genetics with primary foci on bacterial cells and viruses. This course includes a survey of microbial importance in human disease, immunology, environmental studies and industrial applications. The laboratory experience includes methods of aseptic technique, bacterial isolation, metabolic characterization and microbial identification with an introduction to molecular techniques. Prerequisites: CHEM 112, BIOL 111 and BIOL 291. Fall.

BIOL 332. Invertebrate Zoology. 4. Advanced study of invertebrate phyla with emphasis on taxonomy, physiology and ecology of the several groups. Prerequisite: BIOL 114. Offered when demand and scheduling permit.

BIOL 333. Ichthyology. 4. Study of the diversity, distribution and ecology of the world fish fauna with emphasis on field studies of North Carolina populations. Basic anatomy and physiology will also be covered. Prerequisite: BIOL 112. Offered when demand and scheduling permit.

BIOL 334. Animal Behavior. 4. The zoological approach to the study of animal behavior (ethology), behavioral ecology, types of social organization and communication in animals, and the evolution of behavior in selected species. The laboratory section of the course will provide opportunities for students to observe and record the behavior of a variety of animals. Students will conduct individual research projects at the North Carolina Zoo. Prerequisites: BIOL 112 and 291 or instructor permission. Alternate years. Fall.

BIOL 336. Ornithology. 4. In-depth study of evolution, anatomy, physiology, ecology and behavior of birds as unique vertebrates adapted for flight. Laboratory involves extensive field work in identification of birds in various habitats. Prerequisite: BIOL 112. Spring.

Focus on the structure and function of the nervous system and on the relationships between behavior and the nervous system. Corequisite: laboratory work. Prerequisites: Either two courses in biology or one course in biology and one course in psychology. Alternate years. Fall.

**BIOL 341. Human Anatomy and Physiology I.** 4. Detailed study of the structure and function of human nervous, sensory, endocrine, integumentary, skeletal, muscular and respiratory systems. Prerequisite: BIOL 111. Fall.

**BIOL 342. Human Anatomy and Physiology II**

**BIOL 343. Sensory Systems (PSY 343).** 4. Detailed study of each of the major sensory systems, including the anatomy and physiology of each system, an analysis of the stimulus and measurements of sensory abilities. Laboratory work. Prerequisites: either two courses in biology or one course in biology and one course in psychology. Alternate years. Fall.

**BIOL 349. Forensic Anthropology.** 4. The study of human osteology and skeletal anatomy. Students learn how to collect and process skeletal remains, use tables and to use talers and apply formulae to identify bones and bone fragments. Skeletal remains are used to illustrate the range of normal variation, for the determination of sex, race and age and to determine the cause and manner of death. Additional topics include forensic odontology, forensic entomology and fiber analysis. Prerequisites: BIOL 245 and BIOL 341 or instructor permission.

**BIOL 351. Comparative Vertebrate Anatomy.** 4. Brief survey of the main classes of vertebrates; detailed comparative study of the major vertebrate organ systems. Prerequisite: BIOL 112. Offered when demand and scheduling permit.

**BIOL 352. Animal Physiology.** 4. The various physiological processes characteristic of living organisms; functioning of the individual organ systems with emphasis on interrelationships between organ systems and functioning of organ systems in the maintenance of homeostasis; and selected topics in comparative vertebrate physiology. Prerequisite: BIOL 111. Offered when demand and scheduling permit.

**BIOL 443. Genetics.** 4. A study of structural and functional prokaryotic and eukaryotic molecular genetics including: replication, mitosis, meiosis, chromosome mapping, gene structure, expression and mutation. Mendelian inheritance and population genetics are also explored. Prerequisites: CHEM 231 and either BIOL 313 or BIOL 315. Spring.

**BIOL 470. Senior Thesis.** 1-4. Individual experience in biological research and writing of a professional paper.
BIOL 475. Research Seminar (CHEM 475). 2. This course introduces the principles and concepts of presenting scientific research. Emphasis is placed on the preparation of oral and poster presentations and the implementation of proper etiquette for undergraduate symposia. This course also covers the preparation of funding proposals, curriculum vitae, Statements of Intent and the interview process for post-undergraduate programs. Students are required to present their research at two undergraduate meetings including the Guilford Undergraduate Symposium.

BIOL 490. Departmental Honors. 4-8.

BUSINESS (BUS)
Betty T. Kane, Associate Professor, Chair
Peter B. Bobko, Associate Professor
Deena Burris, Assistant Professor
Darryl Samsell, Assistant Professor
Wenling Wang, Visiting Assistant Professor
Richard Schilhavy, Visiting Instructor
Vicki Foust, Visiting Instructor
Mini Ranganathan, Visiting Instructor

The mission of the Business program is to equip future business leaders with both professional skills and a sense of integrity. The curriculum seeks to provide students with the knowledge, skills, and competencies they need to be successful in today's global business environment. In keeping with Guilford College's Quaker tradition of shaping education to address "all things civil and useful," this course of study represents a strong professional program integrated with the traditional liberal arts.

The Department of Business offers a major in business administration. To provide support for students in other majors, the department also offers a business minor that provides students with an introduction to business concepts and tools and offers additional course work in a variety of interesting areas. This minor is not available to business administration majors.

Degree Offered. The Bachelor of Science degree is offered in business administration.

Bachelor of Science Degree in business administration:

The business administration major provides students with basic concepts and tools to participate in public or private, for-profit or not-for-profit organizations. The program prepares students to enter an increasingly global environment. The major is both conceptually based and career oriented. As such, the curriculum is designed to include content and address student learning outcomes recommended by the Accreditation Council for Colleges and Schools of Business for success in careers and graduate schools. The major is particularly distinctive because it represents a strong professional program, effectively integrated with the more traditional liberal arts.

In conjunction with an advisor, a student may choose to emphasize a particular area of study within the department by choosing a business-related minor, including business law, human resource management, international business, money & finance, or non-profit management. Students interested in international business are encouraged to pursue a double major in business administration and international studies.
**BUS**

**Major Requirements for B.S. degree in business administration.** The major requires a minimum of 56 credit hours; fourteen courses are required.

1. **MATH 112** Elementary Statistics  
2. **ACCT 201** Introduction to Accounting  
3. **ACCT 311** Cost Accounting  
4. **ECON 221** Macro: U.S. in World Econ  
5. **ECON 222** Micro: Public Policy  
6. **BUS 215** Business Law and Environment  
7. **BUS 241** Computers and Business  
8. **BUS 246** International Business Management  
9. **BUS 249** Principles of Management  
10. **BUS 324** Marketing Management  
11. **BUS 332** Financial Management  
12. **BUS 341** Management Information Systems  
13. **BUS 347** Production and Decision Sciences  
14. **BUS 449** Business Policy and Strategy  

Total credit hours required for the B.S. degree in Business Administration 56 credits

Students in the program are expected to enter with basic quantitative literacy and computer literacy skills. They may demonstrate basic quantitative literacy in one of the following ways: Math SAT score of 650 or higher, Calculus AP Exam score of 3 or higher, completion of BUS 110 with a grade of C- or higher or passing an exam that assesses equivalent knowledge. They may demonstrate basic computer literacy skills by completion of BUS 141 with a grade of C- or higher or passing an exam that assesses equivalent knowledge. Students must demonstrate basic quantitative literacy and computer literacy skills as prerequisites for BUS 241.

A business internship is strongly recommended.

Many aspects of the business administration major must be completed sequentially.

- MATH 112 must be completed prior to BUS 241; Students must have demonstrated basic quantitative literacy and computer literacy, as described above, prior to BUS 241.
- ACCT 201 must be completed prior to ACCT 311
- ACCT 311, ECON 221, ECON 222, MATH 112, and BUS 241, must be completed prior to BUS 324, BUS 332, BUS 341 and BUS 347
- Students must complete all required business administration core courses (BUS 215, BUS 241, BUS 246, BUS 249, BUS 324, BUS 332, BUS 341 and BUS 347) before taking the capstone BUS 449 course.

**NOTE:** Business Administration majors may not count courses taken at other institutions to satisfy their 300 or 400 level requirements.

**BUS 110. Math and Algebra for Business. 4.** Topics in the areas of Arithmetic, Algebra, Geometry and Word problems which are generally deemed to be essential in an undergraduate business administration program. While the course is primarily designed for a business administration program, it likely is useful for other programs as well. Does not count toward the major.

**BUS 120. Introduction to Business. 4.** Survey course covering all major functions of business. Provides students with tools that can be used to predict and respond to future
changes in the business environment. Demonstrates how the free enterprise system and individual entrepreneurs can respond to social needs. Does not count toward the major. Fulfills business and policy studies requirement. This course is not open to business administration majors.

BUS 141. Introduction to Computers. 4. Assumes no prior knowledge of or experience with computers. Word processing, databases, spreadsheets and online services are reviewed. Does not count toward the major.

BUS 150. Special Topics. 4. Recent topics include environmental management, entrepreneurship, real estate and international topics. May also be offered at 250, 350 and 450 levels.

BUS 215. Business Law and Environment. 4. Survey of the U.S. legal environment and legal concepts relevant to the operations of the business system including topics of court systems and procedures, ethics, torts, intellectual property, contracts, agency, sales, products liability, environmental, international, employment, business organizations, and criminal law. Fulfills business and policy studies and social justice/environmental responsibility requirements.

BUS 241. Computers and Management. 4. Applications of computers in management. Use of spreadsheets, databases and on-line services; introduction to programming in spreadsheets with other programming as time allows. Prerequisites: BUS 110 or equivalent, BUS 141 or equivalent, and MATH 112. Fulfills business and policy studies requirement.

BUS 249. Principles of Management. 4. Theory, practices and principles involved in the organization and management of organizations. Problem-solving through situation case analysis; global management issues, activities and experiences are integrated into the course. Fulfills business and policy studies requirement.

BUS 260. Independent Study. 1-4. Individual student projects approved and supervised by a business department faculty member. May also be offered at 360 and 460 levels.

BUS 272. Financial Planning. 4. Introduction to financial planning and the principles of retirement and estate planning. Emphasis on constructing and analyzing personal financial statements, investments, risk management and the economic environment. Fulfills business and policy studies requirement.

BUS 281. Personal Finance. 4. Introduction to the basic principles of personal financial planning; provides an opportunity to learn things, such as the financial opportunities available through investing, that will be useful in day-to-day life. Fulfills business and policy studies requirement.

BUS 282. Fundamentals of Investing. 4. Introduction to securities and securities markets. Exposure to financial literature and techniques of analysis, with application in a stock market simulation. Fulfills business and policy studies requirement.

BUS 290. Internship. 1-4. A combined on-the-job and academic experience arranged with a business, supervised by a business department faculty member and coordinated through the Career Development Center. Consists of experiential learning, managerial analysis and written and oral reports. Recommended for juniors and seniors. May also be offered at the 390 level.
BUS 310. Professional Communications. 4. Introduction to key elements of verbal, nonverbal and written communication with potential employers, clients, regulators, supervisors, subordinates and co-workers. Development of active listening, presentation, group process and business writing skills. Prerequisite: ENGL 102 or equivalent. Fulfills business and policy studies requirement.

BUS 321. Human Resource Law and Management. 4. Techniques, issues and problems in recruitment, selection, development, utilization and accommodation of human resources in organizations. Issues related to increasingly diverse work force and international management included. Prerequisite: junior or senior status or instructor permission. Fulfills business and policy studies requirement.

BUS 324. Marketing Management. 4. An extensive course in marketing, focusing on product definition, branding, distribution channels, advertising and promotion. Strategic decision-making analysis, global marketing overviews and social responsibility issues are emphasized throughout the course. Prerequisites: ACCT 201, ACCT 311, ECON 221, ECON 222, MATH 112 and BUS 241 (all with grades C- or better).

BUS 332. Financial Management. 4. Introduction to the field of finance and the principles and practices of financial decision-making in an increasingly international business environment. Emphasis on valuation, risk and return, capital budgeting, financial planning and financial analysis. Prerequisites: ACCT 201, ACCT 311, ECON 221, ECON 222, MATH 112, and BUS 241 (all with grades C- or better).

BUS 333. Money and Capital Markets (ECON 333). 4. Introduction to the financial system in an increasingly global economy. Emphasis on financial instruments, markets and institutions; the role of the banking system; overview of monetary theory and policy; current and future trends reshaping the global financial system. Prerequisite: ECON 221.

BUS 341. Management Information Systems (CTIS 243). 4. Introduction to management and optimization of information resources. Course topics include computer hardware and software, telecommunications, and database concepts and emphasize the e-business and Internet-based business models. Students explore and solve real Information Technology and business problems and cases using systematic and organized problem-solving methodologies. Prerequisites: ACCT 201, ACCT 311, ECON 221, ECON 222, MATH 112 and BUS 241.

BUS 342. Database Systems (CTIS 342). 4. Introduction to theory and practice of enterprise-level relational database systems. Using Oracle, the student will learn the principles of entity relationship modeling and normalization. By modifying a database in a project, the student will learn how to create queries using SQL, triggers, stored procedures, cursors, forms and reports. Prerequisites: CTIS 210 and CTIS 243.

BUS 344. e-Business (CTIS 334). 4. Explores electronic commerce and business applications of Internet technology. Special emphasis is placed on planning, design and development, implementation, security, privacy, ethics and management issues that apply to building a Web site in a business. Students will use Web development technology such as HTML, VBScript, JavaScript and Active Server Pages in exercises and projects. Required prerequisite: BUS 241 or CTIS 210.

BUS 346. International Business. 4. Introduction to international business and the global market. Topics will include international organizations, global trade and investment, the
global monetary system, the strategy and structure of international business, the impact of political issues, international labor and human resources, and social and cultural aspects. Case studies and experiential exercises included. Fulfills business and policy studies requirement.

BUS 347. Production and Operations Management. 4. Survey of operations management concepts and techniques associated with producing goods or providing services. A selection of decision-making tools will be reviewed and discussed in cases and, when possible, implemented in computer programs. Prerequisites: ACCT 201, ACCT 311, ECON 221, ECON 222, MATH 112 and BUS 241.

BUS 371. Nonprofit Management. 4. Examines the role of the nonprofit sector in the United States economy. Students learn about specific business applications in the context of nonprofit organizations, with specific emphasis on management, accounting, marketing, law and planning. Students also examine the function of the mission within these organizations, as well as fund-raising options and practices.

BUS 449. Policy Formulation and Strategy. 4. Integrative capstone course based on case studies and analyzing the total organization and its operational functions. Analysis and development of policies to support total organization goals within varying constraints, with an emphasis on globalization issues, social responsibility and ethics, and effective written and oral communication. Prerequisites: BUS 215, BUS 241, BUS 246, BUS 249, BUS 324, BUS 332, BUS 341 and BUS 347 (all with grades C- or better).

BUS 470. Senior Thesis. 1-4. Independent research and writing of a professional paper on a topic in management under the supervision of a full-time business department faculty member.

BUS 490. Departmental Honors. 4-8. Independent research, writing and presentation of a professional paper on a topic in management under the supervision of a committee of Department of Business and other appropriate faculty.

CHEMISTRY (CHEM)
Robert M. Whitnell, Professor, Chair
Anne G. Glenn, Professor
Gail Webster, Associate Professor
Michael Bruno, Assistant Professor
David Millican, Visiting Assistant Professor

As the science of matter and change, chemistry is rapidly emerging as the discipline at the base of many interdisciplinary subjects such as biotechnology, materials science, molecular biology and environmental science. The Guilford chemistry major explores the fundamental principles of chemistry and examines how those principles are applied to the observable world. Chemistry majors will develop chemical reasoning and experimental skills, as well as an understanding of the science’s interdisciplinary nature.

Students with a major in chemistry will be prepared to work in the chemical industry; pursue graduate research in chemistry (or a related field); or attend medical, dental or pharmacy school. A chemistry major can lead to many different careers outside chemical or biochemical research. These include teaching, medicine, patent law, business or interdisciplinary areas such as environmental science, molecular biology, pharmacology, toxicology, materials science, geochemistry and chemical physics.
Key features of the Guilford chemistry program are the emphasis on research and direct student access to computers and instrumentation. Students in chemistry at all levels are encouraged to participate in research, whether integrated into courses, through collaboration with faculty during the semester, or through summer research experiences at Guilford or other institutions. In addition, students are encouraged to pursue the practical applications of chemistry through internships. State-of-the-art facilities are available in the Frank Family Science Center for student/faculty research.

**Degrees Offered.** The Bachelor of Arts and Bachelor of Science degrees are offered in chemistry.

**Major Requirements.** Requirements for the major include the completion of a sequence of introductory and advanced courses in chemistry that introduce students to the main areas of study in chemistry. Course work in the related fields of mathematics and physics is also required to prepare students for upper-level courses in chemistry. For the Bachelor of Arts in chemistry, students must complete at least 36 credit hours in chemistry, among which must be included the courses listed below. For the Bachelor of Science in chemistry, students must complete 45 credit hours in chemistry, among which must be included the courses listed below.

The following courses are required for both the Bachelor of Arts and Bachelor of Science in chemistry:

1. CHEM 111 Chemical Principles I 4 credits
2. CHEM 112 Chemical Principles II 4 credits
3. CHEM 231 Organic Chemistry I 4 credits
4. CHEM 232 Organic Chemistry II 4 credits
5. CHEM 235 Integrated Laboratory for Organic Chemistry 1 credit
6. CHEM 331 Physical Chemistry I 4 credits
7. CHEM 341 Instrumental Analysis 4 credits
8. CHEM 342 Inorganic and Materials Chemistry 4 credits
9. CHEM 345 Integrated Laboratory for Inorganic Chemistry 1 credit
10. CHEM 400 Chemistry Seminar 2 credits
11. One course from: 4 credits
   - CHEM/GEOL 412 Geochemistry
   - CHEM 420 Polymer Chemistry
   - CHEM 430 Medicinal Chemistry
   - CHEM/BIOL 434 Biochemistry

**NOTE:** An internship (at the 390 level) or independent study approved by the department can substitute for an upper-level chemistry course. With the approval of the department, students can also take 400 level (and above) courses at consortium colleges to fulfill this requirement.

Total credits required for A.B. degree in chemistry 36 credits

For the Bachelor of Science major in chemistry, additional required chemistry and physics or math courses are:

12. CHEM 332 Physical Chemistry II 4 credits
13. CHEM 336 Integrated Laboratory for Physical Chemistry 1 credit
14. One course from: 4 credits
   - MATH/PHYS 320 Mathematical Physics

Guilford College
For both the Bachelor of Arts and Bachelor of Science majors in chemistry, the prerequisite courses for required courses for the major are:

MATH 121 and MATH 122 or MATH 123. Must be completed with a grade of C- or better before taking CHEM 331 or CHEM 332.

PHYS 121 and PHYS 122 or PHYS 211 and PHYS 212. Must be completed with a grade of C- or better before taking CHEM 331 or CHEM 332.

Majors who intend to pursue graduate study are strongly encouraged to obtain experience in computer programming at the level of Introduction to Computer Programming (CTIS 140).

Majors are strongly encouraged to participate in an industrial or governmental internship, pursue undergraduate research during the semester or summer, and/or study abroad as part of their experience at Guilford.

**Scholarships.** To recognize superior work in chemistry, the department annually offers a prize for outstanding achievement to a first-year student in Chemical Principles and the Harvey Ljung Scholarship to a rising senior chemistry major. In addition, the department selects a senior for the Outstanding Student Award. Chemistry majors are also eligible for the Glaxo-Wellcome Women in Science Scholarship, awarded annually to an outstanding rising junior woman science major.

**CHEM 105. Chemistry of Recycling.** 4. This course uses basic chemistry to explore the science behind recycling, as well as the context for recycling and the political and economic realities of treating and using recycled materials. Three hours lecture and three hours lab per week. Does not count towards the chemistry major or minor. Prerequisite: satisfaction of quantitative literacy requirement. Fulfills natural science and mathematics and social justice/environmental responsibility requirements.

**CHEM 110. Real World Chemistry.** 4. Chemistry is connected to everything in our lives: from food to fuel, natural to artificial, medicine to the environment, consumer products to toxic waste. This course is designed to educate students about chemistry and its effects on our world using illustrations from our common experience. Three hours lecture and three hours lab per week. Does not count towards the chemistry major or minor. Prerequisite: satisfaction of quantitative literacy requirement. Fulfills natural science and mathematics and social justice/environmental responsibility requirements.

**CHEM 111. Chemical Principles I.** 4. Basic principles of chemistry, periodicity, bonding and energy relations. Three hours lecture and three hours lab per week. Prerequisite: satisfaction of quantitative literacy requirement. Fulfills natural science and mathematics requirement.

**CHEM 112. Chemical Principles II.** 4. Molecular and ionic equilibria, chemical kinetics and reaction mechanisms, intermolecular interactions, electrochemistry and introduction to organic and biochemical systems. Three hours lecture, one-hour problem-solving session and three hours lab per week. Prerequisite: CHEM 111. Fulfills natural science and mathematics requirement.
CHEM 115. Chemistry of Food and Cooking. 4. This course surveys food's chemical constituents in proteins, carbohydrates, vitamins, minerals, preservatives and flavorings, as well as cooking processes with respect to chemistry. Students will gain a better understanding of the food we eat and how to prepare it safely, nutritionally and tastefully. Prerequisite: satisfaction of quantitative literacy requirement. Fulfills natural science and mathematics requirement.

CHEM 231. Organic Chemistry I. 4. An introduction to the structure and reactivity of organic molecules; topics covered include chemical nomenclature, bonding and structure of carbon compounds, acid-base relationships, mechanisms of reactions and structure determination. Laboratory component includes techniques for the synthesis and characterization of organic compounds and determination of reaction mechanisms including experimental, chromatographic and spectroscopic methods commonly employed in modern organic chemistry. Three hours lecture and three hours lab per week. Prerequisite: CHEM 112 with grade of C- or better.

CHEM 232. Organic Chemistry II. 4. A continuation of Organic Chemistry I. Topics covered include mechanisms of more complex reactions, multi-step organic synthesis, applications of molecular orbital theory to reactions and the chemistry of biologically important molecules such as sugars and peptides. Laboratory component focuses on multi-step synthesis of organic compounds using a variety of reactions, employing chromatographic and spectroscopic techniques in the purification and analysis of reaction products. Three hours lecture and, for the first half of the semester, three hours lab and one hour lab lecture per week. Prerequisite: CHEM 231.

CHEM 235. Integrated Laboratory for Organic Chemistry. 1. Laboratory course integrating organic chemistry with other fields of chemistry. Students from several chemistry classes conduct original research on multidisciplinary projects. Independent study, lab management skills and teamwork are emphasized. Three hours lab and one hour lecture per week for the second half of the semester. Corequisite: CHEM 232.

CHEM 246. Forensic Chemistry (BIOL 246). 4. Explores methods used to examine and identify evidence of criminal activity, including chemical techniques for developing fingerprints, blood isozymes, PCR for DNA profiling, drug identification and ELISA. Prerequisite: BIOL 245 or instructor permission.

CHEM 250. Special Topics. 1-4. May also be offered at 350 and 450 levels.

CHEM 260. Independent Study. 1-4. Recent topics include photoredox chemistry, organometallic synthesis, experimental design, conducting polymers and advanced organic synthesis. May also be offered at 360 and 460 levels.

CHEM 290. Internship. 1-4. May also be offered at the 390 level.

CHEM 331. Physical Chemistry: Thermodynamics and Kinetics. 4. Physical chemistry of macroscopic systems, including classical and statistical thermodynamics, ideal and real gases, liquids and solutions, phases, chemical equilibrium, electrochemistry and kinetics. Laboratory includes computational chemistry and experiments in physical chemistry of gases, thermochemistry, phases, kinetics and electrochemistry. Three hours lecture and three hours lab per week. Prerequisites: CHEM 232, MATH 121 and MATH 122 or MATH 123 with a grade of C- or better, PHYS 121 and 122 or PHYS 211 and 212 with grade of C- or better; or instructor permission.
CHEM 332. Physical Chemistry: Quantum Mechanics and Spectroscopy. 4. Physical chemistry of microscopic systems including quantum mechanics, electronic structure of atoms and molecules, molecular structure and dynamics and spectroscopy. Laboratory includes computational chemistry and experiments in spectroscopy and structure analysis. Three hours lecture and, for the first half of the semester, three hours lab and one hour lab lecture per week. Prerequisites: CHEM 232, MATH 121 and MATH 122 or MATH 123 with grade of C- or better, PHYS 121 and PHYS 122 or PHYS 211 and PHYS 212 with grade of C- or better; or instructor permission. Corequisite: CHEM 336.

CHEM 336. Integrated Laboratory for Physical Chemistry. 1. Laboratory course involving original research projects integrating physical chemistry with other fields of chemistry. Independent study, lab management skills, teamwork and leadership skills are emphasized. Three hours lab and one hour lecture per week for the second half of the semester. Prerequisite: CHEM 235. Corequisite: CHEM 332.

CHEM 341. Instrumental Analysis. 4. A systematic study of the modern instrumental methods of chemical analysis with emphasis on the theory behind the use of instruments, principles of operation of analytical instruments and their use for the analysis of real samples. Three hours lecture and three hours lab per week. Prerequisites: CHEM 112 and MATH 121.

CHEM 342. Inorganic and Materials Chemistry. 4. The interaction between structure and electronic properties, the metallic state, solid state chemistry, metal complexes, stereochemistry, elementary crystallography and spectroscopy. The laboratory centers on unusual materials, their synthesis, structure, properties and analysis. Three hours lecture and, for the first half of the semester, three hours lab and one hour lab lecture per week. Prerequisites: CHEM 232 and PHYS 121 or PHYS 211.

CHEM 345. Integrated Laboratory for Inorganic Chemistry. 1. Laboratory course involving original research projects integrating inorganic chemistry with other fields of chemistry. Independent study, lab management skills, teamwork and leadership skills are emphasized. Three hours lab and one hour lecture per week for the second half of the semester. Prerequisite: CHEM 235. Corequisite: CHEM 342.

CHEM 400. Chemistry Seminar. 2. Focuses on the transition from college to graduate school, careers in the chemical industry or careers in other fields. The development of presentation skills and critical analysis of the chemical literature is stressed. Required of all chemistry majors and minors. Prerequisite: any three chemistry courses that count for the chemistry major or minor. One and a half hours lecture per week.

CHEM 412. Geochemistry (GEOL 412). 4. Distribution, movement and processes affecting chemical elements within the earth. Nuclear chemistry, formation of earth and planets; crystal chemistry and mineral structures; isotope geology, trace elements, thermodynamics in geology. No laboratory. Prerequisites: CHEM 111, three semesters of laboratory courses in geology or permission of the instructor.

CHEM 420. Polymer Chemistry. 4. Synthesis, characterization, properties and uses of modern synthetic polymers. Current topics in polymer research and development such as biomedical polymers, space-age polymers and the use of polymers in electronics will be examined. Three hours lecture per week. Prerequisite: CHEM 232 or instructor permission.

CHEM 430. Medicinal Chemistry. 4. The organic chemistry of drug design and drug
action. This course covers the interaction of drugs at sites in the body such as neuroreceptors, enzymes and DNA which lead to therapeutic effects. Three hours lecture per week. Prerequisite: CHEM 232 or instructor permission.

CHEM 470. Senior Thesis. 4. Original research on a specific topic in chemistry or chemistry-related field. Students are expected to begin work on their topics before they register.

CHEM 475. Research Seminar (BIOL 475) . 2. This course introduces the principles and concepts of presenting scientific research. Emphasis is placed on the preparation of oral and poster presentations and the implementation of proper etiquette for undergraduate symposia. This course also covers the preparation of funding proposals, curriculum vitae, Statements of Intent, and the interview process for post-undergraduate programs. Students are required to present their research at two undergraduate meetings including the Guilford Undergraduate Symposium.

CHEM 490. Departmental Honors. 4-8.

COMPUTING TECHNOLOGY & INFORMATION SYSTEMS (CTIS)

Robert M. Whitnell, Professor of Chemistry, Chair
Chafic W. Bou-Saba, Visiting Assistant Professor

Degree Offered. The Bachelor of Science is offered in computing technology and information systems.

Major Requirements. Students pursing the CTIS major will take four core courses, one elective, two required courses in the chosen track – information technology or information systems – and one capstone course. The major requires 32 credits (eight courses).

Common Core Requirements
1. CTIS 210 Introduction to Programming 4 credits
2. CTIS 243/BUS 341 Management Information Systems 4 credits
3. CTIS 321 Operating Systems 4 credits
4. CTIS/BUS 342 Database Systems 4 credits

Information Systems Track
5. CTIS 334 E-Business 4 credits
6. CTIS 345 Systems Analysis and Design 4 credits

Information Technology Track
5. CTIS 322 Networking Computers 4 credits
6. CTIS 310 Advanced Programming 4 credits

Capstone
7. CTIS 440 CTIS Capstone 4 credits
8. One elective course from: 4 credits
   ART 245 Digital Darkroom
CTIS 131. HTML. 2. Introduction to HTML and Web page construction. Students will receive hands on training in the development of Web pages using markup languages. The course will also survey Web site design topics and introduce students to the use of mainstream Web-development tools.

CTIS 210. Introduction to Computer Programming. 4. Exploration of computer programming with emphasis on scientific, educational and entertainment applications. Topics include programming fundamentals, user interaction, graphics display, data processing, problem solving and artificial intelligence. Prior programming experience not required. Prerequisite: computer experience at the level of BUS 141 Introduction to Computers and satisfaction of quantitative literacy requirement.

CTIS 214. VBNet. 2. Programming with VB.NET is an introduction to Windows-based programming for business applications. Topics include VB.NET syntax, development of Windows GUIs, event-driven and object-oriented programming and incorporating the use of external data storage (files and databases) to support real-world business applications. Prerequisite: CTIS 210.

CTIS 223. Computer Hardware Construction. 4. This course provides an introduction to and exploration of the current state of the art as evidenced by the actual component parts used in assembling a high performance desktop computer. Turns occasionally vague wishes about how a computer should perform into a clear set of instructions that make it happen. Examination of the basic building blocks used in the construction of these amazing machines.

CTIS 243. Management Information Systems (BUS 341). 4. This course prepares a potential IT professional, manager and/or CEO to manage and optimize information resources. Students will examine Information Systems solutions in a case study approach by emphasizing the management, organizational and technological aspects of Information Systems. The course provides an in-depth exploration of information systems elements such as software, hardware and telecommunications, networks, data and people. Problem solving using systematized analysis approach coupled with software applications such as spreadsheets, databases and Internet technologies are examined. Prerequisite: BUS 241 or instructor permission.

CTIS 274. Digital Graphic Design (THEA 274). 4. Introduction to basic principles
and elements of graphic design, form/symbol development, color theory and typography. Provides practical experience in essential software processes and procedures including Adobe Illustrator, Photoshop and InDesign. Creating digital designs while engaging in critiques and group discussions. Fulfills arts requirement.

CTIS 310. Advanced Computer Programming. 4. A continuation of the study of program development begun in CTIS 210. The main areas of study: advanced programming features such as recursion and dynamic memory; a further investigation into object-oriented principles such as object-oriented design, inheritance and polymorphism; an introduction to simple data structures – lists, queues, stacks and binary trees; an introduction to algorithm analysis using searching and sorting algorithms. Prerequisite: CTIS 210.

CTIS 321. Operating Systems. 4. Evaluation of computer operating systems and their basic organization. Includes concurrent programming and synchronization techniques such as locks, barriers, semaphores and monitors. Addresses message passing, memory management, interrupts and file systems. Students will examine the coding used to implement the algorithms and learn to modify these structures to satisfy the specific requirements of a project. Prerequisites: CTIS 210 and CTIS 243.

CTIS 322. Networking Computers. 4. In-depth exposure to the terms, concepts and configurations that have historically been, are currently being, and may in the future be used to accomplish inter-computer communication. Lab exercises focus on the installation of operating systems and configuration of their networking components, design and construction of examples of computer networks, and experimentation with performance and configuration of those networks. Prerequisite: CTIS 321.

CTIS 331. Information Design. 4. Theory and application of human-computer interaction, information architecture, usability, and markup languages. Examination of communication and information transfer from the perspectives of both the provider and the consumer. Role of test, video, interactivity and other methods of providing information in computer and network-based settings. Prerequisite: CTIS 131 or equivalent knowledge.

CTIS 334. e-Business (BUS 344). 4. Explores electronic business applications of Internet technology. Special emphasis is placed on planning, design and development, implementation, security, privacy, ethics and management issues that apply to building a Web site in a business. Students will use Web development technology such as HTML, CSS, VBScript, JavaScript and server side scripting in exercises and projects. This course provides a complete overview of the Web site development process. Students will create complex interactive Web sites. Additionally, electronic business models, information security, business value of social media, management of intellectual property and internet governance will be examined. Prerequisite: BUS 241 and CTIS 131, or equivalent knowledge.

CTIS 342. Database Systems (BUS 342). 4. Introduction to theory and practice of enterprise-level relational database systems. Using a database engine, the student will learn the principles of entity relationship modeling and normalization. By modifying a database in a project, the student will learn how to create queries using SQL, triggers, stored procedures, cursors, forms and reports. Prerequisites: CTIS 210 and CTIS 243.

CTIS 345. Systems Analysis and Design. 4. This course will provide a prospective systems analyst or system architect the techniques used in the analysis, design, and implementation of computer-based information systems. The course will enable the student to study user
requirements, create requests for proposals, prepare project plans, address systems project scope, conduct feasibility studies by providing an understanding of the systems study, project evaluation, planning, and systems design phases of the system life cycle. Prerequisites: CTIS 210 and CTIS 243.

CTIS 421. Computer Security and Information Assurance. 4. Exploration of the techniques and methods used in the securing of computers and computer networks. Prerequisite: CTIS 322.

CTIS 440. CTIS Capstone. 4. Project management in the context of the skills and knowledge developed in CTIS courses. The Project Management Institute's PMBOK Guide recommendations will be followed. Team approach and solution-oriented. Prerequisites: CTIS 210, CTIS 243, CTIS 321, CTIS 342, and one of the following: CTIS 310, CTIS 322, CTIS 345, or CTIS 334.

ECONOMICS (ECON)

Robert B. (Bob) Williams, Professor, Chair
Robert G. Williams, John K. Voehringer Jr. Professor
Natalya Shelkova, Assistant Professor

Every individual must make economic decisions, and economic forces and government economic policies have a continuous impact on our lives. The Guilford economics program is designed to contribute to a liberal arts education in three ways. First, it combines scientific analysis with a historical and global perspective, providing a deeper understanding of the complex forces at work in the world. Second, it provides rigorous training in analytical thinking, problem-solving, designing and carrying out fruitful research projects, and effectively communicating results both orally and in writing. All of these skills prepare students to perform well in a wide variety of careers. Third, it clarifies issues of human values and perspectives, addressing concerns that lie at the heart of every issue of public policy, thereby preparing students to become more effective and well-rounded citizens.

Degree Offered. The Bachelor of Arts degree is offered in economics.

Major Requirements. The major requires a minimum of 32 credit hours (eight courses).

1. ECON 221 Macro: US in World Econ 4 credits
2. ECON 222 Micro: Public Policy 4 credits
3. ECON 301 Research Methods 4 credits
4-8. Five 300 or 400 level ECON courses 20 credits

Total credit hours required for A.B. degree in economics 32 credits

Mission Statement: When most people think of economics two things usually come to mind: horrific images of mathematical equations and anxious thoughts of our tax system. For those who believe they have nothing to do with economics, this area of study conjures up nightmares of graphs, federal fiscal policy (including that monstrous deficit), and seemingly impossible problems such as welfare and Social Security. Little do they know that everyone interacts with our economy on a daily basis. Economic policies and conditions subtly (and sometimes not so subtly) impact our lives.

The economics department at Guilford strives to educate students about their economy
and about the economies of other countries. In studying economics, one can gain an understanding of how the government implements fiscal policy to ameliorate threatening conditions, such as rising unemployment or inflation, and of how our tax money is used. Economics is not an elusive study of far-away theories and equations. In fact, economics helps many industries decide how to use scarce resources, how to finance programs, and what salaries or wages to pay their employees. Economics is also intertwined with political and social issues throughout society.

The economics program at Guilford offers numerous exciting and interesting classes to enhance a student’s understanding of their surrounding economy and its impact on our lives. The economics major equips students with the ability to analyze complex forces at work in society. The major also provides rigorous training in analytical thinking, creative problem solving, designing and undertaking research projects, and effectively communicating results both orally and in written form. Studies in economics enable a student to clarify issues of human values and perspectives that lie at the heart of public policy. Economics provides students with many valuable skills to be taken into a wide variety of careers.

ECON 150. Special Topics. 4. Recent offerings include both standard fields of economics, interdisciplinary fields (e.g., Methods of Social Research, offered jointly with the Department of Sociology and Anthropology; Economic History of the United States, offered jointly with the Department of History), and other topics of interest to the faculty (e.g., Democracy at Work; Women, Children and Economic Policy). Prerequisites: will vary depending on the design of the course. May also be offered at 250, 350 and 450 levels.

ECON 221. Macroeconomic Principles: “Global Vision: the U.S. in the World Economy.” 4. The study of aggregate supply and demand; national income and fiscal policy; the banking system and monetary policy; economic fluctuations and growth—all viewed from a global systems perspective. Applied topics include: unemployment, inflation, gross domestic product, interest rates, economic forecasting, the Federal Reserve system, technological change, productivity, business cycles, foreign exchange markets, the balance of international payments and others, depending on current developments in the economy. Fulfills social science requirement.

ECON 222. Microeconomic Principles: Public Policy. 4. The study of economics; supply and demand; consumer behavior; firms, production and cost; perfect competition, monopoly and other market types; income distribution; all explained with the goal of understanding economic problems and evaluating public policy to solve these problems. Applications to agriculture, energy, environment, poverty, economic development, discrimination, natural resources, taxes, regulation, sports and other special topics, depending on the semester. May be taken independently of ECON 221. Fulfills social science and social justice/environmental responsibility requirements.

ECON 260. Independent Study. 1-4. Independent research or directed study on a topic of interest to the student. Credit depends on the quality and quantity of work agreed upon in advance; generally, for example, one credit would be earned for an acceptable 20-page paper. Prerequisite: consent of the department. May also be offered at 360 and 460 levels.

ECON 290. Internship. 1-4. May also be offered at the 390 level.

ECON 301. Research Methods. 4. The course focuses on the key areas of quantitative research methods including the scientific method, selection of research design, data collection and sampling, questionnaire design, data analysis and interpretation and ethical issues in
research design. Class assignments and projects enable students to develop their proficiency in using descriptive and inferential statistics to analyze and interpret data. Prerequisite: ECON 222 or instructor permission.

ECON 302. Economic History of the United States (HIST 302). 4. Examines key issues in economic history in the United States, including the emergence and spread of market institutions, the changing nature and conditions of work through different periods, the rise of big business and impact of industrial capitalism and the methods and outcomes of those who resisted these changes. Short research projects and a semester-long paper provide opportunities to engage in historical research. Prerequisite: ECON 222 or instructor permission. Alternate years.

ECON 333. Money and Capital Markets (BUS 333). 4. Explores how the financial and world money systems operate in a global economy, the evolution of financial markets and institutions, the role that theories of money play in current economic events and in the policy efforts of the Federal Reserve and other central banks with respect to the rate of inflation, real economic activity, unemployment rates, current prices and international flows of commodities and capital. Prerequisite: ECON 221.

ECON 335. Comparative Economic Systems: “The Rise and Fall of the Soviet Empire”. 4. Historical analysis of the rise and decline of socialist-type economies (especially the former USSR, but cases for student research include Eastern Europe, China, Cuba, etc.) and the challenges of transition and integration into the world capitalist system. In this seminar-style course, students select a particular country other than Russia for in-depth semester-long research. Prerequisite: ECON 221, ECON 222, or consent of the instructor. Alternate years.

ECON 336. Economic and Social Development: “Beneath the United States”. 4. U.S. policy-makers frequently view Latin America and the Caribbean as “beneath” the United States. This seminar-style course adopts a radically different perspective: from within Latin America looking outwards. Prerequisite: ECON 221, ECON 222, or consent of the instructor. Alternate years.

ECON 342. Poverty, Power and Policy. 4. Is government merely a necessary evil or can it be an effective force to improve the lives of its citizens? This course examines the role and performance of government programs in economy, raising significant social and economic issues such as wealth distribution, poverty, taxation and economic fairness. Prerequisite: ECON 222 or instructor permission. Fulfills social justice/environmental responsibility requirement. Alternate years.

ECON 344. Environmental and Resource Economics. 4. Is economic growth necessary to provide the prosperity needed to pay for environmental restoration or does such growth create environmental problems we can never undo? The course uses economic theory, ecological concepts and systems approaches to examine current management practices of our renewable and nonrenewable resources. Prerequisite: ECON 222 or consent of the instructor. Fulfills social justice/environmental responsibility requirement. Alternate years.

ECON 432. International Economics: ‘Beside the United States’. 4. Systematic approach to international economic relations; theories of international trade and finance; impact of national governments and multinational institutions on movements of commodities, people, direct investment, portfolio flows and foreign exchange markets; and application of
international economic theory to current problems of the world economic order. Prerequisite: ECON 221, ECON 222, or instructor permission. Alternate years.

**ECON 441. Labor Economics. 4.** Alternative approaches to labor-market theory and policy: perfect competition, segmentation and dual labor-market hypotheses. Income distribution; unions and collective bargaining; and discrimination and poverty macroeconomics of the labor market. Prerequisite: ECON 222 or instructor permission.

**ECON 470. Senior Thesis. 1-4.** Research and oral presentation of an in-depth study, usually building from research done in other upper-level economics courses. For students of exceptional motivation and ability. Prerequisite: consent of the department prior to the middle of the second semester of the student’s junior year.

**ECON 490. Departmental Honors. 4.**

**EDUCATION STUDIES (EDUC)**

David P. Hildreth, Associate Professor, Chair
Julie Burke, Assistant Professor
Anna Pennell, Assistant Professor
Caryl Schunk, Assistant Professor
David Temple, Visiting Assistant Professor

The Education Studies Department strives to help individuals become thoughtful, critical, and student-centered educators. We depend on the knowledge, experience, and scholarship of our program faculty, who are themselves teachers/learners, to help our students make connections between the Quaker and liberal arts traditions, the multicultural and global perspectives, and the worlds of elementary and secondary schools.

The primary goal of the Education Studies program is to develop educators who are grounded in the liberal arts and are self-confident, inquisitive and thoughtful in their practice. We seek to develop prospective teachers committed to and capable of constructive action in contemporary society. In preparing students to assume professional roles in schools, the program emphasizes understanding educational issues from a global perspective using observation, practice, experimentation and action research to discover how people learn and how schools and other educational settings are made effective.

Throughout the program, faculty and students work together in interactive learning experiences in the classroom and in the field, incorporating practical application with theoretical discussion and exploration. The tutorial sessions, a unique and integral part of the program, engage students and faculty members in one-on-one interchanges in the first- and second-year courses.

Other central components of the program include the cross-cultural internship and inquiry, usually in another country, and the capstone experience after student teaching in which students reflect on their student teaching experiences in relationship to their theoretical and philosophical grounding and explore leadership roles that they may take in the future. Close faculty and student relationships are developed through tutorial sessions, peer group learning, portfolio reviews, field supervision and the advising system.

The three major curricular components of the program are:
- a strong interdisciplinary liberal arts core required of all students;
- a double major (an education studies major and a major in another academic
There are five licensure tracks in the education studies major:
  • Elementary licensure, grades kindergarten through six
  • Secondary licensure, grades nine through 12, in English
  • Secondary licensure, grades nine through 12, in Social Studies
  • Comprehensive licensure, grades K-12, in Spanish
  • Comprehensive licensure, grades K-12, in French

Degree Offered. The Bachelor of Arts degree is offered in education studies.

Major Requirements. Education studies requires a second disciplinary major and a variety of intentionally focused field experiences. It is highly recommended that students engage in a teaching experience abroad (EDUC 302). Students are encouraged to begin the program by the time they have 16-20 credits, approximately the second semester of their first year. With careful planning and advising, students can complete the program with its two majors, cross-cultural field experience and requirements for State and reciprocal licensing in four years.

Students must apply to a licensure program (at a minimum of) the semester prior to enrollment in EDUC 312, 313 or 307, 308, 309.

In order to be accepted into a teacher licensure program, students must meet the following requirements:
  • have 3 recommendations mailed directly to the Education Studies Administrative Assistant; one from an education studies professor, one from a professor in your second major and an additional recommendation – not a friend or family member – who can, ideally, speak to your potential as an educator.
  • must pass PRAXIS I prior to being formally admitted to the education program, unless they meet one of the following exemptions: SAT scores above 1100 (old test) or ACT score above 24; licensure only candidates are exempt from PRAXIS I if their cumulative GPA from their first bachelor’s degree is 2.5 or above;
  • achieve a grade of C or above in each of at least six four-credit courses in their education major;
  • for secondary and K-12 licenses, earn a C or above in at least 24 hours in their second major (English, history, French or Spanish);
  • clear a criminal background check

Enrollment in the College does not guarantee acceptance into the program.

There are other licensure requirements specified by the North Carolina Department of Public Instruction (NCDPI) prior to the final granting of a highly effective North Carolina teaching license (which is reciprocal in most states). These requirements do change. The Department of Education Studies intentionally keeps students informed on state and national policies that affect their eligibility for licensure and makes the appropriate accommodations in the program.

All licensure candidates must take PRAXIS II in their content area (Elementary Education, Social Studies, English) or the equivalent test in Spanish or French in order to achieve licensure. Candidates in each of these programs who do not pass PRAXIS II will have to retake the test.

www.guilford.edu
EDUC

We must receive a candidate’s passing scores from PRAXIS II before licensure paperwork is submitted to the State. Students may graduate from Guilford with a major in Education Studies, but paperwork for licensure will not be sent until PRAXIS II is passed. All candidates in each licensure area will need to be proficient in every element of each standard on the 21st Century Professional Teaching Standards rubric before they will be recommended for licensure by Guilford College.

Required courses for all education studies majors, a minimum of 36 credit hours (seven courses):
1. PSY 224 Developmental Psychology  4 credits
2. EDUC 201 Philosophical & Ethical Reflection in Education  4 credits
3. EDUC 202 Education Psychology in Classrooms  4 credits
4. EDUC 203 Contemporary/Historical Issues in Education  4 credits
5. EDUC 302 Field Study in Cross-Cultural Education  4 credits
6. EDUC 440 Student Teaching  12 credits
7. EDUC 410 or 420 Student Teaching Seminar  4 credits

Note: For secondary majors, 420/440 is only offered in the fall; for elementary majors 410/440 is offered both semesters.

Additional required courses for elementary licensure:
(A double major in Education Studies and a second (any) disciplinary major is required)
8. MATH 103 Math for Elementary School Teachers  4 credits
9. An HP course with an HIST prefix  4 credits
10. EDUC 306 Processes in Teaching Elementary School Science  4 credits
11. EDUC 307 Literacies Across the Curriculum  4 credits
12. EDUC 308 Internship in Leadership, Collaboration and Community  4 credits
13. EDUC 309 Planning for Teaching and Learning  4 credits

Note: EDUC 307, 308 and 309 are co-requisites and must be taken together. EDUC 306, 307, 308 and 309 are offered in the evening during the fall semester and during the day in the spring semester.

Total credit hours required for A.B. degree in elementary licensure 60 credits

Additional requirements for Secondary Licensure in English
(A double major in education studies and English is required)
8. EDUC 312 Seminar in the Processes of Secondary and K-12 Teaching (offered in spring semester only)  4 credits
9. EDUC 313 Seminar in the Processes of Secondary and K-12 Teaching: Theory into Practice (offered in spring semester only)  4 credits
10. ENGL 380 Rhetoric and Composition  4 credits

(Offered every other spring. It is critical that you discuss this course requirement with both your English and education studies major advisor.

Total credit hours required for A.B. degree with secondary licensure in English 48 credits

Additional requirements for K-12 Licensure in French or Spanish
(A double major in Education Studies and French or Spanish is required)
8. EDUC 312 Seminar in the Processes of Secondary and K-12 Teaching (offered in spring semester only)  4 credits
9. EDUC 313 Seminar in the Processes of Secondary and K-12 Teaching: Theory into Practice (offered in spring semester only)  4 credits

Total credit hours required for A.B. degree with K-12 licensure in French or Spanish 44 credits
Additional requirements for Secondary Licensure in Social Studies
(A double major in Education Studies and history is required)

8. EDUC 312 Seminar in the Processes of Secondary and K-12 Teaching
   (offered in spring semester only) 4 credits
9. EDUC 313 Seminar in the Processes of Sec and K-12 Teaching: Theory into Practice
   (offered in spring semester only) 4 credits
10. PSCI 101 The American Political System 4 credits
11. PSCI 103 International Relations or PSCI 105 Comparative Politics 4 credits
12. ECON 221 Macro: US in World Econ 4 credits

Total credit hours required for A.B. degree with secondary licensure in social studies 56 credits

Licensure Only: Individuals who hold a bachelor's degree from a four-year, regionally accredited college or university may complete teaching licenses in each of the five licensure tracks. Licensure only students typically complete just the courses listed for an education student's major; however, additional coursework may be required. For licensure only in Secondary or K-12 licensure areas, if the first degree is not in English, history, Spanish or French, the additional coursework may be extensive.

Secondary Social Studies: Must complete one 200 level or above HIST course at Guilford. Students who completed an upper-division history research seminar at another accredited college or university may petition the Department of History to waive this requirement.

Secondary English: Must complete at least one 300 level or above ENGL course at Guilford. If the previous degree is more than five years old, the Department of English strongly recommends ENGL 200 Introduction to Literary Studies in addition to the ENGL 300 or above requirement.

Licensure only students are exempt from PRAXIS I if their cumulative grade-point average for their first bachelor's degree is 2.50 or greater. Guilford's cumulative grade-point average does not count towards exemption from PRAXIS.

Endorsements
Students who complete an approved teacher licensure program (with a highly effective status that includes methods courses and student teaching) in any area can then have their licenses endorsed to teach in additional areas. Requirements for endorsements are 1) having earned a highly effective teaching license, and 2) have a minimum of 24 hours in a content area which is taught in the schools with a grade in each course of a C (no C-s) or above. The endorsement can be added to the initial license at the time of application for the initial license. An endorsement makes the initially licensed candidate eligible to teach in the content area for which they earned 24 hours with a C or above. Endorsements are for teaching at all grade levels, K-12 in the specific endorsement area.

For instance, if an individual was obtaining an Elementary K-6 highly effective licensure and had completed 24 credit hours in history with the grade of C or above, they would qualify for a K-12 History endorsement. This type of endorsement would allow them to teach history content courses in middle and high school.

Highly effective licensure can be transferred to another state. However, the endorsement will not transfer out of North Carolina.
EDUC 150. Special Topics. 4. May also be offered at 250, 350 and 450 levels.

EDUC 201. Philosophical and Ethical Reflection in Education. 4. Discovery of questions and issues which concern educators, inquiry into how these questions and issues have been and are being approached by others and search for one’s own reflective understanding. Focuses on the self, the educational community and the library/educational research methodologies as spheres of inquiry.

EDUC 202. Educational Psychology in Classrooms. 4. An interdisciplinary introduction to learning and teaching. Theories of knowledge, development and learning provide a context for experiences with individual students in the schools, interviews with Guilford faculty and observation and analysis of learning processes. A minimum of 5 hours of fieldwork in the public schools is required. Prerequisite: PSY 224 or may be taken concurrently with PSY 224.

EDUC 203. Contemporary/Historical Issues in Education. 4. Analysis of contemporary social, cultural and political issues in education within an historical context. Action research based on 20 hours of fieldwork is required. Fulfills social science requirement.

EDUC 260. Independent Study. 1-4. May also be offered at 360 and 460 levels.

EDUC 290. Internship. 1-4. May also be offered at the 390 level.

EDUC 302. Field Study in Cross-Cultural Education. 4. Combines coursework with a 50-hour cross-cultural internship to deepen students’ understanding of both their own and others cultures. Students may choose to travel abroad or to work locally to complete the cross-cultural fieldwork requirement. Students who choose to travel abroad may complete the course work (e.g., readings, papers, etc.) for EDUC 302 either from their overseas location or upon their return to the United States the following semester. With prior approval from the department, students who do their field-work locally may also complete their field work prior to or simultaneously with enrollment in the course.

EDUC 306. Processes in Teaching Elementary School Science. 4. May be taken separately from or in combination with the EDUC 307, EDUC 308, and EDUC 309 block. Prerequisites: successful completion (a grade of C or better) in EDUC 201, EDUC 202, and EDUC 203; completion of natural science and math requirement or equivalent lab science.

NOTE: The following three courses, EDUC 307, EDUC 308, and EDUC 309, must be taken together and provide systematic study of integrating methods of teaching reading, language arts, science, social studies, mathematics and the arts. Lesson design and social curriculum are included in an interdisciplinary elementary classroom environment prepared for adult teacher preparation. Students are required to attend preparatory meetings the semester before they enroll in this sequence of courses.

EDUC 307. Literacies Across the Curriculum. 4. This course includes the study of how teachers facilitate the development of literacy skills in the language arts with elementary school-aged children. Corequisites: EDUC 308 and EDUC 309.

EDUC 308. Internship in Leadership, Collaboration and Community. 4. This course includes an internship that involves working two days a week in a public school classroom for 15 weeks. Unless the candidate is a full-time employee of the public school system, Guilford faculty will make placements for the internship in one of the College’s partner

NOTE: The following two courses, EDUC 312 and EDUC 313, must be taken together and are only offered in the spring semester.

EDUC 312. Seminar in the Processes of Secondary and K-12 Teaching. 4. Study of school structures and curricula; study and practice of methodologies appropriate to specialty areas and to integrated curricula. A focus on lesson planning, development and classroom presentation is emphasized. Corequisite: EDUC 313.

EDUC 313. Seminar in the Processes of Secondary and K-12 Teaching: Theory into Practice. 4. Students begin to combine their understanding of lesson planning on the secondary level with lesson planning and teaching while focusing on the integration of pedagogical content knowledge. Students also become immersed in the public schools during a 50-60-hour internship where they have opportunities to learn about the secondary school culture and begin to interact with and teach students in the secondary schools and re-examine themselves as educators. Corequisite: EDUC 312.

EDUC 410. Elementary Student Teaching Seminar. 4. Integrated with student teaching (EDUC 440), this course provides reflection on the student-teaching experience and help with individual needs. Emphasis on appropriate materials and methods for the elementary level. In addition, student teachers complete certain assignments related to state requirements. Corequisite: EDUC 440.

EDUC 420. Secondary Student Teaching Seminar. 4. Integrated with student teaching (EDUC 440), this course provides reflection on the student-teaching experience and help with individual needs. Emphasis on appropriate materials and methods for secondary and K-12 school levels. In addition, student teachers complete certain assignments related to state requirements. Corequisite: EDUC 440. This course is only offered in the fall.

EDUC 440. Student Teaching. 12. Observation and directed teaching in area of licensure, supervised by the school’s cooperating teacher and College personnel. There is a final two-week capstone experience at the conclusion of student-teaching. During the capstone, students reflect on their student teaching experience in relationship to their theoretical and philosophical grounding. They also explore leadership roles that they may take in the future. Prerequisites: senior standing and completion of major courses. Corequisite: EDUC 410 or EDUC 420. Note: for secondary education majors, this course is only offered in the fall. CR/NC. NOTE: Student teachers may not take additional credits, participate in a varsity sport in season or work without written permission from the department.

EDUC 470. Senior Thesis. 4.

EDUC 490. Departmental Honors. 4-8.
ENGLISH (ENGL)

Heather Hayton, Associate Professor, Chair
Jeff Jeske, Charles A. Dana Professor of English
Carolyn Beard Whitlow, Charles A. Dana Professor of English
James Hood, Professor
Cynthia M. Nearman, Assistant Professor
Diya Abdo, Assistant Professor
Myle’ne Dressler, Visiting Assistant Professor
Martin Arnold, Visiting Instructor
Rod B. Spellman, Visiting Instructor
Kaylene Swenson, Visiting Instructor
Jennie Thompson, Visiting Writing Instructor
Parag Budhecha Parker, Writing Director and Instructor

Envisioning a “typical” English course at Guilford College is like trying to envision a “typical” Guilford College student; thankfully, there is no “typical.” Our students’ interests drive them in different directions and at Guilford, we encourage these explorations. From introductory writing courses that push for cultural and critical analysis, to staff meetings for the campus newspaper and senior seminars where students present their scholarship to the Guilford community, the English department boasts a rich array of courses and a diverse set of professors and instructors who teach them.

While the material may be diverse, a common teaching goal runs throughout: by strengthening students’ creativity and critical thinking skills we are providing the tools they need to be more analytical and more aware of how differently we depict and define the complexities of the human condition. Living Guilford’s core values requires communication, and the English Department develops students’ abilities to read and write, and to talk about their reading and writing.

All Guilford students will spend time in English classes developing those skills. Students who major in English will benefit from one-on-one time with their professors. By expanding their cultural literacy, reading more and writing more, they will leave Guilford well prepared for careers in journalism, technical writing, advertising, creative writing, cultural studies, law and education.

Degree Offered. The Bachelor of Arts degree is offered in English.

Major Requirements. The major requires a minimum of 32 credit hours (eight courses).

Students choose one of four tracks: general (32 credit hours), writing (32 credit hours), education studies (32 credit hours) or graduate studies (40 credit hours). Each track consists of a four-course Core, common to all the tracks, plus at least four Emphasis courses. Students develop a “plan of study” for their individually designed major as part of ENGL 200 and then monitor progress toward the major in course-selection meetings with their advisors.

Note: all English majors, whatever their track, must take at least one course in literature before 1830 (British) or 1865 (American) (ENGL 221, ENGL 223, ENGL 225, ENGL 230, ENGL 240, ENGL 288, ENGL 306, ENGL 309, ENGL 327 or ENGL 342).
General Track:
1. ENGL 200 Introduction to Literary Studies 4 credits
2. One 200 level literature course from: 4 credits
   ENGL 206, ENGL 207, ENGL 215, ENGL 221, ENGL 222, ENGL 223,
   ENGL 225, ENGL 226, ENGL 228, ENGL 230, ENGL 234, ENGL 240,
   ENGL 270, ENGL 288
3. One 300 level literature course from: 4 credits
   ENGL 306, ENGL 309, ENGL 327, ENGL 328, ENGL 331, ENGL 332,
   ENGL 334, ENGL 336, ENGL 342, ENGL 372, ENGL 376, ENGL 378,
   IDS 409, IDS 422
4. ENGL 400 Senior Seminar 4 credits
5-7. Three ENGL upper-level literature, writing, film courses or 12 credits
   approved internship from:
   ENGL 205, ENGL 206, ENGL 207, ENGL 210, ENGL 211*, ENGL 212**,
   ENGL 215, ENGL 221, ENGL 222, ENGL 223, ENGL 225, ENGL 226,
   ENGL 228, ENGL 230, ENGL 234, ENGL 240, ENGL 270, ENGL 272,
   ENGL 282, ENGL 285, ENGL 286, ENGL 287, ENGL 288, ENGL 290,
   ENGL 306, ENGL 309, ENGL 327, ENGL 328, ENGL 331, ENGL 332,
   ENGL 334, ENGL 336, ENGL 342, ENGL 372, ENGL 376, ENGL 378,
   ENGL 380, ENGL 382, IDS 409, IDS 422
   *requires ENGL 206 or instructor permission as prerequisite
   ** requires ENGL 207 or instructor permission as prerequisite
8. One emphasis course at the 300 level from: 4 credits
   ENGL 306, ENGL 309, ENGL 327, ENGL 328, ENGL 331, ENGL 332,
   ENGL 334, ENGL 336, ENGL 342, ENGL 372, ENGL 376, ENGL 378,
   ENGL 380, ENGL 382, IDS 409, IDS 422
Total credit hours required for A.B. degree in English general track 32 credits

Writing Track:
1. ENGL 200 Introduction to Literary Studies 4 credits
2. One 200 level literature course from: 4 credits
   ENGL 206, ENGL 207, ENGL 215, ENGL 221, ENGL 222, ENGL 223,
   ENGL 225, ENGL 226, ENGL 228, ENGL 230, ENGL 234, ENGL 240,
   ENGL 270, ENGL 288
3. One 300 level literature course from: 4 credits
   ENGL 306, ENGL 309, ENGL 327, ENGL 328, ENGL 331, ENGL 332,
   ENGL 334, ENGL 336, ENGL 342, ENGL 372, ENGL 376, ENGL 378,
   IDS 409, IDS 422
4. ENGL 400 Senior Seminar 4 credits
5-6. Two courses from: 8 credits
   ENGL 205 Introduction to Creative Writing
   ENGL 210 Playwriting Workshop
   ENGL 211 Poetry Workshop*
   ENGL 212 Fiction Workshop**
   ENGL 282 Journalism
   ENGL 285 Guilfordian Practicum
   *requires ENGL 206 or instructor permission as prerequisite
   ** requires ENGL 207 or instructor permission as prerequisite
ENGL

7. One theory course from:
   ENGL 372 Modern Poetry
   ENGL 376 Contemporary Fiction
   ENGL 380 Rhetoric and Composition
   ENGL 382 Technical and Professional Communication

8. An internship or elective writing course from
   ENGL 205, 210, 211, 212, 282, 285, 372, 376, 380, 382.
   Internships can be done either off campus (e.g., Style magazine, News & Record)
   or on campus (e.g., editorship with The Guilfordian or The Greenleaf Review).

Total credit hours required for A.B. degree in English writing track 32 credits

Elementary Education Studies Track:
1. ENGL 200 Introduction to Literary Studies 4 credits
2. One 200 level literature course from:
   ENGL 206, ENGL 207, ENGL 215, ENGL 221, ENGL 222, ENGL 223,
   ENGL 225, ENGL 226, ENGL 228, ENGL 230, ENGL 234, ENGL 240,
   ENGL 270, ENGL 288
3. One 300 level literature course from:
   ENGL 306, ENGL 309, ENGL 327, ENGL 328, ENGL 331, ENGL 332,
   ENGL 334, ENGL 336, ENGL 342, ENGL 372, ENGL 376, ENGL 378,
   IDS 409, IDS 422
4. ENGL 400 Senior Seminar 4 credits
5-7. Three ENGL upper-level literature, writing, film courses or
   approved internship from the following:
   ENGL 205, ENGL 206, ENGL 207, ENGL 210, ENGL 211*, ENGL 212**,
   ENGL 215, ENGL 221, ENGL 222, ENGL 223, ENGL 225, ENGL 226,
   ENGL 228, ENGL 230, ENGL 234, ENGL 240, ENGL 270, ENGL 272,
   ENGL 282, ENGL 285, ENGL 286, ENGL 287, ENGL 288, ENGL 290,
   ENGL 306, ENGL 309, ENGL 327, ENGL 328, ENGL 331, ENGL 332,
   ENGL 334, ENGL 336, ENGL 342, ENGL 372, ENGL 376, ENGL 378,
   ENGL 380, ENGL 382, ENGL 390, IDS 409, IDS 422
   *requires ENGL 206 or instructor permission as prerequisite
   ** requires ENGL 207 or instructor permission as prerequisite
8. One emphasis course at the 300 level from:
   ENGL 306, ENGL 309, ENGL 327, ENGL 328, ENGL 331, ENGL 332,
   ENGL 334, ENGL 336, ENGL 342, ENGL 372, ENGL 376, ENGL 378,
   ENGL 380, ENGL 382, ENGL 409, IDS 422

Total credits required for A.B. degree in English elementary education studies track 32 credits

Secondary Education Studies Track:
1. ENGL 200 Introduction to Literary Studies 4 credits
2. One 200 level literature course from:
   ENGL 206, ENGL 207, ENGL 215, ENGL 221, ENGL 222, ENGL 223,
   ENGL 225, ENGL 226, ENGL 228, ENGL 230, ENGL 234, ENGL 240,
   ENGL 270, ENGL 288
3. One 300 level literature course from:
   ENGL 306, ENGL 309, ENGL 327, ENGL 328, ENGL 331, ENGL 332,
ENGL 334, ENGL 336, ENGL 342, ENGL 372, ENGL 376, ENGL 378, IDS 409, IDS 422

4. ENGL 400 Senior Seminar 4 credits

5-7. Three ENGL upper-level literature, writing, film courses or approved internship from the following: 12 credits

ENGL 205, ENGL 206, ENGL 207, ENGL 210, ENGL 211*, ENGL 212**, ENGL 215, ENGL 221, ENGL 222, ENGL 223, ENGL 225, ENGL 226, ENGL 228, ENGL 230, ENGL 234, ENGL 240, ENGL 270, ENGL 272, ENGL 282, ENGL 285, ENGL 286, ENGL 287, ENGL 288, ENGL 290, ENGL 306, ENGL 309, ENGL 327, ENGL 328, ENGL 331, ENGL 332, ENGL 334, ENGL 336, ENGL 342, ENGL 372, ENGL 376, ENGL 378, ENGL 382, ENGL 390, IDS 409, IDS 422

*requires ENGL 206 or instructor permission as prerequisite
** requires ENGL 207 or instructor permission as prerequisite

8. ENGL 380 Rhetoric and Composition 4 credits

Total credits required for A.B. degree in English secondary education studies track 32 credits

Graduate Studies Track:

1. ENGL 200 Introduction to Literary Studies 4 credits

2. One 200 level literature course from: 4 credits

ENGL 206, ENGL 207, ENGL 215, ENGL 221, ENGL 222, ENGL 223, ENGL 225, ENGL 226, ENGL 228, ENGL 230, ENGL 234, ENGL 240, ENGL 270, ENGL 288

3. One 300 level literature course from: 4 credits

ENGL 306, ENGL 309, ENGL 327, ENGL 328, ENGL 331, ENGL 332, ENGL 334, ENGL 336, ENGL 342, ENGL 372, ENGL 376, ENGL 378, IDS 409, IDS 422

4. ENGL 400: Senior Seminar 4 credits

5-9. Five ENGL upper-level literature, writing, film courses or approved internship from the following: 20 credits

ENGL 205, ENGL 206, ENGL 207, ENGL 210, ENGL 211*, ENGL 212**, ENGL 215, ENGL 221, ENGL 222, ENGL 223, ENGL 225, ENGL 226, ENGL 228, ENGL 230, ENGL 234, ENGL 240, ENGL 270, ENGL 272, ENGL 282, ENGL 285, ENGL 286, ENGL 287, ENGL 288, ENGL 290, ENGL 306, ENGL 309, ENGL 327, ENGL 328, ENGL 331, ENGL 332, ENGL 334, ENGL 336, ENGL 342, ENGL 372, ENGL 376, ENGL 378, ENGL 380, ENGL 382, ENGL 390, IDS 409, IDS 422

*requires ENGL 206 or instructor permission as prerequisite
** requires ENGL 207 or instructor permission as prerequisite

10. One emphasis course at the 300 level from: 4 credits

ENGL 306, ENGL 309, ENGL 327, ENGL 328, ENGL 331, ENGL 332, ENGL 334, ENGL 336, ENGL 342, ENGL 372, ENGL 376, ENGL 378, ENGL 380, ENGL 382, IDS 409, IDS 422

Total credits hours required for A.B. degree in English graduate studies track 40 credits

The department recommends the following for the graduate studies track.
• Taking some survey courses for a strong foundation (e.g., ENGL 221, ENGL 222, ENGL 225, ENGL 226);
ENGL

• Taking some depth courses for learning academic discourse and practicing analytical skills;
• Doing an internship (teaching or research);
• Doing an honors thesis or presenting research at a local or other conference;
• The department also recommends:
  • Taking ENGL 400 early in the senior year (it will provide a writing sample for graduate school applications);
  • Taking the GRE in early fall semester of the senior year;
  • Gaining proficiency in a second language.

For further details of all programs, see both individual course descriptions and the department’s advising guidelines, available from any department member. Students will take the introduction to the major (ENGL 200) when they declare the major (usually in the sophomore year) and the capstone course (ENGL 400) in their senior year.

Note: Both ENGL 102 and Historical Perspectives are prerequisites for all upper-level English courses except Journalism, Guilfordian Practicum and Playwriting. ENGL 250 and 350 Special Topics courses may fulfill literature or writing course requirements, depending upon topic.

ENGL 101. Writing Seminar. 4. Workshop format; writing as process of discovery and exploration of possibility (invention, drafting, revision, peer editing); focus on writerly voice. Students must earn a grade of at least C- to move on to ENGL 102.

ENGL 102. College Reading and Writing: Many Voices. 4. Discussion of and practice in composition with analysis of related readings that are chosen to celebrate a range of diverse populations that collectively define the American landscape. Texts and specific approach to writing indicated in instructors’ course descriptions available at registration. Normally required in first year. Fulfills College reading and writing requirement.

ENGL 141. Intermediate Composition. 4. This course is for students who wish to reinforce the academic reading, writing and thinking skills introduced in ENGL 101 and ENGL 102. Emphasizing analysis, persuasion and revision, it builds on basic knowledge of academic writing conventions and strengthens students’ ability to compose clear, concise and coherent prose in the writing situations they face in other courses and beyond college. The course also includes significant research.

ENGL 150. Special Topics. 4. May also be offered at 250, 350 and 450 levels.

ENGL 151. Historical Perspectives (Variable Title). 4. Prerequisite: ENGL 102. Fulfills historical perspectives requirement.

ENGL 160. Greek Myth, Art and Literature. 4. Study of the earliest Greek stories and images that have made their way into the art, religion and literature of later periods. Includes The Odyssey and selected plays. Fulfills humanities requirement.

ENGL 200. Introduction to Literary Studies. 4. Introduction to the study of English; a survey of historical periods and major critical schools. Required of all sophomore majors. Prerequisites: ENGL 102 and Historical Perspectives.

ENGL 205. Introduction to Creative Writing. 4. Introduction to the fundamentals of writing creatively in various genres. Prerequisites: ENGL 102 and Historical Perspectives. Fulfills arts requirement.
ENGL 206. Introduction to Poetry. 4. Focus on analysis of poetry with attention to both formal and interpretive issues. Prerequisites: ENGL 102 and Historical Perspectives. Fulfills arts requirement.

ENGL 207. Introduction to Fiction. 4. Study of narrative conventions in the short story and novel. Prerequisites: ENGL 102 and Historical Perspectives. Fulfills arts requirement.

ENGL 210. Playwriting Workshop (THEA 244). 4. Twelve weekly scenes read and critiqued in class and a one-act play as a final project. Exploration of various elements of playwriting such as conflict, manipulation of chronology, life studies, character exposition and development, “found” language, passive participation in and transcription of actual events.

ENGL 211. Poetry Workshop. 4. In-class critiques of student poems, reviews of contemporary poetry magazines and collections, craft discussions with visiting writers, evolution of literary principles, manuscript preparation. Requires either ENGL 206 or instructor permission. Prerequisites: ENGL 102 and Historical Perspectives.

ENGL 212. Fiction Workshop. 4. In-class critiques of student writing, reviews of contemporary literary magazines and short story collections, craft discussions with visiting writers, evolution of critical principles, manuscript preparation. Requires either ENGL 207 or instructor permission. Prerequisites: ENGL 102 and Historical Perspectives.

ENGL 215. Play Analysis (THEA 215). 4. Explores the methodology of script analysis used by actors, designers and directors as they prepare to execute a stage production. Techniques at the heart of the course lay the foundation for thoughtful understanding of literature and perceptive creativity in productions that effectively serve a text. Students also develop the interpretive skills needed by artists working in a theatre that responds to and addresses issues of oppression and social justice. Prerequisites: ENGL 102 and Historical Perspectives. Fulfills humanities and social justice/environmental responsibility requirements.

ENGL 221. British Literature I. 4. Intensive study of representative works and survey of issues from Anglo-Saxon period through the 18th century. Recommended for all beginning majors and prospective majors. Prerequisites: ENGL 102 and Historical Perspectives. Fulfills humanities requirement.

ENGL 222. British Literature II. 4. Intensive study of major literary figures and changing forms from the Romantic period to the present. Prerequisites: ENGL 102 and Historical Perspectives. Fulfills humanities requirement.

ENGL 223. Shakespeare. 4. General introduction to the comedies, histories and/or tragedies. Prerequisites: ENGL 102 and Historical Perspectives. Fulfills humanities requirement.

ENGL 225. American Literature Survey I. 4. The American mind in literature from the Puritans to the Civil War. Prerequisites: ENGL 102 and Historical Perspectives. Fulfills humanities requirement.

ENGL 226. American Literature Survey II. 4. The American literary tradition from the Civil War to the present. Prerequisites: ENGL 102 and Historical Perspectives. Fulfills humanities and diversity in the U.S. requirements.

ENGL 228. American Nature Writing (REL 120). 4. Examines literary nature writing in America from the 19th century to the present, with a primary focus on the different
ways writers have presented the natural world as sacred. Writings consider both individuals’ current estrangement from the natural world and possibilities for developing intimacy with the earth through a deep sense of “place.” Fulfills humanities and social justice/environmental responsibility requirements.

**ENGL 230. African American Literature. 4.** Literary study focusing on major figures of the 19th and 20th centuries, such as Wheatley, Douglass, Hughes, Wright, Hurston, Walker and Morrison. Prerequisites: ENGL 102 and Historical Perspectives. Fulfills humanities and diversity in the U.S. requirements.

**ENGL 234. Native American Literature. 4.** Explores the themes, genres and techniques used in American Indian writing and examines the connections between the works of Indian authors and the history of Indian-white relations, particularly regarding class. Prerequisites: ENGL 102 and Historical Perspectives. Fulfills humanities and diversity in the U.S. requirements.

**ENGL 260. Independent Study. 1-4.** May also be offered at 360 and 460 levels. Work at the 460 level may apply toward departmental honors if prior arrangement is made by student. Prerequisites: ENGL 102 and Historical Perspectives.

**ENGL 270. World Literature. 4.** Study of selected literature from the seven continents. Prerequisites: ENGL 102 and Historical Perspectives. Fulfills humanities requirement.

**ENGL 272. World Cinema. 4.** Explores the craft and cultural significance of contemporary films from East Asia, the Middle East, Africa and Latin America. Prerequisites: ENGL 102 and Historical Perspectives. Fulfills arts and intercultural requirements.

**ENGL 282. Journalism. 4.** A hands-on introduction to journalistic writing. All students will be working Guilfordian staffers while learning the fundamentals of news, feature and opinion writing as well as newspaper style. No journalistic experience required.

**ENGL 285. Guilfordian Practicum. 1-4.** Workshop involving editing, Web work, layout, photography or advanced writing for The Guilfordian. Prerequisite: Instructor permission. Repeatable.

**ENGL 286. Classic American Cinema. 4.** Study of the craft and cultural significance of key films of the 1930s through 1950s, the golden age of Hollywood. Prerequisites: ENGL 102 and Historical Perspectives. Fulfills humanities requirement.

**ENGL 287. Cult Movies. 4.** Studies the role of cult movies in American culture from the 1930’s through the 1990’s. Themes include social Darwinism, the Other, conformity, Freudian thanatos, feminism vs. patriarchy and the nature of consciousness. Fulfills humanities requirement.

**ENGL 288. Shakespeare and Film. 4.** Explores Shakespearean plays in relation to films that reconstruct a Shakespearean narrative in an entirely different imaginary realm. Prerequisites: ENGL 102 and Historical Perspectives. Fulfills humanities requirement.

**ENGL 290. Internship. 1-4.** May also be offered at the 390 level.

**ENGL 306. Medieval Literature. 4.** Studies texts from the earliest period of English literary production (roughly from the fall of Rome to 1485). Genres may include epic, romance, drama, lyric, allegory, hagiography. May also include developing introductory skills in
Anglo-Saxon, history of the English language, Middle English or paleography. Prerequisites: ENGL 102 and Historical Perspectives. Fulfills humanities requirement.

**ENGL 309. Early Modern Literature. 4.** Examines one of the most prolific literary periods in the English tradition (roughly 1485-1700). Texts may include epic or lyric poetry, fiction, essays and tragic, comedic or closet drama. Special emphasis will be given to non-Shakespearean texts. Prerequisites: ENGL 102 and Historical Perspectives. Fulfills humanities requirement.

**ENGL 327. British Romantic Literature. 4.** Selected British poetry, fiction and non-fiction prose written between 1780 and 1832 with special attention to intellectual and cultural issues such as imagination and perception, nature, aesthetic theory and industrialization and/or the relationship between literature and the political/historical issues of the period. These include human rights, abolition and the slave trade, the French Revolution, the Napoleonic Wars and reform. Prerequisites: ENGL 102 and Historical Perspectives.

**ENGL 328. Victorian Literature. 4.** Selected British poetry, fiction and non-fiction prose written between 1832 and 1901 with special attention to intellectual and cultural issues such as the divided self, gender, childhood, science and religion and sexuality. The course also draws attention to the relationship between literature and the political/historical issues of the period including imperialism, the monarchy and the rise of the middle class. Prerequisites: ENGL 102 and Historical Perspectives.

**ENGL 331. Black Women Writers. 4.** Explores a cross-section of the contemporary and historical writings produced by women of African descent primarily in North America, but also of South America, Europe, the Caribbean or Africa. Includes the novel, short story, poetry, drama, autobiography, narrative, essay, interview, letters, reviews and literary criticism. Prerequisites: ENGL 102 and Historical Perspectives. Fulfills humanities and diversity in the U.S. requirements.

**ENGL 332. Black Men Writers. 4.** Explores classic and contemporary novels, short stories, drama, poetry, literary criticism, essays and issues by writers such as Ralph Ellison, Richard Wright, Amiri Baraka, August Wilson, Randall Kenan, James Baldwin, Yusef Komunyakaa and Nathan McCall. Prerequisites: ENGL 102 and Historical Perspectives. Fulfills humanities and diversity in the U.S. requirements.

**ENGL 334. African Women Writers. 4.** Explores a range of literary voices from black and white women writers born in countries such as Ghana, Zimbabwe, South Africa, Kenya, Nigeria, Senegal, Egypt, Algeria, Botswana and Uganda. Prerequisites: ENGL 102 and Historical Perspectives. Fulfills humanities and intercultural requirements.

**ENGL 336. The Elizabethan Age (HIST 336). 4.** This course centers on the political, religious and cultural changes in the British Isles between the reign of Henry VIII and the Glorious Revolution. Main topics of discussion include the Reformation and the Civil War (1642-45). Fulfills humanities requirements.

**ENGL 342. American Romanticism. 4.** Study of Irving, Cooper, Emerson, Thoreau, Hawthorne, Melville and Whitman as well as the painting of the era. Prerequisites: ENGL 102 and Historical Perspectives.

**ENGL 372. Modern Poetry. 4.** Significant 20th-century poetry in British and American literature. Includes forms, techniques and themes; addresses poets such as Pound, Eliot
and Williams. Prerequisites: ENGL 102 and Historical Perspectives. Fulfills humanities requirement.

**ENGL 376. Contemporary Fiction.** 4. Survey course that engages students in reading works written in the years following the end of the Vietnam War by authors who live and work outside the United States and who come from a variety of nationalities and ethnicities.

**ENGL 378. Caribbean Literature.** 4. Focus on the Post-Colonial novel—writing which is sophisticated, often experimental and poised on the cutting edge of contemporary literature. Prerequisites: ENGL 102 and Historical Perspectives. Fulfills humanities and intercultural requirements.

**ENGL 380. Rhetoric and Composition.** 4. A history of rhetorical studies and a survey of major schools of thought, with emphasis on the practice of teaching writing. Includes study of grammar and the history of the English language. Prerequisites: ENGL 102 and Historical Perspectives.

**ENGL 382. Technical and Professional Communication.** 4. Introduction to the practice of the profession of technical communications; includes work at off-site non-profits. Designed for students from many disciplines. Prerequisites: ENGL 102 and Historical Perspectives.

**ENGL 400. Senior Seminar.** 4. Required of all senior English majors. Rotating seminars in special themes and literary figures. Sample topics include Violence in Early Modern Drama, Melville, and Literature and Ethics. Prerequisites: ENGL 200 and 20 credits toward the English major (at least 12 credits taken at Guilford, including one 300 level literature course).

**ENGL 470. Senior Thesis.** Credit variable. Work may apply toward departmental honors if prior arrangement is made by student.

**ENGL 490. Departmental Honors.** 4-8.

**ENVIRONMENTAL STUDIES (ENVS)**

*Angela Moore, Associate Professor of Geology & Earth Sciences, Environmental Studies Coordinator*

*Kyle Dell, Associate Professor of Political Science, Environmental Studies Coordinator*

Environmental studies provides an interdisciplinary program that emphasizes the relationship between humans and the environment. It allows students to study and address such fundamental issues as the quality of the Earth's environment and the sustainable use of its natural resources.

The program focuses on justice, global awareness and service to the larger community while respecting the concept of nature as sacred and Guilford's Quaker heritage. The Guilford environmental studies program is an overlap of many disciplines, including the humanities, social sciences, business and policy studies, arts, and natural sciences.

**Degree Offered.** The Bachelor of Arts is offered in environmental studies.

**Major Requirements.** Environmental studies is an interdisciplinary major that requires a second disciplinary major and an advisor in each. The major requires a minimum of 32 credit hours (eight courses).

1. **ENVS 101 Introduction to Environmental Studies** 4 credits
2. **PSCI 319 Modern Environmental Problems** 4 credits
3. IDS 472 Environmental Planning  
4-6. Science support courses (one course from each of three levels):  
   Level 1  
   - BIOL 112 Integrative Biology: Organisms, Ecology and Evolution  
   - CHEM 105 Chemistry of Recycling  
   - CHEM 110 Real World Chemistry  
   - CHEM 111 Chemical Principles I  
   - GEOL 121 Geology and Environment  
   - GEOL 141 Oceanography  
   Level 2  
   - BIOL 212 Environmental Science  
   - BIOL 224 Field Botany  
   - BIOL 233 N.C. Freshwater Fishes  
   - BIOL 235 Vertebrate Field Zoology  
   - CHEM 341 Instrumental Analysis  
   - MATH 112 Elementary Statistics*  
   Level 3  
   - BIOL 334 Animal Behavior  
   - BIOL 336 Ornithology  
   - BIOL 438 General Ecology  
   - ENVS 330/GEOL 230 Environmental Pollution  
   - GEOL 223 Hydrology  
   - GEOL 340 Images of the Earth  
   - GEOL 416 Sedimentology and Stratigraphy  
7. One course from non-science support courses:  
   - ART 254 Sculpture and the Environment  
   - ECON 222 Micro: Public Policy  
   - ECON 301 Research Methods  
   - ECON 344 Environment Resource Economics  
   - ENGL 225 American Literature Survey I  
   - ENGL 228/REL 120 American Nature Writing  
   - ENVS 220/ART 220 The American Landscape  
   - HIST 227 Urban Environmental History  
   - HIST 324 American Rivers  
   - PHIL 242 Environmental Ethics  
   - PSCI 318 Environmentalism in Early America  
   - PSY 344 Environmental Psychology  
   - SOAN 225 Culture and the Environment  
8. One course from either science or non-science support courses listed above, or  
   from the list below:  
   - IDS 437 Barrier Islands: Ecology and Development  
   - IDS 482 Ecofeminism and Environmental Justice  

Total credits hours required for A.B. degree in environmental studies 32 credits

*ECON 301 may be substituted by petition for MATH 112. Appropriate internships or independent studies can be substituted for both science and non-science electives by petition and approval of the program coordinator.
ENVS

ENVS 101. Environmental Science, Policy and Thought: Introduction to Environmental Studies. 4. An introductory course to the interdisciplinary approach as it relates to environmental studies. Intended to introduce students to a broad array of environmental issues and conflicts; uses a case study, problem-solving approach. Fulfills social justice/environmental responsibility requirement.

ENVS 150. Special Topics. 4. May also be offered at 250, 350 and 450 levels.

ENVS 220. The American Landscape (ART 220). 6. A two-part exploration. First, students undertake traditional academic inquiry, reading and discussion. The second, experiential component consists of an extended field trip and a direct photographic exploration of some of the landscapes and environments that have shaped American culture. Fulfills arts and social justice/environmental responsibility requirements.

ENVS 260. Independent Study. 1-4. May also be offered at 360 and 460 levels. Independent student projects are dependent upon the student’s initiative in shaping the terms of investigation. The supervising instructor and the coordinator of environmental studies must approve a proposal describing the project.

ENVS 290. Internship. 1-4. Recommended for all majors. College requirements apply. Details to be arranged between a student and a faculty member; schedules and nature of the work to be accomplished is at the discretion of the instructor. May also be offered at the 390 level.

ENVS 330. Environmental Pollution (GEOL 230). 4. This course examines the impacts of human culture and activity on the quality of air, water and soil with a focus on sources of contamination and the fate of pollutants in the environment. Laboratory focuses on experimental work and field studies that introduce students to the scientific investigation of environmental problems. Fulfills natural science and mathematics and social justice/environmental responsibility requirements. Generally alternate years.

ENVS 470. Senior Thesis. 4. Recommended for all students planning to attend graduate school. A written senior thesis may be undertaken as a separate project or as the culmination of independent study; the senior thesis must represent serious research and independent thought.

ENVS 490. Departmental Honors. 4-8. For seniors with a 3.50 grade-point average; students may complete a senior’s thesis and obtain program honors at graduation.

FIRST YEAR EXPERIENCE (FYE)

FYE 101. First Year Experience. 4. The First Year Experience is for traditional-age students. Adult Program students and graduates of The Early College at Guilford are exempt from this requirement. FYE aids in the academic and social transition to college life.

FYE 102. First Year Experience Lab. 1. The FYE 102 First Year Experience Lab helps introduce students to Guilford and includes such topics as time management, choice of career and major, honor code and academic integrity.

FYE 260. Independent Study. 1-4. May also be offered at 360 and 460 levels.
FOREIGN LANGUAGES
Maria Park Bobroff, Assistant Professor of French, Chair
David J. Limburg, Professor of German
Sylvia Trelles, Professor of Spanish
Hiroko Hirakawa, Associate Professor of Japanese
Alfonso Abad-Mancheño, Assistant Professor of Spanish
Teresa Rinaldi, Visiting Instructor of Spanish
Edith Lebrato Shepherd, Visiting Instructor of Spanish
Janet Starmer, Visiting Instructor of French

Mission Statement:
Through courses in French, German, Japanese, and Spanish, the Department of Foreign Languages is integral to the College’s mission to produce creative and critical thinkers with the global perspectives necessary to promote positive change in the world. Our purpose is to graduate students who effectively use the four major skills of listening, speaking, reading and writing in the target language; who demonstrate familiarity with various cultures of the world where the target language is spoken; and who demonstrate the critical thinking, analytical and problem-solving skills necessary to function as global citizens. We likewise provide leadership in the internationalization of the College’s curriculum.

Introduction
The goal of the Department of Foreign Languages is to impart a sense of global community in all students. More so than ever before, students must be aware of other cultures and their multiple ways of understanding the world. To this end, the Foreign Languages Department considers the study of language and culture as integral to the formation of global citizens.

Beginning at the introductory level, our courses stress communication in the target language. Throughout our curriculum we emphasize culture broadly defined, from the political, social, and historical to the artistic and literary. Essential to the Foreign Language curriculum is study abroad, for no classroom can duplicate the experience of living in another land and interacting in another language. The Foreign Languages Department helps to prepare all students, not just majors and minors, for their study abroad goals. The department’s commitment to global understanding is evident in the many clubs, service projects, language tables, and film festivals we organize. A foreign language major is an excellent choice for any student desiring a career abroad or one that requires interaction with diverse groups of people. Students wishing to pursue careers in health care, human services, business, entertainment, or the government, will strengthen their portfolio by adding a double major in a foreign language.

Teaching licensure
K-12 licensure is offered in French and Spanish.

Students can obtain K-12 licensure in French or Spanish by double majoring in the respective language and education studies. Students pursuing these double majors have the same requirements within the Foreign Languages Department as do other majors. The option of doing a senior thesis is not advisable for students receiving K-12 licensure in a foreign language. Note: Students interested in pursuing a teaching career in German may do so by completing the requirements for the language and literature track in German at Guilford, a minor in education studies, and then acquiring certification at a graduate institution.
FOREIGN LANGUAGES

Language Laboratory

Beginning language students gain additional language practice in the target language during weekly lab meetings. Students of French, German, and Spanish use Auralog’s Tell Me More software, a sophisticated language learning program that includes speech recognition.

Degrees Offered. The Bachelor of Arts degree is offered in French, German and Spanish.

Major Requirements. Each major requires a minimum of 32 credit hours (eight courses) numbered 200 or above and including at least one 400 level course. All majors are expected to study abroad with an appropriate Guilford program before graduating. Approval of the department is necessary to either waive this requirement or to participate in another program abroad. Students may do a senior thesis (470) or departmental honors (490) on a topic approved by the department. This will count as one of the eight courses, but will not replace the required 400 level course. Students planning to attend graduate school are urged to choose the senior thesis. All majors must meet proficiency requirements. Foreign language majors should choose a related field in order to consolidate and complement their major field of study or to enhance career opportunities.

Course prerequisites: Language courses require a specific sequencing. The introductory sequence (100 level) is a prerequisite for the intermediate level; the intermediate sequence (200 level) is a prerequisite for the higher levels.

Note: Courses in English translation cannot count for the French, Spanish, or German language and literature majors.

French:

1-5. Five French courses at the 200 level or above  20 credits
   FREN 260, FREN 290, FREN 360, FREN 390, FREN 460
   with departmental permission
6.  FREN 220 Intro to Literary and Cultural Analysis  4 credits
7.  Any FREN 300 level course  4 credits
   FREN 360 or FREN 390 with departmental permission
8.  FREN 400 Senior Seminar  4 credits

Note: French majors must study abroad in an approved Francophone country. Courses taken abroad can count toward the minimum 32 credits. The department recommends that French majors take at least one course on Francophone Africa or the Caribbean.

Total credits required for A.B. degree in French  32 credits

German:

Students choose one of two tracks: German language and literature or German studies. Each track consists of a five-course core taught in German.

German Language and Literature Track:

1-5. Five German courses at the 200 level or above  20 credits
   GERM 260, GERM 290, GERM 360, GERM 390, GERM 460
   with departmental permission
6.  GERM 202 Intermediate German II  4 credits
7.  Any GERM 300 level course  4 credits
   GERM 360 or 390 with departmental permission
8.  Any GERM 400 level course  4 credits

Total credits required for A.B. degree in German  32 credits
GERM 460 with departmental permission

Note: German language and literature majors must study abroad in an approved Germanophone country. Courses taken abroad can count toward the minimum 32 credits.

Total credits required for A.B. degree in German language and literature track 32 credits

**German Studies Track:**

1-3. Three German courses at the 200 level or above 12 credits
   GERM 260, GERM 290, GERM 360, GERM 390, GERM 460
   with departmental permission

4. GERM 202 Intermediate German II 4 credits
   Any GERM 400 level course 4 credits

5. GERM 460 with departmental permission

6-8. Three courses in Munich 12 credits

Note: German studies track majors must participate in Guilford’s Munich semester abroad program. Students can count up to three courses taught in English toward this track.

Total credits required for A.B. degree in German studies track 32 credits

**Spanish:**

1-4 Four Spanish courses at the 200 level or above 16 credits
   SPAN 260, SPAN 290, SPAN 360, SPAN 390, SPAN 460
   with departmental permission

5. SPAN 301 Advanced Grammar and Phonetics 4 credits

6. One course from:
   SPAN 310 Contemporary Latin America
   SPAN 320 Culture and Society: Mexico, Central America and Caribbean
   SPAN 322 Culture and Society: South America
   SPAN 340 Film, Life, and Literature of Latin America
   SPAN 402 Senior Seminar: Latin America

7. One course from:
   SPAN 311 Contemporary Spain
   SPAN 321 Culture and Society: Golden Age of Spain
   SPAN 323 Culture and Society: Beginnings of a Nation
   SPAN 403 Senior Seminar: Spain

8. SPAN 390 Internship 2 credits

9. Any SPAN 400 level course taken senior year 4 credits
   SPAN 460 with departmental permission

Note: Spanish majors must study abroad in an approved Hispanophone country. Courses taken abroad can count toward the minimum 34 credits. Students must complete their internship requirement after studying abroad.

Total credits required for A.B. degree in Spanish 34 credits

**FREN 101. Communicating in French I. 4.** Basic building blocks of grammar, emphasis on oral communication and culture. Laboratory Day required. Students may not receive credit for both FREN 101 and FREN 111. Fulfills foreign language requirement.

**FREN 102. Communicating in French II. 4.** Continuation of French I with more emphasis on grammar and developing reading and writing skills. Emphasis still on oral communication
and culture. Laboratory Day required. Prerequisite: FREN 101 or placement. Spring. Fulfills foreign language requirement.

**FREN 111. French Around the World, Communication and Cultures. 4.** Basic building blocks of grammar, emphasis on oral communication and culture. For CCE students only. Students may not receive credit for both FREN 101 and FREN 111.

**FREN 150. Special Topics. 4.** May also be offered at 250, 350 and 450 levels.

**FREN 201. Intermediate French. 4.** Introduction of more advanced aspects of French grammar, vocabulary and culture in addition to continued speaking and comprehension, as well as increased emphasis on reading and writing in French. Prerequisite: FREN 102 or placement. Fall.

**FREN 220. Introduction to Literary and Cultural Analysis. 4.** An introduction to important literary and cultural texts and to the tools required to understand and discuss them. This course enables students to engage more sophisticated texts and cultural artifacts from different discourses, periods and cultures, and is the prerequisite of all 300 level courses. Prerequisite: FREN 201 or placement. Spring.

**FREN 260. Independent Study. 1-4.** May also be offered at 360 and 460 levels.

**FREN 275. The Francophone World, in English Translation. 4.** Study of significant literatures, cultures, and major currents of the French-speaking world other than those of France, with particular emphasis on Africa and the Caribbean. Prerequisite: Historical Perspectives. Fulfills humanities and intercultural requirements.

**FREN 290. Internship. 1-4.** May also be offered at the 390 level.

**FREN 310. Contemporary France. 4.** Study of the institutions and society of France today, with an emphasis on developing the vocabulary and cultural context required understanding them. Prerequisite: FREN 220.

**FREN 311. The Francophone World. 4.** Study of significant literatures, cultures and major currents of the French-speaking world other than those of France, with particular emphasis on Africa and the Caribbean. Prerequisite: FREN 220. Fulfills humanities and intercultural requirements.

**FREN 315. French and Francophone Cinema. 4.** Study of French and Francophone cinema as well as societal and cultural influences. Specific directors, films and themes will vary. Course is repeatable with different topics. Prerequisite: FREN 220. Fulfills humanities requirement.

**FREN 365. Literature and Culture: Period. 4.** Study of French and Francophone culture and society within a defined period of time, e.g., the Renaissance, the Enlightenment, Romanticism, along with the period’s defining characteristics and lasting influences. Course is repeatable with different topics. Prerequisites: FREN 220 and FREN 310, FREN 311, or FREN 315.

**FREN 375. Literature and Culture: Theme. 4.** Study of French and Francophone culture and society through the lens of a particular theme. Themes may be universal in nature (love, death, the nation, the Other) or more specific (the City of Paris, Revolutionary writings, the Dreyfus affair). Course is repeatable with different topics. Prerequisites: FREN 220 and
FREN 385. Literature and Culture: Genre. 4. Study of French and Francophone culture and society through a particular literary genre, e.g. the novel, theatre, poetry. Consideration will be given to how historical periods have given rise to certain literary genres and how genres have influenced literary and cultural movements. Course is repeatable with different topics. Prerequisites: FREN 220 and FREN 310, FREN 311, or FREN 315.

FREN 400. Senior Seminar. 4. Topic of this capstone for majors will vary, but will focus on important questions in French and Francophone studies. Students will explore more advanced approaches to culture and literature and conduct research on a final paper. Required of majors. Prerequisites: FREN 220 and a 300 level course. Fulfills humanities requirement.

FREN 470. Senior Thesis. 4.

FREN 490. Departmental Honors. 4.

GERM 101. Communicating in German I. 4. Basic building blocks of grammar, emphasis on oral communication and culture. Laboratory Day required. Fall, also taught in Munich. Fulfills foreign language requirement.

GERM 102. Communicating in German II. 4. Continuation of German I with more emphasis on grammar and developing writing skills. Emphasis still on oral communication and culture. Laboratory Day required. Prerequisite: GERM 101 or placement. Fulfills foreign language requirement.

GERM 150. Special Topics. 4. May also be offered at 250, 350 and 450 levels.

GERM 201. Intermediate German I. 4. Review of basic structures and introduction of more advanced aspects of grammar and vocabulary. Increased emphasis on conversation, reading and writing skills. Prerequisite: GERM 102 or placement. Fall, also taught in Munich.

GERM 202. Intermediate German II. 4. Continuation of German 201. Increased emphasis on discussion skills. Students read and discuss two youth novels. Prerequisite: GERM 201 or placement. Spring.

GERM 260. Independent Study. 1-4. May also be offered at 360 and 460 levels.

GERM 290. Internship. 1-4. May also be offered at the 390 level.

GERM 310. Contemporary German Culture. 4. Analysis and discussion of literary and cultural texts and films from 1945 to the present. Further development of writing skills. Prerequisite: GERM 202 or placement. Fall, every third year.

GERM 311. German Youth Culture. 4. Analysis and discussion of youth literature, as well as journalism and film aimed at German youth. As an end project, students interview native German speakers in Greensboro about their youth in a German-speaking country. Prerequisite: GERM 202 or placement. Fulfills humanities requirement.

GERM 312. German Composition. 4. Advanced grammar work and writing practice, with increased attention to complexity and style. Prerequisite: GERM 202 or placement. Fall, taught in Munich.
JAPN

GERM 320. Culture and Society: The Weimar Republic. 4. Analysis and discussion of German films and literature of the Weimar Republic, as well as short texts of cultural, political and historical relevance. Prerequisite: GERM 202 or placement. Fulfills humanities requirement.

GERM 400. Seminar. 4. Students will explore more advanced approaches to culture and literature and conduct research on a final paper. The seminar will focus on pre-19th-century, 19th-century, and 20th-century/contemporary material in a three-year sequence. Required of majors. Prerequisite: GERM 300 level or placement. Spring; repeatable. Fulfills humanities requirement.

GERM 470. Senior Thesis. 4.

GERM 490. Departmental Honors. 4-8.

JAPN 150. Special Topics. 4. May also be offered at 250, 350 and 450 levels.

JAPN 201. Intermediate Japanese I. 4. Advanced grammar study, conversation practice and increased emphasis on reading and writing. Prerequisite: JAPN 102 or instructor permission.

JAPN 220. Women in Modern Japan. 4. Examines the lives of Japanese women within the contexts of such social institutions as education, marriage, family, work and mass media. Taught in English. Fulfills humanities and intercultural requirements.

JAPN 221. Contemporary Japanese Society. 4. Interdisciplinary course examines popular American attitudes toward Japan and social construction of national identity in contemporary Japan (as well as challenges to this identity). Studies social conditions, popular culture and racial and ethnic minorities in Japan. Taught in English. Fulfills humanities and intercultural requirements.

JAPN 260. Independent Study. 1-4. May also be offered at 360 and 460 levels.

JAPN 290. Internship. 1-4. May also be offered at the 390 level.

JAPN 310. Media, Gender, and Nation in Japan. 4. Examines the roles of mass media in the construction of gendered national identity in Japan. Taught in English. Fulfills intercultural requirement.

JAPN 470. Senior Thesis. 4.

SPAN 101. Communicating in Spanish I. 4. Basic building blocks of grammar, emphasis on oral communication and culture. Laboratory Day required. Students may not receive
credit for both SPAN 101 and SPAN 111.

SPAN 102. Communicating in Spanish II. 4. Continuation of Spanish I with more emphasis on grammar and developing writing skills. Emphasis still on oral communication and culture. Laboratory Day required. Prerequisite: SPAN 101, SPAN 111 or placement. Students may not receive credit for both SPAN 102 and SPAN 112.

SPAN 111. Communicating in Spanish for Business I. 4. Basic building blocks of grammar, emphasis on oral communication and culture. Special emphasis on vocabulary for the workplace. For CCE students only. Students may not receive credit for both SPAN 101 and SPAN 111.

SPAN 112. Communicating in Spanish for Business II. 4. Continuation of SPAN 111. Basic building blocks of grammar, emphasis on oral communication and culture, particularly as they relate the workplace in various settings such as business, health, travel, social services. For CCE students only. Students may not receive credit for both SPAN 102 and SPAN 112. Prerequisite: SPAN 111 or SPAN 101. Fulfills foreign language requirement

SPAN 150. Special Topics. 4. May also be offered at 250, 350 and 450 levels.

SPAN 201. Intermediate Spanish. 4. Introduction of more advanced aspects of Spanish grammar and vocabulary in addition to continued speaking and comprehension, increased emphasis on reading and writing in Spanish using culture-oriented material. Students cannot receive credit for both SPAN 201 and SPAN 211. Prerequisite: SPAN 102 or placement.

SPAN 202. Intermediate Conversation and Composition. 4. Thorough review of Spanish grammar as needed, intensive work on oral and written expression on a variety of topics and exposure to a wide range of cultural "texts" (from traditional literature to more recent media). Students cannot receive credit for both SPAN 202 and 212. Prerequisite: SPAN 201 or instructor permission.

SPAN 211. Intermediate Spanish for Business I. 4. SPAN 211 parallels SPAN 201 (Intermediate Spanish) in its emphasis on learning and practicing more advanced elements of Spanish grammar, developing vocabulary as well as improving speaking and comprehension skills using culture-oriented materials related to the workplace and stressing practices in the Hispanic business world. Students may not receive credit for both SPAN 201 and 211. Prerequisite: SPAN 102 or SPAN 112 or placement.

SPAN 212. Intermediate Spanish for Business II. 4. Again, paralleling SPAN 202 (Intermediate Spanish Conversation/Composition) this course will review aspects of grammar learned in previous Spanish courses to help students attain greater proficiency in the use of Spanish structures. Class sessions will emphasize oral and speaking skills using a wide range of cultural texts related to the workplace. Class is conducted in Spanish. Students may not receive credit for both SPAN 202 and SPAN 212. Prerequisite: SPAN 211 or placement or instructor permission.

SPAN 221. Advanced Spanish for Business. 4. In this course students will strengthen their communicative skills in Spanish for professions with an emphasis on business and increase their knowledge of the cultures of Spanish-speaking peoples. Class is conducted in Spanish. Prerequisite: SPAN 212.

SPAN 260. Independent Study. 1-4. May also be offered at 360 and 460 levels.
SPAN 290. Internship. 1-4. May also be offered at the 390 level.

SPAN 301. Advanced Grammar and Phonetics. 4. In this theoretical and practical course students explore Spanish sounds, and practice their pronunciation. They will learn phonetic transcriptions. The class also expands on the history of the Spanish Language, which prepares students to take more advanced classes in Spanish literature and linguistics (300 level literature courses and 400-capstone). Students will analyze and compare literary texts from a linguistic point of view and link the evolution of the language to historical events important in both sides of the Atlantic. There is also an advanced grammar component and a service learning project. Prerequisite, SPAN 202, or instructor permission.

SPAN 310. Contemporary Latin America. 4. Through multiple perspectives (economic, historical, political, social and religious), students will explore different themes relating to situations in contemporary Spanish America, utilizing art, literary texts and public speeches to illustrate these themes and to form connections between the various countries.. Prerequisite: SPAN 221 or SPAN 301. Fulfills intercultural requirement. Alternate years

SPAN 311. Contemporary Spain. 4. This course will study the dramatic changes that have occurred in Spain since the death of Francisco Franco in 1975: the development of a democratic government, the social and economic challenges faced in Spain's attempt to become one of the important players in the European Union and the positive and negative effects resulting from such a position. Prerequisite: SPAN 221 or SPAN 301. Alternate years.

SPAN 320. Culture and Society: Mexico, Central America and Caribbean. 4. Examination of the literature and culture against a historical background from the colonial period, with an emphasis on the 20th century. Prerequisite: SPAN 221 or SPAN 301. Fulfills humanities and intercultural requirements.

SPAN 321. Culture and Society: Golden Age of Spain. 4. Examination of the culture, literature and historical contexts of the 16th and 17th centuries in Spain. Prerequisite: SPAN 221 or SPAN 301. Fulfills humanities requirement.

SPAN 322. Culture and Society: South America. 4. Examination of the literature and culture against a historical background from the colonial period, with an emphasis on the 20th century. Prerequisite: SPAN 221 or SPAN 301. Fulfills humanities and intercultural requirements.

SPAN 323. Culture and Society: Beginnings of a Nation (The Integration of Three Cultures). 4. Examination of the culture, literature and historical contexts of Medieval Spain with an emphasis on the contributions of Jews, Christians and Moslems. Prerequisite: SPAN 221 or SPAN 301. Fulfills humanities requirement.

SPAN 340. Film, Life and Literature of Latin America. 4. A view of Latin American culture, society and contemporary issues through film and literature. At times taught in English for IDS 400 credit. For Spanish credit, class meets one extra time and all work is done in Spanish.

SPAN 342. Latino Culture in the United States. 4. A study of the different Hispanic cultures in the U.S. through literature, essays and film with special emphasis on the image of self as “other,” exile, biculturalism, bilingualism, and the fusion of cultures. Taught in English for IDS 400 credit. For Spanish credit, class meets one extra time and all work is done in Spanish. Fulfills intercultural requirement.
SPAN 402. Senior Seminar: Latin America. 4. Students will explore more advanced approaches to culture and literature and conduct research on a final paper. Possible topics: Women Writers of Latin America, The Latin American Novel. Prerequisites: SPAN 301 and a second 300 level course. Fulfills humanities and intercultural requirements.

SPAN 403. Senior Seminar: Spain. 4. Students will explore more advanced approaches to culture and literature and conduct research on a final paper. Possible topics: Social and Cultural Impact of the Spanish Civil War, Women in Spanish Literature and Film. Prerequisites: SPAN 301 and a second 300 level course. Fulfills humanities requirement.

SPAN 470. Senior Thesis. 4.

SPAN 490. Departmental Honors. 4-8.

GENERAL STUDIES (GST)

GST 101. Adult Transitions. 4. For CCE students in only their first term at Guilford. The central focus of the course is coming to terms with problems as well as prospects involved in life changes. Reading diversity novels provides a means of working with these adult transitions. The course includes the teaching of academic skills. Fulfills FYE 101 requirement.

GST 102. Study Abroad Orientation. 1-2. Required of all students planning to study abroad. CR/NC.

GST 103. Gateways to Success. 1. For CCE students in only their first term at Guilford. The course is designed to help new-to-Guilford CCE students make a successful transition to Guilford, whether they are transfer students or attending college for the first time. The course will introduce students to the core values and resources of Guilford as well as documents, staff, college policies, and procedures that are essential for academic success. Students will be able to learn and practice skills and study techniques needed for success in college courses.

GST 105. Quaker Social Testimonies and Spiritual Roots. 2. Introductory seminar for Quaker Studies minor.

GST 107. Introduction to Community Learning. 2. Explores complex social issues related to community service. Students volunteer weekly at sites in the Greensboro community and connect their service, academic and personal development via electronic portfolios. The course also serves as an orientation to the Bonner Scholars program; enrollment is limited to new Bonner Scholars. CR/NC.

GST 110. Quantitative Literacy. 2. This course covers quantitative reasoning and provides a general overview of quantitative methods, geometry and graphics, applied arithmetic and algebra. Enrollment is limited to students who have not satisfied the quantitative literacy requirement. CR/NC. Fulfills quantitative literacy requirement.

GST 120. Learning Strategies. 1. This course will focus on such topics as grade-point-average management, time management, learning style inventories, evaluation of learning skills and reading skills, staging the writing process, effective and efficient ways to memorize, taking notes, studying for tests and taking responsibility for one's own education.

GST 121. Peer Mentor. 1. This course assists first-year and transfer students in their adjustment to college life and provides each with a mentor for the first semester. Topics
include, among others: management of time and stress, building relationships, preparing for exams, diversity and selecting a major. CR/NC.

**GST 125. Leadership Seminar. 1.** A preparatory program for all student leaders. Students explore different definitions and styles of leadership, diversity and basic helping/communication skills and apply these concepts to future leadership roles. CR/NC

**GST 130. Introduction to Leadership for Social Change. 1.** Open to first- and second-year students. Focuses on assessing, defining and understanding ourselves as potential change agents. Students will create an electronic portfolio to serve as a planning and reflection tool for their Guilford journey. CR/NC.

**GST 150. Special Topics. 4.** May also be offered at 250, 350 and 450 levels.

**GST 200. Leadership Issues in Working for Change. 1.** Open to sophomores, juniors or seniors completing a two- to four-credit internship for academic credit. Using their internship experiences as a focus, students explore models of effective leadership and issues of change in organizations. CR/NC

**GST 225. Medieval People. 1.** This course meets six times each semester. It is intended to provide a meeting of those interested in medieval studies in general, or in the Medieval / Early Modern studies minor specifically. Various topics, usually featuring important medieval people, are discussed by a number of different faculty members and others.

**GST 253. Reflection and Journaling. 1.** This experiential course looks at the how's and why's of journal writing and reflection and will provide students with practical ways for developing reflection and journaling into life-long practices. A variety of techniques will be explored through weekly reflection and journaling assignments. CR/NC

**GST 254. Let Your Life Speak. 1.** This experiential course is designed to assist students in identifying their sense of passion and purpose related to career and vocation. Students will gain a deeper understanding and awareness of their own inner and outer motivations and obstacles in exploring future personal and professional options. Weekly assignments include self-reflection, journaling, and class discussion. CR/NC.

**GST 255. Career and Life Planning. 1.** Examines career development through the life span, specifically focusing on the period of time between the beginning of college and entry into the work force. Through a variety of learning approaches, students will actively facilitate their own and their classmates' career development. CR/NC.

**GST 256. Re-Careering: From Career to College to Career. 2.** Targeted to CCE students, this course addresses career development from the perspective of students who bring a work history to the classroom. The course will explore through discussion and role play such subjects as downsizing, family/career life balancing, economic trends, relocation and the electronic job search.

**GST 260. Independent Study. 14.** May also be offered at 360 and 460 levels.

**GST 290. Internship, 1-4.** May also be offered at the 390 level.

**GST 400. Leadership for Social Change Seminar. 1.** Open to seniors. Focuses on integrating experiential and academic learning and preparing for the transition to the professional world. Students prepare a showcase portfolio to use in their job searches. Each student designs a culminating experience based on their needs and interests. CR/NC.
GST 405. Quaker Faith and Practice. 2. The capstone for the Quaker Studies minor, this course serves as an overview of Friends’ history and theology, with each year’s class focusing on a particular issue of current Quaker concern.

GEOLOGY AND EARTH SCIENCES (GEOL)

Marlene L. McCauley, Professor, Chair
David M. Dobson, Associate Professor
Angela Moore, Associate Professor

Geology is an integrative science that shapes our understanding of the planet through study of the Earth’s processes. The field of Geology encompasses a variety of topics, including earth materials, earth history, fossils, climate, ground and surface water, natural hazards, and environmental science. Guilford geology students are involved in hands-on field experiences, inquiry-based laboratory work, and undergraduate research. The geology major serves as a foundation for graduate study, professional geology, teaching, environmental science, environmental law, resource management and geography.

Degrees Offered. The Bachelor of Arts and Bachelor of Science degrees are offered in geology and earth sciences. Students pursuing either an A.B. or B.S. in geology may also opt for a track in environmental geology.

Major Requirements for the A.B. in geology and earth sciences. The A.B. degree allows more flexibility for students interested in working in the environmental field, teaching, law, museums and technical writing. For graduate studies in geology, the B.S. is generally required. The major requires a minimum of 48 credit hours (12 courses).

1. GEOL 121 Geology and the Environment or GEOL 141 Oceanography     4 credits
2. GEOL 122 Historical Geology  4 credits
3. GEOL 311 Optical Mineralogy  4 credits
4. GEOL 312 Petrology  4 credits
5. GEOL 335 Structural Geology  4 credits
6. GEOL 415 Paleontology  4 credits
7-8. Two elective lab courses  8 credits

Related Field Courses: Students must take one course in mathematics (above the 110 level), plus three more courses from among the following or others as approved by the department:
9. Any MATH course above MATH 110  4 credits
10-12. Three courses from:
        CHEM 111, CHEM 112, MATH 112, MATH 115, MATH 121, MATH 122,
        EDUC 410, EDUC 420, PHYS 211, PHYS 212, PHYS 121, or PHYS 122

Total credits required for A.B. degree in geology and earth sciences  48 credits

Students will work with their advisors to select the electives and related field courses that are most useful for their individual goals.

Major Requirements for the B.S. in geology and earth sciences. The B.S. degree is designed for students who intend to pursue graduate study in the earth sciences or are seeking employment in fields such as geology, environmental science, geography, oceanography, paleontology, hydrology, or geophysics. This track requires a number of related field courses expected by the profession for technical work and for graduate study. The major requires a

www.guilford.edu
minimum of 60 credit hours (15 courses).

1. GEOL 121 Geology and the Environment or GEOL 141 Oceanography 4 credits
2. GEOL 122 Historical Geology 4 credits
3. GEOL 311 Optical Mineralogy 4 credits
4. GEOL 312 Petrology 4 credits
5. GEOL 335 Structural Geology 4 credits
6. GEOL 415 Paleontology 4 credits
7-8. Two elective lab courses 8 credits
9. Summer Field Camp 4 credits

Related Field Courses (included within the major):
10. CHEM 111 Chemistry Principles I 4 credits
11. CHEM 112 Chemistry Principles II 4 credits
12. MATH 121 Calculus I 4 credits
13. MATH 122 Calculus II 4 credits
14. PHYS 121 Classical and Modern Physics I or PHYS 211 College Physics I 4 credits
15. PHYS 122 Classical and Modern Physics II or PHYS 212 College Physics II 4 credits

Total credits required for B.S. degree in geology and earth sciences 60 credits

**Major Requirements for the A.B. and B.S. track in environmental geology.** Students pursuing either an A.B. or B.S. in geology may opt for a track in environmental geology. This track provides a strong background in geology but is designed for students interested in environmental consulting or pursuing graduate study in an environmental field.

1. GEOL 121 Geology and the Environment or GEOL 141 Oceanography 4 credits
2. GEOL 122 Historical Geology 4 credits
3. GEOL 223 Hydrology 4 credits
4. GEOL 340 Images of the Earth 4 credits
5-6. Two courses from the following: 8 credits
   GEOL 311 Optical Mineralogy (Prerequisite: CHEM 111)
   GEOL 312 Petrology (Prerequisite: CHEM 112)
   GEOL 335 Structural Geology
   GEOL 415 Paleontology
7-8. Two elective lab courses 8 credits

Suggested electives:
GEOL 230/ENVS 330 Environmental Pollution
GEOL 416 Sedimentology and Stratigraphy

Additional requirements for A.B. track in environmental geology
9. Any MATH course above MATH 110 4 credits
10-12. Three courses from: 12 credits
   CHEM 111, CHEM 112, MATH 112, MATH 115, MATH 121, MATH 122, EDUC 410, EDUC 420, PHYS 211, PHYS 212 or others as approved by the department

Total credits required for A.B. track in environmental geology 48 credits

Additional requirements for B.S. track in environmental geology
9. Summer Field Course 4 credits
10. CHEM 111 Chemical Principles I 4 credits
11. CHEM 112 Chemical Principles II 4 credits
12. MATH 121 Calculus I 4 credits
13. MATH 122 Calculus II 4 credits
14. PHYS 121 Classical and Modern Physics I or PHYS 211 College Physics I 4 credits
15. PHYS 122 Classical and Modern Physics II or PHYS 212 College Physics II 4 credits

Total credits required for B.S. track in environmental geology 60 credits

**GEOL 121. Geology and the Environment. 4.** First-hand introduction to the materials the Earth is made of, as well as the forces that shape the Earth, and interactions between human activities and the environment. Many of the labs are done in the field. Fulfills natural science and mathematics and social justice/environmental responsibility requirements. Offered yearly in fall.

**GEOL 122. Historical Geology. 4.** Historical account of discovery of geologic time and development of the theory of evolution; origin and development of the earth; geologic history of North America—both life and lands. Emphasis in laboratory on interpretation of earth history and use of the Quaker Quadrangle. Fulfills natural science and mathematics requirement. Offered yearly in spring.

**GEOL 141. Oceanography. 4.** Formation of the earth and oceans; shape and composition of the ocean floor; plate tectonics. Waves and tides, seawater chemistry, climate, and the ocean’s interaction with the atmosphere. Fulfills natural science and mathematics and social justice/environmental responsibility requirements.

**GEOL 150. Special Topics. 4.** Recent topics include geographical information systems and remote sensing, reefs of Puerto Rico, environmental history of China, climate and history, earth systems science, GIS and image processing and soil science. May also be offered at 250, 350 and 450 levels.

**GEOL 151. HP: Climate and History. 4.** Explores the roles of global climate and climate change in the evolution and development of human beings and their cultures. Topics include climate-driven migration, effects of ice ages, climate change during the last two millennia and their effects on subsistence, war, commerce and exploration and what to expect in next century. Prerequisite: ENGL 102. Fulfills historical perspectives requirement.

**GEOL 160. Gems and Minerals. 4.** Introduction to minerals and gemstones. Includes basic crystallography and crystal chemistry; physical and optical properties of minerals, gemstone identification, consumer gemology. Fulfills natural science and mathematics requirement.

**GEOL 190. Terroir: The Science of Wine. 4.** An interdisciplinary look at the science behind wine. The course will investigate the geology and geography of the major wine-growing areas of the world, and see how climate, culture and geology play a role in what grapes flourish where. Students will also learn the basics of sensory evaluation of wines. Enrollment limited to students over age 21. Must provide proof of age and sign a waiver. This course is not accepted as an elective for the A.B. or the B.S. in geology, or for the minor in earth sciences. Fulfills natural science and mathematics requirement.

**GEOL 223. Hydrology. 4.** This course is focused on the dynamic nature of the water cycle, and includes investigations on human reliance and impacts upon this vital resource. Course content will include investigation of both surface and ground water systems, including flow dynamics, precipitation, surface runoff, stream restoration, streamflow monitoring and data analysis, ground water geology, and basic well design. Laboratory included. Prerequisite:
GEOL 121 or instructor permission and an understanding of algebra. Alternate years.

GEOL 230. Environmental Pollution (ENVS 330). 4. This course examines the impacts of human culture and activity on the quality of air, water and soil with a focus on sources of contamination and the fate of pollutants in the environment. Laboratory focuses on experimental work and field studies that introduce students to the scientific investigation of environmental problems. Fulfills natural science and mathematics and social justice/environmental responsibility requirements. Offered based upon demand.

GEOL 242. Natural Science Seminars (BIOL 242). Credits: variable. Studies of the biology, geology, ecology and natural history of different field areas, including the American Southwest, the Galapagos, East Africa, North Carolina and other areas. Includes a one- to three-week trip to the area being studied, depending on when the course is offered; trip includes research project. When course is offered for a minimum of 4 semester credits, the course will fulfill the natural science and mathematics and social justice/environmental responsibility requirements.

GEOL 260. Independent Study. 1-4. May also be offered at 360 and 460 levels. Independent and directed research, including field and laboratory experience.

GEOL 290. Internship. 1-4. May also be offered at the 390 level.

GEOL 311. Optical Mineralogy. 4. Principles of optical mineralogy, basic crystallography and crystal chemistry, rock-forming minerals and mineral formation and associations. Lab will focus on mineral identification in hand specimen and thin section. Alternate years in fall. Prerequisite: CHEM 111 (may be taken concurrently with instructor permission).

GEOL 312. Petrology. 4. Introduction to the study of igneous, sedimentary and metamorphic rocks. Principles of classification, occurrence, phase equilibria, tectonic environments and origin/formation of rocks are emphasized in lectures. Labs emphasize description, classification and interpretation of textures and mineralogy in hand sample and in thin section. Alternate years in spring. Prerequisites: GEOL 311, CHEM 112 (may be taken concurrently with instructor permission).

GEOL 335. Structural Geology. 4. Study of the deformation of rocks of the earth’s crust: descriptive and theoretical treatment of folding, faulting, jointing, unconformities, diapirs, plutons and the structural features found in igneous, metamorphic and sedimentary rocks; introduction to geophysical methods; introduction to the field of tectonics. Offered in alternate years in spring. Prerequisites: two laboratory courses in geology, MATH 115, or instructor permission.

GEOL 336. Geomorphology. 4. Study of landforms and the processes involved in their formation, especially the investigation of fluvial and arid geomorphic cycles, coastline development and theories of landscape evolution. Prerequisites: GEOL 121 and one other geology laboratory course or instructor permission. Offered based upon demand.

GEOL 340. Images of the Earth: GIS and Remote Sensing. 4. Focuses on various ways to classify, represent and visualize the Earth’s surface. Interpretation, creation and use of maps, aerial photographs and satellite images. Exploration, construction and use of geographic information systems (GIS) and other computer-based methods to create maps and visualize data. Application of knowledge and techniques to issues such as ecosystem management, environmental assessment, urban planning, geologic mapping, global change
and archaeology. Can also count toward the CTIS major.

**GEOL 412. Geochemistry (CHEM 412).** 4. Distribution, movement and processes affecting chemical elements within the earth. Nuclear chemistry, formation of earth and planets; crystal chemistry and mineral structures; isotope geology, trace elements, thermodynamics in geology. No laboratory. Prerequisites: CHEM 111, three semesters of laboratory courses in geology or instructor permission.

**GEOL 415. Paleontology.** 4. Study of fossils with major emphasis on invertebrates: classification and identification, principles of evolution and paleoecology; Earth history and the origin and history of life; application of paleontology to geologic problems, especially its use in stratigraphic studies. Includes a focus on scientific writing in geology. Offered in alternate years in fall. Prerequisites: GEOL 122 and another course in geology and/or biology and/or chemistry or instructor permission.

**GEOL 416. Sedimentology and Stratigraphy.** 4. Advanced study of sedimentary rocks. Emphasis on sedimentary processes, grain size analysis, sedimentary structures and sedimentary petrography; the description, classification, correlation and interpretation of sedimentary rocks; principles of stratigraphic nomenclature; interpretation of tectonic conditions, depositional environments, and paleogeography; advanced historical geology. Prerequisites: four semesters of laboratory courses in geology or related science or instructor permission. Offered in alternate years in spring.

**GEOL 470. Senior Thesis.** Credits: variable. Independent research project begun at end of junior year. See department for details.

**GEOL 490. Departmental Honors.** 4-8.

**HEALTH SCIENCES (HSCI)**
Anne G. Glenn, Professor of Chemistry, Chair

The health sciences major is designed for students who wish to pursue graduate study in the health professions, which include medicine, dentistry or veterinary medicine, or one of the allied health professions, such as physician assistant, pharmacy, physical therapy, occupational therapy or athletic training. The health sciences major provides a coherent program that allows students to develop an understanding of the interdisciplinary nature of the health professions.

**Degree Offered.** The Bachelor of Science degree is offered in health sciences.

**Major Requirements.** Health sciences is an interdisciplinary major that requires a second disciplinary major and an advisor in each.

**Specific Course Requirements**

Courses for the health sciences major come from disciplines in a variety of areas of study, including natural sciences and mathematics, sport studies and social sciences. The major requires a minimum of 33 credit hours (nine courses) chosen from the list below, one of which must be an internship at the 390 level in the student’s proposed career field. This internship experience is undertaken in the junior or senior year and is intended to give the student an opportunity to gain the real-world experience necessary for a career in any of the health care fields.
The one-credit Health Sciences Seminar acts as a capstone to the major along with the internship experience and should be taken in the junior or senior year.

**Health Sciences**

1. HSCI 390 Internship  
   4 credits  
2. HSCI 400 Health Science Seminar  
   1 credit  

Because health sciences is an interdisciplinary major, students must select at least two departments from the departments listed below. In addition, at least four of the courses must be at the 200 level or above. Students must work closely with a member of the Health Professions Advising Committee to make sure they select the necessary courses to prepare for the graduate program they desire, as well as those courses that complement their disciplinary major.

3-9. 28 credits

**Biology**

- BIOL 111 Integrative Biology: Molecules and Cells
- BIOL 112 Integrative Biology: Organisms, Ecology, and Evolution
- BIOL 313 Molecular Cell Biology
- BIOL 315 Microbiology
- BIOL 341 Human Anatomy and Physiology I
- BIOL 342 Human Anatomy and Physiology II
- BIOL/CHEM 434 Biochemistry
- BIOL 443 Genetics

**Chemistry**

- CHEM 111 Chemical Principles I
- CHEM 112 Chemical Principles II
- CHEM 231 Organic Chemistry I
- CHEM 232 Organic Chemistry II
- CHEM 430 Medicinal Chemistry
- CHEM/Biol 434 Biochemistry

**Mathematics**

- MATH 112 Elementary Statistics
- MATH 121 Calculus I
- MATH 122 Calculus II

**Physics**

- PHYS 121 Classical and Modern Physics I
- PHYS 122 Classical and Modern Physics II
- PHYS 211 College Physics I
- PHYS 212 College Physics II

**Psychology**

- PSY 100 General Psychology
- PSY 224 Developmental Psychology
- PSY/Biol 340 Psychobiology
- PSY 342 Abnormal Psychology
- PSY/Biol 343 Sensory Systems

**Sport Studies**

- SPST 210 Introduction to Athletic Injury & Illness, with Lab
- SPST 211 Health and Wellness Promotion
- SPST 245 Emergency Procedures in Athletic Training
- SPST 246 Kinesiology of Sport and Exercise
SPST 311 Sport and Exercise Physiology
SPST 314 Perspectives in Sport and Exercise Nutrition
SPST 340 Psychology of Sport and Exercise
SPST 373 Physical Examination and Assessment, with Lab
SPST 474 Therapeutic Modalities and Rehabilitation, with Lab

Total credits required for B.S. degree in health science 33 credits

HSCI 150. Special Topics. 4. May also be offered at 250, 350 and 450 levels.

HSCI 260. Independent Study. 1-4. May also be offered at 360 and 460 levels.

HSCI 290. Internship. 1-4. May also be offered at the 390 level.

HSCI 400. Health Science Seminar. 1. Allows students majoring in the health sciences to reflect on their internship experience as well as learn from current professionals in many health-related fields. Students will have an opportunity to discuss current challenges in health care, such as managed care, care of diverse populations, medical ethics and other issues. In addition, the application process for graduate study in the health professions will be discussed. This seminar may not be taken before the junior year.

HSCI 470. Senior Thesis. 4. May also be offered at 250, 350 and 450 levels.

HSCI 490. Departmental Honors. 4. May also be offered at 250, 350 and 450 levels.

HISTORY (HIST)
Alvis Dunn, Assistant Professor, Chair
Adrienne Israel, Professor
Timothy Kircher, Professor
Sarah S. Malino, Professor
Damon Akins, Assistant Professor
Zhihong Chen, Assistant Professor
Philip Slaby, Assistant Professor
Matthew Andrews, Visiting Instructor

History is the study of the complex forces in the past that precipitate change in the human environment. These forces include ideas, political and economic developments, and social and cultural conditions. Historical investigation demands logical thinking and critical analysis as well as imagination and intuition. Students of history learn to recognize the significance of the sequential nature of events and to bring order to apparently random facts. Historical knowledge fosters an appreciation of human diversity, a global perspective, and a rich comprehension of the contemporary world and one’s own experience.

The history major challenges students to understand the present by knowing its short- and long-term causes that have brought it into existence. All events, students learn, are the result of a complex interaction of forces. Students learn to differentiate between major and minor causes of events. This major is an excellent foundation for careers in teaching, research of all varieties, law, community service and business, among others.

Degree Offered. The Bachelor of Arts degree is offered in history.

Major Requirements. The major consists of eight courses (32 credit hours). No more than
two of these courses may be at the 100 level, while one must be at the 300 level, and one must be the HIST 400 Seminar. The remainder of the courses may be at the 200 or 300 level. An Historical Perspectives course taught by the Department of History faculty counts toward the major requirements.

Students may choose an area of historical specialization but must take at least one course in each of the following three geographical areas: United States, Europe and non-Western (e.g., Asia, Africa or Latin America). In addition, they must take one course focusing on history before 1800 and one course focusing on history after 1800, in order to ensure a breadth of chronological knowledge.

The capstone course for the major is HIST 400 Research Seminar, recommended to be taken in the junior year, particularly for students planning to complete a two-semester thesis. It is required of all students majoring in history and is generally taught in the evening every semester. As preparation for this research, students must take at least two courses at the 200 level prior to taking the seminar. It is strongly advised to take a history course at the 300 level prior to taking the seminar course.

To develop their understanding of how historical knowledge relates to other academic disciplines, students may take one course taught by a faculty member outside the Department of History, provided that the course has been approved for the major by the department in advance (e.g., ECON 302 Economic History of the U.S.).

1-2. Any two 100 level history courses 8 credits
(score of 4 or 5 on an AP history exam will count as one 100 level history course)

3. One history course before 1800 from: 4 credits
   - HIST 101 The Medieval Web
   - HIST 233 Medieval Civilization: Crusades and Chivalry
   - HIST/ART 235 The Renaissance and Florence
   - HIST/REL 236 Reformation: Luther to Fox
   - HIST 241 Africa before 1800
   - HIST 271 Colonial Latin America
   - HIST/ENGL 336 The Elizabethan Age
   - HIST 383 Imperial China
   - HIST 385 Medieval Japan
   - IDS 452 Ancient Greece Homer - Socrates

4. One U.S. history course from: 4 credits
   - HIST 103 U.S. Origins: From Pre-Colonial Times to 1877
   - HIST 104 Modern Times: The U.S. from 1877 to the Present
   - HIST 205 United States Imperialism and Progressivism
   - HIST 212 American Frontiers
   - HIST 221 Changing Face of the South
   - HIST 222 North Carolina History
   - HIST 223 Gender and Power in U.S. History
   - HIST 225 African American History
   - HIST 227 Urban Environmental History
   - HIST 276 Civil War and Reconstruction
   - HIST 302 Economic History of the United States
   - HIST 303 U.S. Social History and Social Memory
   - HIST 308 The Underground Railroad
   - HIST 311 The U.S. since 1945
   - HIST 312 Indians in American History since 1800
   - HIST 315 The Civil Rights Movement
HIST 324 American Rivers

5. One Europe course from:
   - HIST 101 The Medieval Web
   - HIST 102 The Web of Europe since 1400
   - HIST 233 Medieval Civilization: Crusades and Chivalry
   - HIST/ART 235 The Renaissance and Florence
   - HIST/REL 236 Reformation: Luther to Fox
   - HIST 237 Europe in Revolution
   - HIST 238 War and Peace
   - HIST 245 Europe since World War II
   - HIST 255 The Second World War
   - HIST 289 The French Revolution and Napoleon
   - HIST 314 Immigration & a Multicultural Europe, 1800-Present
   - HIST 319 Europe Between the Wars
   - HIST/ENGL 336 The Elizabethan Age
   - IDS 452 Ancient Greece Homer - Socrates

   4 credits

6. One non-Western history course from:
   - HIST 241 Africa before 1800
   - HIST 242 Africa since 1800
   - HIST 264 The Asian Pacific in Modern Times
   - HIST 266 Contemporary Chinese Society in Film
   - HIST 268 History of Chinese Women
   - HIST 271 Colonial Latin America
   - HIST 272 Modern Latin America
   - HIST 343 Women in Modern Africa
   - HIST 383 Imperial China
   - HIST 384 China in Revolution
   - HIST 385 Medieval Japan
   - HIST 386 Japan: The Road to War

   4 credits

7. Any HIST 300 level course

   4 credits

8. HIST 400 Seminar in History

   4 credits

Total credits required for A.B. degree in history
32 credits

HIST 101. The Medieval Web. 4. This course examines the development of the medieval idea of a “Christian Empire” from the time of Charlemagne to the mid-15th century. Through a close reading of contemporary texts of law, literature, religion and biography, students will explore such topics as the papacy, crusades, feudalism, scholasticism and medieval art. Fulfills humanities and social justice/environmental responsibility requirements; when “HP” precedes title, fulfills historical perspectives requirement.

HIST 102. The Web of Europe since 1400. 4. This course investigates the genesis and movements of the modern period, from the Renaissance to the fall of the Iron Curtain. On the basis of contemporary documents, students will discuss such issues as nationalism, the Reformation, absolutism, religion in the Age of Reason, egalitarianism and totalitarianism. Fulfills humanities requirement; when “HP” precedes title, fulfills historical perspectives requirement.

HIST 103. U.S. Origins: From Pre-Colonial Times to 1877. 4. This course begins by studying Native American cultures before European contact as well as emerging tensions
as European populations migrated westward. Students analyze why the colonists revolted against Britain, how new democratic political institutions evolved, the complex place of African enslavement and how Reconstruction-era politics and reform traditions fostered a new industrialized nation state. Fulfills humanities and social justice/environmental responsibility requirements; when “HP” precedes title, fulfills historical perspectives requirement.

HIST 104. Modern Times: The U.S. from 1877 to the Present. 4. This course analyzes how the United States became a mature, industrialized consumer society, a haven for peoples from around the world, a welfare state and a global superpower. Studying both the benefits and costs of 20th century U.S. political and economic success enables students to understand some of the reasons why diverse social groups challenged the economic and political order. Fulfills humanities and social justice/environmental responsibility requirements; when “HP” precedes title, fulfills historical perspectives requirement.

HIST 150. Special Topics. 4. Topics may include: the French Revolution, Vietnam wars, American rivers, Latin American history in film. These courses fulfill requirements for the history major and minor. May also be offered at 250, 350 and 450 levels.

HIST 205. American Imperialism, American Progressive. 4. The years 1890-1925 witnessed tremendous upheavals as America became a world power abroad while at home, reform movements flourished alongside anti-immigrant campaigns, the lynching and disfranchisement of African-Americans, a widening gap between rich and poor and a Red Scare. Students engage in a semester-long project to define this crucial era through the public writings of those who shaped it. Fulfills humanities requirements; when “HP” precedes title, fulfills historical perspectives requirement.

HIST 212. American Frontiers. 4. Defining frontiers as contested places where people met and struggled over control of natural resources, the labor necessary to exploit those resources and the right to define the boundaries of society, the course examines various frontier regions across North America from the late eighteenth century through the early twentieth. Fulfills humanities and social justice/environmental responsibility requirements; when “HP” precedes title, fulfills historical perspectives requirement.

HIST 221. North Carolina: Demographic History. 4. Explores the demographic history of North Carolina from before the European invasion to the present, grappling with the idea and definition of immigrant, foreigner and outsider, as well as with issues involving regionalism, race, class, gender, religious difference and ethnicity. Fulfills humanities and social justice and environmental responsibility requirements; when “HP” precedes title, fulfills historical perspectives requirement.

HIST 222. North Carolina History. 4. Examines political, economic and social change in North Carolina from the period of exploration to the present. Begins with the state’s Native American and colonial roots and follows through the establishing of the commonwealth, slavery, the Civil War and North Carolina’s reinvention as an industrial leader in the 20th century’s “New South.” Also explores the Civil Rights movement and contemporary changes in demographic character.

HIST 223. Gender and Power in U. S. History. 4. Analyzes how men and women with diverse social and ethnic roots participated in transforming gender norms, identities and power relationships in U.S. society from pre-colonial times to the present. Students examine how economic institutions, political debates, legal decisions, changing sexual patterns
and social activism have all contributed to redefining social expectations and daily life in contemporary U.S. culture. Fulfills humanities and diversity in the U.S. requirements.

**HIST 225. African American History. 4.** Examines major themes such as the African heritage, slavery, emancipation, Reconstruction, migrations, labor, criminal justice, black nationalism, the Civil Rights Movement and current issues. Fulfills humanities and diversity in the U.S requirements.

**HIST 227. Urban Environmental History. 4.** This course uses three urban case studies as lenses to explore urban environmental history. By restricting the focus to three cities, the course explores each deeply. Fulfills humanities and social justice/environmental responsibility requirements.

**HIST 233. Medieval Civilization: Crusades and Chivalry. 4.** This course investigates medieval civilization through some of its most intriguing characters—crusaders, pilgrims and knights. The course also will explore developments in medieval church and religion, issues of international law or human rights, religious and ethnic diversity, social class and privilege and the romance and ethics of knighthood and courtly love. Fulfills humanities requirement.

**HIST 235. The Renaissance in Florence (ART 235). 4.** The course discusses the history of Renaissance Florence, its economy, society, politics and culture, in relation to the other major Italian city-states. A main theme of the course is how politics and religion combine during this time and find their expression in art and culture. Fulfills arts requirement.

**HIST 236. Reformation: Luther to Fox (REL 236). 4.** The course is designed to introduce students to a basic understanding of events and ideas of the Reformation era in Europe, ca. 1517 to 1660. A focal point of the readings will be the reformers’ view of the relation between political and ecclesiastical authority. Fulfills humanities requirement.

**HIST 237. Europe in Revolution, 1789-1918. 4.** A study of the main issues in 19th-century Western Europe - industrialization, shift from monarchy to constitutional government, growth of nationalism, socialism and imperialism - and their impact on Europe by the eve of the war in 1914. Fulfills humanities requirement; may fulfill historical perspectives requirement.

**HIST 238. War and Peace: 20th-Century Europe, 1914-present. 4.** This course compares different European countries and examines their relations with each other in a very ideologically driven century. While the course emphasizes politics and diplomacy, peace, war and socio-economic developments, it will also consider the history of the arts, science and technology, women, the environment, business, religion, ideas, law, culture and biography. Fulfills humanities requirement; may fulfill historical perspectives requirement.

**HIST 241. Africa Before 1800. 4.** An overview of African history before European colonial rule, focusing on the Iron Age and related civilizations. Introduces the history of such ancient kingdoms and empires as Tekrur, Mali and Songhai, Benin, Oyo and Asante, the Swahili coast, the Kongo and Zimbabwe. Also explores the impact of the European and Arab slave trades. Fulfills humanities and intercultural requirements.

**HIST 242. Africa Since 1800. 4.** A survey of Africa from the European colonial era to the emergence of African nationalism and modern times. Examines the impact of foreign rule on Africa’s economic, social, cultural and political history. Focuses on the sub-Saharan Africa,
exploring change in the southern region from both pan-African and global perspectives. Fulfills humanities and intercultural requirements.

**HIST 245. Europe since World War II. 4.** This class traces the political, diplomatic, economic, and socio-cultural development of Eastern and Western Europe from the close of World War II in 1945 to European unification and the transition from Communism in the late 20th and the early 21st centuries. It also sheds light on the emergence of mass consumerism, immigration and the tensions of multiculturalism, and the nature of everyday life in Western and in Eastern Europe. Fulfills humanities and social justice/environmental responsibility requirement.

**HIST 255. The Second World War. 4.** This course examines the developments of the Second World War, and the war’s impact on states, societies and international relations. It especially contrasts contingency in negotiations and on the battlefield on the one hand, with more inflexible causes in culture and economics on the other. Fulfills humanities requirement

**HIST 260. Independent Study. 1-4.** May also be offered at 360 and 460 levels. Involves weekly meetings with departmental advisors and an oral or written examination.

**HIST 264. The Asian Pacific in Modern Times. 4.** Introduces the themes necessary to understand Asian countries today: cultural legacies, colonialism, the rise of nationalism and communism, war and revolution, as well as contemporary issues facing the region. Includes East Asian (China, Japan and Korea) and Southeast Asian (Vietnam, Cambodia, Philippines, Indonesia, Malaysia, Burma and Thailand) countries. Fulfills intercultural requirement.

**HIST 266. Contemporary Chinese Society in Film. 4.** Examines the dynamic changes that have occurred in Chinese society since the death of Mao Zedong in 1976. Using Chinese feature films produced in the 1980s and 1990s, the course examines how economic reform has dramatically changed Chinese society and focuses on the relationship between art and politics in the People’s Republic. Fulfills intercultural requirement.

**HIST 268. History of Chinese Women. 4.** Traces the lives of Chinese women from the imperial age, when “for a woman to be without ability [was] a virtue,” through a revolutionary era (1850-1950) which broadened women’s options, to the socialist period, in which “women [were said to] hold up half the sky.” For each of these three periods, the course examines the multiple factors that shaped women’s experiences and the various ways women created a place for themselves. Fulfills intercultural requirement.

**HIST 271. Colonial Latin America. 4.** Explores Latin American history from the pre-Columbian era to independence in the early 19th century. The civilizations of the Aztec, Inca and Maya, the Spanish conquest and the formation of the colonial institutions that underlie modern Latin American reality will be examined. Focuses will also include racial, ethnic and gender relations, and the development of regional identities. Fulfills intercultural requirement.

**HIST 272. Modern Latin America. 4.** An introduction to the history of Latin America from the wars for independence from Spain through the current era of struggles over democratization and globalization. This course emphasizes the actions and ideologies of Latin Americans – hacendados and peasants; masters and slaves; immigrants and indigenous peoples; elites and workers; politicians and masses; militaries and guerillas; men and women – in making their own history. Fulfills intercultural requirement.
HIST 276. Civil War and Reconstruction. 4. Examines the Civil War and Reconstruction period broadly by paying particularly close attention to its causes and consequences nationally between 1812 and 1890. Fulfills humanities and social justice/environmental responsibility requirements.

HIST 289. The French Revolution and Napoleon. 4. Examines the French Revolution and Napoleon’s rule from 1789 to 1814, exploring origins of the revolution, its moderate and radical phases, the rise and fall of Napoleon, and the period’s legacy. The course particularly illuminates tensions between tradition and change, democracy and dictatorship, justice and terror, and political ideologies and social realities. Fulfills humanities and social justice/environmental responsibility requirements.

HIST 290. Internship. 1-4. May also be offered at the 390 level.

HIST 302. Economic History of the United States (ECON 302). 4. Examines key issues in U.S. economic history, including the emergence and spread of market institutions, the changing nature and conditions of work through different periods, the rise of big business and impact of industrial capitalism and the methods and outcomes of those who resisted these changes. Short research projects and a semester-long paper provide opportunities to engage in historical research.

HIST 303. U.S. Social History and Social Memory. 4. Study of the methods, subjects of research and critiques of U.S. social history and its public presentation in museums, historical sites and popular culture constitutes an introductory unit and frames the fundamental questions raised in this course. The central focus in course readings and student research is the historical evolution of social diversity in the United States. Fulfills humanities requirement.

HIST 308. The Underground Railroad. 4. Examination of abolitionist activity in the U.S. between 1800 and 1865, emphasizing the historical context, scope and impact of efforts by diverse peoples who helped the enslaved escape to “freedom” in the Northern states and Canada. Each student will help develop and participate in a re-enactment to illustrate how the Underground Railroad operated. Fulfills humanities and social justice/environmental responsibility requirements.

HIST 311. The U.S. since 1945. 4. Analyzes recent significant events such as the Great Depression, World War II, the Vietnam War, the Cold War and its demise, and their effects on contemporary U.S. society. The course also discusses the recent movements for social justice for African Americans, industrial and service workers, women of all classes and ethnicities, gays and lesbians, and other ethnic groups. Fulfills humanities requirement.

HIST 312. Indians in American History since 1800. 4. Traces first the relationships between American Indians and the European colonial enterprises of the late 18th century and then explores in detail Indian efforts to chart their own path within an expansive and emerging United States over the course of the 19th and 20th centuries. Among the themes are dispossession, resistance, “civilization,” ecology and resource management, meanings of tribal identity. Fulfills humanities and diversity in the U.S. requirements.

HIST 314. Immigration & a Multicultural Europe, 1800-Present. 4. This class analyzes migration and immigration in Europe as both a cause and consequence of wider historical change from the Industrial Revolution in the early 1800s, through the upheaval of the World Wars, to the ethnic clashes of the 21st century. It will examine the engines of migration:
the pull of employment, the push of poverty, the demands of terror and of war, the will of governments, and the choices of individuals. Further, it will consider how ethnicity, regionalism, nationalism, class, race and gender shaped the ability of immigrants to integrate into their new homes. Additionally, it will assess how the influx of new peoples reshaped the localities, regions and nations in which they arrived. Fulfills humanities requirement.

HIST 315. The Civil Rights Movement. 4. Critically examines the reform movement that ended legal racial segregation, secured African American voting rights and renewed the quest for political empowerment, economic reform and social justice in the United States between 1948 and 1972. Includes discussion of related movements: black nationalism, black power, women’s liberation, community control and the “war on poverty.” Fulfills humanities and social justice/environmental responsibility requirements.

HIST 319. Europe Between the Wars. 4. This course focuses on one of the most turbulent and significant periods of modern European history: the period between the two World Wars from approximately 1919 to 1939. The course will deal primarily with the Soviet Union, Germany, Italy, Great Britain and France, though students may explore other nations through independent research projects. Fulfills humanities requirement.

HIST 324. American Rivers. 4. The course uses American rivers and their watersheds as focal points to study the various ways in which people have interacted with their environments and each other. It focuses on a few specific rivers, using a case-study approach to explore the issues which all rivers face. Additionally, students select a river of their choice on which they conduct a semester-long research project. Fulfills humanities and social justice/environmental responsibility requirements.

HIST 336. The Elizabethan Age (ENGL 336). 4. This course centers on the political, religious and cultural changes in the British Isles between the reign of Henry VIII and the Glorious Revolution. Main topics of discussion include the Reformation and the Civil War (1642-45). Fulfills humanities requirements.

HIST 343. Women in Modern Africa. 4. Explores the changing roles of women in 20th-century Africa, with emphasis on Ghana and South Africa. Enrollment limited to juniors and seniors. Fulfills humanities and intercultural requirements.

HIST 383. Imperial China. 4. Explores Chinese history from the time of Confucius to the mid-19th century. Themes include the struggle for unification, the interplay between Confucian and Buddhist values, China’s relationship to nomadic peoples, the growth of despotism, social organization patterns and China’s artistic and scientific contributions to the world. Fulfills humanities and intercultural requirements.

HIST 384. China in Revolution. 4. Analyzes the causes of five revolutions in 19th and 20th century China. Topics include the impact of Western imperialism on China, peasant uprisings, the nationalist struggle for “strength and wealth,” the rise of communism and efforts to create a socialist utopia under Mao Zedong (Mao Tse-tung) (1949-1976). Fulfills intercultural requirement.

HIST 385. Medieval Japan. 4. Analyzes Japan politics, society, economy and culture from 1550 to 1850. Issues include the evolution of the samurai ethic (bushido), the warriors’ relationship to the arts, the rise of cities and a lively urban culture and changes in rural life. Fulfills humanities and intercultural requirements.
HIST 386. Japan: The Road to War. 4. Examines Japan from the 1850s, when Commodore Perry “opened” Japan, until the early 1950s, when the Allied Occupation of Japan formally ended. Issues include the impact of the Meiji Restoration on Japanese politics and society, the rise of imperialism and militarism, the Pacific War and the legacy of military defeat and foreign occupation. Fulfills intercultural requirement.

HIST 400. Research Seminar. 4. An advanced research and writing course required of all history majors. Students select their own topics and, using primary sources, engage in a semester-long project, which culminates in an oral presentation. Enrollment limited to junior or senior history majors who have successfully completed two history courses at or above the 200 level at Guilford.

HIST 470. Senior Thesis. 2-4. Research and writing of a scholarly monograph.

HIST 490. Departmental Honors. 2-4. Honors and credit with grade of B or above; credit only for grade less than B.

HISTORICAL PERSPECTIVES (HP)
(Offered by departments throughout the College)

This course focuses on historical change and how individuals and groups both initiate change and respond to social, economic and political forces. Taught by professors from across the College, Historical Perspectives courses link with College Reading and Writing in a two-semester first-year writing sequence. Course focuses include critical and research writing and responsible use of the Internet. Historical Perspectives courses are indicated with the letters “HP” at the beginning of the course title. Courses without this designation will not satisfy this requirement. This course may not double-count with Breadth, but can double-count with Critical Perspectives.

BIOL 151. HP: Evolution: An Historical Perspective. 4. An examination of the views of species origins prior to Darwin, Darwin’s theories and those of his contemporaries and the history of evolutionary theory in modern times. One of the weekly class periods will be used to give students practical experience in the methods of evolutionary study, such as techniques for determining protein all types, and examining species relationships through DNA analysis. Prerequisite: ENGL 102. Fulfills historical perspectives requirement.

ENGL 151. HP: Title Varies. 4. Prerequisite: ENGL 102. Fulfills historical perspectives requirement.

GEOL 151. HP: Climate and History. 4. Explores the roles of global climate and climate change in the evolution and development of human beings and their cultures. Topics include climate-driven migration, effects of ice ages, climate change during the last two millennia and their effects on subsistence, war, commerce and exploration and what to expect in the next century. Prerequisite: ENGL 102. Fulfills historical perspectives requirement.

HIST 101. HP: The Medieval Web. 4. This course examines the development of the medieval idea of a “Christian Empire” from the time of Charlemagne to the mid15th century. Through a close reading of contemporary texts of law, literature, religion and biography, students will explore such topics as the Papacy, Crusades, feudalism, scholasticism and medieval art. Prerequisite: ENGL 102. Fulfills historical perspectives requirement.

HIST 102. HP: The Web of Europe since 1400. 4. This course investigates the genesis and
movements of the modern period, from the Renaissance to the fall of the Iron Curtain. On the basis of contemporary documents, students will discuss such issues as nationalism, the Reformation, absolutism, religion in the Age of Reason, egalitarianism and totalitarianism. Prerequisite: ENGL 102. Fulfills historical perspectives requirement.

HIST 103. HP: U.S. Origins: From Pre-Colonial Times to 1877. 4. This course begins by studying Native American cultures before European contact as well as emerging tensions as European populations migrated westward. Students analyze why the colonists revolted against Britain, how new democratic political institutions evolved, the complex place of African enslavement and how Reconstruction-era politics and reform traditions fostered a new industrialized nation state. Prerequisite: ENGL 102. Fulfills historical perspectives requirement.

HIST 104. HP: Modern Times: The U.S. from 1877 to the Present. 4. This course analyzes how the United States became a mature industrialized consumer society, a haven for peoples from around the world, a welfare state and a global superpower. Studying both the benefits and costs of 20th century U.S. political and economic success enables students to understand some of the reasons why diverse social groups challenged the economic and political order. Prerequisite: ENGL 102. Fulfills historical perspectives requirement.

HIST 205 HP: American Imperialism, American Progressive. 4. The years 1890-1925 witnessed tremendous upheavals as America became a world power abroad while at home, reform movements flourished alongside anti-immigrant campaigns, the lynching and disfranchisement of African-Americans, a widening gap between rich and poor and a Red Scare. Students engage in a semester-long project to define this crucial era through the public writings of those who shaped it. Prerequisite: ENGL 102. Fulfills historical perspectives requirement.

HIST 212. HP: American Frontiers. 4. Defining frontiers as contested places where people met and struggled over control of natural resources, the labor necessary to exploit those resources and the right to define the boundaries of society, the course examines various frontier regions across North America from the late eighteenth century through the early twentieth. The course also focuses on the importance of the mythology of the frontier in American society up to the present. Prerequisite: ENGL 102. Fulfills historical perspectives requirement.

HIST 221. HP: North Carolina: Demographic History. 4. Explores the demographic history of North Carolina from before the European invasion to the present, grappling with the idea and definition of immigrant, foreigner and outsider, as well as with issues involving regionalism, race, class, gender, religious difference and ethnicity. Prerequisite: ENGL 102. Fulfills historical perspectives requirement.

HIST 237. HP: Europe in Revolution, 1789-1918. 4. A study of the main issues in 19th-century Western Europe—industrialization, shift from monarchy to constitutional government, growth of nationalism, socialism and imperialism—and their impact on Europe by the eve of the war in 1914. Prerequisite: ENGL 102. Fulfills historical perspectives requirement.

HIST 238. HP: War and Peace: 20th Century Europe, 1914-present. 4. This course compares different European countries and examines their relations with each other in a very ideologically driven century. While the course emphasizes politics and diplomacy, peace, war and socio-economic developments, it will also consider the history of the arts, science and technology, women, the environment, business, religion, ideas, law, culture and biography.
Prerequisite: ENGL 102. Fulfills historical perspectives requirement.

**MUS 119. HP: Music and Social Conflict. 4.** Examines a period of history that includes both the continuation of Classical/Romantic traditions and the dramatic and sometimes sudden shifts in Western musical style directly affected by world crisis. The music studied will include works from the various movements of Modernism, Neoclassicism and specific works inspired by the Holocaust. Prerequisite: ENGL 102. Fulfills historical perspectives requirement.

**MUS 152. HP: America and Its Musicals: 1900-1975 (THEA 152). 4.** Traces development of the American musical theatre from 1900 to 1975 with a primary focus on the years of significant transformation that begin in 1940. Studies the art from sociological, political, cultural, economic, artistic and historic perspectives. Analyzes individual artists and productions that have influenced and been influenced by the evolving American national identity. Prerequisite: ENGL 102. Fulfills historical perspectives requirement.

**REL 283. HP: Religions of the Minorities of Southwest China. 4.** In this Historical Perspectives class attention is given to the religious traditions of the Naxi, Tibetans, Yi, Lisu, Moso and Bai peoples of Yunnan Province in Southwest China. The Chinese “Cultural Revolution” (1966-1976), which systematically devastated the religious lives of these peoples, serves as the central historical focus of the course. Prerequisite: ENGL 102. Fulfills historical perspectives requirement.

**SOAN 216. HP: The Anthropology of Colonialism. 4.** Introduces historical anthropology by exploring the socio-cultural dimensions of European colonialism from the late 15th century to the post-colonial period. The course focuses on the colonial experience in Africa, the Americas, Asia and the Middle East, particularly from the point of view of the colonized. Prerequisite: ENGL 102. Fulfills historical perspectives requirement.

**SPST 247. HP: History of Sport. 4.** A study of the American sporting heritage and significant historical influences on it from other cultures. “Sport” in this course is used to include amateur, professional and school sports, fitness, recreation and dance. Emphasis on sport leaders and the innovations that have shaped American sport. Prerequisite: ENGL 102. Fulfills historical perspectives requirement.

**THEA 151. HP: The Birth of the Avant-Garde (ENGL 151). 4.** Traces the evolution of literary and performance styles from realism/naturalism to the avant-garde movements at the turn of 20th century Europe: symbolism, futurism, dadaism, surrealism and expressionism. Links each style to social forces, music, art, important people, ideas and watershed events. Prerequisite: ENGL 102. Fulfills historical perspectives requirement.

**THEA 152. HP: America and Its Musicals: 1900-1975 (MUS 152). 4.** Traces development of the American musical theatre from 1900 to 1975 with a primary focus on the years of significant transformation that begin in 1940. Studies the art from sociological, political, cultural, economic, artistic and historic perspectives. Analyzes individual artists and productions that have influenced and been influenced by the evolving American national identity. Prerequisite: ENGL 102. Fulfills historical perspectives requirement.
The integrative studies major allows students to design their own interdisciplinary major in a way that integrates several fields and disciplines. Such a major is based on several things: Guilford’s emphasis on the interdisciplinary character of learning; the Quaker recognition of the unique gifts of each person; and the Quaker emphasis on the responsibility of each person in the search for truth.

This major is not for everyone. It requires additional work by both the student and their faculty advisors and is suitable only for self-directed students who are actively involved in their education and able to work well on their own. A student must have a cumulative Guilford GPA of 3.25 or higher in order to apply to the program and it is considered an honor to be accepted to the program.

**Degree Offered.** The Bachelor of Arts degree is offered in integrative studies.

**Major Requirements.** Integrative studies majors complete at least 48 credit hours (usually 12 courses, equivalent to a major and a minor) in courses that constitute a coherent field of study outside traditional departmental lines. If a proposed integrative studies program can be accomplished using existing majors and minors, it will not be accepted.

At least 24 of the credits must be advanced courses (at the 300-400 level), including a two-semester culminating project during the final year that counts for eight credits. Students must earn a grade of C- or better in each of the courses in the major. An integrative studies major must also maintain a cumulative GPA of 3.25 in order to remain in the program. If the cumulative GPA falls below 3.25, a student will be allowed one semester in which to regain a 3.25 cumulative GPA before being dismissed from the program.

The Curriculum Committee approves the student as a major by accepting the application. The interdisciplinary division chair, with advice from the appropriate department chairs, approves a preliminary prospectus at the beginning of the student’s next-to-last semester and a revised prospectus at the beginning of the final semester; and participates in the evaluation and approval of the culminating project along with the student’s advisor and a consultant reader. The interdisciplinary division chair works with the student’s advisors in supporting and directing the student in the course of study.

**Specific Requirements.** It is very important for interested students to begin to consider this major as early as possible, through discussions with the interdisciplinary division chair and potential faculty advisors. A student’s application to the program must be completed and turned in to the interdisciplinary division chair by the second week after midterm break of the second semester of their sophomore year or five full-time semesters (or the equivalent) prior to their graduation date. During the remainder of this semester, the student will work with the interdisciplinary division chair to secure the approval of this application before the end of that semester. After approval by the Curriculum Committee, students will be required to complete the program in no less than five full-time semesters, either in residence at Guilford or at a Guilford-led or Guilford-affiliated study abroad program. Under no circumstances will late applications be considered.

The full application packet is available from the interdisciplinary division chair. The application includes:

- a statement articulating the nature and coherence of the field of study and why this program is necessary to achieve the student’s goals; the rationale for the courses to be
taken for the major, including the sequencing, depth and coherence of the courses; a tentative proposal for the senior project and how it serves as an appropriate culmination for the major; the relationship between the field of study and Guilford’s Five Academic Principles; and reflections on future possibilities in the field (e.g., career, graduate school);
• a program list of at least 12 courses (48 credits), distinguishing those taken and those anticipated;
• strong recommendations from at least two full-time faculty members from two different disciplines who agree to be the advisors. One advisor must commit to being the project advisor. A third letter of recommendation must come from an additional full-time faculty member who is not part of the advising team but who can speak to the student’s academic qualifications for the program;
• evidence that the student is likely to succeed in a self-designed, interdisciplinary major (e.g., students must have a minimum 3.25 grade-point average, have demonstrated ability to work independently and have strong recommendations). Evidence of ability to work independently may include internships, independent studies or research projects, prior work experience and the like.

This completed proposal is shown first to the student’s advisors, who must approve it and consider it in their recommendations. The proposal is then sent to the interdisciplinary division chair, who presents it to the Curriculum Committee. The Curriculum Committee may (and often does) ask the student to revise the proposal. The Curriculum Committee then decides whether or not to accept the student into the major. Once approval is secured, the student will be required to complete the program in no less than five full-time semesters as specified above.

**Culminating Project.** In the first semester of the final year, the student begins work on the culminating project and continues until shortly before the end of the final semester. During the first of the two semesters of project work, all materials should be assembled and read, the project should be planned and the first draft should be underway. The student submits an initial project prospectus and the endorsement of the project advisor to the interdisciplinary division chair by the end of the third week of the penultimate semester. The interdisciplinary division chair discusses the initial prospectus with the student, the project advisor and the appropriate department chairs and decides whether the senior project is an appropriate culmination for the major and is sufficiently interdisciplinary. The IDS division chair may ask for revisions or additions to the project before it is approved.

The project advisor, the interdisciplinary division chair or their representative and at least one consultant reader comprise the Evaluating Committee for the project. The consultant reader is someone whose expertise will aid in evaluating the project. He or she is selected by the student and the advisor with the IDS division chair’s consent. Students are encouraged to decide on and gain approval for the Evaluating Committee by the end of the first semester of the project and seek approval of the revised prospectus from everyone on the Evaluating Committee. They also are encouraged to consult with all members of the Evaluating Committee during the final semester.

The student must submit the final version of the project at least two weeks before the last day of classes to the Evaluating Committee. The student then defends the project before the Evaluating Committee. The committee will decide whether or not to approve the project as fulfilling the requirements of the integrative studies major. After discussing the project with the other members of the Evaluating Committee, the project advisor determines the project’s grade.

IDS

ITGR 150. Special Topics. 4. May also be offered at 250, 350 and 450 levels.

ITGR 260. Independent Study. 1-4. May also be offered at 360 and 460 levels.

ITGR 290. Internship. 1-4. May also be offered at the 390 level.

ITGR 470. Senior Thesis. 4.

ITGR 490. Departmental Honors. 4.

INTERDISCIPLINARY STUDIES (IDS)
Kyle Dell, Associate Professor, Interdisciplinary Division Chair

IDS 400 courses represent a capstone for a student’s general education at Guilford. This course will require students to engage in problem-focused, interdisciplinary learning. Topics for IDS 400 courses represent a wide variety of interests, disciplines and problem-based learning; different courses and topics are available each semester. As these courses also represent the fourth and final tier of the College’s writing program, students will be required to synthesize interdisciplinary material for a general audience through intensive writing assignments. Finally, although students may take an IDS 400 course before they have earned 88 credit hours, under no circumstances will the course satisfy the IDS 400 requirement if the student has not already completed 88 semester credits hours prior to when the course began.

IDS 402. Business Ethics. 4. This seminar course addresses current ethical issues in business and frameworks for addressing them. The main objective is for each student to discover for her/himself the core of his/her moral and ethical basis for decision-making in the workplace. The course utilizes a case-study approach to assist students in applying the principles discussed in class. Prerequisites: Minimum 88 semester credits earned and completion of Historical Perspectives requirement.

IDS 403. Culture/Travel/Writing. 4. Students examine and compare literary, anthropological, and political theories of culture and travel, as well as explore the critical, creative, and journalistic practices of late 20th/early 21st century travel writers. Two central questions the course engages are: What is travel writing, and can it be seen as a distinctive genre? How are definitions of travel and travel writing inflected by gender and influenced by particulars of cultural history and social class? Prerequisites: Minimum 88 semester credits earned and completion of Historical Perspectives requirement.

IDS 405. Quakers, Community and Commitment. 4. Draws on the disciplines of Quaker studies, religious studies, history, anthropology, sociology, and economics to explore a core Quaker testimony of community. The course introduces historical intentional communities as a preliminary to exploring contemporary religious, political, and socio-economic intentional communities. Field trips, with occasional extra fees for participation, are included. Prerequisites: Minimum 88 semester credits earned and completion of Historical Perspectives requirement.

IDS 408. East Asian Theater. 4. Study of traditional theatre of China and Japan. Examines the literary styles and theatrical conventions of Beijing opera, Bunraku, Kabuki and Noh as living metaphors of Eastern culture. Grounded in study of Buddhism, Confucianism, Taoism and Shinto. Prerequisites: Minimum 88 semester credits earned and completion of Historical Perspectives requirement. Fulfills intercultural requirement.
IDS 409. Gay, Lesbian, Queer Studies. 4. An intensive study of the literature and culture of gay, lesbian, bisexual, transgender and queer movements in 20th century American with particular focus on the intersections among queer theory, women's studies and African American studies. Prerequisites: Minimum 88 semester credits earned and completion of Historical Perspectives requirement. Fulfills social justice/environmental responsibility requirement.

IDS 410. Power, Politics and Public Schools. 4. The purpose of this course is to explore the origin and nature of inequities in American public education, and the processes through which communities have come together to address them, drawing on the lenses of the history of education, sociology of education and education organizing. Prerequisites: Minimum 88 semester credits earned and completion of Historical Perspectives requirement. Fulfills social justice/environmental responsibility requirement.

IDS 411. Gender & Development in Africa. 4. Uses interdisciplinary African ethnographic films and literature to understand the legitimacy of mainstreaming gender equality and sensitivity as fundamental values that should be reflected in development processes, choices and practices. Prerequisites: Minimum 88 semester credits earned and completion of Historical Perspectives requirement.

IDS 412. Race, Ethnicity, Psychology and Law. 4. Consists of an interdisciplinary approach to the study of African Americans and other racial/ethnic minorities as it relates to psychology and the legal system. Counts as capstone for African American studies major. Prerequisites: Historical Perspectives, PSY 100, or two courses in African American studies and minimum 88 semester credits earned and completion of Historical Perspectives requirement.

IDS 415. Understanding Eating Disorder. 4. Examines eating disorders, using multidisciplinary knowledge to deepen and broaden students’ understanding of ways in which eating disorders are, as Bordo says, “a crystallization of culture” as well as individual responses to that culture. Students will interrogate sociological, philosophical, medical and psychological literature along with personal memoir to gain understanding of disturbed eating. Prerequisites: Minimum 88 semester credits earned and completion of Historical Perspectives requirement.

IDS 416. Biotechnology and Society. 4. Examines a wide range of innovations in the area of biotechnology including immortal cell lines, transgenic organisms, gene therapy and cloning. Students will consider current and future applications of these technologies and their impact on human health, the environment and society. Prerequisites: Minimum 88 semester credits earned and completion of Historical Perspectives requirement.

IDS 417. Ethics of Capitalism. 4. Explores the historical business, economic, political and ethical foundations of capitalism, considered by some to be the “engine” for prosperity. Capitalism is both an economic and social system, in which the individual and the government assume specific responsibilities and roles. In “pure” capitalism, production and distribution are private operations; individuals exchange goods and services through markets; and they do so in order to achieve profits. Capitalism raises ethical questions about wealth and poverty, globalization, allocation of resources, utility, freedom, equality, fairness, individualism and social justice. This course provides an interdisciplinary overview of capitalism as a system and presents opportunities for students to think critically about related ethical issues. Prerequisites: Minimum 88 semester credits earned and completion of
IDS 418. **Science, Sex and Nature.** 4. Prerequisites: Minimum 88 semester credits earned and completion of Historical Perspectives requirement. Fulfills social justice/environmental responsibility requirement.

**IDS 419. Artificial Intelligence and Artificial Life.** 4. Concepts and techniques involved in building artificial systems that claim some level of intelligence or life. Exploration of the technical aspects and the philosophical and social issues involved in attempting to create intelligent and/or living systems. Prerequisites: CTIS 141 and Minimum 88 semester credits earned and completion of Historical Perspectives requirement.

**IDS 420. Athletics in Higher Education.** 4. A comprehensive and interdisciplinary study of how intercollegiate athletics operate at American colleges and universities. The course examines the impact sport has on the higher education experience for students, faculty, administrators, alumni and external constituents. Prerequisites: Minimum 88 semester credits earned and completion of Historical Perspectives requirement.

**IDS 421. Border Crossings.** 4. This course examines the concept of “the border” that has worked to exclude those seen as not properly a part of “normal” American citizenry. Using the methodology and theoretical commitments of early “outsider” and activist scholarship, the course traces more recent scholarly movements in disability theory, critical legal theory, and queer theory to examine the use of discourses of exclusion and resistance in current border controversies, such as the movement of migrant labor across the Arizona/Mexico border. Prerequisites: Minimum 88 semester credits earned and completion of Historical Perspectives requirement.

**IDS 422. The Harlem Renaissance.** 4. This critical thinking based discussion course introduces students to the “Jazz Age” from an Afro-centric perspective and explores the significance of the era to the development of the African American literary and historical traditions. We consider issues of race, gender and class and question notions of aesthetic standards. Prerequisites: Minimum 88 semester credits earned and completion of Historical Perspectives requirement. Fulfills diversity in the U.S. requirement.

**IDS 423. Ethical Issues Biology and Medicine.** 4. Explores the ethical implications of a number of recent advances in the fields of biology and medicine. The course is designed to be thought provoking, argument provoking, and mentally stimulating. Prerequisites: Minimum 88 semester credits earned and completion of Historical Perspectives requirement. Fulfills social justice/environmental responsibility requirement.

**IDS 424. Genesis.** 4. This interdisciplinary course will explore the biblical book of Genesis, an ancient multigenre work regarded as scripture by Jews and Christians, and as a foundational cultural text by champions of the idea of Western Civilization. Employing a variety of approaches to find meaning in Genesis, the course will also consider the way in which the book figures in contemporary discussions about the origins of the universe, morality and ethics, interfaith dialogue, ecology, gender, sexuality, and race. Prerequisites: Minimum 88 semester credits earned and completion of Historical Perspectives requirement.

**IDS 426. Legal Decisions.** 4. Provides an upper-division introduction to the interdisciplinary study of legal decision-making and explores the nature and scope of our rights as citizens and some of the legal principles and procedures that limit and guide interactions in the American legal system. Prerequisites: Minimum 88 semester credits earned and completion
IDS 435. Understanding Poverty. 4. Examines the underlying multiple causes and compares anthropological, sociological, political, ecological, and economic theories of poverty. Explores methodological issues in the measurement of poverty and institutional approaches to its alleviation, including both national and international development strategies. Prerequisites: Minimum 88 semester credits earned and completion of Historical Perspectives requirement.

IDS 437. Barrier Islands: Ecology & Development. 4. Focuses on coastal processes (the science of wind and waves, tides and currents), coastal habitats (from the high-energy beach to the salt marsh), and coastal problems (caused when humans attempt to control natural coastal processes in order to live on a fragile island) as seen on the barrier islands of North Carolina. The course includes a required field trip to the North Carolina coast. Prerequisites: Minimum 88 semester credits earned and completion of Historical Perspectives requirement. Fulfills social justice & environmental studies requirement.

IDS 440. The American Upper Class. 4. Examines, from an interdisciplinary perspective, the American upper class throughout the twentieth century and into the twenty first, looking at the distribution of wealth in this country, and the extent to which that distribution changed during the twentieth century. The course considers how perceptions held about upper class life, affect the lives of the vast majority of those not in the upper class. Prerequisites: Minimum 88 semester credits earned and completion of Historical Perspectives requirement.

IDS 442. International Development. 4. Uses the perspectives of history, politics, economics, geography and religion to investigate the factors that determine whether or not developing countries reap the benefits of globalization and development. The course explores the various conclusions reached by different theorists and policy-makers. Prerequisites: Minimum 88 semester credits earned and completion of Historical Perspectives requirement.

IDS 443. Leadership: East and West. 4. Analyzes and compares Eastern and Western perspectives of leadership. By using cross-cultural approaches, it examines how culture, religion, philosophy and political ideology cause different understandings of power, legitimacy and justice and therefore shape different leadership styles. Prerequisites: Minimum 88 semester credits earned and completion of Historical Perspectives requirement.

IDS 452. Cultural History of Ancient Greece from Homer to the Death of Socrates. 4. Introduces students to the history of culture in archaic and classical Greece (ca. 800-400 BCE). The methods and materials for investigating this period are interdisciplinary, drawing on literary, philosophical and historiographical sources, including Homeric epics, Greek drama and histories, and Platonic dialogues. Prerequisites: Minimum 88 semester credits earned and completion of Historical Perspectives requirement.

IDS 455. Human Sexuality. 4. An interdisciplinary study of human sexuality that draws most prominently from the academic disciplines of biology, psychology, sociology, and health education. Focused topics include male and female sexual anatomy and physiology, birth control, pregnancy and childbirth, sexually transmitted diseases, gender development & identity, and sexual orientation. Prerequisites: Minimum 88 semester credits earned and completion of Historical Perspectives requirement.

IDS 461. Nothin’ But Disasters. 4. Looks at how the natural world operates, how natural
processes such as volcanos, earthquakes, hurricanes, floods, tsunamis, landslides, meteorite impact and mass extinctions can harm humans and their works, and how we can avoid these disasters. We will use course elements include science, myth, religion, literature, film, economics and public policy. Prerequisites: Minimum 88 semester credits earned and completion of Historical Perspectives requirement.

**IDS 463. Explorations of Consciousness. 4.** Course participants will peer into individual experience, grapple with philosophical insights about the nature of consciousness and probe experimental observations about consciousness, brain and behavior, using scholarly inquiry, research, argument and introspection. Prerequisites: Minimum 88 semester credits earned and completion of Historical Perspectives requirement.

**IDS 469. Leadership. 4.** Provides students with a leadership practicum in which to assess their leadership skills and then work on developing and improving these skills. Focuses include leadership theories, leadership traits, ethics, personal/work habits and problem solving and interpersonal skills. Prerequisites: Minimum 88 semester credits earned and completion of Historical Perspectives requirement.

**IDS 472. Environmental Planning. 4.** This course is designed to give students the opportunity to apply interdisciplinary methods and tools to assess the current status of environmentally sensitive areas, to protect natural resources, ecosystems, and watersheds, and to study the management and preservation of existing green spaces. Students will also investigate current designs for the development of more sustainable communities, including urban planning strategies that relate to preservation and restoration of the environment. This course will integrate discussion of the scientific concepts that underlie environmental planning decisions, as well as local and federal policies relevant to planning issues. Students interested in closely related fields are encouraged toward in depth study in these areas, including other scientific disciplines, economics, cultural impacts, policy and law, etc. The course will include a large, applied project that will give students the opportunity to integrate and apply their disciplinary expertise to a complex environmental issue. Prerequisites: 2 laboratory sciences or permission of instructor and a minimum 88 semester credits earned and completion of Historical Perspectives requirement.

**IDS 474. Creativity, Vocation and Success. 4.** Focuses on concepts of creativity and success as they apply to a variety of disciplines and professions. Substantial academic and reflective writing are required. Additionally, all classes are held outside, in the Guilford woods, regardless of weather. Preparation for life beyond the classroom is a metaphorical and literal class goal. There are two mandatory backpacking trips with appropriate clothing required. Prerequisites: Minimum 88 semester credits earned and completion of Historical Perspectives requirement.

**IDS 475. Perceptions of Mental Illness. 4.** Develops an integrated understanding of how sociology, biopsychiatry, psychology, the general public and people with mental illness view mental illness and how these approaches can be utilized to comprehend the subject in a broad, social context. Prerequisites: Minimum 88 semester credits earned and completion of Historical Perspectives requirement.

**IDS 476. Beethoven and the Age of Revolution. 4.** The life and work of Ludwig van Beethoven (1770-1827) bridges the classical and the romantic periods. This course will compare and seek connections between the philosophical, the artistic (both musical and visual) and the historical aspects of this era. Prerequisites: Minimum 88 semester credits
earned and completion of Historical Perspectives requirement.

**IDS 477. Magic, Science and Religion. 4.** Prerequisites: Minimum 88 semester credits earned and completion of Historical Perspectives requirement.

**IDS 478. Aging and Economics. 4.** Prerequisites: Minimum 88 semester credits earned and completion of Historical Perspectives requirement.

**IDS 481. Notions of Beauty in 20th Century Culture, Art & Fiction. 4.** Examines intentions and manifestations of beauty in various cultural practices, the valuation and departure from ideal depictions in visual and textual sources and the way these conceptions come to life through the vehicles of history, sociology, contemporary art, advertising, and fiction. Prerequisites: Minimum 88 semester credits earned and completion of Historical Perspectives requirement.

**IDS 482. Ecofeminism and Environmental Justice. 4.** Examines the contributions of religion to the environmental movement and the way in which the current environmental crisis and the movement responding to this crisis are reshaping religion. Prerequisites: senior status, Historical perspectives and at least one course in women’s studies, religious studies, environmental studies, or African American, Native American, Pacific Islander/Asian-American or Latino/a studies. Exceptions only by arrangement with instructor. Prerequisites: Minimum 88 semester credits earned and completion of Historical Perspectives requirement.

**IDS 483. The Politics of Difference. 4.** Examines the production, negotiation and valuation of difference within postcolonial and liberal multicultural societies. How do societies that claim to accommodate diversity treat cultural, ethnic, racial, religious and sexual difference? Students should have some familiarity with critiques of colonialism and with social theory (ideally including post-structuralism). Prerequisites: Minimum 88 semester credits earned and completion of Historical Perspectives requirement.

**IDS 484. Democratic Law. 4.** Prerequisites: Minimum 88 semester credits earned and completion of Historical Perspectives requirement.

**IDS 485. Arab and Islamic Feminisms. 4.** Examines the nature, development and articulations of Arab and Islamic feminisms over the last 100 years. The course will explore the history of the status of women in the Arabo-Islamic world, the variations in feminist movements among various Arab and Islamic countries and the debates around Islamic feminism. Prerequisites: Minimum 88 semester credits earned and completion of Historical Perspectives requirement. Fulfills intercultural requirement.

**INTERNATIONAL STUDIES (INTR)**

Deena Burris, Assistant Professor of Business, International Studies Coordinator
Hiroko Hirakawa, Associate Professor, Department of Foreign Languages

Guilford seeks to promote and expand global awareness within the College community and to prepare students to live as citizens and leaders in an increasingly interconnected world. International education at Guilford is based upon the traditional Quaker values of tolerance and respect for diversity. The College supports a peaceful world where people who are different learn to work together toward a common human goal of harmonious coexistence. Guilford expects its students to learn to appreciate the many faces of human culture, to understand the many ways in which humankind organizes itself, and to speak in
**Degree Offered.** The Bachelor of Arts degree is offered in international studies.

**Major Requirements.** International studies is an interdisciplinary major that requires a second disciplinary major and an advisor in each. Students focus their courses, language study and abroad experience on one geographic region – Africa, East Asia, Europe or Latin America.

**Specific Course Requirements**

The international studies major requires a minimum of 32 credit hours (eight courses).

1. INTR 101 Global Perspectives 4 credits
   The international studies core course, is required of all majors. Normally taught annually in the spring semester, this class is for sophomores or juniors in the program.

2. 3. 8 credits
   Two international courses that focus on global issues and/or the approaches used in different academic disciplines to study international topics. Courses include those on the following list.

   - BUS 246 International Business Management
   - ECON 221 Macro: US in World Econ
   - ECON 335 Comparative Economic Systems
   - ECON 336 Economic and Social Development
   - ECON 432 International Economics
   - IDS 442 International Development
   - PECS 315 Human Rights
   - PECS 316 Globalization: Economics and Social Justice
   - PSCI 103 International Relations
   - PSCI 105 Comparative Politics
   - PSCI 206 Challenges of Global Democratization
   - PSCI 391 Globalization and Its Discontents
   - SOAN 103 Cultural Anthropology
   - SOAN 216 The Anthropology of Colonialism
   - SOAN 321 Development Anthropology

   Four regional courses, including one historical survey and one cultural foundations class, in one of the four geographic regions. At least two academic disciplines and at least two upper-level courses (300- and 400 level) must be included among the four regional courses.

**African Studies**

4-7. Four courses from the following: 16 credits

   - ENGL 334 African Women Writers
   - FREN 311 The Francophone World
   - HIST 241 Africa to 1800
   - HIST 343 Women in Modern Africa
   - IDS 411 Gender and Development in Africa
   - PSCI 222 African Government and Politics
   - SOAN 215 Anthropology of Slavery
   - SOAN 234 Culture and Sexuality in Africa
   - SOAN 235 African Families in Transition
   - SOAN 358 African Cultures in Film
8. FREN 220 Introduction to Literary and Cultural Analysis 4 credits

Total credit hours required for A.B. degree in international studies: African studies 32 credits

**East Asian Studies**

4-7. Four courses from the following: 16 credits

- HIST 264 The Asian Pacific in Modern Times
- HIST 266 Contemporary Chinese Society in Film
- HIST 268 History of Chinese Women
- HIST 383 Imperial China
- HIST 384 China in Revolution
- HIST 385 Medieval Japan
- HIST 386 Japan: The Road to War
- IDS 408 East Asian Theatre
- JAPN 220 Women in Modern Japan
- JAPN 221 Contemporary Japanese Society
- JAPN 310 Media, Gender and Nation in Japan
- PSCI 210 East Asian Politics
- PSCI 275 Asia and the World
- PSCI 315 Chinese Politics
- PSCI 316 China and the World
- REL 108 Spread of Buddhism across Asia
- REL 283 HP: Religions of the Minorities of S.W. China
- REL 285 Daoism
- REL 286 Buddhist Pilgrimage in East Asia
- REL 319 Buddhist Emptiness

8. JAPN 202 Intermediate Japanese II 4 credits

Total credit hours required for A.B. degree in international studies: East Asian studies 32 credits

**European Studies**

4-7. Four courses from the following: 16 credits

- ART/HIST 235 The Renaissance in Florence
- ENGL 221 British Literature I
- ENGL 222 British Literature II
- ENGL 223 Shakespeare
- ENGL 306 Medieval Literature
- ENGL 309 Early Modern Literature
- ENGL 327 British Romantic Literature
- ENGL 328 Victorian Literature
- FREN 310 Contemporary France
- GERM 310 Contemporary German Culture
- GERM 311 German Youth Culture
- GERM 320 Culture and Society: The Weimar Republic
- GERM 400 Seminar
- HIST 101 The Medieval Web
- HIST 102 The Web or Europe since 1400
- HIST 233 Medieval Civilization: Crusades and Chivalry
- HIST/REL 236 Reformation: Luther to Fox
- HIST 237 Europe in Revolution 1789-1918
HIST 289 The French Revolution and Napoleon  
HIST/ENGL 336 The Elizabethan Age  
IDS 452 Ancient Greece from Homer to Socrates  
MUS 310 Music History I  
PHIL 310 Ancient Western Philosophy  
PHIL 320 Modern Western Philosophy  
SPAN 311 Contemporary Spain  
SPAN 321 Culture and Society: Golden Age of Spain  
SPAN 323 Culture and Society: Beginnings of a Nation  
SPAN 403 Senior Seminar: Spain

8. One course from: 4 credits  
   FREN 220 Introduction to Literary and Cultural Analysis  
   GERM 202 Intermediate German II  
   SPAN 202 Intermediate Conversation and Composition

Total credit hours required for A.B. degree in international studies: European studies major 32 credits

**Latin American Studies**

4-7. Four of the following: 16 credits  
   ENGL 378 Caribbean Literature  
   ECON 336 Economic and Social Development  
   HIST 271 Colonial Latin America  
   HIST 272 Modern Latin America  
   SOAN 245 Race and Ethnicity in Latin America  
   SOAN 330 Inequality in Latin America  
   SOAN 331 Latino Migration Patterns  
   SOAN 425 Latin American Politics  
   SPAN 310 Contemporary Latin America  
   SPAN 320 Culture & Society: Mexico, Central America & Caribbean  
   SPAN 322 Culture and Society: South America  
   SPAN 340 Film, Life and Literature of Latin America  
   SPAN 402 Senior Seminar: Latin America

8. SPAN 202 Intermediate Conversation and Composition 4 credits

Total credit hours required for A.B. degree in international studies: Latin American studies 32 credits

**INTR 101. Global Perspectives.** 4. An introduction to the interdisciplinary nature of international studies, examining contemporary issues.

**INTR 150. Special Topics.** 4. May also be offered at 250, 350 and 450 levels.

**INTR 260. Independent Study.** 1-4. May also be offered at 360 and 460 levels.

**INTR 290. Internship.** 1-4. May also be offered at the 390 level.

**INTR 470. Senior Thesis.** 4.

**INTR 490. Departmental Honors.** 4.
The Department of Justice and Policy Studies offers two majors, community and justice studies, and criminal justice. The community and justice studies major focuses on policies and strategies of public service organizations. Taking an applied interdisciplinary approach, the department works with other departments and many community groups, to emphasize understanding public service organizations, problem-solving, values in public policies, civic activism and strategies for changing organizations. Graduates of the community and justice studies major have pursued graduate study and careers in urban affairs, public administration, law and related vocations. Graduates also have undertaken careers in community organizing and in nonprofit community service organizations focusing on mediation and conflict resolution, spouse and child abuse and similar issues. Many students look forward to civic activism, influencing policy in their communities, and supporting their communities through service.

The criminal justice major focuses on policies, history and problems of the American criminal justice system. Graduates of the major may choose to pursue graduate study or careers in law, urban studies, public administration, law enforcement, courts, corrections, or juvenile justice. Nonprofit community service organizations focusing on mediation, conflict resolution and spouse and child abuse are other options. Many students look forward to involving themselves in policy-making or careers in related criminal justice fields.

**Degrees Offered.** The Bachelor of Science degree in community and justice studies and criminal justice.

**Major Requirements for the B.S. in Community and Justice Studies.** The major consists of 32 credit hours (eight courses), as specified below.

1. JPS 103 Community Problem Solving 4 credits
2. JPS 262 Restorative Justice 4 credits
3. JPS 310 Public Management and Organizational Theory 4 credits
4. JPS 339 Research Methods 4 credits
5. One course from:
   - JPS 205 Juvenile Justice and Delinquency 4 credits
   - JPS 220 Community Building Fundamentals
   - JPS 244 Conflict Resolution Strategies
   - JPS 290 Internship
6. One course from:
   - JPS 301 Criminal Justice Policy and Practice 4 credits
   - JPS 313 Law and Society
   - JPS 365 Race in Criminal Justice
   - JPS 424 Trust and Violence
   - JPS 425 Family Violence
   - JPS 439 Understanding Oppressive Systems
JPS 440 Counseling

7. One course from:
   - JPS 205 Juvenile Justice and Delinquency
   - JPS 220 Community Building Fundamentals
   - JPS 244 Conflict Resolution Strategies
   - JPS 290 Internship
   - JPS 301 Criminal Justice Policy and Practice
   - JPS 313 Law and Society
   - JPS 365 Race in Criminal Justice
   - JPS 424 Trust and Violence
   - JPS 425 Family Violence
   - JPS 439 Understanding Oppressive Systems
   - JPS 440 Counseling

8. JPS 447 Basic Group Facilitation 4 credits
   (Available only to juniors and seniors completing their major.)

Total credit hours required for B.S. degree in community and justice studies 32 credits

Major Requirements for the B.S. in criminal justice. The major requires a minimum of 40 credit hours (10 courses).

1. JPS 101 Introduction to Criminal Justice 4 credits
2. JPS 200 Criminal Procedure 4 credits
3. JPS 290 Internship 4 credits
4. JPS 339 Research Methods 4 credits
5. One course from:
   - JPS 202 Law Enforcement and Police Roles
   - JPS 203 Punishment and Corrections
   - JPS 204 Courts: Prosecution and Trials

6-7. Two courses from:
   - JPS 201 Criminal Law
   - JPS 202 Law Enforcement and Police Roles
   - JPS 203 Punishment and Corrections
   - JPS 204 Courts: Prosecution and Trials
   - JPS 205 Juvenile Justice and Delinquency
   - JPS 244 Conflict Resolution Strategies
   - JPS 250 Special Topic
   - JPS/PSY 270 Interpersonal Communications

8-9. Two JPS 300 or 400 level courses 8 credits
10. One JPS course at the 400 level 4 credits

Total credit hours required for B.S. degree in criminal justice 40 credits

JPS 103. Community Problem Solving. 4. Introduces students to processes for building community, critical thinking abilities and community problem-solving skills including identifying the problem, coordinating individuals into groups and assisting the groups to
form a feasible plan for solving the problem. Fulfills business and policies studies and social justice/environmental responsibility requirements.

JPS 150. Special Topics. 4. Advanced public policy topics, studied in depth for advanced students. May also be offered at the 250, 350 and 450 levels with examination of current public policy topics, issues and problems at a sophisticated introductory level.

JPS 200. Criminal Procedure. 4. The study of due process in law; the legal procedures governing a criminal suspect’s civil rights and protections guaranteed under state and federal constitutions; the rules law enforcement officials, prosecutors, magistrates and judges have to follow in investigating crimes; and the body of law which governs the manner in which such rights and rules are to be enforced and wrongs are to be rectified in criminal cases.

JPS 201. Criminal Law. 4. Substantive law of crime and defenses. Homicide, assault and battery, burglary, crimes of acquisition (larceny, embezzlement, false premises, robbery), conspiracy, criminal agency and corporate liability, accessories, concept of failure to act and negative acts and legal causation.

JPS 202. Law Enforcement and Police Roles. 4. Survey of the police as a social institution: structure and process of police systems. Organizational and behavioral approaches to policing, with particular emphasis on the problems of maintaining public order under rapidly changing social circumstances. Fulfills business and policy studies requirement.

JPS 203. Punishment and Corrections. 4. Survey of the structure of correctional institutions, parole, probation and community-based correctional programs. Students explore various kinds of leadership and ethical challenges they are likely to encounter in a system that is designed to achieve justice and accountability. Fulfills business and policy studies requirement.

JPS 204. Courts: Prosecution and Trial. 4. The adjudication process and trial courts as social institutional law and the legal mentality, structure and processes of federal, state and local court systems, and traditional and behavioral approaches to the courts. Current problems: heavy case loads, plea bargaining, changing social norms and sentencing practices. Fulfills business and policy studies requirement.

JPS 205. Juvenile Justice and Delinquency. 4. Survey of the problems of delinquency, child abuse and neglect in contemporary society; juvenile courts and other juvenile justice agencies and institutions; prevention and treatment programs; theories of delinquency causation and treatment. Fulfills business and policy studies requirement.

JPS 220. Community Building Fundamentals. 4. An examination of community building as a foundation for peaceful coexistence and responsive leadership. Students learn about the nature of group process as they engage in the experience of building community.

JPS 230. Criminal Investigation. 4. Explores the post-crime investigation process from theoretical and practical perspectives. Topics include citizen/suspect interviewing, interrogation, evidence collection/handling, evidence admissibility and the investigation of specific major crimes. Course includes practical examinations, small projects/assignments and demonstrations by professionals.

JPS 244. Conflict Resolution Strategies. 4. Students learn about conflict resolution as a path to creative peacemaking, practice styles of communicating and ways of listening that
are deeply respectful and affirming. They also learn to integrate effective ways of awareness and being useful in the conflict resolution process and explore kinds of power and their influence on conflict.

**JPS 260. Research Problems/Independent Study. 1-4.** Opportunities for upper-level students to conduct individualized research into topics and fields of interest in which courses are not offered. May also be offered at 360 and 460 levels.

**JPS 262. Restorative Justice. 4.** Fulfills business and policy studies and social justice/environmental responsibility requirements.

**JPS 270. Interpersonal Communications (PSY 270). 4.** This course is designed to provide students with a basic understanding of the communication process and how this communication process is fundamental to the development of effective relationships. The students will learn techniques for better listening, developing trust and responding to others’ needs, as well as the rudiments of conflict resolution.

**JPS 271. Organizational Communication and Teamwork. 4.** Focuses on communication among individuals and teams in schools, businesses, government offices and other complex organizations. Students’ current setting in one such organization and their current experiences in others, provide material for examination and reflection. Perspectives from other cultures and the subcultures of class, race and gender within American society are included as appropriate.

**JPS 290. Internship. 4-8.** Supervised internship with a criminal justice, public service or volunteer agency. Required for justice and policy studies majors with no prior full-time work experience or current employment in the criminal justice system or in other public service agencies. May be repeated once with a different agency. May also be offered at the 390 level.

**JPS 301. Criminal Justice Policy and Practice. 4.** Theories from several scholarly disciplines are put into practice in dealing with criminal justice policy questions. Managerial, psychological, sociological and political-ideological theories are reviewed in their application to issues in American criminal justice, such as drug and alcohol control policy, gun control, policing strategies, correctional philosophies and death penalty questions. Fulfills business and policy studies requirement.

**JPS 310. Public Management and Organizational Theory. 4.** Study of managerial principles and the structures of public organizations, the organizational environment and processes of leadership, applying organizational theory, decision-making, planning, staffing, evaluation, internal communication and organizational change as applied in public service agencies. Fulfills business and policy studies requirement.

**JPS 313. Law and Society. 4.** Introduction to sociological jurisprudence, the legal system, legal institutions as instruments of stability and social change. Also includes law and social processes, legal decision-making, and cross-cultural comparisons of legal systems and legal values. Fulfills social justice/environmental responsibility requirement.

**JPS 320. Ethics in Justice and Policy Studies. 4.** Ethical standards and considerations for justice and public service agency officials. Examination of causes and consequences of corruption and other unethical behavior of public officials within the criminal justice system and in related agencies of government. Fulfills business and policy studies requirement.
JPS 323. Diversity at Work. 4. Explores ways in which individual and group differences influence self-perception and interpersonal communication. Increased understanding and communication skills will enable participants to work more productively with diverse colleagues and social groups. Fulfills diversity in the U.S. requirement.

JPS 333. Criminological Theory. 4. Advanced survey of criminological theory, covering sources of data about crime, the socioeconomic characteristics of both offenders and at-risk populations and the nature and theorized causes of criminal offenses.

JPS 335. Reclaiming Democracy. 4. This course examines theories of democracy in the context of specific issues, both historic and contemporary, in the city of Greensboro. Students identify and analyze pressing contemporary issues, devise strategies to address them, and present their work at a public forum at the end of the semester. Fulfills social justice/environmental responsibility requirement.

JPS 339. Research Methods. 4. An introduction to the techniques and analytic tools used to conduct research in the areas of criminal justice, public policy and related social sciences.

JPS 361. Philosophy of Law Enforcement. 4. This course is based on the premise that all police officers are philosophers and need to become better philosophers of law. This course associates the works of famous jurists with the practice of law enforcement.

JPS 365. Race in Criminal Justice. 4. Engages students in a dynamic examination of the criminal justice system and the impact of race and racism on its development. Fulfills business and policies studies and social justice/environmental responsibility requirements.

JPS 366. Justice. 4. This course will consist of a study of classical philosophical thought and its relation to justice from the early Greeks to modern theorists. These classical views will be used to analyze current events and policies of the criminal justice system.

JPS 380. Victimology. 4. Explores theories associated with crime victims as well as the historical antecedents of victimology. The course also examines the impact of various crimes on primary and secondary victims as well as society and the effectiveness of programs, laws and policies. While the course focuses primarily on the United States, victimization on a global scale will be discussed.

JPS 400. Advanced Problems. 4. Selected problem areas in the fields of criminal justice, public policy and public administration examined in depth. Problems examined vary with each offering, and have included issues involving police administration, court administration, jails and prisons, security and crime prevention, death penalty policy, coercion and justice.

JPS 424. Trust and Violence. 4. Examines ways that trust binds communities together, and violence or the threat of it prevents or destroys trust. The course draws upon applied theory, organizations effective in sustaining trusting communities and experiential learning in trust-building group processes. Fulfills business and policy studies requirement.

JPS 425. Family Violence. 4. Introduces students to five prevalent family problems: wife abuse, husband abuse, child neglect and abuse, elderly abuse and rape/sexual assault. Central to the course are examinations of causal factors, the psychology of victim and offender, societal impact, treatment and intervention strategies and the criminal justice role and processes. Fulfills social justice/environmental responsibility requirement.

JPS 437. Multicultural Communication Identities and Interaction. 4. This
interdisciplinary course draws on the theory and practice of cross-cultural communication. Participants will learn to appreciate how not only personality, but also national, ethnic, gender, age and non-dominant versus dominant social affiliation, shapes their values, identity and social interactions.

JPS 439. Understanding Oppressive Systems. 4. Students will examine the nature of the human system as it presents itself in small groups, organizations, communities and societies. They will develop a definition of just and humane systems as well as the kind of leadership needed to facilitate them. Fulfills social justice/environmental responsibility requirement.

JPS 440. Counseling. 4. This course will consist of discussion and application of various counseling models. Specific models discussed will include psychoanalysis, person-centered therapy, transactional analysis, existentialism and rational emotive therapy.

JPS 445. Police Brutality and Culture. 4. It has been clearly established through research that the lives of police officers are affected by the work they do, the pressures placed on them by the communities they serve and expectations of their superiors. This class will explore the factors influencing individual and institutional responses to these influences.

JPS 447. Basic Group Facilitation. 4. Offers an in-depth study of organizational dynamics and procedures. Students will learn the stages of organizational development and the basic facilitation practices that are useful in guiding a group through them.

JPS 470. Senior Thesis. 4-8. Major research project designed and conducted under the supervision of a faculty member. Prerequisite: JPS 339 or other research methods course.

JPS 490. Departmental Honors. 4-8.

MATHEMATICS (MATH)
G. Rudolph Gordh Jr., Professor, Chair
Elwood G. Parker, Professor
Benjamin Marlin, Associate Professor

Mathematics has been called the language of the sciences and, more broadly, the most powerful tool for the analysis of patterns across all fields of study. The main mission of the Guilford College Mathematics Department is to promote an understanding of and appreciation for this vision of mathematics. Since the power of mathematics derives from both descriptive and inferential aspects it is important to consider the possibility for its misuse while emphasizing its enormous potential for good. In practice, students are expected to participate actively in both the formulation of mathematical questions and in trying to solve them, using appropriate mathematical methods. This goal includes the understanding that students will be expected to demonstrate mastery of the basic mathematical concepts and methods relevant to the questions they are trying to solve.

Degree Offered. The Bachelor of Science degree is offered in mathematics.

Major Requirements. The major requires a minimum of 32 credit hours (eight courses) in mathematics courses or seminars numbered above 120.

1. MATH 225 Multivariable Calculus 4 credits
2. MATH 231 Foundations of Mathematics 4 credits
3. MATH 325 Linear Algebra or MATH/PHYS 320 Mathematical Physics 4 credits
4. One course from: 4 credits

120 Guilford College
MATH 335 Topology  
MATH 430 Algebraic Structures  
MATH 435 Real Analysis  
MATH 475 Seminar in Mathematics  

5. One course from:  
   MATH 310 Probability and Statistics  
   MATH 412 Discrete Mathematics II  
   MATH 415 Numerical Analysis  
   MATH 475 Seminar in Mathematics  

6-8. Three MATH courses above 120  

Total credit hours required for B.S. degree in mathematics  

Many majors emphasize a particular area of mathematics in their course work. Those emphasizing theoretical mathematics have been notably successful in graduate study at respected universities; majors who wish to prepare for graduate school should take MATH 335, MATH 430 and MATH 435.  

Other students emphasize applied mathematics in preparation for advanced study in areas other than mathematics; such majors should include MATH 310 and an advanced seminar MATH 475 on an applied topic of interest in their programs.  

Students preparing to teach mathematics in secondary schools should take MATH 235, MATH 310 and MATH 430.  

The most frequent double major with mathematics is physics; students pursuing this option should take MATH/PHYS 320 and an advanced seminar (MATH 475) on further topics in mathematical physics.  

Mathematics majors are frequently double majors. Such majors that allow students to pursue other strong interests in any other discipline and relate them to mathematics are encouraged by the department.  

MATH 103. Mathematics for Elementary School Teachers. 4. Introduction to elementary school mathematics and its fundamental underlying concepts and structure with emphasis on problem solving, logical thinking, use of conjecture and exploration with concrete materials. Does not count toward the major. Restricted to education studies majors. Prerequisite: passing score on Guilford’s Quantitative Literacy test, passing grade in MATH 110, or another math course approved by the education studies department. Fulfills quantitative literacy requirement.  

MATH 110. Mathematics for the Liberal Arts. 4. The nature of mathematics from cultural, historical and logical viewpoints, stressing relationships between mathematics and other disciplines. Recommended for humanities, fine arts and education majors. Does not count toward the major. Includes emphasis on basic quantitative skills. Fulfills quantitative literacy requirement.  

MATH 112. Elementary Statistics. 4. Descriptive statistics; probability and probability distributions; sampling and sampling distributions; confidence intervals and hypothesis testing; correlation and regression analysis. Emphasis on application and interpretation. Recommended for social science and pre-professional majors; does not count toward the major. Fulfills quantitative literacy requirement.  

MATH 115. Elementary Functions. 4. Pre-calculus analysis of algebraic, exponential, logarithmic, trigonometric and inverse trigonometric functions. Does not count toward the
MATH

major. Fulfills quantitative literacy requirement.

MATH 121. Calculus I. 4. Calculus of single-variable algebraic, exponential and logarithmic functions, emphasizing the concepts, techniques and applications of limits, differentiation and integration in both physical and geometric settings. Fulfills quantitative literacy requirement.

MATH 122. Calculus II. 4. Calculus of single-variable trigonometric and inverse trigonometric functions, with emphases as in MATH 121, but especially on integration and its applications. Numerical series. Prerequisite: MATH 121. Fulfills quantitative literacy requirement.

MATH 123. Accelerated Calculus. 4. Special course in calculus covering the content of MATH 121 and MATH 122 in one semester for students having studied calculus previously. Fulfills quantitative literacy requirement.

MATH 150. Special Topics. 4. May also be offered at 250, 350 and 450 levels.

MATH 225. Multivariable Calculus. 4. Power series and approximation. Calculus of functions of several variables including partial differentiation, multiple integration and vector analysis. Prerequisite: MATH 122 or MATH 123. Fulfills quantitative literacy requirement.

MATH 231. Foundations of Mathematics. 4. Axiomatic development of an elementary mathematical system, stressing the logical nature and structure of mathematics. Fulfills quantitative literacy requirement.

MATH 232. Infinity, Undecidability, Non-computability (PHIL 293). 4. Algorithms, mathematical logic, axiomatization, completeness, consistency, constructing the number systems, Turing machines, Hilbert's programme, the halting problem, infinities, the continuum hypothesis, Godel's theorems, formalism, intuitionism, logicism, connections with artificial intelligence. Fulfills quantitative literacy requirement.

MATH 235. Geometry. 4. Topics chosen from Euclidean, hyperbolic, elliptic, projective, affine, etc., geometry emphasizing axiomatic development and/or physical application with content dependent upon student interest and background. Especially recommended for students interested in mathematics education. Prerequisite: MATH 231 or instructor permission. Fulfills quantitative literacy requirement.

MATH 260. Independent Study. 1-4. May also be offered at 360 and 460 levels.

MATH 275. Seminar in Mathematics. 1-4. Seminars are provided to allow and encourage students and faculty members to pursue topics of mutual interest beyond the scope of regular classes. Seminars may be arranged as extensions of existing courses, as special topics courses, as undergraduate research projects or as honors projects. Students must prearrange seminars with faculty members on or before classes begin; no student may register for a seminar without prior departmental approval. Seminars carry from one to four credits and may be repeated for credit with permission of the department. Lower- and upper-level seminars in selected topics. Prerequisite: permission of the department.

MATH 290. Internship. 1-4. May also be offered at the 390 level.
MATH 310. Probability and Statistics. 4. Fundamentals of the analysis and interpretation of statistical data, theory and application. Includes descriptive statistics; probability; discrete and continuous random variables, their probability, density and moment-generating function; joint, marginal and conditional probability and density functions of several random variables; sampling distributions; estimation; hypothesis testing. Prerequisite: MATH 225. Fulfills quantitative literacy requirement.

MATH 320. Mathematical Physics (PHYS 320). 4. Introduces students to mathematical techniques of particular importance to scientists and engineers. Topics include: complex numbers, Fourier series and the solution of differential equations (with special emphasis on harmonic oscillators). Both analytical and numerical methods are studied. Prerequisites: MATH 225 or instructor permission; PHYS 122 strongly recommended. Fulfills quantitative literacy requirement.

MATH 325. Linear Algebra. 4. Introduction to systems of linear equations, matrices, linear spaces and linear transformations, including applications of these concepts to other areas of mathematics and to other fields. Prerequisite: MATH 225. Fulfills quantitative literacy requirement.

MATH 335. Topology. 4. Topics in point-set, geometric, general or algebraic topology with content dependent on student and instructor interest. Suggested for majors emphasizing theoretical mathematics. Prerequisite: MATH 231. Fulfills quantitative literacy requirement.

MATH 430. Algebraic Structures. 4. Study of algebraic structures such as groups, rings and fields and their morphisms. Suggested for majors emphasizing theoretical mathematics or interested in mathematics education. Prerequisites: MATH 231 and MATH 325. Fulfills quantitative literacy requirement.

MATH 435. Real Analysis. 4. Rigorous study of real functions including topics from limits, sequences, series, differentiation and integration. Suggested for majors emphasizing theoretical mathematics or mathematical physics. Prerequisites: MATH 225 and MATH 231. Fulfills quantitative literacy requirement.

MATH 470. Senior Thesis. 4-8.

MATH 475. Seminar in Mathematics. 1-4. Seminars are provided to allow and encourage students and faculty members to pursue topics of mutual interest beyond the scope of regular classes. Seminars may be arranged as extensions of existing courses, as special topics courses, as undergraduate research projects or as honors projects. Students must prearrange seminars with faculty members on or before the first day of classes; no student may register for a seminar without prior departmental approval. Seminars carry from one to four credits and may be repeated for credit with permission of the department. Lower- and upper-level
seminars in selected topics. Prerequisite: permission of the department.

MATH 490. Departmental Honors. 4-8.

MUSIC (MUS)
Timothy Lindeman, Professor, Department Chair
Drew Hays, Assistant Professor
Wendy Looker, Assistant Professor
Kami Rowan, Assistant Professor

The Department of Music engages students in a variety of artistic, creative, intellectual and cultural endeavors. Students benefit from a strong, interdisciplinary liberal arts base, small classes that stimulate active learning, group participation, and service to the greater community. Seminar-style settings take the place of formal lectures; strong studio teaching, repertory classes, ensemble performances, recitals, opera scenes, master classes and competitions prepare students for the application of their discipline.

A variety of academic and performance-based courses inspires and challenges the music student. The department provides numerous opportunities for both solo and ensemble performance through concerts, weekly repertoire classes, monthly Midday Musicales and junior and senior recitals. Lesson scholarship is awarded to music majors who contribute to the department community and remain in good academic standing. Private lessons, class piano and class voice, ensembles and general music classes are open to all students.

Students have opportunities to be a part of the following groups on campus: College Choir, Chamber Singers, Jazz Ensembles, Guitar Ensemble, String Ensemble, African Drumming Class and Opera Workshop.

Guilford's ability to service a variety of musical interests is evidenced through the successes of our alumni. Students with music degrees from Guilford have pursued graduate studies at competitive graduate programs at major institutions such as the Peabody Conservatory, Eastman School of Music, San Francisco Conservatory, the College Conservatory of Music at Cincinnati, Florida State and UNC-Chapel Hill. Some graduates are making a living as working musicians; others have entered the teaching field. Still others have pursued experiences with programs such as Teach for America and AmeriCorps.

The College Choir presents several major performances throughout the year focusing on both old and new gems of the choral repertoire. An auditioned ensemble of approximately 50 singers, the College Choir occasionally collaborates with the Greensboro Choral Society and the Greensboro Symphony Orchestra to perform large works such as Carmina Burana. In recent years, the College Choir, along with the Chamber Singers and Guitar Ensemble, has traveled to Washington, D.C.; Charleston, S.C.; Atlanta, Ga.; and has toured Ireland. Scholarship funding is available to singers who are elected to the Choir Council.

The Chamber Singers is a select choir of 20 singers who perform primarily a cappella literature spanning a variety of musical periods. The choir performs in a number of venues around the Guilford campus and Greensboro community in addition to the semester concerts. Auditions for both choral ensembles are held at the beginning of each semester.

The Jazz Ensembles provide young musicians the opportunity to rehearse and perform within a small combo setting. Students study and learn the techniques of improvisation as well as the style and tradition of the jazz idiom. The ensembles perform on campus and in the Greater Greensboro area throughout the academic year.
The Guilford College Guitar Ensemble is a performing group open to all classical guitarists. The ensemble's repertoire spans all musical periods and includes a variety of musical genres. The Guitar Ensemble often tours with the College Choir and performs on-campus for special events and locally with other community and College ensembles. In the past, the Guitar Ensemble has participated in the Mid-Atlantic (Virginia) and Mid-America (Illinois) Ensemble Festivals.

Other group performance opportunities available to the Guilford student include the String Ensemble, African Drumming Class, and Opera Scenes. Students also may join the community-based Greensboro Concert Band and the orchestra Philharmonia, both of which rehearse off-campus.

Degrees Offered. The Bachelor of Arts and Bachelor of Music degrees are offered in music.

Scholarships. Several scholarships are available through the Department of Music. Some of these monies are used to pay for performance studies for qualifying majors. Other scholarships are used to recognize outstanding academic achievement as well as reward students for service in the department.

Auditions. Students wishing to declare a major in music must audition to qualify. They should contact the department chair for information regarding specific repertoire requirements and to schedule an audition. Provisional acceptance can be granted to students submitting taped auditions.

The major requires a minimum of 42 credit hours:

**Major Requirements for the A.B. degree in music:**

1. MUS 101 Music Theory I 4 credits
2. MUS 102 Music Theory II 4 credits
3. MUS 201 Music Theory III 4 credits
4. MUS 202 Music Theory IV 4 credits
5. MUS 310 Music History I 4 credits
6. MUS 311 Music History II 4 credits
7. 2 credits of Class Piano: MUS 141 and 142 or A.B. piano proficiency exam 0-2 credits
8. 8 credits in private lessons: MUS 270’s and MUS 280’s* 8 credits
9. 8 credits in appropriate ensemble: MUS 120, 121, 122, 123, 124, 125, 127, 129* 8 credits
10. MUS 302 Junior Recital 1 credit

*Enrollment required every semester the student is on campus

Total credit hours required for A.B. degree in music 41-43 credits

**Major Requirements for the B.M. degree in music:**

1. MUS 101 Music Theory I 4 credits
2. MUS 102 Music Theory II 4 credits
3. MUS 201 Music Theory III 4 credits
4. MUS 202 Music Theory IV 4 credits
5. MUS 310 Music History I 4 credits
6. MUS 311 Music History II 4 credits
7. MUS 141, 142, 143, and 144 Class Piano I-IV or B.M. piano proficiency exam 0-4 credits

www.guilford.edu
8. 16 credits in private lessons: MUS 270's and MUS 280’s* 16 credits
9. MUS 302 Junior Recital 1 credit
10. MUS 402 Senior Recital 1 credit
11. MUS 210 Conducting 2 credits
12. MUS 410 Jazz Theory or MUS 450 Special Topics 4 credits
13. 8 credits in appropriate ensemble: MUS 120, MUS 121, MUS 122, MUS 123, MUS 124, MUS 125, MUS 127, MUS 129* 8 credits

*Enrollment required every semester the student is on campus

Total credit hours required for B.M. degree in music general track 56-60 credits

Additional requirements for Guitar Track
14. MUS 205 Guitar Pedagogy and Literature 4 credits

Total credit hours required for B.M. degree in music: Guitar Track 64 credits

Additional requirements for voice track
14. MUS 103 Diction I 1 credit
15. MUS 104 Diction II 1 credit

Total credit hours required for B.M. degree in music: voice track 58-62 credits

MUS 101. Music Theory I. 4. This course in basic musicianship examines the materials and structures of diatonic music: time, melody, harmony and form. Students must be able to read music; diatonic ear training and sight singing are required components of the class. Fulfills arts requirement.

MUS 102. Music Theory II. 4. A continuation of MUS 101 in which resources of the tonal system are analyzed with emphasis on seventh chords, both diatonic and chromatic. Traditional part writing is stressed; some chromaticism is introduced in ear training and sight-singing. Prerequisite: MUS 101 or instructor permission.

MUS 103. Diction I. 1. This course includes the study of articulation, phonetics, the International Phonetics Alphabet (IPA) and the application of IPA to Italian, Latin and English song texts. It is required for music majors in voice track and recommended for students enrolled in MUS 120, MUS 132 and/or MUS 272.

MUS 104. Diction II. 1. This course continues the study begun in MUS 103 and includes the application of IPA to German and French song texts. It is required for music majors in voice track and recommended for students enrolled in MUS 120, MUS 132 and/or MUS 272 Private Voice. Prerequisite: MUS 103 or permission of the instructor.

MUS 110. Jazz Appreciation. 4. Explores the many facets of jazz as a musical art form with regards to ethnicity, cultural, historical and musical evolution. Live performances in and out of the classroom enhance the experience. Fulfills arts and diversity in the U.S. requirements.

MUS 111. Music Appreciation. 4. Introductory course designed to train students in perceptive, intelligent listening. Selected representative works from plainsong through contemporary music. Fulfills arts requirement.

MUS 112. The History of Rock: From Rock and Roll to Blues, Soul and Beyond. 4. This course covers half a century of popular music, beginning with the birth of rock and roll out of rhythm and blues. We examine diverse genres, including rockabilly, blues, soul, the British
Invasion, folk and folk-rock, psychedelia, funk, singer-songwriters, classic rock, progressive rock, punk rock, New Wave, rap and indie. The evolution of popular music is linked to historical events and social trends. Fulfills arts and diversity in the U.S. requirements.

MUS 113. Music and Contemporary Culture: Reflections On the Ways Music Affects and Is Affected By Humanity. 4. Explores specific facets of music that affect and are relevant to contemporary culture. Students will be asked to question the significance of music within social structure, religion, politics, economics, education and issues of gender and race. Fulfills arts and diversity in the U.S. requirements.

MUS 119. HP: Music and Social Conflict. 4. Examines a period of history that includes both the continuation of Classical/Romantic traditions and the dramatic and sometimes sudden shifts in Western musical style directly affected by world crisis. The music studied will include works from the various movements of Modernism, Neoclassicism and specific works inspired by the Holocaust. Prerequisite: ENGL 102. Fulfills historical perspectives requirement.

MUS 120. Guilford College Choir. 1. Provides opportunities for growth, enrichment and service through quality performances that share the choral art with the College and larger communities. The choir’s repertoire includes extended choral works with orchestra as well as smaller selections in a variety of languages and styles. The choir is non-auditioned; all students with a desire to work hard, build community and explore the art of choral singing are welcome.

MUS 121. String Ensemble. 1. This course is designed for string instruments to experience playing together while studying rehearsal techniques and learning standard repertoire. This course will culminate in a performance experience each semester.

MUS 122. Guitar Ensemble. 1. The Guilford College Guitar Ensemble is a dynamic group that performs on and off campus. Weekly rehearsals include work on ensemble techniques, and a wide variety of literature ranging from renaissance to 20th century. Students involved build a strong sense of community with fellow ensemble members. Guitar Ensemble is open to music majors, students minoring in music or through an audition.

MUS 123. Jazz Combo. 1. Allows the young jazz musician to rehearse and perform within a small combo. Techniques for improvising are explored as well as the role of each instrument in the jazz tradition. Students are expected to read music and develop their soloing skills through practice.

MUS 124. Jazz Ensemble. 1. Provides musicians the opportunity to rehearse and perform within a large jazz ensemble setting. Students are expected to read music, perform within their section, and develop their soloing skills through practice. Music selections studied and performed will include jazz standards as well as new arrangements and compositions. Techniques for improvising will also be explored as well as the role of each instrument in the jazz tradition.

MUS 125. Chamber Singers. 1. A select choir of 20 singers who perform primarily a cappella literature spanning a variety of musical periods. The choir performs in a number of venues around the Guilford campus and Greensboro community. Auditions are held at the beginning of each semester.

MUS 127. Concert Band. 1. Weekly rehearsals of standard concert band literature with the Greensboro Concert Band in the Cultural Arts Centre (transportation required, carpooling www.guilford.edu
MUS 129. Orchestra. 1. Weekly rehearsals of standard orchestral literature with the Philharmonia of Greensboro in the Cultural Arts Centre (transportation required, carpooling is often available). Most performances take place in Dana Auditorium on the Guilford campus. CR/NC.

MUS 130. Guitar: Hum and Strum. 1. Designed for the beginning player who wishes to learn basic song accompaniment. Students will build a strong foundation of chordal knowledge, finger-picking patterns, right-hand technique and a general understanding of the fretboard in the first position. Students do not need to know how to read music; however, they must own their own instrument.

MUS 131. Guitar: Picks and Tabs. 1. For guitarists who play either electric or acoustic guitar and are familiar with picks and tablature notation. The class will learn pieces in the following styles: folk, country, rock and jazz. A prerequisite semester of private or class instruction is recommended and a working knowledge of chords is most helpful.

MUS 132. Voice Class. 1. This class is a prerequisite for MUS 272. Students learn healthy effective technique for solo singing in a supportive group environment.

MUS 133. Jazz Improvisation Fundamentals. 1. This course is designed for instrumental musicians seeking to develop a basic understanding of the fundamentals of jazz improvisation. Students will meet in small groups led by the instructor to practice basic jazz concepts (scales, chords, arpeggios, form, melodic paraphrase, etc). Students will learn how to create an improvisation over a set of basic chord changes using these concepts. Topics covered will be reinforced by listening to classic jazz recordings. Students will also study basics of jazz style and history as it pertains to the material covered. Students enrolled in this course must be able to read music.

MUS 134. African Drumming. 1. Learn techniques and patterns commonly employed in traditional West African cultures. The primary focus is on the djembe, but other drums are employed as well. No musical background is required. The music department has a limited number of instruments for student use.

MUS 140. Opera Workshop. 1-4. Students study, prepare and perform selected solo and ensemble literature taken from opera and musical theater. Roles are assigned on the basis of audition.

MUS 141. Class Piano I. 1. This course in group piano instruction is the first in a four-semester series of performance studies courses required for beginning piano students. Successful completion of the four-semester series, or permission of the instructor, is a prerequisite for MUS 270. Students should expect to spend approximately three hours per week of individual effort in preparation for this class.

MUS 142. Class Piano II. 1. This course in group piano instruction is the second in a four-semester series of performance studies courses required for beginning piano students. Successful completion of the four-semester series, or permission of the instructor, is a prerequisite for MUS 270. Students should expect to spend approximately three hours per week of individual effort in preparation for this class.

MUS 143. Class Piano III. 1. This course in group piano instruction is the third in a...
four-semester series of performance studies courses required for beginning piano students. Successful completion of the four-semester series, or permission of the instructor, is a prerequisite for MUS 270. Students should expect to spend approximately three hours per week of individual effort in preparation for this class.

MUS 144. Class Piano IV. 1. This course in group piano instruction is the fourth in a four-semester series of performance studies courses required for beginning piano students. Successful completion of the four-semester series, or permission of the instructor, is a prerequisite for MUS 270. Students should expect to spend approximately three hours per week of individual effort in preparation for this class.

MUS 150. Special Topics. 4. May also be offered at 250, 350 and 450 levels.

MUS 152. HP: America and Its Musicals: 1900-1975 (THEA 152). 4. Traces development of the American musical theatre from 1900 to 1975 with a primary focus on the years of significant transformation that begin in 1940. Studies the art from sociological, political, cultural, economic, artistic and historic perspectives. Analyzes individual artists and productions that have influenced and been influenced by the evolving American national identity. Fulfills historical perspectives requirement.

MUS 201. Music Theory III. 4. Beginning with the chromatic material that ended MUS 102, this course studies historic developments that led to post-romanticism and beyond. An overview of 20th-century compositional practices including impressionism, atonality and serialism is presented. Ear training and sight singing are involved with modulation and chromaticism. Prerequisite: MUS 102 or instructor permission.

MUS 202. Music Theory IV. 4. Traditional formal structures are explored and analyzed. Great works from the Western repertoire are studied both intellectually and aurally. Ear training and sight singing are involved with chromaticism. Prerequisite: MUS 201 or instructor permission.

MUS 205. Guitar Pedagogy and Literature. 4. Examines two important facets of the classical guitar. The first half of the semester explores the history of the classical guitar, its players and music. The second half deals with teaching the guitar. Students will observe lessons, compare and analyze methodologies and gain hands-on teaching experience. This class is intended for the guitar major or concentrator, but no prerequisite is required.

MUS 210. Conducting. 2. A beginning course that introduces students to the basic skills of conducting. Emphasis is placed on the mastery of conducting patterns, techniques of expressive conducting and an interpretative knowledge of musical terms. Prerequisite: must have taken or be enrolled in MUS 102.

MUS 215. Music of the World. 4. This survey studies and documents traditional music cultures from around the world including Africa, India, Japan, South America and Indonesia. Student presentations focus on other cultures of the world. Fulfills intercultural requirement.

MUS 260. Independent Study. 1-4. May also be offered at 360 and 460 levels.

MUS 270. Performance Studies in Piano. 1-2. Private instruction in foundations of piano technique, musicality and literature. Weekly lessons one-on-one occur between student and teacher for 30 minutes (1 credit) or an hour (2 credits).

jazz piano technique, musicality and literature. Focus on improvisational skills and chart-reading. Weekly lessons one-on-one occur between student and teacher for 30 minutes (1 credit) or an hour (2 credits).

MUS 272. Performance Studies in Voice. 1-2. Private instruction in foundations of vocal technique, musicality and literature. Weekly lessons one-on-one occur between student and teacher for 30 minutes (1 credit) or an hour (2 credits). Prerequisite: MUS 132 or instructor permission.

MUS 273. Performance Studies in Guitar. 1-2. Private instruction in foundations of guitar technique, musicality and literature. Weekly lessons one-on-one occur between student and teacher for 30 minutes (1 credit) or an hour (2 credits).

MUS 274. Performance Studies in Saxophone. 1-2. Private instruction in foundations of saxophone technique, musicality and literature. Weekly lessons one-on-one occur between student and teacher for 30 minutes (1 credit) or an hour (2 credits).

MUS 275. Performance Studies in Brass. 1-2. Private instruction in foundations of brass instrument (trumpet, horn, trombone, tuba) techniques, musicality and literature. Weekly lessons one-on-one occur between student and teacher for 30 minutes (1 credit) or an hour (2 credits).

MUS 276. Performance Studies in Winds. 1-2. Private instruction in foundations of wind instrument (oboe, flute, clarinet, bassoon) techniques, musicality and literature. Weekly lessons one-on-one occur between student and teacher for 30 minutes (1 credit) or an hour (2 credits).

MUS 277. Performance Studies in Bass Guitar. 1-2. Private instruction in foundations of electric bass technique, musicality and literature. Weekly lessons one-on-one occur between student and teacher for 30 minutes (1 credit) or an hour (2 credits).

MUS 278. Performance Studies in Percussion. 1-2. Private instruction in foundations of percussion technique, musicality and literature. Weekly lessons one-on-one occur between student and teacher for 30 minutes (1 credit) or an hour (2 credits).

MUS 279. Composition. 1-2. This course is designed to instruct students in the craft of classical music composition including: basic compositional techniques, theoretical concepts and study of the foundational tools of composing. Weekly lessons one-on-one occur between student and teacher for 30 minutes (1 credit) or an hour (2 credits).

MUS 280. Performance Studies in Violin. 1-2. Private instruction in foundations of violin technique, musicality and literature. Weekly lessons one-on-one occur between student and teacher for 30 minutes (1 credit) or an hour (2 credits).

MUS 281. Performance Studies in Viola. 1-2. Private instruction in foundations of viola technique, musicality and literature. Weekly lessons one-on-one occur between student and teacher for 30 minutes (1 credit) or an hour (2 credits).

MUS 282. Performance Studies in Cello. 1-2. Private instruction in foundations of cello technique, musicality and literature. Weekly lessons one-on-one occur between student and teacher for 30 minutes (1 credit) or an hour (2 credits).

double bass technique, musicality and literature. Weekly lessons one-on-one occur between student and teacher for 30 minutes (1 credit) or an hour (2 credits).

**MUS 284. Performance Studies in Jazz Improvisation. 1-2.** Private instruction in foundations of jazz improvisation technique, musicality and literature. Weekly lessons one-on-one occur between student and teacher for 30 minutes (1 credit) or an hour (2 credits). Prerequisite: MUS 133 or instructor permission.

**MUS 290. Internship. 1-4.** May also be offered at the 390 level.

**MUS 302. Junior Recital. 1.** A public performance comprised of 20-30 minutes of literature standard to the instrument/voice. The selection is determined by the applied teacher and must have departmental approval. A juried recital hearing must be passed approximately four weeks prior to the public performance. CR/NC.

**MUS 310. Music History I. 4.** Explores Western art music from ancient times through 1750. Music from the Middle Ages, Renaissance and Baroque periods is examined with an emphasis on the place of art music in society. Ability to read music is helpful. Prerequisite: MUS 101.

**MUS 311. Music History II. 4.** Explores Western art music from the classical period through the contemporary period. Music from the Classical, Romantic, Impressionist and 20th-century stylistic periods is examined with an emphasis on the place of art music in society. Ability to read music is helpful. Prerequisite: MUS 101.

**MUS 402. Senior Recital. 1.** A public performance comprised of 40-60 minutes of literature standard to the instrument/voice consisting of several stylistic periods (and languages for voice). The selection is determined by the applied teacher and must have departmental approval. A juried recital hearing must be passed approximately four weeks prior to the public performance. The student is expected to write program notes (and translations as applicable) that reflect in-depth scholarship. CR/NC.

**MUS 403. Senior Project. 2.** Under guidance of their music faculty project advisor, students research an aspect of music of special interest. For example, a student may wish to research a topic and write a thesis; another student may wish to rehearse a small ensemble and direct its performance. The project must be approved by the department approximately at least 10 weeks before the expected completion of written work/public presentation.

**MUS 410. Jazz Theory. 4.** Jazz theory explores the fundamental musical concepts of the American musical art form, jazz. Students will study jazz notation and nomenclature, jazz chord and scale structures and relationships, voice-leading and guidetones, melodic conception and melodic paraphrase, common forms, tonicization, common chord substitutions and basic reharmonization. This course is intended for students pursuing the Bachelor of Music degree. Prerequisite: MUS 202.

**MUS 470. Senior Thesis. 1-4.**

**MUS 490. Departmental Honors. 4-8.** College requirements as well as specific rules and standards may be obtained from the department chair.
PEACE & CONFlict STUDIES (PECS)
Amal Khoury, Assistant Professor, Chair
Jeremy Rinker, Visiting Assistant Professor

Peace and conflict studies is an interdisciplinary major that studies the nature of conflict and violence, the possibilities of social change and the means for resolving and transforming conflict nonviolently. The major draws on Guilford’s Quaker heritage by seeking the roots of situations of injustice and oppression, exploring nonviolent social change, emphasizing each individual’s search for truth within different levels of community and focusing on practical problem-solving.

Peace and conflict studies melds two related fields of study, conflict resolution and peace studies, in a complementary, creative interaction. It encourages an interdisciplinary, holistic relationship between personal and social change, structured modes of conflict resolution and creative nonviolent activism, careful analysis of structural violence and exploration of spiritual foundations for peaceable living and action.

Students in peace and conflict studies engage in critical analysis in several key components of the field: central concepts in peace research, the interrelation between the personal, local and global levels of conflict and possibilities of transforming conflict, theories of war and peace and methods and practices of conflict resolution, reduction and transformation. Students build skills that help them to solve problems of violence and conflict, to listen carefully and caringly to others in the midst of conflict and to contribute to organizing groups and actions concerned with social change and conflict resolution and transformation.

Degree Offered. The Bachelor of Arts degree is offered in peace and conflict studies.

Major Requirements. The major consists of a minimum of 32 credit hours (eight courses).
1. PECS 110 Introduction to Peace and Conflict Studies 4 credits
2-4. Any three PECS courses, must be taken at Guilford and at least two at the 300-400 level 12 credits
5. PECS 390 internship in the junior or senior year that builds on a student’s prior course work and incorporates peace and conflict studies analysis with site work 4 credits
6. PECS 465 Senior Seminar 4 credits
7-8. Any two additional PECS courses or approved extra-departmental courses, which are offered by other departments and contribute to the global, social or personal/interpersonal levels of peace and conflict analysis 8 credits

Extra-Departmental Courses:
Global
ECON 432 International Economics
HIST 237 Europe in Revolution
HIST 238 War & Peace in 20th Century Europe
HIST 255 The Second World War
IDS 405 Quakers, Community, Commitment
IDS 435 Understanding Poverty
PHIL 249 Pacifism and Just War Theory
PSCI 103 International Relations
PSCI 275 Asia and the World
PSCI 345 Avoiding War, Making Peace
Internship. A peace and conflict studies internship involves practical experience that focuses on social change, nonviolent intervention, conflict resolution or transformation, and/or building a culture of peace. The internship includes critical reflection on the student's experience and analysis of activities, experiences, and structures that contribute to the reduction and transformation of violence and/or the maintenance of systems of violence and domination. Students should register for PECS 390 with the director of peace and conflict studies.

Independent Studies and Senior Theses. If students have special interests that they wish to pursue that are not covered in peace and conflict studies courses, they may arrange an independent study with an interested faculty member or pursue a senior thesis. We recommend that independent studies be done in the junior or senior year.

PECS 103. Voices of Liberation. 4. Analyzes different forms that oppression and liberation take around the world, from the perspective of activists and scholars from these regions and diverse religions. Each of them articulates the complexity of each type oppression caused by a complex set of socio-cultural factors ranging from local to global, with religion sometimes serving as a tool for liberation and oppression at the same time. Fulfills humanities and social justice/environmental responsibility requirements.

PECS 110. Introduction to Peace & Conflict Studies. 4. Explores the relationship of peace and social justice to conflict resolution through the use of key concepts in the fields, such as positive and negative peace. Explores the relationship of theory and practice and introduces students to academic journals and Internet sites for peace and conflict studies, to professional organizations and practitioner/activist organizations in peace and justice and conflict intervention work. Fulfills social justice/environmental responsibility requirement.

PECS 150. Special Topics. 4. May also be offered at 250, 350 and 450 levels.

PECS 201. Mediation Training. 1.

PECS 235. Peacebuilding in Divided Societies. 4. This course explores the various methods and techniques of peacebuilding and conflict resolution that have been applied in the midst of deep-rooted conflicts in divided societies. Several case studies (such as the Israeli-Palestinian conflict; Cyprus; Northern Ireland; and South Africa) will be critically reviewed and examined to distill essential elements of peacebuilding during on-going conflict.
PECS 246. Mediation & Conflict Intervention. 4. Prepares students to be effective mediators in conflict by providing a blend of theory and practice in the models and skills of third-party intervention. Explores key concepts, analytical frameworks and different models within the ADR (Alternative Dispute Resolution) movement; includes required lab period and a weekend mediation training workshop.

PECS 260. Independent Study. 1-4. May also be offered at 360 and 460 levels.

PECS 290. Internship. 1-4. May also be offered at the 390 level. A peace and conflict studies internship involves practical experience that focuses on social change, nonviolent intervention, conflict resolution or transformation and/or building a culture of peace. The internship includes critical reflection on the student’s experience and analysis of activities, experiences and structures that contribute to the reduction and transformation of violence and/or the maintenance of systems of violence and domination. Students should register for PECS 390 with the director of peace and conflict studies.

PECS 301. Facilitation Training. 1.

PECS 315. Human Rights. 4. Provides an overview of the formulation and spread of the Universal Declaration of Human Rights. One of the course’s main goals is to develop a critical understanding of the concept of human rights by paying attention to how power operates, and avoiding conflating the need to ensure the well-being of all human and other (in the case of certain other world-views) beings with the human rights movement in its dominant form. Fulfills social justice/environmental responsibility requirement.

PECS 316. Globalization: Economics & Social Justice. 4. Examines sociological explanations for how these global and concomitant local events and structures came about, along with ethical evaluations of values that influence some of the dominant global ideologies, as well as their consequences. These analyses serve to relativize and question the assumptions and theories that claim the current global economic structures as the inevitable evolutionary stage of human society.

PECS 330. Nonviolence: Theories and Practice. 4. Non-violence is not only an alternative to taking up arms but a strategy of resistance to oppression or specific policies in the form of acts of civil disobedience. While non-violence includes these, the course aims to analyze it in all its fullness, as a way of life and spirituality that addresses certain forms of thinking and living as violent and includes nature and the rest of animal life among the subjects to be treated non-violently. Fulfills social justice/environmental responsibility requirement.

PECS 345. Social Change: Promoting Peace. 4. Explores the role of individuals and groups in social change. Specifically, it looks at the role of social identity and conceptions of justice implicit in the dynamics of individual and group conflict. By taking an interdisciplinary approach to global conflict analysis and resolution as well, its connection to the study of social movement organization, the course will focus particular attention on the role of justice and identity in conflict formation, escalation, and de-escalation. The course explores justice and identity as critical to both local and global peace. It also looks at the value commitments implicit in social change by exploring different strategic intervention models and frameworks.

PECS 363. Reconciliation and Justice. 4. This course explores the multidimensional aspects of the relationship between reconciliation and justice in a post-conflict context. The course examines case studies of reconciliation projects in several different countries to
explore the tension between the demand for reconciliation and the demand for justice as well as the challenges such tension poses for the application and design of reconciliation projects to promote sustainable peace rather than short-term settlement.

**PECS 401. Mediation Trainers Practicum. 2.**

**PECS 445. Culture, Conflict, Negotiation. 4.** Focuses on the role of culture in conflict and negotiation. Addresses different cultural approaches to conflict and the various methods of dispute resolution, particularly the different styles of negotiation applied by different cultures; explores issues of communication styles, mores, values and norms from a cross-cultural perspective.

**PECS 465. Senior Seminar. 4.** Provides a capstone experience for PECS majors. Includes independent research project built on students’ prior scholarship; a forum for sharing research; reflection, planning and preparation for next steps after graduation. This course is required for senior Peace and Conflict Studies majors. Limited to senior PECS majors or minors.

**PECS 468. Religion, Spirituality and Social Change. 4.** Analyzes the role of religion and spirituality in motivating and sustaining struggles for social change. The course aims to develop an understanding of the current thinking about the intersection between religion and conflict; an ability to comparatively articulate the practical problems encountered by social movement activists/third party professional engaged in both religious and secular attempts at peace; and an appreciation of the interconnection between the body and mind, the seen and the unseen, the sacred and the profane.

**PECS 470. Senior Thesis. 4-8.**

**PECS 490. Departmental Honors. 4.**

---

**PHILOSOPHY MAJOR (PHIL)**

Vance A. Ricks, *Associate Professor, Chair*
Jonathan W. Malino, *John A. Weisenfluh Professor of Ethics and Religion*
Nancy V. Daukas, *Professor*
Lisa J. McLeod, *Associate Professor*
Joe Cole, *Visiting Assistant Professor*

Philosophy strives to deepen our understanding of ourselves, others, and the world around us. It aims to articulate and examine our most fundamental assumptions, raising questions and encouraging reflection about generally unnoticed aspects of our everyday lives. Philosophical inquiry involves interpretation and analysis of a rich tradition of powerful philosophical texts; intensive discussion and analysis of problems, questions and theories that emerge from those texts; and probing reflection on everyday experience, human practices, and the entire range of human knowledge and study.

Philosophical inquiry requires, and enables students to develop, a wide range of skills, including reasoning, interpretative and critical reading, clarity in written and spoken expression, synthesis and analysis of information, problem solving, and appreciation of different perspectives. These skills, along with the enhanced awareness that philosophy enables us to develop, are foundational to most forms of intellectual endeavor, practical decision-making, and moral questioning. Thus philosophical training and reflection lay groundwork for any path one may choose in life.
Given the nature of philosophy, combining a Philosophy major with a second major in the humanities, the natural or social sciences, the arts, or business and policy, is an exciting and natural option, with benefit to both the breadth and the depth of a student’s studies.

**Degree Offered.** The Bachelor of Arts degree is offered in philosophy.

**Major Requirements.** The major requires a minimum of 32 credit hours (eight courses).

1. PHIL 111 Ethics 4 credits
2. PHIL 200 Informal Logic or 292 Formal Logic 4 credits
3. PHIL 310 Ancient Western Philosophy 4 credits
4. PHIL 320 Modern Western Philosophy 4 credits
5. PHIL 401 Topics in Contemporary Analytic Philosophy 4 credits
6-8. Three additional PHIL courses, at least one of which is a 300 level course 12 credits

Total credit hours required for A.B. degree in philosophy 32 credits

**PHIL 100. Introduction to Philosophy.** 4. Major philosophical problems, methods and positions, as set forth in selected historical and contemporary philosophical texts, including works by Plato, Descartes, Hume, and others. Fulfills humanities and social justice/environmental responsibility requirements.

**PHIL 111. Ethics.** 4. Chief theories of the nature and principles of the moral life, with regard to both the ends human beings seek and the obligations which claim their commitment. Fulfills humanities and social justice/environmental responsibility requirements.

**PHIL 150. Special Topics.** 4. Recent examples include Philosophy of Science, Free Will and Moral Responsibility. May also be offered at 250, 350 and 450 levels.

**PHIL 200. Informal Logic.** 4. General aspects of reasoning and argumentation, including inferences, evidence and the construction and evaluation of arguments.

**PHIL 221. Philosophy of Religion.** 4. Reason and religion: proofs of God’s existence, faith and reason, the problem of evil, morality and religion, religious language. Fulfills humanities requirement.

**PHIL 231. Philosophy and Sexuality.** 4. Inquiry into the relationship between values and sexuality. Topics include pleasure, love, homosexuality, prostitution, monogamy, and sexual perversion. Fulfills social justice/environmental responsibility requirement.

**PHIL 232. Philosophy and Gender.** 4. Interrelated topics in the metaphysics and phenomenology of gender. Questions include: What is it to be a woman or man? How do Western conceptions of gender affect individual experience? How do other aspects of peoples’ identities (e.g., race, sexuality) enter the conversation? How do individuals move beyond harmful gender stereotypes? Fulfills humanities and social justice/environmental responsibility requirement.

**PHIL 241. Computer Ethics.** 4. Ethical questions connected with computer technology. For example: What is distinctive about ethics in this context? How do digital media force people to reconsider longstanding notions of “ownership” and “theft”? How do computer technologies reflect or undermine the values of privacy and anonymity? How does electronic communication change one’s understanding of what it means to be human? Fulfills humanities and social justice/environmental responsibility requirements.
PHIL 242. Environmental Ethics. 4. Exploration of environmental topics from several theoretical, cultural and religious perspectives. Questions include: What are our responsibilities to the environment? To what extent are these responsibilities affected by the interests of other persons or groups? What is the source of these responsibilities and to whom are we obligated? Fulfills humanities and social justice/environmental responsibility requirements.

PHIL 247. Philosophy of Law. 4. Conceptual analysis and moral evaluation of laws and legal systems: the nature and validity of law, law and morality, the obligation to obey the law, law and judicial decision-making, criminal responsibility and the nature of punishment. Fulfills humanities and social justice/environmental responsibility requirements.

PHIL 249. Pacifism and Just War Theory. 4. Examines conditions under which violence, and especially war, may be morally justified; distinctions between war and other forms of armed conflict; and philosophical and spiritual foundations of pacifism. Includes discussion of particular wars in which the U.S. has been engaged, including World War II and the war on Iraq. Fulfills social justice/environmental responsibility requirement.

PHIL 260. Independent Study. 1-4. May also be offered at 360 and 460 levels.

PHIL 261. Philosophy and Race. 4. Examines race and racism, exploring the relationship between liberal ideas of freedom and equality and the reality of group exclusion. Key questions include: What conception of race will do justice to individuals' experience of social realities while avoiding scientific errors? What conception of race and racism are needed in order to help dismantle systemic racism? Fulfills humanities and social justice/environmental responsibility requirements.

PHIL 290. Internship. 1-4. May also be offered at the 390 level.

PHIL 292. Formal Logic. 4. Methods, foundations and philosophical implications of using symbolic languages to evaluate deductive reasoning.

PHIL 293. Infinity, Undecidability, Non-computability (MATH 232). 4. Algorithms, mathematical logic, axiomatization, completeness, consistency, constructing the number systems, Turing machines, Hilbert's programme, the halting problem, infinities, the continuum hypothesis, Godel's theorems, formalism, intuitionism, logicism, connections with artificial intelligence. Fulfills quantitative literacy requirement.

PHIL 310. Ancient Western Philosophy. 4. Historical development of philosophical thought in Western civilization in terms of the main periods and thinkers of ancient Greek philosophy. Prerequisites: Historical Perspectives, and at least one prior philosophy course. Fulfills humanities requirement.

PHIL 320. Modern Western Philosophy. 4. Major developments of Western philosophical thought in the 17th and 18th centuries, emphasizing philosophical inquiry into metaphysical systems and problems of knowledge. Prerequisites: Historical Perspectives, and at least one prior philosophy course. Fulfills humanities requirement.

PHIL 333. Individual Philosopher. 4. Intensive study of the works of an individual philosopher (e.g., Maimonides, Plato, Spinoza, Kant, Nietzsche, Mill, James) whose thought has had a lasting influence on Western philosophy. Prerequisite: Historical Perspectives.

PHIL 336. Social and Political Philosophy. 4. Principal theories of the foundation of
PHIL 375. Topics in the Philosophy of Mind. 4. Topics include The Mind-Body Problem, The Emotions and The Self. Prerequisite: Historical Perspectives. Fulfills humanities requirement.

PHIL 376. Topics in the Theory of Knowledge. 4. Course will cover such topics as belief, skepticism and theories of knowledge. Historical and contemporary readings on the nature and sources of knowledge, justification, rationality and skepticism. Prerequisite: Historical Perspectives. Fulfills humanities requirement.

PHIL 377. Philosophical Perspectives on Psychology. 4. Conceptual, theoretical and normative issues arising from the intersection of thinking about freedom and the self, including internal freedom, self-deception, self-respect, weakness of will and autonomy as moral right and character ideal. Prerequisite: Historical Perspectives.

PHIL 401. Senior Seminar in Philosophy. 4. Main developments in 20th-century analytic philosophy with emphasis on philosophy of language, epistemology and metaphysics. Capstone course for the major.

PHIL 470. Senior Thesis. 4-8.

PHIL 490. Departmental Honors. 4-8.

PHYSICS (PHYS)

Thomas P. Espinola, Glaxo Wellcome Professor of Physics, Chair
Steven S. Shapiro, Associate Professor
Donald A. Smith, Assistant Professor

Physics is the study of how the Universe works. From the smallest of sub-atomic particles to the largest clusters of galaxies, physicists try to take apart the pieces of reality and observe how they fit together. When a piece of the puzzle fits into place in your understanding, the world around you looks different. From this understanding, one can see more clearly the dance of nature and the rules that govern it.

Physics students at Guilford come from a variety of backgrounds and have a broad spectrum of interests and career goals. About one third of our physics majors plan for employment in a technical field immediately after graduation. Another third pursue graduate study in physics or astronomy. The remaining third go on to advanced study in another field. The common thread connecting the different goals and focuses of our students and faculty is the physicist’s approach to thinking about, modeling, and understanding the universe. This process relies on clear, analytical, and often abstract thinking but is ultimately grounded in concrete reality as exposed by experiment. These skills are of value in not only science and engineering but also business, law, medicine, and many other endeavors.

To embrace the diverse interests of our student population, the physics curriculum is flexible and personalized. We emphasize research and experimentation throughout our program, allowing students to follow their interests. In introductory courses, students learn to work with equipment, quantify experimental uncertainties, and hone their scientific writing. The experimental physics sequence stresses laboratory techniques, cooperative research, and clear, thoughtful presentation of results. In this sequence of courses, students
design experiments, act as principal investigators, write journal articles, and give talks for peer review. In short, they learn how to perform self-directed research. This research experience culminates in a thesis project that must be original and designed by the student. The program thus provides a coherent developmental process that gives students the skills they need to succeed.

**Degree Offered.** The Bachelor of Science degree is offered in physics.

We offer the following tracks:

- B.S. in physics for students pursuing employment in a technical field
- B.S. in physics for students preparing for graduate study
- B.S. in physics for students preparing for graduate study in astrophysics
- B.S. in physics for students preparing for engineering

*Note: PHYS 101, 106, 107, 108, 109, and 461 do not apply toward major or minor.*

**Major Requirements**

The major requires a minimum of 36 credit hours (nine courses). Course work in mathematics is required to prepare students for courses in physics. Course work in chemistry is also required for the pre-engineering track.

1-2. Two courses from: 4 credits

- PHYS 231 Experimental Physics I
- PHYS 232 Experimental Physics II
- PHYS 331 Experimental Physics III
- PHYS 332 Experimental Physics IV

3. PHYS 370 Physics Research - 1 4 credits
   Research or an internship in engineering required for the pre-engineering track

4. PHYS 470 Senior Thesis or PHYS 490 Departmental Honors Thesis 4 credits

5-9 24 credits of additional Physics courses including 24 credits

   - The technical track requires one 400 level theory course 4 credits
   - The graduate study track requires three 400 level theory courses 12 credits
   - The astrophysics track requires PHYS 210, PHYS 443, and two additional 400 level theory courses 16 credits
   - The pre-engineering track requires one 400 level theory course and at least two of PHYS 202, PHYS 226, and PHYS 324 12 credits

Total credit hours required for B.S. degree in physics 36 credits

**Scholarships and Research Awards**

To recognize superior work in physics, the department annually offers the E. Garness Purdom Scholarship to a rising senior physics major. The department also offers three awards to support student research — the Michael Jeglinski Physics Award, the Winslow Womack Research Award, and the Adelberger Research Award. Physics majors are also eligible for the Glaxo-Wellcome Women in Science Scholarship, awarded annually to an outstanding rising junior woman science major, and the E.G. Purdom Memorial Award for Women in Physical Science.

**PHYS 101. Physics for Nonscientists (variable title).** 4. Introductory course, intended for students with limited mathematical background and centered on one of several topics such as an in-depth look at the physics of energy or a survey of modern physical thought. The
PHY 106. Surveying the Sky. 4. This course, which is intended for non-science majors with limited mathematical background, will cover topics selected from naked-eye astronomy, stellar astronomy, galactic astronomy and cosmology. Fulfills natural science and mathematics requirement.

PHY 107. The Solar System. 4. This course covers the physical description of the planets, their satellites, the sun, asteroids and comets, with a strong emphasis on recent information from landers and fly-by probes. This course includes discussions of how science is known, learned and taught, which will be of interest to future teachers and others who may wish to combine work with students and science. Fulfills natural science and mathematics requirement.

PHY 121. Classical and Modern Physics I. 5. For physics majors and others interested in physics. This course is not a survey but an introduction to the thinking and analysis processes of physics, with classroom and laboratory topics chosen from modern and classical physics to emphasize the skills needed to think like a physicist. To prepare for PHYS 122, students should plan to take MATH 121 concurrently with PHYS 121. Fulfills natural science and mathematics requirement. Fall.

PHY 122. Classical and Modern Physics II. 5. For physics majors and others interested in physics. This course is not a survey but an introduction to the thinking and analysis processes of physics, with classroom and laboratory topics chosen from modern and classical physics to emphasize the skills needed to think like a physicist. Prerequisites: PHYS 121 and MATH 121. Fulfills natural science and mathematics requirement. Spring.

PHY 150. Special Topics. 4. May also be offered at 250, 350 and 450 levels.

PHY 210. Observatory Practice. 4. For physics majors and others interested in learning to use the J. Donald Cline Observatory at Guilford. The course includes astronomical background drawn from solar system, stellar and extra-galactic astronomy but the emphasis is on the use of the equipment, methods of data acquisition and analysis of results. Fulfills natural science and mathematics requirement.

PHY 211. College Physics I. 4. For science majors and other interested students whose mathematics background includes algebra and trigonometry. This survey of physics includes mechanics, energy, thermodynamics, electricity and magnetism, optics, wave motion and modern physics. Fulfills natural science and mathematics requirement. Fall.

PHY 212. College Physics II. 4. For science majors and other interested students whose mathematics background includes algebra and trigonometry. This survey of physics includes mechanics, energy, thermodynamics, electricity and magnetism, optics, wave motion and modern physics. Prerequisite: PHYS 211. Fulfills natural science and mathematics requirement.
requirement. Spring.

**PHYS 223. Classical and Modern Physics III.** 4. The final semester of the introductory physics sequence. Topics are chosen from modern and classical physics to complement those discussed in PHYS 121 and PHYS 122. Prerequisite: PHYS 122 or instructor permission. Fall.

**PHYS 226. The Physics of Solids.** 4. A theoretical analysis of the modern theories of solid materials, the course begins with the classical models of the mechanical, thermal and electrical properties of solid materials, then introduces the quantum mechanical band gap model, the Debye model and the BCS/Cooper pair model in examining solids’ thermal and electrical properties.

**PHYS 231. Experimental Physics I.** 2. Intermediate-level laboratory course to develop experimental design and measurement techniques, data reduction and analysis methods and oral and written presentation skills. Experiments vary as equipment and technologies evolve. Prerequisite PHYS 122 or instructor permission. Fall.

**PHYS 232. Experimental Physics II.** 2. Intermediate-level laboratory course to develop experimental design and measurement techniques, data reduction and analysis methods and oral and written presentation skills. Experiments vary as equipment and technologies evolve. Prerequisite: PHYS 122 or instructor permission. Spring.

**PHYS 251. Portfolio Development I** Variable credits. Students will contract with the faculty members regarding the nature and extent of the project including number of pass-fail credits. Several students may choose to work together on the same or related material. CR/NC.

**PHYS 252. Portfolio Development II.** Variable credits. Students will contract with the faculty members regarding the nature and extent of the project including number of pass-fail credits. Several students may choose to work together on the same or related material. CR/NC.

**PHYS 260. Independent Study.** 1-4. May also be offered at 360 and 460 levels.

**PHYS 290. Internship.** 1-4. May also be offered at the 390 level.

**PHYS 320. Mathematical Physics (MATH 320).** 4. Introduces students to mathematical techniques of particular importance to scientists and engineers. Topics include: complex numbers, Fourier series and the solution of differential equations (with special emphasis on harmonic oscillators). Both analytical and numerical methods are studied. Prerequisite: MATH 225 or instructor permission; PHYS 122 strongly recommended. Fulfills quantitative literacy requirement.

**PHYS 324. Thermophysics.** 4. The thermal properties of matter are studied from the applied approach of thermodynamics and the theoretical analysis of statistical mechanics. Topics include the laws of thermodynamics, equations of state, first order phase transitions, partition functions, entropy and the quantum statistics of particles. Prerequisites: MATH 225, PHYS 223 or instructor permission. Spring.

**PHYS 331. Experimental Physics III.** 2. Advanced laboratory course to improve experimental design and measurement techniques, data reduction and analysis methods and oral and written presentation skills. Experiments vary as equipment and technologies evolve.
PHYS

Prerequisite: PHYS 232 or instructor permission. Fall.

PHYS 332. Experimental Physics IV. 2. Advanced laboratory course to improve experimental design and measurement techniques, data reduction and analysis methods and oral and written presentation skills. Experiments vary as equipment and technologies evolve. Prerequisite: PHYS 232 or instructor permission. Spring.

PHYS 353. Portfolio Development III. Variable credits. Students will contract with a physics faculty member regarding the nature and extent of the project including number of pass-fail credits. Several students may choose to work together on the same or related material. CR/NC.

PHYS 354. Portfolio Development IV. Variable credits. Students will contract with a physics faculty member regarding the nature and extent of the project including number of pass-fail credits. Several students may choose to work together on the same or related material. CR/NC.

PHYS 370. Physics Research. 1-4. The presentation of independent research projects completed during summers (e.g. the National Science Foundation–sponsored Research Experience for Undergraduates) or industrial internships. Students who are unable to undertake research at other institutions may design and complete their research on campus under the guidance of Guilford faculty.

PHYS 420. Mathematical Physics II. 4. Mathematical topics of importance to students interested in theoretical physics are studied. Content varies depending on the background and interests of the students. Topics considered have included partial differential equations, Bessel functions, boundary value problems, the heat flow equation, the Poisson equation and wave equations. Both analytical and numerical solutions are studied. Prerequisite: MATH/PHYS 320. Offered based upon demand.

PHYS 421. Mechanics. 4. The study of forces and energy and their effect on the motion of particles. Topics include the motion of a particle in a force field, the dynamics of rigid bodies, the detailed study of damped, forced and coupled oscillators. Newtonian and Lagrangian formulation of mechanics as well as computational methods of solution will be studied. Prerequisites: PHYS 223, MATH/PHYS 320 or instructor permission. Offered in alternate years.

PHYS 422. Electromagnetism. 4. The study of the theory of electric and magnetic fields and their interactions with matter. Topics include the use of vector calculus, Gauss’s law, Ampere’s law, diamagnetism, multi-pole fields and the law of Biot-Savart. Prerequisites: PHYS 223 and MATH/PHYS 320 or instructor permission. Offered in alternate years.

PHYS 423. Quantum Mechanics. 4. The study of the theory of the interaction of particles, waves, and fields in atomic and subatomic systems. Topics include the Schrödinger formulation, operator formalism and perturbation theory. Prerequisites: PHYS 223, MATH/PHYS 320 or instructor permission. Offered in alternate years.

PHYS 441. Advanced Modern Physics. 4. Topics in applied modern physics including the hydrogen atom and other atomic systems, nuclear physics, condensed matter and elementary particles. Prerequisites: PHYS 223 and MATH/PHYS 320 or permission of the instructor. Offered in alternate years.

PHYS 442. Advanced Classical Physics. 4. Advanced topics in classical mechanics and
Topics may include Hamiltonian mechanics, motions of particles in non-inertial reference frames, the Maxwell equations, electromagnetic radiation and the dynamics of relativistic particles and electromagnetic fields. Prerequisites: PHYS 421, PHYS 422 and MATH/PHYS 320 or instructor permission. Offered based upon demand.

**PHYS 443. Astrophysics. 2-4.** The study of the application of physics to astronomical systems. Topics may include stellar structure and evolution, energy generation and nucleosynthesis, the interstellar medium, radiative transfer and degenerate stars. Prerequisite: instructor permission. Offered based upon demand.

**PHYS 455. Portfolio Development V. Variable credits.** Students will contract with the faculty members regarding the nature and extent of the project including number of pass-fail credits. Several students may choose to work together on the same or related material. CR/NC.

**PHYS 456. Portfolio Development VI. Variable credits.** Students will contract with the faculty members regarding the nature and extent of the project including number of pass-fail credits. Several students may choose to work together on the same or related material. CR/NC.

**PHYS 461. Physics Research Seminar. 1.** All students writing theses or doing other research within the physics department are required to take this course in which students and faculty exchange suggestions, ideas, and insights into their research. Fall and spring. CR/NC. Students may take this course more than once and may count up to four credits of Physics Research Seminar toward graduation.

**PHYS 470. Research, Thesis and Defense. 4.** Independent research projects that culminate, with guidance, in a well-defined research thesis. The thesis must be presented both orally and in writing. The thesis should be written in the standard form for technical papers in physics as currently set forth in Volume 10 of the *Journal of Undergraduate Research in Physics*. Students are encouraged to present their papers at NCUR or another appropriate conference. Fall and spring.

**PHYS 480. Physics Department Seminar. 0.** All students taking PHYS 122 or above (except PHYS 211 and PHYS 212) are required to attend the physics department seminar. During the semester, each student will give presentations on some aspect of the physics work on which he or she is currently working. Fall and spring.

**PHYS 490. Departmental Honors. 4.** Although enrollment is normally during the fall of the final year, the student is expected to begin work during the intermediate years on independent research projects that will culminate, with guidance, in a well-defined research thesis. The thesis must be presented both orally and in writing. The thesis should be written in the standard form for technical papers in physics as currently set forth in Volume 10 of the *Journal of Undergraduate Research in Physics*. Students are encouraged to present their papers at NCUR or another appropriate conference.
The Department of Political Science prepares students for engaged citizenship. “Engaged citizenship” in this context means not merely to understand or to manage the effects of political events and governmental actions on society, but also to evaluate and seek to shape them. We do this by providing our students with the knowledge, intellectual and practical skills, values and experiences necessary to fulfill their responsibilities as members of an effective and diverse civil society. More specifically, the department sets the following goals for the A.B. degree in political science: to provide a skills-based education for citizenship, government employment, and public service; to provide politically literate students the tools with which to influence their communities through public service and socially beneficial work; to train future governmental leaders and employees; and to prepare students for successful graduate work.

**Degree Offered.** The Bachelor of Arts degree is offered in political science.

**Major Requirements.** The major requires a minimum of 40 credit hours (nine courses plus the capstone experience course).

**Required Core Courses**
1. PSCI 101 The American Political System 4 credits
2. PSCI 103 International Relations 4 credits
3. PSCI 105 Comparative Politics 4 credits
4. PSCI 106 Classics in Political Thought 4 credits
5. PSCI 230 Politics of Problem Solving 4 credits

**Elective Courses**
6-7. Any two PSCI courses, internships, independent studies 8 credits
8-9. Any two 300-400 level PSCI courses 8 credits

**Required Capstone Experience**
10. PSCI 465 Senior Independent Project, PSCI 470 Senior Thesis or PSCI 490 Senior Honors 4 credits

Total credit hours required for A.B. degree in political science 40 credits

It is recommended that majors complete PSCI 101 and PSCI 103 prior to taking PSCI 230, and that all core courses be completed before taking upper level elective courses. Of the 16 elective credits, at least eight must be from 300 level courses or above. Majors may want to focus their elective credits in an area of particular interest in order to provide more in-depth knowledge of one of the particular sub-disciplines of political science: American politics/public policy and administration; international relations; comparative politics or political theory/political analysis. The core courses serve as a foundation for upper-level courses within each of the four tracks.
Areas of Study

American Politics/Public Policy and Administration. This track focuses on governmental and policy dynamics and debates within the United States. Students are exposed to the organization and behavior of the institutions, groups and participants in the American political arena. Students in this track investigate various public policies and political behaviors from a broad array of governmental and non-governmental institutions. Study in this track equips students for graduate studies in American politics and public policy and provides a foundation for careers in American government, teaching, or other public policy sectors.

Recommended elective courses: PSCI 204, PSCI 225, PSCI 301, PSCI 305, PSCI 317, PSCI 318, PSCI 319, PSCI 335, PSCI 355, PSCI 365, PSCI 389.

International Relations. International relations focus on the manner in which states and other actors interact in the global arena. The track exposes students to a wide variety of methods-approaches, and substantive concerns. This track equips students for graduate studies in international affairs and provides a foundation for careers in international business, diplomacy, or other public policy sectors. Students interested in this track may also double-major in international studies or complete a minor in African, East Asian or Latin American studies. Language courses are essential in this regard and thus, are strongly encouraged.

Recommended elective courses: PSCI 275, PSCI 316, PSCI 330, PSCI 345, PSCI 350, PSCI 366, PSCI 391.

Comparative Politics. The goal of comparative politics is to equip students with the concepts and methods of research necessary for understanding the enormity of contemporary political, economic and social changes, and to elucidate their significance. Students will apply practical research methods to examine policy processes and outcomes in different nations—in areas such as industry, education, health care, housing and social security. Other issues covered within the comparative politics track include political and economic development, the relationship between economic development and democratization, reform and revolution. Students interested in this track may also double-major in international studies or complete a relevant minor. Language courses are essential in this regard and thus are strongly encouraged.

Recommended elective courses: PSCI 206, PSCI 210, PSCI 222, PSCI 315, PSCI 350.

Political Theory/Political Analysis. Political theory challenges students to confront the full history of political thought in order to sharpen and focus their analytical skills and to develop for themselves standards of judgment through which they can assess the relative merits of political systems and public policies. To this end, students in this track pursue coursework and independent study in the following areas: the history of political ideas (such as freedom, obligation, justice, power, and democracy); interpretation of political texts; and normative approaches to persistent political issues and problems. This track equips students for graduate study in political science and law as well as for various careers in community service and public policy.

Recommended elective courses: PSCI 240, PSCI 305, PSCI 364, PSCI 367.

Departmental Honors in Political Science

Majors must enroll in PSCI 465 Senior Independent Project or PSCI 470 Senior Thesis. Upon completion of PSCI 470, students may petition the department to grant Departmental Honors (PSCI 490). Requirements for Departmental Honors include: a grade-point average of 3.50 or better in the discipline and a 3.00 or higher cumulative
grade point average. Departmental Honors requires extensive reading in a selected area of the discipline and submission of a 50-60 page thesis that includes: a) substantial scholarly literature review; b) proposed research methodology; c) type of analysis; d) schedule; and e) an explanation of how this project will contribute to the body of knowledge. The honors program culminates in an oral examination evaluated by three members of the faculty, two of whom must be from the department, and an outside examiner. Students interested in pursuing Departmental Honors must consult with the department in the student’s junior year in order to develop an approved proposal (generally spring semester, junior year). Students pursuing a Senior Thesis or Departmental Honors will then successfully complete a PSCI 460 Independent Study in the fall semester of senior year, which will serve as a research semester in preparation for writing a senior thesis or honors thesis in spring semester of the student’s senior year.

Internships and Independent Study. Students may apply only up to eight credits from any internship, independent study or teaching assistantship toward the major. These credits may not fulfill the two 300 level course requirements for the major. Many students elect to do an internship or independent study related to their political science studies. Students may participate in internships located in Greensboro, such as private law offices and local government agencies. Students may also elect to participate in The Washington Center or The Capitol Experience internship programs in Washington, D.C., or state-based internship programs such as the Institute of Government and the North Carolina Government programs. We strongly encourage students to engage in internships. Students interested in pursuing an internship or independent study must obtain approval of a full-time faculty member of the department to serve as a sponsor. Approval of internships or independent studies is at the discretion of the departmental faculty.

Internship Requirements: In order to qualify for an internship, students must have: a) completed at least two of the five core courses; b) a 3.0 or better grade-point average within the department, and c) submitted one-page proposal for the instructor's approval to include: 1) learning objectives, 2) check points, 3) evaluation criteria and 4) schedule. Requirements for completing an internship include: five-20 pages of writing (depending upon the number of credits) of the internship that addresses the learning objectives listed in the proposal and that conforms to the standards and conventions of the discipline. Students are responsible for meeting all deadlines and submitting all paperwork for an internship on time; failure to do so will result in a failing grade for the internship.

Independent Study Requirements: In order to qualify for an independent study (including teaching and research assistant positions), students must have at a minimum: a) completed five core courses; b) a 3.0 or better grade-point average within the department. Requirements for completing an independent study include: five-20 pages of writing (depending upon the number of credits allowed) that conforms to the standards and conventions of the discipline or appropriate alternative work, as determined by the professor. Students are responsible for meeting all deadlines and submitting all paperwork for an independent study on time; failure to do so will result in a failing grade for the independent study.

Accepting AP Credits. Incoming political science majors who have a score of 4 or higher on the Advanced Placement Test for American Government or Comparative Government & Politics are given credit for having taken PSCI 101 The American Political System or PSCI 105 Comparative Politics, respectively.

PSCI 101. The American Political System. 4. An introductory course designed to explain the basic processes and issues of the American political system. A particular emphasis will
be placed on citizenship and public participation within a democracy. Fulfills social science requirement.

**PSCI 103. International Relations. 4.** An introductory course designed to provide the basic theoretical tools and frameworks of analysis for understanding the behavior of states and other actors in the international system. Topics include the use of force, U.S. foreign policy, the causes of war and peace, the global political economy and resource and environmental issues. Fulfills social science requirement.

**PSCI 105. Comparative Politics. 4.** An introductory course designed to introduce students to the methods and approaches to comparative analysis and apply them to the study of ideologies, political behaviors, social movements and revolutions, political economy and political regimes that have played a role in the formation of the contemporary world. Fulfills social science and intercultural requirements.

**PSCI 106. Classics in Political Thought. 4.** An introductory course designed to critically analyze great works that reflect the fundamental themes and assumptions of Western political thought. Fulfills social science and social justice/environmental responsibility requirements.

**PSCI 150. Special Topics. 4.** A recent topic offered is Global Inequality, an interdisciplinary exploration of the relationship between economic development and income equality. This course examines the various explanations for the gap between rich and poor countries in the international system, as well as income inequality within specific developing countries. May also be offered at 250, 350 and 450 levels.

**PSCI 204. Public Policy and Administration. 4.** An examination of the public policy process, including policy formulation, implementation and analysis. Attention will be paid to the issues of leadership, finance and personnel administration in government and nonprofit organizations. Fulfills social science requirement.

**PSCI 206. Challenges of Global Democratization. 4.** Examines issues and challenges relating to democracy and democratization in a variety of historical and contemporary settings cross the world. The course uses the basic principles, theories, conceptual tools and comparative methods of political science to understand the underlying drivers of democratization and the various paths that countries go through on the road to democracy. Fulfills social science and intercultural requirements.

**PSCI 210. East Asian Politics. 4.** An introduction to the political systems of East Asian countries. While examining a broad background of history and culture in comparative perspective about East Asian countries and its influence on shaping contemporary political systems, this course investigates political culture, political institutions and processes and the impact of modernization, ideology, the role of political elites and social dynamics. Fulfills intercultural requirement.

**PSCI 222. African Government and Politics. 4.** This course is designed to provide students with a basic understanding of African governments and their policies and of the relationship of Africa with the rest of the world. Fulfills intercultural requirement.

**PSCI 225. The American Presidency. 4.** An examination of the office of the presidency, including its constitutional and political underpinnings; the selection process; presidential policymaking; relationships to other branches of government and the public; and participation in foreign affairs.
PSCI 230. Politics of Problem Solving. 4. An overview of the politics of problem-solving, from problem-definition to public policy. This course examines the ways that “problems” get defined in the political arena, from political psychology (why do people believe what they believe?) to institutions (what incentives encourage defining problems in certain ways?). Strategies for solving political problems are also examined.

PSCI 240. American Political Thought. 4. An examination of some classic expositions of the moral foundations of American politics, with the intention of discovering what it means to be an American. Fulfills social science requirement.

PSCI 260. Independent Study. 1-4. May also be offered at 360 and 460 levels. Reading programs, tutorials or field projects arranged between a student and a faculty member; schedules and nature of the work to be accomplished at the discretion of the instructor. For a complete list of prerequisites, please see the detailed independent study description under major.

PSCI 275. Asia and the World. 4. An introduction to international relations among Asian countries. This course examines how domestic politics, political culture, history and social changes in these countries shape, and how they are shaped by, international politics in the region. Particular emphasis on the dynamics of great power relations and Cold War and post-Cold War competition in Asia. Fulfills intercultural requirement.

PSCI 290. Internship. 1-4. Recommended for all majors. Details to be arranged between a student and a faculty member; schedules and nature of the work to be accomplished at the discretion of the instructor. For a complete list of prerequisites, please see the detailed internship description under major.

PSCI 301. Politics of State and Local Government. 4. Examines the relationships between local, state and federal governments and major institutional players, as well as the major issues facing municipal governments. Various state and local government officials will share their perspectives with the class.

PSCI 305. Politics of Gender. 4. This upper-level, writing-intensive course provides an opportunity to critically examine the role of gender in politics. Many still consider politics to be a gender-divided world. To be discussed are the ways that people use gendered categories to make political decisions, as well as the ways that gender intersects with other major political categories such as race, class and sexuality. Fulfills social justice/environmental responsibility requirement.

PSCI 315. Chinese Politics. 4. Examines Chinese political history, political ideology, political institutions, political processes as well as some key issues in Chinese politics, providing a comprehensive introduction to developments since the Communist revolution. Fulfills intercultural requirement.

PSCI 316. China and the World. 4. Examines China's contemporary international relations and the major military, political and economic elements of Chinese foreign policy in the context of their development since 1949. Fulfills intercultural requirement.

PSCI 317. The American Founding. 4. Studies the way in which some of the most celebrated features of American government became either settled questions or continue to be debated today. Topics examined include the proper balance between governmental branches, the relationship between citizens and their representatives, the key role of elections
in American politics and the contentious role of democracy in American political life. Fulfills social justice/environmental responsibility requirement.

PSCI 318. Environmentalism in Early America. 4. This course examines the complex dialogue between nature and politics in the United States during the late 19th and early 20th century. It will focus on the complicated links between material circumstances, ideas and politics, which affected the physical context of the American environment and the changing experience of American life. Fulfills social justice/environmental responsibility requirement.

PSCI 319. Modern Environmental Problems. 4. Examines the complex emergence of the American environmental movement as a response to the historical, political and socio-economic patterns following World War II. Students will analyze environmental policies in response to specific and varied problems such as pollution, species protection, urban sprawl and management of national parks. Fulfills social justice/environmental responsibility requirement.

PSCI 330. Global Power and Wealth. 4. An exploration of competing explanations for the changing relationship between political and economic power in international relations. Substantively, the course focuses on trade, finance, investment and debt and development issues. Fulfills social science requirement.

PSCI 335. America and the World. 4. Examines the historical context of U.S. foreign policy since World War II: the Cold War, Korea, Vietnam, collapse of the U.S.S.R., post-9/11; the individuals, institutions and processes involved in making and implementing foreign policy; and contemporary foreign policy issues and challenges—e.g., Middle East conflict, terrorism, WMD, nuclear proliferation, covert action, peacekeeping, democratization, human rights and globalization.

PSCI 345. Avoiding War, Making Peace. 4. The aim of this course is to gain a better understanding of the conditions and processes that lead to international war and peace. This will be accomplished through a combination of theoretical and historical analysis.

PSCI 355. Constitutional Law and Civil Rights. 4. Examines a series of political controversies in which at least one—and usually more than one—side makes a claim on the basis of rights. Controversies examined include property rights, First Amendment rights, rights in times of crisis, the rights of the accused and the right to vote as well as rights-based assertions on behalf of the disabled, women and the unborn. Fulfills social justice/environmental responsibility requirement.

PSCI 364. Race, Ethnicity and Politics. 4. Examines several theories about race and ethnicity. Among these theories are ideas about how race and ethnicity shape our political identities. The goal of the course is to use a variety of theories and methodologies in order to develop a critical understanding of the complexities of race and ethnicity, with an emphasis on race and ethnicity in the United States. Fulfills diversity in the U.S. requirement.

PSCI 365. Terrorism in America. 4. Examines terrorism committed by groups within the continental U.S. to include their organization, motivation, tactics and weapons—including weapons of mass destruction. Also examined are the government’s efforts to combat terrorism to include challenges to Constitutional rights and freedoms. Fulfills social justice/environmental responsibility requirement.

PSCI 366. Global Terrorism. 4. Examines political, religious, cultural, criminal and state-
sponsored terrorism from a global perspective to include motivations, weapons and tactics as well as the response to terrorist violence by the international community and national governments. Fulfills social justice/environmental responsibility requirement.

PSCI 367. Violence and Politics. 4. This writing-intensive, upper-level course is an exploration of the theoretical and actual connections between violence and politics. After a brief foray into political psychology, we will examine and critique the views of several political theorists. We will end the class by analyzing specific violent events in light of these theories. Fulfills social justice/environmental responsibility requirement.

PSCI 391. Globalization and Its Discontents. 4. Analyzes the impact of trade, financial flows, technology and regional integration on the domestic politics of advanced and emerging countries. Case studies include the European Union and western European states, the United States, Japan and Brazil.

PSCI 405. Departmental Seminar. 1-4. Reading and discussion of recent contributions to political science.

PSCI 465. Senior Independent Project. 4. Serves as a departmental independent study pass/fail capstone course. Majors must complete a major independent project/research proposal on an agreed upon topic as directed by a faculty member. This course is intended to foster students’ integration and synthesis of the discipline, further develop and assess student competencies and problem-solving skills, and enhance students’ preparation for careers and post graduate education. Prerequisite: PSCI 230. CR/NC.

PSCI 470. Senior Thesis. 4.

PSCI 490. Departmental Honors. 4. For a complete list of prerequisites, please see the detailed departmental honors description under major. Prerequisite: PSCI 230 and a specific PSCI 460 the previous semester.

PRINCIPLED PROBLEM SOLVING (PPS)
Mark Justad, Director, Center for Principled Problem Solving

PPS 110. Introduction to Civic Engagement. 2. Explore the concept of civic engagement and survey the status of civic initiatives and social movements across the U.S.. Seminar format, includes community engagement hours requirement and self-assessment of skills and expertise.

PPS 111. Civic Engagement Explorations. 2. Further consideration of civic engagement and what is required of citizens in a healthy democracy. Seminar format, includes community engagement hours requirement. Prerequisite: PPS 110 or permission of instructor.

PPS 150. Special Topics. 4. May also be offered at 250, 350 and 450 levels.

PPS 210. Practices and Narratives. 2. The course explores the first and second tiers of the Principled Problem Solving curriculum, PPS Foundations and PPS Practice. The first tier, Foundations, is brought into focus by examining critical and creative modes of thinking. Course readings that highlight these ways of thinking have been selected and class exercises
and assignments challenge students to understand and practice them in new ways. The second tier of the PPS curriculum, *Practice*, is introduced through readings and case studies presented by Guilford faculty from several disciplines. This class is limited to students in the PPS Scholars Program.

**PPS 211. Change, Innovation and Impact. 4.** This course explores Principled Problem Solving through an extended examination of organizations and the individuals who make them work. The class will read materials that examine the nature of organizations that seek social change and innovation using a variety of methods and resources. Particular attention will be given to studying what makes organizations effective in accomplishing social change, innovation and impact. In addition, the class will focus on issues and concerns related to ethics and leadership within the selected organizations and beyond. Students are required to undertake 50 hours of assigned fieldwork for this course. The class is limited to students in the PPS Scholars Program.

**PPS 260. Independent Study. 1-4.** May also be offered at 360 and 460 levels.

**PPS 290. Internship. 1-4.** May also be offered at 390 level.

**PSYCHOLOGY MAJOR (PSY)**

Eva K. Lawrence, *Associate Professor, Chair*
Richard L. Zweigenhaft, *Charles A. Dana Professor of Psychology*
Kathrynn A. Adams, *Charles A. Dana Professor of Psychology*
Karen Hayes, *Associate Professor*
Karen M. Tinsley, *Associate Professor*
Sarah Estow, *Assistant Professor*
Christopher Henry, *Assistant Professor*
Julie Jacks, *Visiting Assistant Professor*

Psychology students at Guilford are challenged to recognize the role of multiple causation in the determination of human behavior. Why do people do what they do? How do personality, culture, biology and ethnicity affect perceptions and behavior?

The psychology curriculum provides opportunities for students to investigate current methods and theories in personality, social interaction, learning, motivation, perception and human development.

Students are encouraged to appreciate different approaches and points of view and to understand how clinical and laboratory methods supplement each other.

A student majoring in psychology can expect to develop rigorous habits of observation with reference to psychological phenomena; to develop statistical knowledge; and to grasp the often complex interplay of theory, observation, research and analysis.

Our recent graduates have obtained positions in mental health, education, research, and administration. Some continue on in graduate school in psychology or social work, and others have taken a completely different route such as environmental studies, writing, or politics. The program fosters critical thinking and writing skills that are valuable to a wide variety of graduate programs and careers. Our students gain insight into how people think and behave as well as an appreciation for individual and cultural differences. The knowledge and skills they acquire will serve them well both personally and professionally.

**Degree Offered.** The Bachelor of Arts degree is offered in psychology.
PSY

Major Requirements. The major requires a minimum of 32 credit hours (eight courses).

1. PSY 100 General Psychology 4 credits
2. PSY 301 Research Methods and Analysis 4 credits
   (will not be accepted as transfer credit and may not be taken at a consortium school)
3. PSY 445 History and Contemporary Issues 4 credits
   (will not be accepted as transfer credit and may not be taken at a consortium school)
4-5. At least two PSY courses at any level (except PSY 303) to meet the 8 credits
5-6. Three 300 or 400 level PSY courses (except PSY 303) 12 credits

Total credit hours required for A.B. degree in psychology 32 credits

PSY 301 should be taken no later than the fourth psychology course unless a student
transfers three or four psychology courses to Guilford. In the latter case, PSY 301 should be
taken as the second psychology course a student takes at Guilford.

Of the remaining five courses, three must be at the intermediate or advanced level (300
and above). Majors should consult with their departmental advisors regarding the selection
of their courses. Interested students are encouraged to consider the possibility of a double
major. A list of alternative plans and detailed course sequences for pursuing a major may be
obtained from the student’s advisor or any other member of the department.

Field experiences are strongly encouraged. Recent majors have received credit through
internships for activities such as work in the community with autistic; with developmentally
delayed and emotionally disturbed children; with the elderly; with children at the YWCA
and a local shelter for homeless families; and with such organizations as Alcohol and Drug
Services of Guilford County, Moses Cone Memorial Hospital Rehabilitation Unit, Pathways
Family Shelter, Triad Health Project and the Women’s Resources Center.

Similarly, the department encourages students to pursue their interests through
independent studies in specific topics not offered as regularly scheduled courses. Should
a student wish to undertake original research, the department offers assistance toward
presentation of papers at professional meetings and/or publication. The department offers
guidance toward graduate training.

PSY 100. General Psychology. 4. Introduction to the science of behavior including study of
motivation, learning and remembering, the brain, perception and thinking, social processes
and developmental behavior disorders. Fulfills social science requirement.

PSY 150. Special Topics. 4. May also be offered at 250, 350 and 450 levels. Recent offerings
include The American Upper Class and Family Ghosts. Prerequisites vary.

PSY 213. Class, Race and Gender. 4. The study of socioeconomic class, race and gender
and the complex ways that these three interact. Fulfills diversity in the U.S. requirement.
Offered once a year.

PSY 224. Developmental Psychology. 4. Psychological aspects of human growth and
development from conception through death, with emphasis on emerging capacities,
expanding behavior and increasingly complex social interactions. Includes field work.
Fulfills social science requirement.

PSY 232. Introduction to Personality. 4. The study of personality from a variety of
perspectives; emphasis on different theories, techniques of assessment and research. Fulfills
social science requirement.
PSY 241. Mass Media. 4. The study of mass media, including the impact of mass media on the ways people conceptualize the world, and the impact of mass media on human behavior. The course will look at a variety of media, including books and magazines, television, radio, film and the Internet. Offered once a year.

PSY 242. Psychology of African Americans. 4. The study of African Americans from a psychological point of view, with emphasis on theories, research and models as they pertain to African Americans. The course examines a variety of issues, such as: ethnic identity, personality traits, nonverbal communication, racism, mental health and the legal system. Fulfills diversity in the U.S. requirement. Offered once a year (in the fall one year and in the spring the next).

PSY 260. Independent Study. 1-4. May also be offered at 360 and 460 levels. Intensive reading and/or independent research on a topic of interest to the student. By departmental approval.

PSY 270. Interpersonal Communications (JPS 270). 4. Using an experiential learning laboratory approach, this course provides students with a solid theoretical foundation for understanding interpersonal communication, the internal dynamics that lead individuals to construct meaning and the skills needed to maintain effective relationships of all kinds.

PSY 290. Internship. 1-4. Field experiences which are individually arranged so that students can become directly involved in work within the community. Highly recommended for all majors. May also be offered at the 390 level.

PSY 301. Research Methods and Analysis. 4. Application of methods for collecting and analyzing behavioral science data and for drawing inferences from such data. Prerequisites: PSY 100, Historical Perspectives and Quantitative Literacy.

PSY 303. Research Methods and Analysis Practicum. 4. This practicum is designed to supplement and expand on course material covered in PSY 301. It is strongly recommended that students enrolled in PSY 301 also enroll in the practicum during that semester. The activities in the practicum should deepen students’ understanding and increase their familiarity with methods and statistics used in psychological research. Ethical issues involved in research in psychology will be discussed throughout the course. Does not count toward the psychology major or minor. CR/NC.

PSY 332. Industrial and Organizational Psychology. 4. Application of psychology to problems of employee selection, motivation, training, work environment and human relations in business, industry and other organizations. Prerequisite: PSY 100.

PSY 337. Child and Adolescent Psychopathology. 4. Childhood and adolescent problems encountered by clinical psychologists, special education teachers, social workers, counselors and school psychologists examined in the context of normal child development. Emphasis is on psychological factors in deviant and disturbed behavior and treatment procedures. Includes field work. Prerequisite: PSY 100 or PSY 232. Alternate years.

PSY 340. Psychobiology (BIOL 340). 4. Study of behavior from a biological point of view. Focus on the structure and function of the nervous system and on the relationships between behavior and the nervous system. Co-requisite: laboratory work. Prerequisites: either two courses in biology or one course in biology and one course in psychology. Alternate years.

PSY 341. Psychotherapy. 4. Studies psychotherapy’s theoretical foundations and the www.guilford.edu 153
therapist’s practical skills. The course will explore four to six therapeutic approaches in depth. The therapies chosen will vary each semester, as will the focus on individual, group, family or child modalities. Prerequisites: PSY 100, PSY 224 or PSY 232. Alternate years.

**PSY 342. Abnormal Psychology. 4.** Adult psychopathology studied in the context of modern life; genetics, socio-cultural milieu and learning in the development and amelioration of behavioral abnormality. Prerequisite: PSY 100 or PSY 232.

**PSY 343. Sensory Systems (BIOL 343). 4.** Detailed study of each of the major sensory systems, including the anatomy and physiology of each system, an analysis of the stimulus and measurements of sensory abilities. Laboratory work. Prerequisites: either two courses in biology or one course in biology and one course in psychology. Alternate years. Fall.

**PSY 344. Environmental Psychology. 4.** Study of the impact of human knowledge, attitudes and behavior on environmental problems and their solution. Prerequisite: PSY 100 or ENVS 100. Fulfills social justice/environmental responsibility requirement. Alternate years.

**PSY 346. Learning and Behavior Modification. 4.** Theory and application of principles of conditioning and complex learning, including principles of reinforcement and stimulus control. Includes consideration of biological influences on the range of learned behaviors as well as introduction to cognitive approaches. Prerequisite: PSY 100. Alternate years.

**PSY 347. Social Psychology. 4.** Factors affecting the behavior of the individual in the social setting; laboratory and field research in social interaction. Prerequisite: PSY 100 or PSY 232.

**PSY 349. Multiculturalism and Psychology. 4.** Examines various areas in which multiculturalism has been applied, such as education, mental health and counseling and inter-group relations. Students investigate cultural differences in development, examine cultural and personal identity and explore ways of improving relations among cultures. Prerequisite: PSY 100. Fulfills diversity in the U.S. requirement.

**PSY 351. Psychology and Gender. 4.** Variable title. Repeatable.

**PSY 352. Psychology of Language. 4.** This course will cover the psychological aspects of language use. We will spend time discussing, among other things: language acquisition, language production and comprehension, the dynamics of interpersonal communication, and the relationship between language and thought. Additionally, we will touch on issues of memory, mental representation, and neuroscience as they relate to the study of language. Prerequisite: PSY 100.

**PSY 445. History and Contemporary Issues. 4.** Selected theoretical and methodological issues of contemporary psychology viewed in historical perspective. Prerequisites: PSY 301 and senior standing.

**PSY 470. Senior Thesis. 4.** Major research project designed and conducted under the supervision of a faculty member.

**PSY 490. Departmental Honors. 4-8.**
RELIGIOUS STUDIES (REL)
Max Carter, Adjunct Professor, Chair
Eric D. Mortensen, Associate Professor
Parveen Hasanali, Assistant Professor
Jill Peterfeso, Visiting Instructor

Religious studies at Guilford explores the mystery and meaning of our existence as selves in the many aspects of the social and natural world. We seek to nurture wonder, insight, clear and creative thinking, to understand humanity’s destructive ways with others and the environment and to imagine ways of mending the world. We want to open heart and mind to the sacred and the problematic in our world today and historically. The burning issues we address are forms of social oppression and environmental destruction, the nature of the divine and the human condition, the development and practice of religious traditions and the meaning of the religious.

We aim to draw forth leadership potential in all students to enable them throughout their lives to be change agents wherever they find themselves, overcoming injustice and engendering the fullness of life. The Quaker context of Guilford is fundamental to our ways of teaching. All classes expect and enable students to discover the resources within to engage truth and to take responsibility for their learning and living in this world in ways that foster peace, simplicity, integrity, equality and community.

Education in religious studies begins from where each student is, descends to the radical center and draws forth each student’s energies of creative, critical and ethical responses in personal engagement with the multifarious issues of religious studies. Our teaching intends both to challenge and support the process of learning as mind-expanding and transforming. We work intensely on developing capacities of thinking orally and in writing, of listening and of working together as well as in solitude. We do this not only for self-development and to know truth, but for the good of the community of being.

Religious studies employs many methodologies, such as the theological, philosophical, historical, ethical, literary, psychological, socioeconomic and anthropological. Exploring religion is inherently interdisciplinary; we consider the interconnections in all our courses and require one explicitly interdisciplinary course for the major. We emphasize careful interpretation of significant works from a variety of religious and ethical traditions. Our faculty offer courses in diverse areas of study including Biblical Studies, Christianity/theology, Islamic Studies, Tibetan and Himalayan Religions, Ethics and Comparative Religion. Our global context includes the West, the Middle East, the Far East, Latin America and indigenous peoples. The formats for learning emphasize seminar discussions, supplemented with individual reading and writing and student collaboration, lectures, role-playing, film analysis and internships for social service and social action.

The careers our majors enter upon after graduation, often after circuitous journeys, are quite diverse—teaching, law, service and social work, the ministry, counseling, religious education, art, business, government and non-governmental organizations.

Courses are offered at different levels, each of which has specific expectations and goals. The 100 level courses are introductory, designed for first-year and sophomore non-majors. They are accessible to entering first-year students.

The 200 level courses are advanced introductory courses that function as core courses for the major. They are designed to serve as initial courses in the department for sophomores, juniors, seniors and for beginning majors. Majors normally take several courses at this level.

The 300 level courses are designed for majors and for upper-level students with a strong interest in the subject matter and a background in the humanities. 300 level courses are

www.guilford.edu
designed primarily for majors and assume at least one course in religious studies. Courses are usually offered in a seminar format that requires active participation by all class members. Majors should have several 300 level courses.

The 400 level courses are small seminars that usually examine one or a few thinkers or issues in depth. They are designed for advanced majors or, by permission, exceptionally interested and qualified non-majors.

**Degree Offered.** The Bachelor of Arts degree is offered in religious studies.

**Major Requirements.** The major requires a minimum of 33 credit hours (nine courses).

Total credit hours required for A.B. degree in religious studies:

**REL 100. Religion, Dreams and the Dreaming.** 4. This cross-cultural course will consider the religious role of the dream as initiatory experience, metaphor for aboriginal time, gateway to the other world, venue for the divine guide, healing event, “royal road” to the unconscious and prophetic harbinger of the personal or collective future. This is an introductory course, and no previous academic experience in religious studies is expected or required. Fulfills humanities requirement.

**REL 108. Spread of Buddhism Across Asia.** 4. The course begins with a study of the life of the Buddha, the early formation of Buddhism and the Mahayana reformation, then shifts to its major focus: study of the diffusion of Mahayana Buddhism across Central Asia and China, and into Japan and Korea. Fulfills intercultural requirement.

**REL 109. QLSP Freshman Seminar.** 1. CR/NC

**REL 110. Quakerism.** 4. Origins and development of the theology, social testimonies and institutional structure of the Quaker movement from the mid-17th century to the present, and their relevance to non-Quaker thought and life. Fulfills humanities requirement.

**REL 120. American Nature Writing (ENGL 228).** 4. Examines literary nature writing in America from the 19th century to the present, with a primary focus on the different ways writers have presented the natural world as sacred. Writings consider both our current estrangement from the natural world and possibilities for developing intimacy with the earth through a deep sense of “place.” Fulfills humanities and social justice/environmental responsibility requirements.

**REL 150. Special Topics.** 4. May also be offered at 250, 350 and 450 levels. Possible
offerings include Sufism; Gendered Spiritualities; Music in the Muslim World; Exodus from Moses to Bob Marley; Feminine Images in Biblical and Christian Literature; Social Reform and Personal Therapy; 19th and 20th century American Religion and Mysticism.

REL 161. Religion in the New Media. 4. Religion is in the news. It informs our perspectives and feeds our search for answers to many ethical questions about how individuals construct meaning and relevance in daily life. The quick answers to burning questions are often sought by the click of a button. New and emerging media renditions inform religion as much as religions permeate life. Fulfills the humanities requirement.

REL 171. Rumi and Revolution. 4. This course will seek to study Rumi in primarily aesthetic terms by an examination of his own works and that of his companion, Shams Tabriz. The Rumi that has been recovered through the lens of western poets is also reclaimed by his compatriots in Afghanistan, Iran and Turkey. This study will also examine how current works by Turkish writers like Orhan Pamuk and Elif Shafak stake their claim in their modern fictional renditions of the life and times of Rumi. Fulfills humanities and intercultural requirements.

REL 200. Native American Religions. 4. An advanced introduction to the religion of several Native American tribes, such as the Cherokee, Sioux, Crow and Navaho. Explores the world-views/myths, rituals (including art, dance and music) and the life-ways of these different cultures. Also focuses on the long interaction between American white cultural imperialism and the religions of these indigenous people. Fulfills the humanities and diversity in the U.S. requirements.

REL 204. Islam. 4. Introduces the Islamic religion in its various aspects, including its origins, cultures, rituals, beliefs and practices. The course aims to provide a holistic analysis of Muslim civilizations by exploring some aspects of their rich and diverse contributions through historical and current expressions. Fulfills humanities and intercultural requirements.

REL 208. Hinduism. 4. Addresses the religions of India, primarily Hinduism, which is a way of life emphasizing practice more than doctrine; therefore, we look at the lives of people through narratives. We also address the thought and concomitant social systems forming the framework for its acceptance of diverse and often contradictory beliefs and practices. Fulfills intercultural requirement.

REL 209. QLSP Sophomore Seminar. 1. CR/NC

REL 215. Hebrew Bible/Old Testament. 4. The Hebrew Bible occupies a unique position in relation to the conventional dichotomies between modernity and tradition, East and West. This course will explore the “book” and the contradictions that envelop it, examining the Bible as a multifaceted compilation of ancient Hebrew (and Aramaic and Greek) literature and considering its various roles in contemporary life. Fulfills humanities requirement.

REL 216. New Testament. 4. Explores the literature of the New Testament, emphasizing the manner in which each writer tries to express an understanding of the person and work of Jesus in relation to the early Christian community. Fulfills humanities requirement.

REL 222. Feminist Theologies. 4. An exploration of 19th- and 20th-century feminist religious and theological writers. Considers such issues as the role of religious systems both in establishing and sustaining sexism and in being agents of transformation and justice; sexism and God-language; patriarchal and egalitarian views of human nature; women and
ritual; and feminist views of society. Fulfills humanities and social justice/environmental responsibility requirements.

REL 230. Comparative Religious Ethics. 4. This course explores the varieties of ethical concepts in different religions, while teaching how to think critically about the applicability of “ethics” as a category and showing how many ethical concepts including notions of “truth” often reflect multiple “truths” in the narratives of the religions, cultures and societies. Fulfills humanities and social justice/environmental responsibility requirements.

REL 234. African American Religion and Theology. 4. This introductory course examines African American Christianity both chronologically and thematically from slave religion to the present and various expressions of Islam in U.S. Black communities during in the same period of time. It also pays attention to West African influences and to other religious expressions among African Americans, e.g. Judaism, Buddhism and Humanism. Fulfills humanities and diversity in the U.S. requirements.

REL 236. Reformation: Luther to Fox (HIST 236). 4. The course is designed to introduce students to a basic understanding of events and ideas of the Reformation era in Europe, ca. 1517 to 1660. A focal point of our readings will be the reformers’ view of the relation between political and ecclesiastical authority. Fulfills humanities requirement.

REL 240. History of Christianity. 4. A one-semester survey of the history of the world Christian movement focusing on four centuries (4th, 12th, 16th, 19th). The course combines three approaches, history of institutions, history of spirituality and history of ideas, and pays close attention to the relationship between religion and culture and the social context of Christian churches. Fulfills humanities requirement.

REL 260. Independent Study. 1-4. May also be offered at 360 and 460 levels. The individual formulation and completion of the study of a significant problem in the field of religion, such as Play, Celebration and Worship; Existential Psychology; Alchemy; Contemporary Social Change in the Church; Creativity and Imagination; or Women in Modern Japanese Religion.

REL 283. HP: Religions of the Minorities of Southwest China. 4. The course explores the religious traditions of the Naxi, Tibetans, Yi, Lisu, Moso, & Bai peoples of Yunnan Province in Southwest China. The Chinese “Cultural Revolution” (1966-1976), which systematically devastated the religious lives of these peoples, serves as the course’s central historical focus. Prerequisite: ENGL 102. Fulfills historical perspectives and intercultural requirement.

REL 286. Buddhist Pilgrimage in East Asia. 4. The course investigates the role of sacred geography in the religious traditions of East Asia. Taking pilgrimage as the central topic of study, we will read in-depth accounts of religious travel and experience in several regions of East Asia. Fulfills humanities and intercultural requirements.

REL 288. Witches, Ghosts and Demons. 4. This course examines the religious roles of witches, ghosts, and demons. It is also, fundamentally, a course about death, dying, the fear and anxiety surrounding the dark, the night, death, and the problem of evil. Fulfills humanities requirement.

REL 290. Internship. 1-4. May also be offered at the 390 level.

REL 309. QLSP Junior Seminar. 1. CR/NC
REL 310. Islam and Modernization. 4. This course examines current discussions on Islam in the contemporary world, privileging politics and war and moving further to explore diverse populations, their religious and cultural practices, their struggles with economic and humanitarian issues as well as contributions made through new social movements, environmental challenges, and attempts to forge civil societies through innovative practices. Fulfill humanities requirement.

REL 317. Women in Tibetan Buddhism. 4. This course focuses on the religious roles and lives of women of Tibet and the Himalaya from the seventh through the twenty-first centuries. Also examined are some contemporary “Western” feminist political-philosophical theory and its problematic applicability to the traditional situation of Tibetan women throughout the last 1,300 years. Prerequisite: Historical Perspectives. Fulfills humanities and intercultural requirements.

REL 318. Tibetan & Himalayan Religions. 4. Studies the religious traditions of the Himalayas and the Tibetan Plateau as well as the effects of the Chinese occupation of Tibet, the effects of modernization and tourism on local religion and the recent internationalization of Tibetan Buddhism. One prior course in religious studies, history or philosophy is highly recommended. Fulfills humanities and intercultural requirements.

REL 319. Buddhist Emptiness. 4. Explores Indian, Tibetan, Chinese and Japanese Buddhist masters’ commentaries on the doctrine that all phenomena including the “self” are “empty of inherent existence,” and investigates issues such as religious truth and the ethics of ego-less-ness. Counts toward a major/minor in International Studies – East Asia. Prerequisites: Historical Perspectives, and either one course in PHIL or REL 284, REL 286, or REL 318, or instructor permission. Fulfills intercultural requirement.

REL 340. Radical Theologians of Europe and North America. 4. A reading-intensive, seminar-format examination of 20th and 21st century Christian theologians from the North Atlantic region (mostly Germany and the United States) who have written with a deep awareness of their historical, cultural, economic, political and ecological contexts.

REL 341. Liberation Theologies of Latin America, Africa, and Asia. 4. Seminar on Catholic and Protestant Christian theologies from the perspective of poor and disenfranchised women and men. Works from Latin America (Peru, Brazil, El Salvador), Africa (Ghana, South Africa, and their regions), and Asia (Philippines, India, Hong Kong). Includes ecofeminist and postcolonial perspectives. Fulfills intercultural requirement.

REL 395. Religious Studies Colloquium. 1. Students reflect collectively on the study of religion and its relationship to the liberal arts, to their own college career and to life outside of college. Students complete an intellectual autobiography to further their self-understanding as students of religion. For majors in their junior year. CR/NC.

REL 409. QLSP Senior Seminar. 1 (each semester). CR/NC.

REL 415. Contemporary Theology. 4. The contemporary Christian theological analysis of and struggle with the nature of self and God is examined in relation to forms of social domination (sexism, racism, classism, militarism anti-Judaism and Islamophobia) through consideration of religious thinkers.

REL 422. Contemporary Religious Problems. 4. An exploration of one major contemporary thinker or problem, such as religion, language and the body; God and
language; or religion and symbol. With changes in content, this course may be repeated more than once. Prerequisite: instructor permission.

REL 445. Shamanism. 4. In this discussion-style seminar, students read the entirety of Eliade's seminal and controversial work, Shamanism: Archaic Techniques of Ecstasy, and problematize the applicability of the term Shamanism to specific religious traditions. Course issues include: initiation; trance; the role of animal messengers and helpers; altered states of consciousness; healing in Shamanism; and others.

REL 470. Senior Thesis. Credits: variable. Individual study culminating in a thesis, which, in consultation with the advisor, may be submitted for departmental honors. Requires a prior semester’s preparation (a two- or four-credit independent study) that can be counted either as a REL 460 or as part of the Senior Thesis.

REL 490. Departmental Honors. 4-8. Requires a 3.5 grade-point average in courses in religious studies and a senior thesis or the equivalent.

**SOCIOMETRY & ANTHROPOLOGY (SOAN)**
Thomas Guthrie, Assistant Professor, Chair
Maria Luisa Amado, Associate Professor
Edwins Gwako, Associate Professor
Naadiya Hasan, Assistant Professor
Julie Winterich, Assistant Professor

Sociology and anthropology are two social sciences that seek to understand the relationship between individuals and the social worlds they create and inhabit. Sociologists and anthropologists investigate how societies are organized, how cultures are reproduced, and how these processes shape individual identities.

At Guilford, our courses cover a wide variety of social groups in the United States and around the world, and we study just about every aspect of social life, including science, religion, medicine, politics, family, gender, sexuality, race and ethnicity, economic systems, and the arts. Integrating scientific and humanistic approaches, we attempt to look at past stereotypes and understand people from their own points of view. In a world characterized by rapid social and technological change, globalization, deepening inequalities, ethnic clashes, poverty, environmental degradation, and changing social norms, anthropology and sociology are more relevant than ever. Our department prepares students to critically analyze social systems and to come up with creative solutions to social problems on various scales.

Students and faculty develop close working relationships both inside and outside the classroom, and our department offers a close-knit learning environment. Our courses promote student discussions and experiential learning, and many also count toward interdisciplinary programs. Our work really gets fun once we engage with the world around us first-hand. Sociology and anthropology students at Guilford have the opportunity to develop and pursue their own interests through independent studies and research, community service, internship opportunities, and study abroad. Students greatly benefit from integrating their academic training and their experiences beyond Guilford, exploring career options, and expanding their horizons. Sociology and anthropology are part of a strong liberal arts education that prepares you for work and life—anything that involves interacting with people in a diverse world.

**Degree Offered.** The Bachelor of Arts degree is offered in sociology and anthropology.
Major Requirements. The sociology and anthropology major requires a minimum of 32 credit hours (eight courses).

1. SOAN 100 Introduction to Sociology 4 credits
2. SOAN 103 Cultural Anthropology 4 credits
3. One elective at the 200 level 4 credits
4. One elective at the 300 level 4 credits
5. One elective at any level 4 credits
6. SOAN 337 Social Research Methods 4 credits
7. SOAN 342 Social Theory 4 credits
8. One elective at the 400 level taken either in the senior year, or after all other requirements have been fulfilled 4 credits

Total credit hours required for A.B. degree in sociology and anthropology 32 credits

Notes: A student may substitute one internship or independent study at the 200 or 300 level for one elective at the same level. Students may not receive credit at the 400 level for an independent study. Under special circumstances, with the approval of the department chair, a student may substitute a second 300 level elective for the required 200 level elective. Students considering graduate school in sociology or social work are strongly encouraged to take an elementary statistics course at Guilford or elsewhere.

Credit for courses taken at other institutions or while studying abroad: Before attending other institutions, students should obtain a “Request to Take Coursework at Another Institution” form from the Registrar’s Office and have their courses approved in writing by the SOAN department chair. Departmental approval to take a course off campus is contingent upon the content and evaluation requirements of the course (which should meet SOAN departmental standards), whether the course is regularly offered by the SOAN Department, the student’s academic standing and level, and the extent to which the course is consistent with the student’s educational goals. SOAN 337 Social Research Methods, SOAN 342 Social Theory and the 400 level elective will not be accepted as transfer credit and may not be taken at a consortium school.

SOAN 100. Introduction to Sociology. 4. This course will provide an introduction to field of sociology and how it can be used in the critical examination of contemporary society. The course will explore and compare theoretical perspectives on culture, social structure, and the development of the individual within the social context. The course will also have a strong emphasis on social inequality as the product of structural and belief systems, with race, class, gender, and sexuality explored as central elements of social organization. Fulfills social science and social justice/environmental responsibility requirements.

SOAN 103. Cultural Anthropology. 4. Introduction to the study of culture and society in comparative perspective. Utilizes various approaches of anthropologists and data from societies around the world in order to illustrate the nature and functions of culture and social structures. Fulfills social science requirement.

SOAN 106. Introduction to African Heritage. 4. Course serves as an introduction to the geographical roots and cultural heritages of the peoples of African ancestry. It will help students to begin to explore and understand the diverse lifestyles, experiences as well as the dispersion, opportunities, challenges and concerns of peoples of African ancestry in the U.S.
multicultural setting. Fulfills diversity in the U.S. and social science requirements.

**SOAN 150. Special Topics.** 4. May also be offered at 250, 350 and 450 levels.

**SOAN 215. Anthropology of Slavery.** 4. Examines slavery in a comparative socio-cultural perspective; covers Africa (80 percent), North America (five percent) and the rest of the world (15 percent). Explores explanations for the causes of slavery, debates over what practices should be labeled “slavery” and which should be placed in other categories of servitude and how slavery affects individual understanding of self in various socio-cultural contexts. Fulfills social justice/environmental responsibility requirement.

**SOAN 216. HP: The Anthropology of Colonialism.** 4. Introduces historical anthropology by exploring the socio-cultural dimensions of European colonialism from the late 15th century to the post-colonial period. The course focuses on the colonial experience in Africa, the Americas, Asia and the Middle East, particularly from the point of view of the colonized. Fulfills historical perspectives requirement.

**SOAN 234. Culture & Sexuality in Africa.** 4. Explores how culture shapes sexual practices, identities and roles in African societies. Course topics include virginity, male and female circumcision and other rites of passage, arranged marriages, fertility, the spread of HIV/AIDS, sexual exploitation and domestic violence, as well as lesbian, gay, bi-sexual and transgender “queer” practices. Fulfills intercultural requirement.

**SOAN 235. African Families in Transition.** 4. This course places African families at the center of an anthropological exploration of the myriad ways of family formation and the dynamic nature of how family is defined cross-culturally. It explores how families in different African societies have adapted and continue to adjust to the changing circumstances brought on by colonialism and post-colonial conditions. Fulfills intercultural requirement.

**SOAN 245. Race and Ethnicity in Latin America.** 4. Race and ethnicity occupy center stage in Latin America’s identity politics and nation-building processes. Despite the myth of racial harmony, inequalities along racial and ethnic lines shape the life-chances and daily interactions of people throughout the region. This course examines racial and ethnic politics in Latin America from a sociological stand point. We analyze racial formations and the status of Indian communities and peoples of African descent since colonial times; however, our focus is primarily on contemporary racialized structures and relations. Fulfills intercultural requirement.

**SOAN 260. Independent Study.** 1-4. May also be offered at 360 level.

**SOAN 265. Racial and Ethnic Relations.** 4. A comprehensive exploration of the experience of different racial and ethnic groups in the United States and the social relations they have
established with each other. The examination starts from their countries of origin, moves to
their initial migration and settlement and concludes with analysis of their current economic,
social and cultural situations. Fulfills diversity in the U.S. requirement.

SOAN 267. Race and Gender in Media Focus. 4. This course will examine the mass media
as a social institution that reinforces the perception and construction of race and gender in
contemporary American society. The class will discuss race and gender as socially constructed
identities that can be internalized through interaction with media products. Fulfills diversity
in the U.S. requirement.

SOAN 290. Internship. 1-4. Supervised and reported experience in social agencies,
organizations or related institutional services. May also be offered at the 390 level.

SOAN 313. Sociology of Sex and Gender. 4. Explores the social construction of
masculinity and femininity within specific socio-historical contexts, with emphasis on
identity formation and structural discrimination. The social organization of sexuality and
gender relations within institutions such as the family, labor force and health care are also
explored. Prerequisite: SOAN 100.

SOAN 321. Development Anthropology. 4. Comparative study of planned and unplanned
development, particularly as it affects rural and traditional societies. Emphasis upon the
intersection of capital and technological changes and inequalities predicated on ethnicity,
class and gender. Prerequisite: SOAN 103.

SOAN 323. Gender Health and Illness. 4. This course uses a sociological perspective to
analyze the relationship between the U.S. medical system and socially constructed ideas
about gender for medical knowledge and for men's and women's experiences with health and
illness. A variety of topics will be analyzed such as obesity, menstruation, erectile dysfunction,
and pregnancy and birth. Prerequisite: SOAN 100 or instructor permission.

SOAN 330. Inequality in Latin America. 4. Analyzes power relationships and economic
inequality in Latin America and examines the way rural and urban populations in the region
cope with poverty and exclusion. The course also explores ethnic and gender relations as
expressions of status inequality and the effects of global processes on patterns of stratification
in the area. Prerequisite: SOAN 100 or instructor permission.

SOAN 331. Latino Migration Patterns. 4. Explores the historical roots and the current
economic and political forces, both local and global, that stimulate contemporary out-
migration, return and “revolving-door” migration between selected Latin American countries
and the U.S., within the larger context of U.S.-Latin America relations. Prerequisites: SOAN
100, instructor permission. Fulfills diversity in the U.S. requirement.

SOAN 337. Social Research Methods. 4. Trains students in the rigorous use of sociological
and anthropological methodologies to investigate the social world. Students will learn to
use documents, artifacts, social practices, quantitative reasoning and the scientific process
as relevant sources of research questions and tools for research design and implementation.
Prerequisites: Historical Perspectives, Quantitative Literacy, Natural Science and
Mathematics, SOAN 100, SOAN 103 and one 200 level SOAN course.

SOAN 342. Social Theory. 4. Provides an overview of major 19th and 20th century
social theories with special attention to their assumptions and their treatment of core
sociological and anthropological concerns and questions. Students will analyze how time
periods influence the creation of social theories as well as the theories’ practical relevance. Prerequisites: Historical Perspectives, SOAN 100 SOAN 103 and one 200 level SOAN course.

SOAN 358. African Cultures in Film. 4. Survey of traditional culture patterns in Africa south of the Sahara; examination of the processes of change in contemporary Africa. Profiles of African cultures as seen by anthropologists and African writers. Prerequisites: SOAN 100 or SOAN 103. Fulfills intercultural requirement.

SOAN 362. Popular Culture and Media Studies. 4. Explores sociological theories and methods used to study popular culture and media products in relation to broader social patterns in the contemporary United States. The course includes examination of the content of popular culture products, the significance of the institutional environments of production, and patterns of audience consumption and interpretation. Prerequisite: SOAN 100.

SOAN 416. Gender and Sociology of the Body. 4. This course examines feminist and sociological debates about gender and the body through a variety of topics to analyze whose bodies receive more cultural, political, media, and medical attention, and why. Social contexts will be examined to discuss how and why female bodies are defined as different than men’s, as well as the implications for men’s and women’s daily lives. Gender equality and social change are discussed at the individual, structural and cultural levels. Prerequisites: SOAN 337 and SOAN 342, or instructor permission.

SOAN 425. Latin American Politics. 4. This political sociology course will analyze the central role of social movements in the political democratization of Latin America. The central goal is to understand how social unrest and upheaval, organized and active civil societies, grassroots organizations, formal political opposition and several armed movements have pressured authoritarian political systems into processes of democratization. Prerequisites: SOAN 337 and SOAN 342, or instructor permission. Fulfills intercultural requirement.

SOAN 432. Women of Color in the United States. 4. Examines the consequences of intersecting social systems of race and gender, with a focus on women of color in the United States. Guiding topics include the impact of structural context and individual agency on the shaping of gendered racial identities, experiences, and social interactions. Issues of power, privilege, inequality, and exclusion in feminist and anti-racist social action will also be explored. Prerequisites: SOAN 337 and SOAN 342 or instructor permission. Fulfills diversity in the U.S. requirement.

SOAN 470. Senior Thesis. 4.

SOAN 490. Departmental Honors. 4. Honors and credit for grade of B or above; credit only for grade less than B. Prerequisite or corequisite: SOAN 470.

SPORT STUDIES (SPST)
Robert Malekoff, Associate Professor, Chair
Kathleen A. Tritschler, Professor
Lavon Williams, Associate Professor
Craig A. Eilbacher, Assistant Professor

The Department of Sport Studies focuses on both the study of human movement and on the exercise and sport industry. From physical therapy to sports psychology and sports management, Guilford students develop a broad cultural perspective of sport. Through
the investigation of theories and best practices in the field, our students develop practical skills and knowledge as well as the ability to think critically and creatively. An emphasis on both clinical and liberal arts provides a breadth of experience and the moral and ethical foundations necessary to assume leadership roles in their post-graduate endeavors.

**Degrees Offered.** The Bachelor of Science degree is offered in exercise and sport sciences and sport management.

**Major Requirements for the B.S. in Exercise and Sport Sciences.** The ESS major requires a minimum of 56 credit hours. The ESS major requires a minimum of 56 credit hours. Students will choose one of two tracks: health and fitness (60 credit hours) or sport medicine (56 credit hours). A five-course Core is common to both tracks, plus a minimum of six emphasis courses. Each track offers some flexibility for students to develop an individual plan of study with the guidance of their academic advisors.

Core requirements for all students majoring in ESS:
1. SPST 120 Introduction to Exercise and Sport Sciences 4 credits
2. SPST 241 Motor Learning and Performance 4 credits
3. SPST 246 Biomechanics of Sport and Exercise 4 credits
4. SPST 311 Sport and Exercise Physiology 4 credits
5. SPST 340 Psychology of Sport and Exercise* 4 credits

Additional Courses Required for ESS Health/Fitness Track:
6. BIOL 111 Integrative Biology: Molecules and Cells** 4 credits
7. BIOL 341 Human Anatomy and Physiology I** 4 credits
8. BIOL 342 Human Anatomy and Physiology II** 4 credits
9. Advisor approved psychological or sociocultural course 4 credits
10. SPST 314 Perspectives in Sport and Exercise Nutrition*** 4 credits
11. SPST 343 Measurement and Evaluation in Sport and Exercise 4 credits
12. SPST 432 Legal Aspects of Sport and Exercise 4 credits
13. SPST 455 Science of Strength and Conditioning**** 4 credits
14. Four credits of Health/Fitness skill-based courses, for example:
   SPST 112/THEA 101 Modern Dance I (2 credits)
   SPST 142 First Aid (2 credits)
15. SPST 485 Health/Fitness Internship (in field of interest) or
   SPST 445 Research Methods in Sport Studies 4 credits

**Total credit hours required for B.S. degree in exercise and sport sciences, health/fitness track** 60 credits

Additional Courses Required for ESS – Sports Medicine Track:
6. BIOL 111 Integrative Biology: Molecules and Cells** 4 credits
7. BIOL 341 Human Anatomy and Physiology I** 4 credits
8. BIOL 342 Human Anatomy and Physiology II** 4 credits
9. SPST 245 Emergency Procedures in Sports Medicine 4 credits
10. SPST 320 Organization and Administration of Sport Exercise and Health Programs or SPST 432 Legal Aspects of Sport and Exercise 4 credits
11. SPST 373 Therapeutic Modalities and Rehabilitation with Lab 4 credits
12. SPST 445 Research Methods in Sport Studies or
   SPST 343 Measurement and Evaluation in Sport and Exercise 4 credits

www.guilford.edu
13. SPST 474 Physical Examination and Assessment with Lab*****  4 credits  
14. SPST 485 Sports Medicine Internship (in field of interest)  4 credits  

Total credit hours required for B.S. degree in exercise and sport sciences,  
sports medicine track  56 credits  

* Historical Perspectives is a prerequisite and the course is limited to juniors and seniors.  
** A grade of C- or better is required in these biology courses, which are prerequisites for SPST 246 and SPST 311.  
*** SPST 211 is a prerequisite for SPST 314.  
**** It is strongly recommended that ESS majors with a health/fitness track specialization take  
an in-field certification test in the spring semester of their senior year. Appropriate certifications  
include, but are not limited to, the CSCS certification from the National Strength & Conditioning  
Association, the health / fitness instructor certification from ACSM and the personal trainer  
certification from NASM.  
***** Prerequisites for this course include SPST 246 and SPST 311. A grade of C- or better is  
required in all prerequisite courses.  

Major Requirements for the B.S. in sport management. The sport management major  
requires a minimum of 40 credit hours (10 courses).  
1. SPST 234 Sport Finance  4 credits  
2. SPST 320 Organization and Administration of Sport,  
   Exercise and Health Programs  4 credits  
3. SPST 432 Legal Aspects of Sport and Exercise  4 credits  
4. SPST 445 Research Methods in Sport Studies  4 credits  
5. SPST 485 Internship  4 credits  
6. ACCT 201 Introduction to Accounting  4 credits  
7. BUS 324 Marketing Management*  4 credits  
8. One course from:  4 credits  
   SPST 232 Sociology of Sport and Exercise  
   SPST 247 HP: History of Sport  
   SPST 340 Psychology of Sport and Exercise  
9. ECON 221 Macro: US in World Econ or ECON 222 Micro: Public Policy  4 credits  
10. ENGL 282 Journalism or BUS 310 Professional Communications**  4 credits  

Total credit hours required for B.S. degree in sport management  40 credits  
* SPST 431 (Sport Marketing) is an approved substitute for this requirement.  
**SPST 335 (Sport Communication) is an approved substitute for this requirement.  

PHYE 100. Elective Activities. 1. One-credit courses include, but are not limited to general  
fitness, golf, tai chi, tennis, yoga, zumba, and weight training. Students are limited to four  
elective activity courses. Course titles may vary semester by semester. Repeatable. CR/NC.  

SPST 109. Fitness for Living. 2. A basic study of selected systems of the human body and  
their responses to exercise. Emphasis on personal nutrition and its relationship to fitness, the  
development and implementation of personal fitness programs and the relationship of fitness  
to health. Laboratory, lecture and participation.  

SPST 110. Beginning Ballet (THEA 103). 2. This is a beginning-level course for students  
with little or no dance or ballet experience. Students will explore the beauty and power of  
this art through the study of technique at the barre, learning the French terminology, the
critical viewing of live concerts and performing in a semester-end showing.

**SPST 111. Jazz Dance (THEA 104).** 2. This is an introduction to the art of jazz dance, designed as a continuing study of the technique introduced in SPST 112/THEA 101 and SPST 110/THEA 103. The emphasis of the course is on style and the acquisition of an explosive performance quality; technical studies will include isolations, turns, placement and strengthening. Prerequisite: SPST112/THEA 101 or SPST 110/THEA 103.

**SPST 112. Modern Dance I (THEA 101).** 2. An introduction to the art of modern dance, designed for students with little or no dance or modern experience. This dance form, with its philosophy based in the expression of personal and contemporary social concerns, will explore various movement techniques including those of Martha Graham, Erick Hawkins, Doris Humphrey and Jose Limon.

**SPST 113. Modern Dance II (THEA 201).** 2. This course is intended for students who have already experienced dance, with a continuation of concepts and technique from SPST 110/THEA 103, SPST 111/THEA 104 and SPST 112/THEA 101. In addition to the critical viewing of works, this course emphasizes the expansion of one’s classical movement vocabulary and the discovery of one’s own performance quality. Prerequisite: SPST 111/THEA 104 and SPST 112/THEA 101, or instructor permission.

**SPST 114. The Wonder of Dance (THEA 100).** 4. This course is an introduction to many aspects of dance. Students develop an awareness and appreciation for dance as art and expression through an exploration of history, contemporary trends, social themes, personalities, sample dance class experiences and choreographic projects. Fulfills arts and diversity in the U.S. requirements.

**SPST 115. Choreography (THEA 204).** 4. This course is a formal introduction to the art of dance composition. It is designed for students that have had previous dance experiences in technique, the creative process leading to performance and the critical viewing of works; for students working toward a minor in dance, it is preferred that this be the final course completed. Prerequisite: SPST 114 or THEA 100. Fulfills arts requirement.

**SPST 120. Introduction to Exercise and Sport Sciences.** 4. An exploration in the discipline of exercise and sport science (kinesiology) and its relation to health and physical activity. The course will explore the importance of history and philosophy in health and physical activity in today’s society and possible career opportunities.

**SPST 130. Introduction to Sport Management.** 4. An introductory course designed to acquaint students with career possibilities for sport management personnel within various segments of the sports and fitness business communities. Course includes development of a résumé and a professional portfolio. Fulfills business and policy studies requirement.

**SPST 142. First Aid.** 2. A study of basic first aid and emergency care procedures resulting in certification in first aid and cardiopulmonary resuscitation (CPR).

**SPST 150. Special Topics.** 4. May also be offered at 250, 350 and 450 levels.

**SPST 210. Introduction to Athletic Injury and Illness with Lab.** 4. An introductory course in athletic training that explores the prevention, recognition and management of common injuries and illnesses in athletes and the physically active population. A co-requisite laboratory course enables students to practice and apply principles and techniques.
SPST 211. Health and Wellness Promotion. 4. A study of the basic concepts of and promotion of personal and community health health from a wellness perspective. Emphases are on contemporary health issues of special concern to young adults and health issues of professional concern to those aspiring to careers in sports or fitness. Fulfills business and policy studies requirement.

SPST 213. Stress Management. 4. Introductory course that teaches how to identify, understand and combat the stresses of everyday life while developing a healthy living concept. Techniques include Zen meditation, Hatha Yoga, imagery, music therapy, Tai Chi, massage therapy, time management and coping mechanisms.

SPST 231. Facility Design & Management. 4. Fundamentals of and current trends in planning and design, emphasizing athletic, physical education and recreation facilities. Field trips to evaluate facilities on-site; an overview of job responsibilities of sport/recreation facility managers.

SPST 232. Sociology of Sport & Exercise. 4. An introduction to basic sociological theories as they apply to sport and other forms of physical activity. Students learn to think more critically about sports as a part of social life; a seminar approach used to explore issues in making sports more democratic and sport participation accessible to all people.

SPST 234. Sport Finance. 4. The purpose of this course is to provide information to the learner about the basic financial management concepts and issues in the sport business industry. Students will examine various means for financing and managing sport businesses and organizations. Prerequisite: ACCT 201.

SPST 246. Biomechanics of Sport and Exercise. 4. A study of the neuromuscular and biomechanical principles that affect the safety, effectiveness and efficiency of human movement. Emphasis is on movement for sport, fitness and activities of daily living. Prerequisite: BIOL 341.

SPST 247. HP: History of Sport. 4. A study of the American sporting heritage and significant historical influences on it from other cultures. “Sport” in this course is used to include amateur, professional and school sports, fitness, recreation and dance. Emphasis on sport leaders and the innovations that have shaped American sport. Fulfills historical perspectives requirement.

SPST 260. Independent Study. 1-4. May also be offered at 360 and 460 levels.

SPST 290. Internship. 2-4. Supervised internship in sport management, sports medicine or physical education. Prerequisite: Advisor permission. May also be offered at the 390 level.

SPST 311. Sport and Exercise Physiology. 4. A study of human physiological responses to
the stress of physical activity. Emphasis is placed on the muscular, cardiovascular, respiratory and nervous systems and various training programs and testing procedures related to each system. Prerequisites: BIOL 341 and BIOL 342.

SPST 314. Perspectives in Sport and Exercise Nutrition. 4. A study of the science of nutrition, especially as it applies to humans engaged in sport and exercise. Content includes nutrition basics, energy-yielding nutrients, energy production and balance, vitamins and minerals and nutritional effects on the life cycle. Prerequisite: SPST 120 or SPST 211.

SPST 320. Organization and Administration of Sport, Exercise and Health Programs. 4. A study of the organizational and administrative processes in athletic and exercise programs and school physical education programs. Emphasized are administrative philosophies, programming, legal issues and budget theory. Must be junior or senior to enroll.

SPST 335. Sport Communication. 4. A comprehensive study of the public relations function within the sport industry. Students will prepare press releases, produce oral presentations, conduct mock press conferences and develop Web pages for sport businesses. Prerequisite: BUS 310.

SPST 340. Psychology of Sport & Exercise. 4. An examination of basic psychological theories and research related to sport and exercise behavior.

SPST 343. Measurement and Evaluation in Sport & Exercise. 4. A study of common assessment procedures used in sport and exercise programs. Includes procedures for psychomotor, affective and cognitive measurement. Prerequisite: SPST 211. MATH 112 recommended.

SPST 373. Therapeutic Modalities and Rehabilitation with Lab. 4. A basic study of purposes, effects and application of therapeutic modalities, along with techniques and protocols used in rehabilitation program development of athletic injuries. Pharmacological considerations also included. A co-requisite practicum course enables students to practice principles and techniques.

SPST 430. Integrative Sport Management. 4. This is the capstone course for the sport administration minor. Uses case studies and analysis of all components of sport management. Emphasis is on effective writing and oral presentations, ethics and social responsibility of sport organizations.

SPST 431. Sport Marketing. 4. Fundamentals of marketing sport and of using sport to market other products. Focus on product definition, branding, distribution channels, advertising and promotion.

SPST 432. Legal Aspects of Sport and Exercise. 4. A study of legal concerns in sport and exercise programming. A focus on legal liability and risk management in a wide variety of sport and exercise programs and facilities. Must be junior or senior to enroll.

SPST 445. Research Methods in Sport Studies. 4. A study of the methods and materials utilized in research in sport studies. Focus on the consumption and production of research; writing-intensive. Must be junior or senior. Prerequisite: instructor permission. MATH 112 recommended.

SPST 455. Science of Strength and Conditioning. 4. Capstone course for the exercise and sport science major. This course prepares the student to sit for the Certified Strength &
Conditioning Specialist (CSCS) certification from the National Strength & Conditioning Association. A passing grade in this course is not, however, a guarantee that the student will pass the CSCS certification examination.

SPST 470. Senior Thesis. 4.

SPST 474. Physical Examination and Assessment with Lab. 4. Introduction to the use of scientific assessment methods and essential techniques used in physical examination and evaluation of injuries and illnesses common in athletes and physically active individuals. Prerequisites: SPST 210 and SPST 245 or instructor permission.

SPST 485. Internship in Sport Studies. 2-4. Supervised internship in sport management, sports medicine or physical education. Prerequisite: Advisor permission.

SPST 490. Departmental Honors. 4.

THEATRE STUDIES (THEA)

John Zerbe, Professor, Chair
David Hammond, Professor
Christopher Brink, Visiting Assistant Professor
Chad Phillips, Visiting Assistant Professor
Marc Williams, Visiting Instructor

The Department of Theatre Studies cultivates the capacity of students to create and appreciate theatre that explores and illuminates the human condition. The course of study seeks to produce creative artists with intellectual acuity, refined craft and a heightened appreciation for theatre as an instrument of social change. We nurture individuals who want to make a difference in the world by taking constructive action through the art form of theatre.

The program offers both majors and non-majors the chance to experience the collaborative process by which actors, designers, directors, scholars and technicians interpret a playscript and translate a shared vision of its meaning into the medium of theatrical production. Classes develop the skills essential to that process: critical thinking, research methods, intuitive reasoning, communication, project planning and time management, problem-solving, teamwork and leadership.

The integration of theory and practice is fundamental to the program, as it is to successful theatre, and the conceptual learning of formal course work is therefore augmented by laboratory work in the form of theatrical productions. Productions are chosen with attention to the developmental needs of the current student population. In a four-year period, students will experience a broad range of styles and periods of dramatic literature in performance.

Faculty members and staff have worked as practicing theatre artists in the professional theatre as actors, directors, designers or technicians. Recognizing that guest artists are essential to the vitality of any theatre program, the department brings practicing theatre artists of high caliber to the campus to work with students.

Distinguished guests have included playwrights Edward Albee, Simon Bent, Tony Kushner, and Maria Irene Fornes; actors Tandy Cronyn, Sidney Poitier, Anna Deavere Smith, and Jack Wetherall, designers Burke Brown, Badger Koon, Robbie MacLean, Robin Vest, and John Wolf, directors Mark Rucker and Danny Scheie. Visits like these deepen...
student learning and help build a bridge from academia to the profession. Indeed, several alumni have won prestigious national internships, employment opportunities and entrance into graduate programs in part because of the relationships forged during such residencies.

**Degree Offered.** The Bachelor of Arts degree is offered in theatre studies.

**Major Requirements.** Every student majoring in theatre studies will fulfill the core requirements and one of the three possible tracks. The major requires a minimum of 45-46 credit hours (12 courses).

Total credits required for Structure and Core requirements: 36 credits

Additional courses required for students selecting a generalist track

10-11. Two courses or the equivalent credits at the 200 level: 8 credits
12. One course or the equivalent credits at the 300 level: 4 credits

Total credit hours required for A.B. degree in theatre studies: generalist track: 48 credits

Additional courses required for students selecting a design/tech track

10-11. Two courses from the following intermediate options: 7-8 credits
- THEA 272 Sound Design
- THEA 370/THEA 376 Stage Lighting: 3 credits (available only at UNCG)
12. One course from the following: 4 credits
- THEA 295 Any four additional practicum credits chosen in consultation with major advisor and department production manager.
- THEA 360 Independent Study: Design Studio
- THEA 381 Play Direction

Total credit hours required for A.B. degree in theatre studies: design/tech track: 47-48 credits

Additional courses required for students selecting a history/literature track

10-11. Two courses from the following: 8 credits
- ENGL 200 Introduction to Literary Studies
- ENGL 210/THEA 244 Playwriting Workshop
- ENGL 223 Shakespeare or ENGL 288 Shakespeare and Contemporary Film
12. Any course on a playwright or drama taught in a foreign language: 4 credits

THEA 360 Independent Study as a playwright or genre
THEA 381 Play Direction
THEA 460 Independent Study as a dramaturg on a production

Total credit hours required for A.B. degree in theatre studies: history/literature track 48 credits

THEA 100. The Wonder of Dance (SPST 114). 4. This course is an introduction to many aspects of dance. Students develop an awareness and appreciation for dance as art and expression through an exploration of history, contemporary trends, social themes, personalities, sample dance class experiences and choreographic projects. Fulfills arts and diversity in the U.S. requirements.

THEA 101. Modern Dance I (SPST 112). 2. An introduction to the art of modern dance, designed for students with little or no dance or modern experience. This dance form, with its philosophy based in the expression of personal and contemporary social concerns, will explore various movement techniques including those of Martha Graham, Erick Hawkins, Doris Humphrey and Jose Limon.

THEA 103. Beginning Ballet (SPST 110). 2. This is a beginning-level course for students with little or no dance or ballet experience. Students will explore the beauty and power of this art through the study of technique at the barre, learning the French terminology, the critical viewing of live concerts and performing in a semester-end showing.

THEA 104. Jazz Dance (SPST 111). 2. This is an introduction to the art of jazz dance, designed as a continuing study of the technique introduced in 101 and 103. The emphasis of the course is on style and the acquisition of an explosive performance quality; technical studies will include isolations, turns, placement and strengthening. Prerequisite: THEA 101/SPST 112 or THEA 103/SPST 110.

THEA 111. Backstage Production. 4. Explores methods of theatre stage craft through experiential learning. Students work directly in support of a department production as both individuals and members of a collaborative team. Focuses on the elements of planning, drafting, tools, and scenic construction. Limited outside reading, but laboratory work required outside class time. Fulfills arts requirement.

THEA 125. Acting 1: Basic Tools. 4. Explores the challenges facing actors of realistic drama: living truthfully within a play's specific imaginary world. Focuses on the ability to discern, define and embody given circumstances, dramatic action and character. Special emphasis on goals, obstacles, tactics and expectations. Fulfills arts requirement.

THEA 126. Acting 1: Acting in Song. 4. Explores the relationship of singing to the process of acting, examining the dramatic intension of a vocal line, including phrasing and test, and its interaction with the full musical score as both relate to the fundamentals of acting technique, particularly circumstances, inner monologue, and action. Assignments include solos, duets, and scene work. Equally suitable for singers seeking to understand acting and actors seeking increased comfort with singing. Course fee: $100 for accompanist. Fulfills arts requirement.

THEA 130. Theatre and Culture I. 4. Study of Western theatre from the Greeks through the English Renaissance. Examines play texts and theatre architecture as primary source documents that reflect the artistic, philosophical, political and social contexts of a particular cultural moment in history. Fulfills arts requirement.
THEA 131. Theatre and Culture II. 4. Study of Western theatre from the late Renaissance through the present. Examines play and theatre architecture as primary source documents that reflect the artistic, philosophical, political and social contexts of a particular cultural moment in history. Fulfills arts requirement.

THEA 150. Special Topics. 4. May also be offered at 250, 350 and 450 levels.

THEA 151. HP: The Birth of the Avant-Garde (ENGL 151). 4. Traces the evolution of literary and performance styles from realism/naturalism to the avant-garde movements at the turn of 20th-century Europe: symbolism, futurism, dadaism, surrealism and expressionism. Links each style to social forces, music, art, important people, ideas and watershed events. Fulfills historical perspectives requirement.

THEA 152. HP: America and Its Musicals: 1900-1975 (MUS 152). 4. Traces development of the American musical theatre from 1900 to 1975 with a primary focus on the years of significant transformation that begin in 1940. Studies the art from sociological, political, cultural, economic, artistic and historic perspectives. Analyzes individual artists and productions that have influenced and been influenced by the evolving American national identity. Fulfills historical perspectives requirement.

THEA 161. Masterpieces of the Cinema. 4. Exploration of film as an art form that visually represents ideas under the influence of a single person, group of creative people or society and culture. Introduces basic film terminology and analytical techniques used for contemplation of a film and its basic components. Fulfills arts requirement.

THEA 171. Introduction to Theatrical Design. 4. Introduction to the principles and techniques of theatrical design. Develops the basic core of knowledge needed to create informed designs that manifest a “world” in which the performance of a playscript can take place. Includes units on scenery, costumes, lights and sound. Fulfills arts requirement.

THEA 190. Mainstage Actor. 1-4. Academic credit for work on a department production. CR/NC.

THEA 195. Mainstage Tech. 1-4. Academic credit for work on a department production. CR/NC.

THEA 201. Modern Dance II (SPST 113). 2. This course is intended for students who have already experienced dance, with a continuation of concepts and technique from 101, 102 and 103. In addition to the critical viewing of works, this course emphasizes the expansion of one’s classical movement vocabulary and the discovery of one’s own performance quality. Prerequisites: THEA 101/SPST 112 and THEA 104/SPST 111 or instructor permission.

THEA 204. Choreography (SPST 115). 4. This course is a formal introduction to the art of dance composition. It is designed for students that have had previous dance experiences in technique, the creative process leading to performance and the critical viewing of works; for students working toward a minor in dance, it is preferred that this be the final course completed. Prerequisite: SPST 114 or THEA 100. Fulfills arts requirement.

THEA 215. Play Analysis (ENGL 215). 4. Explores the methodology of script analysis used by actors, designers and directors as they prepare to execute a stage production. Students also develop the interpretive skills needed by artists working in a theatre that responds to and addresses issues of oppression and social justice. Prerequisites: ENGL 102 and Historical Perspectives. Fulfills humanities and social justice/environmental responsibility requirements.

www.guilford.edu

173
THEA

THEA 227. Acting 2: Playing the Action. 4. Examines the pursuit of objectives through interactions with onstage scene partners. Techniques explored include, but are not limited to, sending and receiving; eliciting response; identifying progressive change in oneself through what is received from the partner. Exercises investigate action utilizing repetition, speech, song, gibberish, physicalization and improvisation. Scene work concentrates on American realism. Prerequisite: THEA 125.

THEA 228. Acting 2: Creating the World. 4. Explores the work of the actor in reorganizing the self into another human being existing in the circumstances and world of the play. Includes work on sense memory and sensory endowment to bring moment-to-moment physical life to an environment; the discovery and development of immediate and historic given circumstances from textual clues. Prerequisites: THEA 125 and THEA 215.

THEA 229. Acting 2: Voice and Diction. 4. Development of the expressive potential of human sound (voice) and speech (diction). Vocal work focuses on breath support and control, grounding, resonance and the role of the voice in the creation and communication of meaning; speech work includes exercises in articulation, use of heightened text and work with dialects and accents. Prerequisite: THEA 125.

THEA 244. Playwriting Workshop (ENGL 210). 4. Twelve weekly scenes read and critiqued in class and a one-act play as a final project. Exploration of various elements of playwriting such as conflict, manipulation of chronology, life studies, character exposition and development, “found” language, passive participation in and transcription of actual events.

THEA 260. Independent Study. 1-4. Research or directed study for exceptional students with strong interest in particular areas of dramatic literature, theatre history, design, technical production, acting, directing or performance theory.

THEA 262. Gay and Lesbian Cinema. 4. Study of the impact cinematic representation has on attitudes towards gay, lesbian, bisexual and transgendered Americans. Engages students in conceptual analysis of films and mass media using theories of representation, authenticity and identity construction. Fulfills arts and diversity in the U.S. requirements.

THEA 265. Artistry in Film. 4. Study of the major aesthetic elements in film and video production – light, space, time-motion and sound. Develops the knowledge and skill to select and apply those aesthetic elements in order to help translate significant ideas into significant visual messages quickly and effectively. Fulfills arts requirement.

THEA 271. Set Design. 4. Develops an understanding of the principles and processes of set design for the stage. Explores how this design area echoes and utilizes other art forms and functions in relation to theatre production as a whole; emphasis on spatial aesthetics, critical analysis, creative interpretation, research for design, conceptual collaboration and the oral, written and graphic communication of the design idea. Fulfills arts requirement.

THEA 272. Digital Sound Design. 4. Exploration of sound design in theater and the psychological impact it can have on an audience during a live performance. Topics of discussion include the role of the sound designer, sound reinforcement systems, mixing, editing and playback for film as well as live events. Fulfills arts requirement. Prerequisite: THEA 171 recommended but not required.

THEA 274. Digital Graphic Design (CMIT274). 4. Introduction to basic principles
and elements of graphic design, form / symbol development, color theory and typography. Provides practical experience in essential software processes and procedures including Adobe Illustrator, Photoshop and InDesign. Develops facility with the tool pallets and art boards for each program and comfort with visual methodology. Students will become aware of “good” graphic design through the creation of original digital designs followed by critiques and group discussions. Fulfills arts requirement.

THEA 275. Costume Design. 4. Develops an understanding of the principles and processes of costume design for the stage. Exercises and projects explore gesture, movement, clothing, accessories, hair and makeup as physical manifestations of dramatic character. Fulfills arts requirement.

THEA 290. Internship. 1–4. Internships in the professional theatre are strongly encouraged. May be applied to the practicum requirement where appropriate. May also be offered at the 390 level.

THEA 295. Practicum. 1–4. Theoretical and practical work in one of the following areas: costuming, lighting, sound, properties management, makeup, scene painting, box office, house management, publicity, film festival staff and stage management. All practicums include work on a mainstage production with documentation of outcomes presented in a digital portfolio. Prerequisite: THEA 111.

THEA 320. Acting 3: Shakespeare. 4. Explores the relationship of Shakespeare’s uses of language and form to action and acting, bringing the self to the specific demands of formally structured material and identifying the tools for action-playing in various text structures and styles. Prerequisites: THEA 125, THEA 229 and either THEA 227 or THEA 228.

THEA 325. Acting 3: Modern Realism. 4. Synthesizes the tools acquired from previous acting classes into a coherent, integrated, and systematic approach to creating a role in scenes and monologues. Focus on tools of action, imagination, and the senses in the context of detailed actor’s analysis. Prerequisites: THEA 125, and either THEA 227 or THEA 228.

THEA 361. Narrative Film Production. 4. Study and practice of the narrative film production process from screenwriting to postproduction, utilizing skills in video and audio acquisition, lighting and editing systems. Students develop skills in aesthetic development, storytelling and evaluation through examples and applications in filmmaking based on a narrative story.

THEA 365. Documentary Film Production. 4. Study and practice of documentary production and post-production utilizing video and audio acquisition and editing systems as well as the development of aesthetic as well as technical capabilities through lecture and hands-on experience. Fulfills arts requirement.

THEA 366. Filmmaking Capstone. 1. The practice of narrative, experimental or documentary film production from preproduction to postproduction, utilizing skills developed throughout the student’s experience in the film minor. Students produce a semester-long project utilizing a defined film concept from narrative or documentary genres.

THEA 381. Play Direction. 4. Explores the “choice-making” process of creative play direction. Exercises in interpretation of a playscript, actor coaching, ground plans, composition, picturization, movement and formulation of a production “concept.” Prerequisites: THEA 125, THEA 171 and THEA 215.
THEA 470. Senior Thesis. 4.

THEA 490. Departmental Honors. 4.

THEA 494. Senior Company I. 1. Theatre studies majors graduating in the spring and/or following fall prepare for an end-of-year senior capstone project. Fulfilling the roles of their declared track in the major, students form a prototypical theatre company, choose a play and mount it in a studio production for the general public. Preparation includes play selection, assignment of responsibilities, initial research and analysis and planning that leads to an approved production calendar for the coming spring.

THEA 495. Senior Company II. 3. A capstone thesis project growing out of the cumulative academic experience in theatre and emphasizing issues of ensemble performance, collaboration across areas of specialization and the dynamics of forming a prototypical theater company. Projects involve group work with other seniors, but allowances for individual projects are considered on a case-by-case basis.

WOMEN’S, GENDER & SEXUALITY STUDIES MAJOR
Julie Winterich, Assistant Professor of Sociology & Anthropology, Coordinator
Lisa J. McLeod, Associate Professor of Philosophy

The Women’s, Gender and Sexuality Studies (WGSS) program is an interdisciplinary major that examines gender as a socially created identity and a system of inequality. Throughout the program’s courses, students analyze how gender intersects with sexuality, class, race, ethnicity, religion, disability and other categories of culturally created differences to understand how these intersections result in a range of experiences and meanings for people’s daily lives. The theories and methods in the program cross a variety of disciplines, but analyzing the complexities of systems of power and oppression in people’s daily lives is central to the major.

The program requires eight courses that focus on women’s lives, women of color, and gender and sexuality concepts and theories. Students can choose from a wide selection of courses across the curriculum to fulfill the major’s requirements. This dynamic curriculum allows students flexibility in choosing courses that most interest them while at the same time providing a solid training in gender theories and concepts. WGSS encourages experiential learning, internship opportunities, independent studies, and study abroad.

Degree Offered. The Bachelor of Arts degree is offered in women’s, gender and sexuality studies.

Major Requirements. The women’s, gender and sexuality studies major is an interdisciplinary major that requires a second disciplinary major and an advisor in each.

Among the courses identified below, students are required to complete 8 credits at the 200 level, 8 credits at the 300 level, and 8 credits at the 400 level, one must be identified as IDS 400, to serve as a program capstone. Further, students must complete at least 3 courses (12 credits) focused on women of color in the U.S. or internationally (designated by the suffix (WoC).

Because the WGSS major is an interdisciplinary major, courses must be selected from at least two departments, with some courses in both the humanities and the social sciences. Other integrative experiences, internships, independent study or thesis, are encouraged.
**Specific Course Requirements.** Students must take a minimum of 32 credit hours (eight courses) in women's, gender and sexuality studies in the following pattern:

1-2. Two introductory courses from:

- ENGL151 Black Women’s History and Literature (WoC)
- HIST 223 Gender and Power in U.S. History
- PHIL 232 Philosophy and Gender
- REL 222 Feminist Theologies
- WGSS110 Introduction to Women’s, Gender & Sexuality Studies

3-4. Two courses focusing on the lives and experiences of women in different contexts from:

- ENGL 331 Black Women Writers (WoC)
- FREN 311 The Francophone World (WoC)
- HIST 268 History of Chinese Women (WoC)
- HIST 343 Women in Modern Africa (WoC)
- IDS 411 Gender & Development in Africa (WoC)
- IDS 415 Understanding Eating Disorders
- IDS 482 Ecofeminism and Environmental Justice (WoC)
- JAPN 220 Women in Modern Japan (WoC)
- PSY 351 Psychology and Gender
- REL 317 Women in Tibetan Buddhism (WoC)
- SOAN 330 Inequality in Latin America (WoC)
- SOAN 432 Women of Color in the U.S. (WoC)

5-6. Two courses focused on gender theory and analysis from:

- ENGL 331 Black Women Writers
- ENGL 400 Arab Women Writers (WoC)
- IDS 415 Understanding Eating Disorders
- IDS 421 Border Crossings (WoC)
- IDS 481 Notions of Beauty
- IDS 482 Ecofeminism and Environmental Justice (WoC)
- IDS 485 Arab and Islamic Feminisms (WoC)
- PHIL 232 Philosophy and Gender
- PHIL 336 Social and Political Philosophy
- PSCL 305 Politics of Gender (WoC)
- PSY 351 Psychology and Gender
- REL 341 Liberation Theologies (WoC)
- SOAN 267 Race and Gender in Media Focus (WoC)
- SOAN 313 Sociology of Sex and Gender
- THEA 262 Gay and Lesbian Cinema

7-8. Two courses focused on sexuality from:

- IDS 409 Gay, Lesbian and Queer Studies
- IDS 418 Science, Sex and Nature
- IDS 455 Human Sexuality
- JAPN 220 Women in Modern Japan (WoC)
- PHIL 231 Philosophy and Sexuality
- PHIL 232 Philosophy and Gender
- SOAN 234 Culture and Sexuality in Africa (WoC)
- SOAN 313 Sociology of Sex and Gender
- THEA 262 Gay and Lesbian Cinema
**WGSS**

Total credit hours required for A.B. degree in women's, gender and sexuality studies  32 credits

**WGSS 110. Introduction to Women's Gender Sexuality Studies. 4.** Fulfills diversity in the U.S. requirement.

**WGSS 150. Special Topics. 4.** May also be offered at 250, 350 and 450 levels.

**WGSS 260. Independent Study. 4.** May also be offered at 360 and 460 levels.

**WGSS 290. Internship. 4.** May also be offered at 290 level.

**WGSS 470. Senior Thesis. 4.**

**WGSS 490. Departmental Honors. 4-8.**

First-year students should take ENGL 151 Black Women's History and Literature, HIST 223, PHIL 232, REL 222 or WGSS 110 to begin the major.

Senior students should take a gender-related IDS 400 from the list above, as a capstone for the major.

*Note: At any level, an internship or independent study may serve the function of one of the above courses. However, a student may count no more than two internships or two independent studies toward the major, and no more than two internships and independent studies combined. Approval from the program chair or one of the co-chairs shall be required for an internship or independent study to count for the major.*
V. Minors

The Guilford curriculum features interdisciplinary and disciplinary minors that provide coherent plans of study for students with special interests apart from their majors or who wish to pursue further study related to the major. Minors normally consist of four courses.

All students except for double majors, or triple majors, who are not required to take a minor, must complete a minimum of one major and one minor. They must take at least 48 credit hours to meet this requirement: at least 32 discrete credits for the major and at least 16 discrete credits for the minor. In the case where a student wishes to use a single course to fulfill requirements for both a major and a minor, s/he may do so as long as the 48-hour minimum is maintained (this may require taking additional courses).

There are two restrictions on choosing a minor in relationship to majors:

Students cannot choose a minor that has the same name as their major. For example, English majors cannot choose an English minor.

Students cannot satisfy the minor requirement with a minor that has a note in its catalog description prohibiting students from combining this minor with their chosen major. For example, the forensic science minor description prohibits students from combining this minor with the forensic biology major.

Accounting (E)  International Business Management (E)
African American Studies (E)  International Political Economy
African Studies  Interpersonal Communication (E)
Anthropology  Japanese Language & Society (E)
Biology  Latin American Studies
Business (E)  Mathematics for the Sciences
Business Law (E)  Medieval/Early Modern Studies
Chemistry  Money & Finance (E)
Communications  Music
Community Studies  Non-Profit Management (E)
Computing and Information Technology (E)  Organizational Communication (E)
Criminal Justice (E)  Peace and Conflict Studies
Dance  Philosophy
Earth Science  Philosophy of Mathematics
East Asian Studies  Physics
Economics  Political Science (E)
Education Studies (E)  Psychology (E)
English  Quaker Studies
Environmental Studies  Religious Studies (E)
Forensic Accounting  Sociology
Forensic Science (E)  Spanish for the Workplace (E)
French Language & Society  Spanish Language & Society
German Language & Society  Sport Administration
History (E)  Sport Marketing
Human Resource Management (E)  Theatre Studies
Integrated Science  Visual Arts
Women’s, Gender & Sexuality Studies

(E = Also offered as evening minor)
ACCOUNTING
Raymond E. Johnson, Department of Accounting

The accounting minor provides non-accounting majors with basic accounting concepts and tools that can be applied to enhance the application and marketability of their liberal arts education. It also prepares them to understand and participate more effectively in the world of work and provides grounding in practical applications that will serve them well throughout their lives.

The minor in accounting is not available to accounting and forensic accounting majors unless the student has completed a double major or another minor.

Minor Requirements. The minor requires a minimum of 16 credit hours (four courses).
1. ACCT 201 Introduction to Accounting  4 credits
2. ACCT 301 Intermediate Accounting I  4 credits
3. ACCT 311 Cost Accounting  4 credits
4. ACCT 321 Individual Taxation  4 credits

Total credit hours required for accounting minor  16 credits

A student may petition to substitute an approved independent study relating to applicable work experience for either ACCT 321 or ACCT 311. The coordinator of the accounting minor must approve the substitution.

AFRICAN AMERICAN STUDIES
Edwins Gwako, Department of Sociology and Anthropology

The African American Studies minor is interdisciplinary and it celebrates the achievements of people of African descent in Africa and the Diaspora while addressing their pursuit of justice, equality, and self-determination. It focuses on cultures, societies, histories and concerns of people of African descent in Africa and the Diaspora including North America, the Caribbean and other parts of the world. It balances the study of race relations and racism with a celebration of African and African American achievements and contributions to the United States and the wider world. It provides a basis for better understanding among people in multicultural societies, multiracial nations and helps prepare students for a wide range of careers in such fields as criminal justice, education, law, health care, human relations, management, marketing, sports management and social work.

Minor Requirements. The minor requires a minimum of 16 credit hours (four courses). The four courses must be taken in at least two different disciplinary departments. No more than one of these courses may be at the 100 level. Other requirements are as follows:

1. One course from:
   - HIST 225 African American History  4 credits
   - SOAN 106 Introduction to African Heritage
2. African Connections: one course from:
   - ENGL 334 African Women Writers
   - FREN 311 The Francophone World
   - HIST 241 Africa to 1800
   - HIST 242 Africa since 1800
   - HIST 343 Women in Modern Africa
   - PSCI 222 African Government & Politics

Total credit hours required for African American Studies minor  16 credits
SOAN 215 Anthropology of Slavery
SOAN 234 Culture & Sexuality in Africa
SOAN 235 African Families in Transition
SOAN 358 African Cultures in Film

3.  The Americas: one course from: 4 credits
ENGL 151 HP: Black Women's History and Literature
ENGL 230 African American Literature
ENGL 331 Black Women Writers
ENGL 332 Black Men Writers
ENGL 378 Caribbean Literature
HIST 308 The Underground Railroad
HIST 315 The Civil Rights Movement
JPS 365 Race in Criminal Justice
JPS 439 Understanding Oppressive Systems
MUS 110 Jazz Appreciation
PHIL 261 Philosophy and Race
PHIL 333 Individual Philosopher: W.E.B. Du Bois
PSY 242 Psychology of African Americans
PSY 349 Multiculturalism & Psychology
REL 234 African American Religion and Theology
SOAN 265 Racial and Ethnic Relations
SOAN 267 Race and Gender in Media Focus

4.  IDS: one course from: 4 credits
IDS 411 Gender & Development in Africa
IDS 412 Race, Ethnicity, Psychology & Law
IDS 422 Harlem Renaissance
IDS 435 Understanding Poverty

Total credit hours required for African American studies minor 16 credits

AFRICAN STUDIES MINOR
Edwins Gwako, Department of Sociology and Anthropology

This minor offers an interdisciplinary approach to the cultures, history and current issues challenging peoples on the African continent, with emphasis on the sub-Saharan region. Its goals are that students will acquire a basic understanding of some portion of Africa’s history and some understanding of African perspectives, values and contributions to the world.

Minor Requirements. The minor requires a minimum of 16 credit hours (four courses).

1.  SOAN 358 African Cultures in Film 4 credits
2.  One course from: 4 credits
   HIST 242 Africa since 1800
   HIST 343 Women in Modern Africa
   PSCI 222 African Government and Politics

3-4. Two courses from: 8 credits
   ENGL 334 African Women Writers
   FREN 275 The Francophone World, in English Translation
   or FREN 311 The Francophone World
   HIST 241 Africa to 1800
HIST 242 Africa since 1800  
HIST 343 Women in Modern Africa  
IDS 411 Gender and Development in Africa  
PSCI 222 African Government and Politics  
SOAN 215 Anthropology of Slavery  
SOAN 234 Culture and Sexuality in Africa  
SOAN 235 African Families in Transition

Total credit hours required for African studies minor 16 credits

ANTHROPOLOGY
Thomas Guthrie, Department of Sociology and Anthropology

The Department of Sociology and Anthropology promotes the study of society and culture. Since people live every aspect of life within a complex socio-cultural environment, it is possible to develop the self fully only with extensive knowledge of that environment. Both disciplines focus on the ubiquitous processes of social organization and the ways in which human knowledge, behavior and institutions are socially and culturally influenced. Anthropology, in particular, focuses on the study of cultural relativity and enables students to understand and appreciate ways of life and cultural systems different from their own.

The minor in anthropology is not available to SOAN majors.

Minor Requirements. The minor requires a minimum of 16 credit hours (four courses).

1. SOAN 103 Cultural Anthropology  4 credits
2. One elective in anthropology at the 200 level from the following:  4 credits
   SOAN 215 Anthropology of Slavery  
   SOAN 216 Anthropology of Colonialism  
   SOAN 225 Culture and the Environment  
   SOAN 234 Culture and Sexuality in Africa  
   SOAN 235 African Families in Transition  
   SOAN 250 Special Topics*  
   SOAN 261 Native North America
3-4. Two electives in anthropology at the 300 level from the following:  8 credits
   SOAN 321 Development Anthropology  
   SOAN 337 Social Research Methods  
   SOAN 342 Social Theory  
   SOAN 350 Special Topics*  
   SOAN 358 African Culture in Films

Total credit hours required for anthropology minor 16 credits

* Note: Only certain SOAN special topic courses can count toward the anthropology minor; check course listings and syllabi to make sure.

Internships and independent studies cannot count toward the minor.

A student interested in taking a 400 level anthropology course must receive permission from both the instructor and department chair; if the course is successfully completed it may then count for one of the 300 level elective requirements.

Credit for courses taken at other institutions or while studying abroad: before attending other institutions, students should obtain a “Request to Take Coursework at Another Institution” form from the registrar’s office and have their courses approved in writing by the
Grant department chair. Departmental approval to take a course off campus is contingent upon the content and evaluation requirements of the course (which should meet SOAN departmental standards), whether the course is regularly offered by the SOAN Department, the student's academic standing and level, and the extent to which the course is consistent with the student's educational goals.

BIOLOGY
Melanie Lee-Brown, Department of Biology

The Biology minor allows students from any major to pursue a focused exploration of a track in Biology such as General Biology, Field Biology, or Cell and Molecular Biology. Requirements for the Biology Minor tracks will include four courses: no more than 2 courses chosen from BIOL 111, BIOL 112, and BIOL 115 and at least one course at the 300/400 level, in consultation with a Biology Department advisor.

The minor in biology is not available to biology majors.

Minor Requirements. The minor requires a minimum of 16 credit hours (four courses). Appropriate prerequisites are necessary for upper-level courses.

General Biology Track
No more than two courses from the following: 4 or 8 credits
1-2 BIOL 111 Integrative Biology: Molecules and Cells
   BIOL 112 Integrative Biology: Organisms, Ecology and Evolution
   BIOL 115 General Botany
3-4. Two or three additional biology courses 8 or 12 credits
   (at least one course must be at the 300 level or above)

Total credit hours required for biology minor: general biology track 16 credits

Field Biology Track
1-2. Up to two courses from the following: 4 or 8 credits
   BIOL 112 Integrative Biology: Organisms, Ecology and Evolution
   BIOL 115 General Botany
3-4. Two or three additional field biology courses from the following list 8 or 12 credits
   (at least one course must be at the 300 level or above):
   BIOL 224 Field Botany
   BIOL 233 North Carolina Freshwater Fishes
   BIOL 235 Vertebrate Field Zoology
   BIOL 242 Natural Science Seminars
   BIOL 332 Invertebrate Zoology
   BIOL 333 Ichthyology
   BIOL 334 Animal Behavior
   BIOL 336 Ornithology
   BIOL 438 General Ecology

Total credit hours required for biology minor: field biology track 16 credits

Cell & Molecular Track
1. BIOL 111 Integrative Biology: Molecules and Cells 4 credits
2-4. Three additional biology courses from the following list 12 credits
   (at least two course must be at the 300 level or above):

www.guilford.edu
BIOL 291 Introduction to Scientific Investigation
BIOL 313 Molecular Cell Biology
BIOL 315 Microbiology
BIOL 340 Psychobiology
BIOL 343 Sensory Systems
BIOL 434 Biochemistry
BIOL 443 Genetics

Total credit hours required for biology minor: cell & molecular track 16 credits

BUSINESS
Betty T. Kane,  Department of Business

The business minor provides students with basic business concepts and tools that can be applied to enhance the application and marketability of their liberal arts education, as well as prepare them to understand and participate more effectively in the world of work. This minor will provide grounding for non-management majors in practical applications that will serve them well throughout their lives and will assist them in relating and using their liberal arts majors in personally and professionally rewarding careers. Students will gain a basic understanding of the world of business, its global aspects and ethical issues. This minor should be a helpful addition on a transcript for job applications in any field.

The minor in business is not available to business majors.

Minor Requirements. The minor requires a minimum of 16 credit hours (four courses).
1. ACCT 201 Introduction to Accounting 4 credits
2. BUS 120 Introduction to Business 4 credits
3. BUS 215 Business Law and Environment 4 credits
4. One course from:
   - BUS 246 International Business Management
   - BUS 249 Principles of Management
   - BUS 310 Professional Communications
   - BUS 321 Human Resource Law and Management

Total credit hours required for a business minor 16 credits

BUSINESS LAW
Raymond E. Johnson,  Department of Accounting
Betty T. Kane,  Department of Business Management

The business law minor exposes students to substantive legal topics, theory and analysis and prepares them to deal with legal issues that arise in the workplace and to respond to ethical issues as they interact with the law. Students will apply basic legal theories to specific problems and situations in order to develop alternatives and provide solutions. Students will assess resources available for researching different aspects of law and develop appropriate research and analytical skills. They will also develop their competencies in professional writing and oral presentation. Students will develop the ability to recognize and apply their practical understanding of business law to both business and personal situations.

Minor Requirements. The minor requires a minimum of 16 credit hours (four courses).
1. BUS 215 Business Law and Environment 4 credits
2. One course from:
   - BUS 215 Business Law and Environment 4 credits

184
Guilford College
CHEMISTRY

Anne G. Glenn, Department of Chemistry

The Chemistry minor gives students tools to explore rapidly growing areas of science on the boundaries of traditional scientific disciplines. Students interested in the health professions, biology, geology and physics can gain an understanding of how chemistry is applied in their field and complements their major or career goals. The minor also attracts those interested in law, business, environmental issues and art.

Through a chemistry minor, students can select chemistry courses that best complement their major and career goals and gain an understanding of why chemistry is often called “the central science.” For example, biology, geology and physics majors and students interested in the health professions (pre-med, pre-vet and pre-dental) could deepen their knowledge of how chemistry is applied in their field. The most rapidly growing areas in science are those that appear on the boundaries of traditional scientific disciplines, such as materials science (physics, chemistry and geology), molecular biology (chemistry and biology) and biophysics (chemistry, biology and physics).

The minor is not limited to science majors. Pre-law students interested in patent law would benefit from this minor, as would management or accounting majors seeking to work in the area of pharmaceutical or chemical manufacturing or sales. Language or international studies majors wishing to work for multinational, scientific companies or deal with global environmental issues would find the minor useful, as would art majors seeking a detailed knowledge of the properties and safety hazards of the materials they use.

The minor in chemistry is not available to chemistry majors.

Minor Requirements. The minor requires a minimum of 18 credits (five courses).

1. CHEM 111 Chemistry Principles I 4 credits
2. CHEM 112 Chemistry Principles II 4 credits
3. CHEM 400 Seminar or BIOL/CHEM 475 Research Seminar 2 credits
4-5. Two courses from: 8 credits
   - CHEM 231 Organic Chemistry I
   - CHEM 232 Organic Chemistry II
   - CHEM 331 Physical Chemistry I
   - CHEM 341 Instrumental Analysis
   - CHEM 342 Inorganic and Materials Chemistry
   - CHEM 412 Geochemistry
   - CHEM 420 Polymer Chemistry
An internship or independent study approved by the minor coordinator can substitute for the 400 level chemistry course. With approval of the minor coordinator, students may take advanced courses at consortium colleges to fulfill the minor requirements.

COMMUNICATIONS
Richard L. Zweigenhaft, Department of Psychology

The communications minor is open to students of any major. It offers a group of courses from various departments designed to give students a broad introduction to the general area of communications. The minor is concerned with broad social, moral and philosophical issues, as well as with the improvement of communication skills.

This minor should be considered as a core of courses that could be extended in a more focused way through additional courses, independent study and internships. Students interested in public relations or advertising, for instance, could take additional courses in art and management while majoring in English. They also could learn practical skills through involvement with College media (such as the radio station or the various publications) and arrange internships with local advertising agencies, newspapers, radio or television stations.

The minor should be particularly useful to people considering careers in any field of communications (for example, newspapers, radio or television) or business management. The minor, however, should be worthwhile in general for any student, enhancing her or his college performance and making a useful offering on a transcript for job applications in many fields.

Minor Requirements. The minor requires a minimum of 16 credit hours (four courses).
1. PSY 241 Mass Media 4 credits
2-3. Two courses from: 8 credits
   BUS 310 Professional Communications
   BUS 324 Marketing Management
   ENGL 282 Journalism
   ENGL 285 Guilfordian Practicum
   JPS/PSY 270 Interpersonal Communications
   MUS 112 The History of Rock
   PSY 352 Psychology of Language
   REL 161 Religion in the New Media
   SOAN 267 Race and Gender in Media Focus
   SOAN 362 Popular Culture and Media Studies
   THEA 161 Masterpieces of the Cinema
   THEA 262 Gay & Lesbian Cinema
   THEA 265 Artistry in Film
4. Any 290/390 Internship approved by minor coordinator 4 credits

Total credit hours required for communications minor 16 credits
COMMUNITY STUDIES MINOR
Sherry Giles, Department of Justice and Policy Studies

This new field of study and practice arises from a pervasive sense of disconnection and isolation that has become widespread in American culture. Focusing on building community, the field understands our society’s institutions as on a path of systematically undermining respectful and authentic relatedness among citizens. It also sees this path as the source of many growing pathologies, including individual and systematic prejudice and discrimination and many forms of violence.

Currently, the need for community-building has begun to gain the attention and imagination of many inside and outside the academy. As new disciplines emerge and diverse technological and other forms of expertise expand, we are becoming aware that we still lack the ability to build sustainable systems that enable our endeavors to thrive.

The minor in community studies is not available to community and justice studies majors.

Minor Requirements. The minor requires a minimum of 16 credit hours (four courses).
1. JPS 103 Community Problem Solving 4 credits
2. JPS 220 Community Building Fundamentals 4 credits
3. JPS 439 Understanding Oppressive Systems 4 credits
4. One course from: 4 credits
   JPS 290 Internship
   JPS 320 Ethics in Justice and Policy Studies
   JPS 424 Trust and Violence
   PHIL 377 Agency, Action and Motivation
   PSY 213 Class, Race, and Gender
   SOAN/PECS 345 Social Change: Promoting Peace

Total credit hours required for community studies minor 16 credits

COMPUTING & INFORMATION TECHNOLOGY
Robert M. Whitnell, Department of Chemistry

The rise of the Internet has highlighted how the use of the computer and information technology has become an integral part of all academic disciplines and a necessity for functioning in the modern world. In expecting Guilford students to become “leaders of change,” the College provides every one of them with access to the extremely powerful research and communication tools that will often be the agents of that change. The computing and information technology minor provides Guilford students with a structure where they can obtain a depth experience that allows them to use the tools effectively, to cope with the rapid change inherent in computing and to analyze the changes in society that the more powerful technology engenders.

Students who complete this minor will be able to apply computing and information technology skills to at least one discipline or area of study. They will be able to program in a high-level computer language and thereby understand the logic by which we get computers to do what we want them to. Finally, they will be able to consider and evaluate the effect of new technologies from an ethical, social or political perspective.

Minor Requirements. The minor requires a minimum of 16 credits (four courses).
1. One course from: 4 credits
ART 245 Digital Darkroom  
BUS 241 Computers and Management  
CTIS 223 Computer Hardware Construction  
CTIS 243/BUS 341 Management Information System  
CTIS 321 Operating Systems  
CTIS 322 Networking Computers  
CTIS/BUS 342 Database Systems  
CTIS 334/BUS 344 e-Business  
CTIS/THEA 274 Digital Graphic Design  
GEOL 340 Images of the Earth  
MATH/PHYS 320 Mathematical Physics  
PSY 301 Research Methods and Analysis  
Any CTIS 200 level or higher course not used to satisfy another requirement for the minor

2. One course from: 4 credits  
   CTIS 210 Introduction to Computer Programming  
   CTIS 310 Advanced Computer Programming

3. One course from: 4 credits  
   CTIS 331 Information Design  
   CTIS 334 e-Business  
   PHIL 241 Computer Ethics  
   PHIL 375 Philosophy of Mind

4. One course from: 4 credits  
   CTIS 345 Systems Analysis and Design  
   CTIS 421 Computer Security and Information Assurance  
   CTIS 440 CTIS Capstone  
   IDS 419 Artificial Intelligence and Artificial Life

Total credit hours required for computing and information technology minor 16 credits

**CRIMINAL JUSTICE**

Jerry Joplin, *Department of Justice and Policy Studies*

This minor provides non-majors an opportunity to pursue an interest in criminal justice. It introduces students to the major problems of instituting legal control over criminal behavior and the complexity of making legal decisions in a moral context. It enables students to develop an appreciation of the social scientific method and to communicate their experience with criminal justice effectively in writing.

The minor in criminal justice is not available to criminal justice majors. Students majoring in community justice may not use their major coursework toward the criminal justice minor.

**Minor Requirements.** The minor requires a minimum of 16 credit hours (four courses).

1. JPS 101 Introduction to Criminal Justice 4 credits
2. JPS 200 Criminal Procedure 4 credits
3-4. Two JPS 300- or 400 level courses excluding JPS 339 Research Methods, JPS 366 Justice and JPS 437 Multicultural Communication 8 credits

Total credits required for criminal justice minor 16 credits

In addition to the course work, students will be required to write a five- to 10-page
paper bringing together their diverse experiences in the minor. This minor summary must be submitted to the Department of Justice and Policy Studies during the semester in which a student completes her or his final course for the minor. JPS faculty will grade the minor summary CR/NC: CR is necessary for successful completion of the minor.

**DANCE**
Christa Wellhausen, *Department of Theatre Studies*

The dance minor is intended for students of any major who wish to discover or continue the development of their creative, technical and performance skills in the fine art of dance. It serves especially well as a companion to majors in the departments of theatre studies, art, sport studies and psychology. The minor seeks to reveal and reintegrate the experiences of mind, body and spirit and to explore the use of art in creating new contexts in which to understand and create personal meaning in life.

Emphases in the minor include a discovery of the student's own expressive potential through the study of established physical dance techniques and the creation of thoughtful works, participation in numerous performances and developing an understanding of dance within contemporary society.

**Minor Requirements.** The minor requires a minimum of 16 credit hours (six courses).

1. THEA 100/SPST 114 The Wonder of Dance 4 credits
2. THEA 101/SPST 112 Modern Dance I 2 credits
3. THEA 103/SPST 110 Beginning Ballet 2 credits
4. THEA 104/SPST 111 Jazz Dance 2 credits
5. THEA 201/SPST 113 Modern Dance II 2 credits
6. THEA 204/ SPST 115 Choreography 4 credits

Total credit hours required for dance minor 16 credits

**EARTH SCIENCE**
Dave Dobson, *Department of Geology and Earth Sciences*

The earth science minor is designed for students who would like to gain significant experience in the geological sciences. This minor is suitable for students from every division on campus, including humanities, social sciences, arts and business and policy studies. For instance, an English major might go on to become a technical writer or editor; an art major might be interested in clay and glaze mineralogy or gemology; social scientists may wish to study GIS and mapping techniques; and pre-law students could go on to study environmental law. Majors in the other sciences, including physics, chemistry and biology, could all find the skills learned in the minor useful to their future careers. The most important and rapidly growing fields of science are those that are appearing at the intersections of scientific disciplines.

The minor in earth science is not available to geology and earth sciences majors.

**Minor Requirements.** The minor requires a minimum of 16 credit hours (four courses).

1. GEOL 121 Geology and the Environment or GEOL 141 Oceanography 4 credits
2-3. Two courses from: 8 credits
   - GEOL 122 Historical Geology
   - GEOL 223 Hydrology
   - GEOL 242 Natural Science Seminars
GEOL 311 Optical Mineralogy  
GEOL 312 Petrology  
GEOL 340 Images of the Earth: GIS and Remote Sensing  
GEOL 415 Paleontology  
GEOL 450 Special Topics  
4. One course from:  
   GEOL 335 Structural Geology  
   GEOL 416 Sedimentology and Stratigraphy  
   IDS 437 Barrier Islands: Ecology & Development  
   IDS 461 Nothin' But Disasters  
   IDS 472 Environmental Planning  
Other advanced geology or geology-related IDS courses may also be approved

Total credit hours required for earth science minor 16 credits

The minor’s entry point is GEOL 121 or 141. Then students may select from a number of geology lab courses and finally take a specially designated capstone course.

EAST ASIAN STUDIES MINOR
Hiroko Hirakawa, Department of Foreign Languages

This minor offers an interdisciplinary approach to the culture, history and contemporary issues of the area. Acquaintance with a diverse cultural tradition broadens students’ perspectives and helps them appreciate the achievements of societies with different values and behavioral patterns. In so doing, the minor helps students better understand their own culture and fosters a critical understanding of global interdependence in the 21st century.

Minor Requirements. The minor requires a minimum of 16 credit hours (four courses).  
1-4. Four courses from: (At least one course must be at the 300 level or above.)  
   HIST 264 The Asian Pacific in Modern Times  
   HIST 266 Contemporary Chinese Society in Film  
   HIST 268 History of Chinese Women  
   HIST 383 Imperial China  
   HIST 384 China in Revolution  
   HIST 385 Medieval Japan  
   HIST 386 Japan: The Road to War  
   IDS 408 East Asian Theatre  
   JAPN 202 Intermediate Japanese II  
   JAPN 220 Women in Modern Japan  
   JAPN 221 Contemporary Japanese  
   JAPN 310 Media, Gender and Nation in Japan  
   PSCI 210 East Asian Politics  
   PSCI 275 Asia and the World  
   PSCI 315 Chinese Politics  
   PSCI 316 China and the World  
   REL 108 Spread of Buddhism across Asia  
   REL 319 Buddhist Emptiness

Total credit hours required for East Asian studies minor 16 credits

Note: Courses taken while in China or Japan may also apply to the East Asian minor.
ECONOMICS
Robert G. Williams, Department of Economics
Robert B. (Bob) Williams, Department of Economics

The economics minor is a package of courses that will provide a career boost for students coming from other majors. In the minor, students learn discipline-specific skills that prepare them for running their own businesses, becoming executives of corporations, managing non-profit enterprises, working for international or environmental organizations or becoming consultants in areas with a practical policy orientation. In addition, students develop transferable skills that prepare them for leadership positions in the widest range of activities, because institutions promote people who can think rigorously, view problems from different angles, make original discoveries about the world and present those discoveries in an articulate way. The economics minor is an attractive asset on one’s resume, and graduate programs in law, business administration, international studies and public policy favor candidates with strong economics backgrounds.

The minor in economics is not available to economics majors.

Minor Requirements. The minor requires a minimum of 16 credit hours (four courses).
1. ECON 221 Macro: US in World Economics or ECON 222 Micro: Public Policy 4 credits
2. One ECON course at any level 4 credits
3-4. Two ECON courses at the 301 level or above 8 credits
Total credit hours required for economics minor 16 credits

EDUCATION STUDIES
David Hildreth, Department of Education

The education studies minor helps students achieve knowledge and abilities important to citizens and parents, policy-makers in the workplace and creators of learning/teaching activities. Students develop habits of mind valuable in many professions and areas of responsibility. Through the minor students are able to explore the possibility of education as a profession and bring closure to that work without commitment to licensure. Most importantly, they create a reflective framework for their own education.

Examples of possible directions for an education studies minor: A history major interested in museum education would take the minor and do the final internship in a museum, either here or abroad. A science major interested in environmental education would take the minor and do her/his final internship in an environmental education center, here or abroad.

The minor in education studies is not available to education studies majors.

Minor Requirements. The minor requires a minimum of 16 credit hours (four courses).
1. EDUC 201 Education Inquiry: First Tutorial 4 credits
2. EDUC 202 Education Inquiry: Second Tutorial 4 credits
3. EDUC 203 Contemporary/Historical Issues in Education 4 credits
4. EDUC 302 Field Study in Cross-Cultural Education in United States 4 credits
Total credit hours required for education minor 16 credits
ENGLISH
Heather Hayton, Department of English

The English minor consists of two separate tracks, literature and writing.

The literature track involves principally the study of literature, a form of art through which humankind has constantly struggled to express verbally the central concerns of the human condition as understood in each age. English minors at Guilford study the literatures of the English-speaking world, primarily focusing on traditional and non-traditional American and British writers. Courses in literatures in translation are also offered.

The writing track offers students the opportunity to focus on the skill of writing while also reflecting on the theory that underlies successful practice. Minors will expand their ability to write creatively and critically, thereby both enriching their Guilford experience and building skills that will benefit them in future careers. Students may pursue interests in poetry, fiction, playwriting, journalism, technical writing and/or literary non-fiction.

Students may choose to fulfill the requirements for one or the other track, but cannot mix the two.

The minor in English is not available to English majors.

Minor Requirements. The minor requires a minimum of 16 credit hours (four courses).

Literature Track.

1. ENGL 200 Introduction to Literary Studies 4 credits
2. One course (literature survey) from: 4 credits
   - ENGL 221 British Literature I
   - ENGL 222 British Literature II
   - ENGL 225 American Literature Survey I
   - ENGL 226 American Literature Survey II
   - ENGL 230 African American Literature
   - ENGL 270 World Literature
3-4. Two courses (300- or 400 level literature) from: 8 credits
   - ENGL 306 Medieval Literature
   - ENGL 309 Early Modern Literature
   - ENGL 327 British Romantic Literature
   - ENGL 328 Victorian Literature
   - ENGL 331 Black Women Writers
   - ENGL 332 Black Men Writers
   - ENGL 334 African Women Writers
   - ENGL 342 American Romanticism
   - ENGL 372 Modern Poetry
   - ENGL 376 Contemporary Fiction
   - ENGL 378 Caribbean Literature
   - ENGL 400 Senior Seminar
   - IDS 409 Gay, Lesbian, Queer Studies
   - IDS 422 Harlem Renaissance

Total credit hours required for English literature track minor 16 credits

Writing Track.

1. ENGL 200 Introduction to Literary Studies 4 credits
2-3. Two courses from: 8 credits
   - ENGL 205 Introduction to Creative Writing
ENGL 210 Playwriting Workshop
ENGL 211 Poetry Workshop*
ENGL 212 Fiction Workshop**
ENGL 282 Journalism
ENGL 285 *Guilfordian* Practicum
ENGL 382 Technical and Professional Communication

* requires ENGL 206 or permission of instructor as prerequisite

**requires ENGL 207 or permission of instructor as prerequisite

4. One course from the following (students may not repeat any course above): 4 credits
ENGL 205 Introduction to Creative Writing
ENGL 210 Playwriting Workshop
ENGL 211 Poetry Workshop*
ENGL 212 Fiction Workshop**
ENGL 282 Journalism
ENGL 285 *Guilfordian* Practicum
ENGL 372 Modern Poetry
ENGL 376 Contemporary Fiction
ENGL 380 Rhetoric and Composition
ENGL 382 Technical and Professional Communication
ENGL 390 Internship

* requires ENGL 206 or permission of instructor as prerequisite

**requires ENGL 207 or permission of instructor as prerequisite

Total credit hours required for English writing track minor 16 credits

Note: The department will periodically add courses to the above lists. Please check with the minor coordinator.

Students will develop a plan of study in ENGL 200. They will then process the coherence of the English minor via a portfolio of work done in the four courses in the minor (or three courses plus internship). Students will submit this portfolio to the English minor subcommittee of the Department of English.

The portfolio should include sample copies of work done in the four courses in the minor (or three courses plus internship) and a five-page reflective paper.

In this paper, which should neither summarize the four courses/internship nor the papers included in the portfolio, minors should reflect on their experience with the minor in light of the coherence plan they developed in ENGL 200. They might, for example: define their personal goals in undertaking the minor; demonstrate how and why those goals have or have not been achieved in the four chosen courses/internship; provide clear examples of how their experience in the courses/internship has informed and challenged their ways of thinking; and discuss what that change in thinking has meant to them and how they expect to utilize the knowledge and analytical skills gained in their careers and/or lives in the future.

Minors must meet with a member of the English minor subcommittee before beginning the paper.

Portfolios are due by the Monday of the 14th week of the semester.
ENVIRONMENTAL STUDIES  
*Angela Moore, Department of Geology and Earth Sciences*

Environmental studies provides an interdisciplinary program that emphasizes the relationship between humans and the environment. It allows students to study and address a fundamental issue of our times – the quality of the Earth’s environment and the sustainable use of its natural resources. The program’s focus on justice, global awareness, service to the larger community and the concept of nature as sacred are in keeping with Guilford’s five academic principles and its Quaker heritage. For the purposes of the environmental studies program, courses of environmental relevance at Guilford have been divided between science courses, or environmental science, and non-science courses, or environmental policy and thought.

**Minor Requirements.** The minor requires a minimum of 20 credit hours (five courses); one course must be at the 300 level.

1. **ENVS 101 Introduction to Environmental Studies**  
   4 credits

2-3. Two courses from:
   - BIOL 112 Integrative Biology: Organisms, Ecology, Evolution  
   - BIOL 212 Environmental Science  
   - BIOL 224 Field Botany  
   - BIOL 233 NC Freshwater Fishes  
   - BIOL 235 Vertebrate Field Zoology  
   - BIOL 334 Animal Behavior  
   - BIOL 336 Ornithology  
   - BIOL 438 General Ecology  
   - CHEM 105 Chemistry of Recycling  
   - CHEM 110 Real World Chemistry  
   - CHEM 111 Chemical Principles I  
   - ENVS 330/GEOL 230 Environmental Pollution  
   - GEOL 121 Geology and the Environment or GEOL 141 Oceanography  
   - GEOL 223 Hydrology  
   - GEOL 340 Images of the Earth: GIS and Remote Sensing  
   - GEOL 416 Sedimentology and Stratigraphy  
   - MATH 112 Elementary Statistics or ECON 301 Research Methods  
   8 credits

4. One course from:
   - ART 254 Sculpture and the Environment  
   - ECON 222 Micro: Public Policy  
   - ECON 344 Environmental and Resource Economics  
   - ENGL 225 American Literature Survey I  
   - ENVS/ART 220 The American Landscape  
   - HIST 227 Urban Environmental History  
   - PECS 246 Mediation and Conflict Intervention  
   - PHIL 242 Environmental Ethics  
   - PSCI 318 Environmentalism in Early America  
   - PSCI 319 Modern Environmental Problems  
   - PSY 344 Environmental Psychology  
   - REL 120/ENGL 228 American Nature Writing  
   - SOAN 225 Culture and the Environment  
   4 credits

5. One course from:
   - IDS 437 Barrier Islands: Ecology & Development  
   - IDS 472 Environmental Planning  
   4 credits
Total credit hours required for environmental studies minor 20 credits

Appropriate internships or independent studies with sufficient academic content and rigor may be substituted for a science or a non-science course, but must be approved in advance by the program coordinator.

FORENSIC ACCOUNTING
Garland Granger, Department of Accounting

The forensic accounting minor provides students with the basic concepts and skills in fraud prevention, detection, and investigations to enhance the marketability of one's education with a strong emphasis on the liberal arts. The minor will also prepare students to face a world where fraud is commonplace. The ability to recognize the symptoms and be able to both prevent and detect fraud will serve the student well in any type of business.

The minor in forensic accounting has a basic prerequisite of Accounting 201 prior to taking the classes with the exception of the Introduction to Forensic Accounting.

Minor Requirements. The minor requires a minimum of 16 credit hours (four courses)
1. ACCT 200 Introduction to Fraud Examinations 4 credits
2. ACCT 300 Advanced Fraud Examinations 4 credits
3. ACCT 320 Criminology and Legal Issues for Forensic Accountants 4 credits
4. ACCT 412 Advanced Fraud Investigations 4 credits

Total credit hours required for forensic accounting minor 16 credits

FORENSIC SCIENCE MINOR
Frank P. Keegan, Department of Biology

The minor in forensic science provides students with a focused and coherent study of the techniques used by various disciplines to analyze evidence found at the scene of a crime. The focus is on the meaning and significance of physical evidence and its role in criminal investigations. Techniques and insights provided by the scientific areas of chemistry, biology, physics and geology are used to explore the utility and limitations that technology and knowledge impose on the individualization and characterization of forensic evidence.

The study of forensics makes science relevant and pertinent to the interests and goals of pre-law students and those interested in pursuing careers with the FBI or other law enforcement agencies, in pathology, in creative writing or with international agencies monitoring ethnic and political violence.

The minor in forensic science is not available to forensic biology majors.

Minor Requirements. The minor requires a minimum of 16 credit hours (four courses).
1. BIOL 245 Introduction to Forensic Science 4 credits
2. BIOL/CHEM 246 Forensic Chemistry 4 credits
3. BIOL 349 Forensic Anthropology 4 credits
4. JPS 200 Criminal Procedure 4 credits

Total credit hours required for forensic science minor 16 credits
FRENCH LANGUAGE AND SOCIETY
Maria Bobroff, Department of Foreign Languages

This minor provides access to French and Francophone cultures as well as insights into our own. The program focuses on language-learning as a living, functioning and fun activity, and combines the development of language skills with the discovery of new ways to see and think about different cultures. It fosters international understanding and provides knowledge and skills that are increasingly essential in our evolving global society.

The minor in French language and society is not available to French majors.

Minor Requirements. The minor requires a minimum of 16 credit hours (four courses) at the 200 level or above, all taught in French.
1. FREN 220 Introduction to Literary and Cultural Analysis  4 credits
2. One course from:
   FREN 310 Contemporary France
   FREN 311 The Francophone World
   FREN 315 French and Francophone Cinema
   Any FREN course at the 200 level or above taught in French
   in a French-speaking country
   4 credits
3-4. Two FREN courses at the 200 level or above
   FREN 260, 290, 360, 390, 460 with departmental permission
   8 credits

Total credit hours required for French language and society minor  16 credits

GERMAN LANGUAGE AND SOCIETY
David J. Limburg, Department of Foreign Languages

This minor provides access to German culture as well as insights into our own culture. The program focuses on language-learning as a living, functioning and fun activity, and combines the development of language skills with the discovery of new ways to see and think about different cultures. It fosters international understanding and provides knowledge and skills that are becoming increasingly essential in our evolving global society.

The minor in German language and society is not available to German majors.

Minor Requirements. The minor requires a minimum of 16 credit hours (four courses) at the 200 level or above, all taught in German.
1. GERM 202 Intermediate German II  4 credits
2. One course from:
   GERM 310 Contemporary German Culture
   GERM 311 German Youth Culture
   GERM 320 Culture and Society: The Weimar Republic
   or any GERM course at the 200 level or above taught in German
   in a German-speaking country
   4 credits
3-4. Two GERM courses at the 200 level or above;
   GERM 260, 290, 360, 390, 460 with departmental permission
   8 credits

Total credit hours required for German language and society minor  16 credits
HISTORY
Alvis Dunn, Department of History

The history minor focuses on understanding the relevance of past events to contemporary concerns, researching the range of primary sources (oral, written, visual), reading these sources in the context of other information in order to determine the bias both of the sources and of their interpreters, and writing and speaking clearly about the result. Our courses embrace actors and events from Africa, Asia, Europe, Latin America and the United States, from the pre-Christian era to recent times. The department encourages history minors to design their program of study in consultation with a member of the department.

The minor in history is not available to history majors.

Minor Requirements. The minor consists of four courses 16 credit hours (four courses) in one of the following four coherent clusters of study. Each student taking the history minor must take at least one 300 level course within their chosen region.

Early World History Track:
1-4. Four courses from: (Only one course permitted from each of the four regions):

Total credit hours required for history, European history focus minor 16 credits

**Modern World History Track:**

1-4. Four courses from: (Only one course permitted from each of the five regions: Europe, Africa, Asia, Latin America and the United States.) 16 credits

- HIST 104 The U.S. since 1877
- HIST 205 American Imperialism / American Progressivism
- HIST 212 American Frontiers
- HIST 227 Urban Environmental History
- HIST 237 Europe in Revolution
- HIST 238 War and Peace: 20th Century Europe
- HIST 242 Africa Since 1800
- HIST 255 The Second World War
- HIST 264 Asian Pacific in Modern Times
- HIST 266 Contemporary Chinese Society in Film
- HIST 268 History of Chinese Women
- HIST 272 Modern Latin America
- HIST 276 Civil War and Reconstruction
- HIST 302/ECON 302 Economic History of the United States
- HIST 311 The U.S. Since 1945
- HIST 312 Indians in American History since 1800
- HIST 324 American Rivers
- HIST 384 China in Revolution
- HIST 386 Japan: The Road to War
- Any HIST 250, 350 or 450 course from the 19th and 20th century

Total credit hours required for history, modern world history focus minor 16 credits

**U.S. History Track:**

1-4. Four courses from: 16 credits

- HIST 103 The U.S. to 1877
- HIST 104 The U.S. since 1877
- HIST 205 American Imperialism /American Progressivism
- HIST 212 American Frontiers
- HIST 221 Changing Face of the South
- HIST 222 North Carolina History
- HIST 223 Gender and Power in U.S. History
- HIST 225 African-American History
- HIST 227 Urban Environmental History
- HIST 276 Civil War and Reconstruction
- HIST 303 U.S. Social History and Memory
- HIST 308 Underground Railroad
- HIST 311 U.S. History Since 1945
- HIST 312 Indians in American History since 1800
- HIST 315 Civil Rights Movement
- HIST 324 American Rivers
- Any HIST 250, 350, or 450 course with a U.S. theme

Total credit hours required for history, U.S. history focus minor 16 credits
HUMAN RESOURCE MANAGEMENT
Betty Kane, Department of Business

This minor provides a structure within which students gain an exposure to the study of human relations in organizations. Students will learn various ways of how people can work effectively to achieve overall organizational goals as well as fulfill personal goals while understanding the legal parameters that surround these issues. Although none of the courses have prerequisites and therefore are open to all majors on campus, it is highly recommended that BUS 215 (Business Law and Environment) and BUS 249 (Principles of Management) be taken first, as BUS 321 (Human Resource Management and Law) is the culminating course that combines all the material from the other classes.

Minor Requirements. The minor requires a minimum of 16 credit hours (four courses). Students should consult with the coordinator to select an appropriate elective that will serve as a focus course for the minor.

1. BUS 215 Business Law and Environment 4 credits
2. BUS 249 Principles of Management 4 credits
3. One course from:
   - BUS 310 Professional Communications 4 credits
   - JPS 244 Conflict Resolution Strategies
   - JPS 310 Public Management and Organizational Theory
   - JPS 323 Diversity at Work
   - PSY 332 Industrial and Organizational Psychology
4. BUS 321 Human Resource Law and Management 4 credits

Total credit hours required for human resource management minor 16 credits

It is recommended that business majors who are minoring in human resource management and law take IDS 402 or IDS 426 as their IDS course.

INTEGRATED SCIENCE
Lynn J. Moseley, Department of Biology

The integrated science minor is designed to provide students with a broad exposure to a variety of scientific disciplines. Such a broad exposure is essential for citizens and potential leaders who seek to understand the breaking news stories that dominate the headlines in the 21st century. Intelligent decision-making on issues such as stem cell research, the use of the anthrax bacillus as a biological weapon, the ozone holes and potential remedies or the underlying causes of global warming, requires knowledge of chemistry, mathematics, physics, geology and biology. Completion of the integrated sciences minor will provide a solid underpinning for advanced study in the sciences, as well as an appropriate background for students interested in pursuing careers in business, journalism, the law, the social sciences or politics.

Minor Requirements. The minor requires a minimum of 16 credit hours (four courses). One of the four courses must be a 300 or 400 level capstone course. In some cases a student might have to take more than three courses to meet the prerequisites of a capstone course.

1-3. Three courses from: 12 credits
   - BIOL 111 Integrative Biology: Molecules and Cells
   - BIOL 112 Integrative Biology: Organisms, Ecology and Evolution
   - CHEM 111 Chemical Principles I
CHEM 112 Chemical Principles II  
MATH 112 Elementary Statistics  
MATH 115 Elementary Functions  
MATH 121 Calculus I  
MATH 122 Calculus II  
MATH 123 Accelerated Calculus  
PHYS 121 Classical and Modern Physics I  
PHYS 122 Classical and Modern Physics II  
PHYS 211 College Physics I  
PHYS 212 College Physics II  

4. One course from:  
   BIOL 313 Molecular Cell Biology  
   CHEM 331 Physical Chemistry I  
   CHEM 341 Instrumental Analysis  
   GEOL 416 Sedimentology and Stratigraphy  
   IDS 416 Biotechnology and Society  
   IDS 437 Barrier Islands: Ecology & Development  
   IDS 461 Nothin’ But Disasters  
   IDS 472 Environmental Planning  

Total credit hours required for integrated science minor 16 credits

INTERNATIONAL BUSINESS MANAGEMENT  
Deena Burris, Department of Business  

The international business minor provides students with exposure to and implementation of international business management theories necessary to conduct business globally. This minor will assist students in understanding the practice of global business and how culture influences the practice of management. Students will also learn the difference between studying international business from a theoretical perspective and studying it in an applied way. Knowledge and concepts from the areas of business management, international studies, economics and political science are included to maximize learning the practice of global management.  

Minor Requirements. The minor requires a minimum of 16 credit hours (four courses).  
1. ECON 221 Macro: US in World Econ 4 credits  
2. BUS 346 International Business 4 credits  
3. BUS 349 International Management 4 credits  
4. One course from: 4 credits  
   BUS 321 Human Resource Law and Management  
   ECON 432 International Economics  
   PSCI 330 International Political Economy  
   PSCI 391 Globalization and Its Discontents  

Total credit hours required for international business management minor 16 credits
INTERNATIONAL POLITICAL ECONOMY
Robert G. Williams, Department of Economics
Kenneth E. Gilmore, Department of Political Science

Understanding the complexities of global finance, production and trade; describing and explaining the patterns of capital accumulation on a world scale; clarifying the connections among state-making, international markets and world development — require the integration of the theoretical insights of the disciplines of economics and political science. The international political economy minor encourages students to explore the interplay of economics and politics in the global arena. Students will learn the contending analytical perspectives that characterize scholarship on the politics of international economic relations. Students will also become familiar with the tools of economic analysis, including how to read a balance of payments table, how to analyze a foreign exchange market and how to evaluate the impact of international capital flows on domestic policy. The basic principles developed in introductory level courses are applied to real-world issues in the upper-level course electives.

**Minor Requirements.** The minor requires a minimum of 16 credit hours (four courses).

1. ECON 221 Macro: US in World Econ 4 credits
2. PSCI 330 International Political Economy 4 credits
3. One course from:
   - ECON 335 Comparative Economic System 4 credits
   - ECON 336 Economic and Social Development of Latin America 4 credits
   - ECON 432 International Economics 4 credits
4. PSCI 391 Globalization and Its Discontents 4 credits

Total credit hours required for international political economy minor 16 credits

INTERPERSONAL COMMUNICATIONS
Jerry Joplin, Department of Justice and Policy Studies

In an increasingly complex and socially diverse world, individuals need to be able to communicate effectively and to develop and maintain strong personal relationships with people close to them and from very different backgrounds. This interdisciplinary minor engages studies in examining interpersonal communication in order to understand communication processes and styles and the subtle ways cultural differences enhance or inhibit relationships. Courses in the minor explore both intrapersonal communication (internal mental and emotional processes that shape selection and interpretation of communication) and interpersonal communication (the process through which individuals interact, build relationships and create meaning). Students study conflict and ways in which it can be managed and transformed to enhance relationships. The influence and importance of understanding cultural differences and their impact on interpersonal communications is examined throughout the minor.

The minor would be of special interest to adults seeking to communicate more effectively with family members, friends and intimate partners. Courses in the minor feature highly interactive and experiential activities in the classroom and local community that integrate and apply communications theory to authentic personal relationships.

**Minor Requirements.** The minor requires a minimum of 16 credit hours (four courses).

1. JPS/PSY 270 Interpersonal Communications 4 credits
2. JPS 244 Conflict Resolution Strategies 4 credits

www.guilford.edu
3. JPS 323 Diversity at Work 4 credits 
4. JPS 437 Multicultural Communications 4 credits

Total credit hours required for interpersonal communication minor 16 credits

*Note: This minor will be offered only in the evening schedule for CCE students.*

**JAPANESE LANGUAGE AND SOCIETY**
Hiroko Hirakawa, *Department of Foreign Languages*

This minor provides access to Japanese culture as well as insights into our own culture. The program focuses on language learning as a living, functioning and fun activity, and combines the development of language skills with the discovery of new ways to see and think about different cultures. It fosters international understanding and provides knowledge and skills that are becoming increasingly essential in our evolving global society.

**Minor Requirements**
The minor requires a minimum of 20 credit hours (five courses).

1-4. Four Japanese (JAPN) courses 16 credits
5. One course from:
   - HIST 385 Medieval Japan
   - HIST 386 Japan: The Road to War
   - JAPN 220 Women in Modern Japan
   - JAPN 221 Contemporary Japanese Society
   - JAPN 310 Media, Gender and Nation in Japan

Total credit hours required for Japanese Language and Society minor 20 credits

**LATIN AMERICAN STUDIES**
Sylvia Trelles, *Department of Foreign Languages*

This minor offers an interdisciplinary approach to cultures, history and current issues of the area. An acquaintance with a diverse cultural tradition will broaden students’ perspectives and help them understand and appreciate the achievement of societies with different cultural values and behavioral patterns. In so doing, the program fosters a critical understanding of global interdependence in the 21st century.

**Minor Requirements.** The minor requires a minimum of 16 credit hours (four courses). Spanish language courses are not acceptable; however, content courses taught in Spanish are. To provide depth, at least one of the four courses must be at the 300 level or above.

1-4. Four courses from:
   - ECON 336 Economic and Social Development
   - ENGL 378 Caribbean Literature
   - HIST 271 Colonial Latin America
   - HIST 272 Modern Latin America
   - SOAN 245 Race/Ethnicity in Latin America
   - SOAN 330 Inequality in Latin America
   - SOAN 331 Latino Migration Patterns
   - SOAN 425 Latin American Politics
   - SPAN 310 Contemporary Latin America
   - SPAN 320 Culture & Society: Mexico, Central America & Caribbean
   - SPAN 322 Culture and Society: South America

16 credits
MATHEMATICS FOR THE SCIENCES
G. Rudolph Gordh Jr., Department of Mathematics

Mathematics is often called the language of the sciences. As such it provides a means by which scientists model that which they observe in the “worlds” they seek to describe and those simulated in their laboratory experiments. A primary means of such modeling is through the use of elementary functions whose analysis is a major focus of calculus.

Mathematics for the sciences is a minor within mathematics itself that provides students with the understanding of and techniques for modeling using the elementary functions and techniques of calculus. The minor is designed primarily for physics and other natural science majors who are interested in modeling or are preparing for graduate study. However, it is appropriate as well for some social science and business and policy study majors, especially those interested in economic systems.

The minor in mathematics for the sciences is not available to mathematics majors.

Minor Requirements. The minor requires a minimum of 16 credit hours (four courses).
1. MATH 225 Multivariable Calculus 4 credits
2-4. Three courses from: 12 credits
   MATH 121 Calculus I
   MATH 122 Calculus II
   MATH 123 Accelerated Calculus
   MATH 310 Probability and Statistics
   MATH/PHYS 320 Mathematical Physics
   MATH 325 Linear Algebra
   MATH 475 Seminar in Mathematics

Total credit hours required for mathematics for the sciences minor 16 credits

MEDIEVAL/EARLY MODERN STUDIES
Timothy Kircher, Department of History

The medieval and early modern period (ca. 400-1800 C.E.) has been profoundly formative of the world we live in today. Study of this period, a time markedly different from our own, provides a crucial vantage point for understanding the present age. The medieval/early modern studies minor aims at introducing students to interdisciplinary developments in literature, religion, history, philosophy and culture. It explores such matters as: the determination of life’s meaning; the encounter with diverse civilizations; the pursuit (or evasion) of truth through reason, faith and experience; the unsettled confluence of three great world religions (Christianity, Judaism and Islam); the relation among religion, arts and science; the origins of romantic love and humanism; the development of bourgeois society and urban centers out of feudalism and manorialism; the emergence of the great national literatures of Europe; and the shaping of the mythological foundations of the modern West.

Although the locus of study is clearly Europe, students may take courses in medieval China, Japan and Africa, which offer alternative perspectives on this time period and our own.
**Minor Requirements.** The minor requires a minimum of 17 credit hours (four courses).

1. **GST 225 Medieval & Renaissance Culture**  
   1 credit

3-5. Four courses from:  
   16 credits
   
   - ART/HIST 235 Renaissance in Florence
   - ENGL 151 King Arthur
   - ENGL 151 Fairies, Witches, Rebels, Caribs
   - ENGL 221 British Literature I
   - ENGL 223 Shakespeare
   - ENGL 288 Shakespeare & Film
   - ENGL 306 Medieval Literature
   - ENGL 309 Early Modern Literature
   - HIST 101 The Medieval Web
   - HIST 233 Medieval Civilization: Crusades and Chivalry
   - HIST 235 The Renaissance
   - HIST/REL 236 Reformation
   - HIST 241 Africa before 1800
   - HIST 271 Colonial Latin America
   - HIST/ENGL 336 The Elizabethan Age
   - HIST 383 Imperial China
   - HIST 385 Medieval Japan
   - PHIL 310 Ancient Western Philosophy
   - PHIL 320 Modern Western Philosophy
   - PSCI 106 Classics in Political Thought
   - REL 236 Reformation: Luther to Fox
   - REL 240 History of Christianity
   - REL 288 Witches, Ghosts, & Demons
   - SPAN 323 Culture and Society
   - THEA 130 Theatre and Culture I

Total credit hours required for medieval/early modern studies minor  
17 credits

Various special topics courses that are medieval or early-modern in content may also be counted toward the minor (for example, ENGL 250 Dante, ENGL 350 Chaucer or HIST 250 Studies in the Renaissance). Please see the medieval/early modern studies coordinator for petition information.

In order to provide coherence to the minor, students are required to build a portfolio of major essays that they have written in each of their four courses. Students will cap this portfolio with an analytical summary prior to completing the minor.

**MONEY AND FINANCE**

Raymond E. Johnson, *Department of Accounting*

Daryl Samsell, *Department of Business*

Robert G. Williams, *Department of Economics*

The money and finance minor is a package of courses designed to prepare students to be successful in a wide variety of careers, including banking, investments and international business. The central skills that students learn in these courses are to read and analyze critically an organization's financial reports and to think strategically about positioning an organization in the financial environment. The money and finance minor provides students with an introduction to the economic environment and basic economic, accounting and
finance concepts, a complete introduction to the banking system and tools that can be applied to for-profit and not-for-profit businesses.

The minor enhances and complements major fields of study such as accounting, management and economics. It also prepares liberal arts students with the essential business skills that will enable them to move into a managerial career track later on. Former graduates of this minor have said it provided them with excellent basic preparation for graduate school in business administration.

**Minor Requirements.** The minor requires a minimum of 16 credit hours (four courses).

1. ACCT 201 Introduction to Accounting or
   BUS 282 Fundamentals of Investing 4 credits
2. ECON 221 Macro: U.S. in World Econ 4 credits
3. BUS 332 Financial Management 4 credits
4. BUS/ECON 333 Money and Banking 4 credits

Total credit hours required for money and finance minor 16 credits

Additional prerequisites for BUS 332 include Math 112 Elementary Statistics or Math 121 Calculus I, Acct 311: Cost Accounting and Bus 241 Computers and Management.

**MUSIC**

Timothy Lindeman, *Department of Music*

The music minor offers students the opportunity to explore the world of music, both in academic situations as well as in performance. A student can complete it by taking four academic courses (two of which are specified by the department), or by taking two academic courses and a variety of performance studies or ensembles. Thus a student can pursue an interest in either theory and history or performance areas.

The minor will engage the student on many levels: intellectually, emotionally and creatively. By requiring two specific courses, the department guarantees that the student receives exposure to important theoretical and historical constructs while at the same time being free to pursue a performance goal or contribute to the campus community by taking part in ensembles.

The minor in music is not available to music majors.

**Minor Requirements.** The minor requires a minimum of 16 credit hours (four courses).

1. MUS 101 Music Theory I 4 credits
2. MUS 310 Music History I or MUS 311 Music History II 4 credits
3-4. Any additional MUS courses 8 credits

Total credit hours required for music minor 16 credits

**NON-PROFIT MANAGEMENT**

Vicki Foust, *Department of Business*

This minor provides students with basic management concepts and tools to enhance the marketability of their liberal arts education, as well as prepare them to understand and participate more effectively in work in the non-profit sector. It will provide grounding for non-management majors in practical applications that will serve them well throughout their lives.

**Minor Requirements.** The minor requires a minimum of 20 credit hours (five courses).

1. ACCT 201 Introduction to Accounting 4 credits
2. BUS 120 Introduction to Business or BUS 249 Principles of Management  
   4 credits
3. BUS 371 Nonprofit Management  
   4 credits
4. One course from:  
   ECON 222 Micro: Public Policy  
   JPS 244 Conflict Resolution Strategies  
   JPS 313 Law and Society  
   JPS 323 Diversity at Work  
   PECS 246 Mediation and Conflict Intervention  
   PECS 345 Social Change: Promoting Peace  
   PSCI 204 Public Policy & Administration  
   PSCI 240 American Political Thought  
   PSY 332 Industrial/Organizational Psychology  
   SOAN 100 Introduction to Sociology  
   4 credits
5. Approved 290/390 Internship  
   4 credits

Total credit hours required for non-profit management minor  
20 credits

ORGANIZATIONAL COMMUNICATIONS

Jerry Joplin, Department of Justice and Policy Studies

This minor provides substantive interdisciplinary focus on communication processes and systems that operate in organizations of all kinds and affect the performance of functional units and their employees with a vital impact on organizational outcomes, employee morale and teamwork. Research indicates that specific knowledge of internal and external communication processes is important for managers and employees at all levels. Courses in the minor draw upon theory and research from several social sciences with multiple practical applications to organizational communication and resource management.

Students choosing this minor will give sustained attention to the direct and indirect ways in which communication processes and social dynamics affect organizations and employee interaction. They will learn how to adapt communication approaches for colleagues, supervisors and interdependent work teams. This minor will have particular relevance for managers working in large and small organizations, including volunteer and non-profit groups, government agencies, law enforcement, social and health services, small businesses and large corporations. Students will gain greater understanding of organizational structures and communication processes and learn to be more effective as individuals, managers and members of work groups.

Minor Requirements. The minor requires a minimum of 16 credit hours (four courses).
1. JPS 271 Organizational Communication and Teamwork  
   4 credits
2-4. Three courses from:  
   JPS 244 Conflict Resolution  
   JPS 323 Diversity at Work  
   PSY 332 Industrial and Organizational Psychology  
   12 credits

Total credit hours required for organizational communication minor  
16 credits

Students pursuing this minor must write one paper of six pages in length in each of the four courses. Each paper will fulfill a course assignment and also provide coherence by demonstrating how key constructs and processes of organizational communication apply to the content and processes of the specific course.

Note: This minor will be offered only in the evening schedule for CCE students.
The interdisciplinary field of peace and conflict studies examines the nature of conflict and violence, the possibilities of social change and the means for resolving and transforming conflict nonviolently. The minor draws on Guilford’s Quaker heritage by seeking the roots of situations of injustice and oppression, exploring nonviolent social change, emphasizing each individual’s search for truth within different levels of community and focusing on practical problem-solving. Peace and conflict studies melds two related fields of study, conflict resolution and peace studies, in a complementary, creative interaction. It encourages an interdisciplinary, holistic relationship between personal and social change, structured modes of conflict resolution and creative nonviolent activism, careful analysis of structural violence and exploration of spiritual foundations for peaceable living and action.

Students in the minor engage in critical analysis in several key components of the field: theories of war and peace; central concepts in peace research; the interrelation among the personal, local and global levels of conflict and possibilities of reducing conflict; and methods and practices of conflict resolution, reduction and transformation. Students build skills that help them to solve problems of violence and conflict, to listen carefully and caringly to others in the midst of conflict and to contribute to organizing groups and actions concerned with social change and conflict resolution and transformation.

The minor in peace and conflict studies is not available to peace and conflict studies majors.

**Minor Requirements.** The minor requires a minimum of 16 credit hours (four courses).

1. PECS 110 Introduction to Peace & Conflict Studies 4 credits
2. One course at the 200 level or above from: 4 credits
   - PECS 246 Mediation/Conflict Intervention
   - PECS 235 Peacebuilding in Divided Societies
   - PECS 250 Special Topics
   - PECS 315 Human Rights
   - PECS 316 Globalization: Economics & Social Justice
   - PECS 330 Nonviolence: Theories and Practice
   - PECS 345 Social Change: Promoting Peace
   - PECS 350, 450 Special Topics
   - PECS 360, 460 Independent Study
   - PECS 363 Reconciliation and Justice
   - PECS 390 Internship
3-4. Two courses at the 300 or 400 level from: 8 credits
   - PECS 315 Human Rights
   - PECS 316 Globalization: Economics & Social Justice
   - PECS 330 Nonviolence: Theories and Practice
   - PECS 345 Social Change: Promoting Peace
   - PECS 350, 450 Special Topics
   - PECS 360, 460 Independent Study
   - PECS 363 Reconciliation and Justice
   - PECS 390 Internship
   - PECS 445 Conflict, Culture, Negotiation
   - PECS 465 Senior Seminar
   - PECS 468 Religion, Spirituality and Social Change

Total credit hours required for peace and conflict studies minor 16 credits

www.guilford.edu
Credit for courses taken at other institutions or while studying abroad: Before attending other institutions, students should obtain a “Request to Take Coursework at Another Institution” form from the registrar’s office and have their courses approved in writing by the PECS department chair. Departmental approval to take a course off campus is contingent upon the content and evaluation requirements of the course, whether the course appropriately fits the PECS curriculum, the student’s academic standing and level, and the extent to which the course is consistent with the student’s educational goals.

**PHILOSOPHY**  
Nancy Daukas, *Department of Philosophy*

The philosophy minor consists of four courses. Together, they enable students to: develop an awareness of the breadth and depth of the field of philosophy; develop the skills used in and virtues central to, philosophical inquiry and debate, at least to a degree of excellence reasonable to expect of a non-major; and engage students as active participants in that inquiry and debate.

The minor in philosophy is not available to philosophy majors.

**Minor Requirements.** The minor requires a minimum of 16 credit hours (four courses).

1. PHIL 100 Introduction to Philosophy or PHIL 111 Ethics  
2. PHIL 310 Ancient Western Philosophy or PHIL 320 Modern Western Philosophy  
3. One PHIL course at any level  
4. PHIL 401 Contemporary Analytic Philosophy or PHIL 336, PHIL 375, PHIL 376, PHIL 377 (Other 300 level PHIL courses may be substituted, with departmental approval)

Total credit hours required for philosophy minor: 16 credits

**PHILOSOPHY OF MATHEMATICS**  
Nancy Daukas, *Department of Philosophy*  
Elwood G. Parker, *Department of Mathematics*

The portals to Plato’s academy contained the message (paraphrased): “Let no one enter here who does not know mathematics.” As this quotation suggests, there is a rich history to the connections between mathematics and philosophy. The philosopher-mathematician tradition continues today and can be found in, among others, the theories of formalism, intuitionism and Platonism.

Philosophy of mathematics is a cross-disciplinary and cross-divisional minor that investigates the connections between philosophy and mathematics. It is particularly designed as a companion to either a philosophy or mathematics major.

**Minor Requirements.** The minor requires a minimum of 16 credit hours (four courses).

**Required of Philosophy majors**

1. MATH 112 Elementary Statistics or MATH 310 Probability and Statistics  
2. One course from:  
   - MATH 121 Calculus I  
   - MATH 122 Calculus II  
   - MATH 123 Accelerated Calculus  
   - MATH 225 Multivariable Calculus  
3. MATH 231 Foundations of Mathematics or MATH 235 Geometry  
4. MATH 232/PHIL 293 Infinity, Undecidability, Non-computability
Total credit hours required for philosophy of mathematics minor majoring in philosophy 16 credits

**Required of Mathematics majors**

1. PHIL 310 Ancient Western Philosophy or PHIL 320 Modern Western Philosophy 4 credits
2. PHIL 292 Formal Logic 4 credits
3. PHIL 401 Topics in Contemporary Analytic Philosophy 4 credits
4. MATH 232/PHIL 293 Infinity, Undecidability, Non-computability 4 credits

Total credit hours required for philosophy of mathematics minor majoring in mathematics 16 credits

**PHYSICS**

Thomas P. Espinola, *Department of Physics*

The common thread connecting the different goals and focuses of students pursuing a physics minor is the physicist’s approach to thinking about, modeling and understanding the universe. This process relies on clear, analytical and often abstract thinking but is ultimately grounded in concrete reality as exposed by experiment. Reaching a clear, realistic understanding of some aspect of the world is of value in not only science and engineering but also business, medicine, law and many other fields.

The physics minor will be most useful for majors in other sciences or education who wish to increase their exposure to analytical, mathematical and computational tools which they may later wish to use in their chosen fields of study. These may include chemistry majors interested in physical chemistry, geology majors interested in geophysics and biology majors interested in biophysics. Mathematics majors wishing to gain experiences with hands-on, real-world problems that require the tools of mathematics would also be interested in this minor. The minor will be of value to students in other fields and will be individualized to maximize exposure to skills useful the individual in his or her chosen field of study.

Each student pursuing the physics minor will design a program of study with his or her advisor(s). Most students will choose to take Physics I, II and III. An independent research project is optional but encouraged.

The minor in physics is not available to physics majors.

**Minor Requirements.** The minor requires a minimum of 16 credit hours (four courses), at least four of which must be in experimental physics and eight in theoretical physics.

1. PHYS 121 Classical & Modern Physics I 5 credits
2. PHYS 122 Classical & Modern Physics II 5 credits
3. One course from: 2-4 credits
   - PHYS 231 Experimental Physics I 2 credits
   - PHYS 232 Experimental Physics II 2 credits
4. One PHYS course at any level 4 credits

Total credit hours required for physics minor 16 credits

OR

1. PHYS 231 Experimental Physics I 2 credits
2. PHYS 232 Experimental Physics II 2 credits
3. One PHYS course at the 300 level or above (other than PHYS 461) 4 credits
4-5. Two PHYS courses at any level 8 credits

Total credit hours required for physics minor 16 credits

*Note: PHYS 101, 106, 107, 108, 109 and 461 do not apply toward minor.*

www.guilford.edu
POLITICAL SCIENCE
Kenneth E. Gilmore, Department of Political Science

The minor in political science is not available to political science majors.

Minor Requirements. The minor requires a minimum of 16 credit hours (4 courses). It is expected that students will plan their course of study with an advisor in the department. Students are encouraged to select minors related to their special interests or career plans after graduation. It is highly recommended that at least two of these courses be at the 300 level or above to ensure depth. Independent study and internship credits may not apply to the minor in political science.

1-2. Two courses from: 8 credits
   PSCI 101 The American Political System
   PSCI 103 International Relations
   PSCI 105 Comparative Politics
   PSCI 106 Classics of Political Thought
   PSCI 230 Politics of Problem Solving

3-4. Two PSCI course at the 300 level or above 8 credits

Total credit hours required for political science minor 16 credits

In addition, students are required to write a reflective paper bringing together their diverse experiences in the minor. This reflective paper must be submitted to the Department of Political Science during the semester in which a student completes her or his final course for the minor. Department faculty will grade the reflective paper pass/fail and a pass is necessary for successful completion of the minor.

PSYCHOLOGY
Eva K. Lawrence, Department of Psychology

The program in psychology emphasizes the contribution that psychology can make to a liberal arts education through stimulating intellectual development, personal growth, respect for others and social responsibility. The psychology curriculum is designed to familiarize students with current methods and theories in the many specialized areas of investigation in the discipline, such as biopsychology, sensation and perception, cognition, learning, personality, social processes, clinical and development.

Students electing a minor in psychology will identify a particular focus in the field, and, with the assistance of an advisor, select courses to fit that interest. Throughout the minor, they will be encouraged to appreciate different approaches and perspectives; to learn to observe psychological phenomena; and to recognize the role of multiple causation in the determination of human behavior.

The minor in psychology is not available to psychology majors.

Minor Requirements. The minor requires a minimum of 16 credit hours (four courses).

1. One course from: 4 credits
   PSY 100 General Psychology
   PSY 224 Developmental Psychology
   PSY 232 Introduction to Personality

2-3. Two PSY courses at the 300 level or above(except PSY 303) 8 credits

4. One PSY course at any level (except PSY 303) 4 credits
   JPS 270 and SPST 340 may count toward this requirement

Total credit hours required for psychology minor 16 credits
In addition to completing the four courses approved by an advisor, students are required to write a three- to five-page statement about these four courses and submit it to the department chair; this statement should indicate the coherence of the particular courses taken, including some discussion of both the breadth of the material studied and the depth of the student’s special interests. The statement is to be signed by the psychology departmental advisor, who, in turn, submits it to the chair of the psychology department. If the department chair thinks revisions are necessary, s/he will ask for them.

QUAKER STUDIES
Max L. Carter, Department of Religious Studies

The Quaker studies minor explores Quaker spirituality in relation to the world. Through study of Quaker history and “social testimonies” (social ethics), it uses the perspective of this world-mending spirituality to reflect on justice issues. As an interdisciplinary exploration it seeks to understand forms of systemic oppression in our time (such as sexism, racism, classism, militarism, religious imperialism and environmentalism) and how to transform them.

This study will develop several kinds of thinking in speaking, listening and writing: analysis, criticism, imagination, textual interpretation, social problem-identification and problem-solving and self-reflective exploration. It will investigate the interrelated subtle aspects of individual selves, characteristics of a religious movement, large but obscured social systems and the student’s own religious and ethical commitments.

Minor Requirements. The minor requires a minimum of 16 credit hours (four courses).
1. GST 105 Quaker Social Testimonies and Spiritual Roots 2 credits
2. GST 405 Quaker Faith & Practice 2 credits
3. REL 110 Quakerism 4 credits
4-5. Two courses from: 8 credits
   BIOL 212 Environmental Science
   ECON 344 Environmental and Resource Economics
   ENGL/THEA 215 Play Analysis
   ENGL 224 Self Image in Women Writers
   ENGL 230 African American Literature
   ENGL 331 Black Women Writers
   GEOL 121 Environmental Geology
   HIST 223 Gender & Power in US History
   HIST 225 African American History
   HIST 308 The Underground Railroad
   HIST 315 The Civil Rights Movement
   IDS 423 Ethical Issues in Biology and Medicine
   JPS 244 Conflict Resolution
   JPS 313 Law and Society
   JPS 425 Family Violence
   PECS 103 Voices of Liberation
   PECS 330 Nonviolence Theories and Practice
   PHIL 111 Ethics
   PHIL 247 Philosophy of Law
   REL 120/ENGL 228 American Nature Writing
   REL 222 Feminist Theology
   SOAN 313 Sociology of Sex and Gender
Or other courses addressing the normative Quaker testimonies of spirituality, simplicity, integrity, peace, equality and community by permission of the coordinator, or evidence of an internship (credit or non-credit) that provided direct experience with Quaker faith and practice.

Total credit hours required for Quaker studies minor 16 credits

RELIGIOUS STUDIES
Max L. Carter, Department of Religious Studies

Religious studies at Guilford explores the mystery and meaning of our existence as selves in the many aspects of the social and natural world. We seek to nurture wonder, insight, clear and creative thinking, to understand humanity’s destructive ways with others and the environment and to imagine ways of mending the world. We want to open heart and mind to the sacred and the problematic in our world today and historically. The burning issues we address are forms of social oppression and environmental destruction, the nature of the divine and the human condition, the development and practice of religious traditions and the meaning of the religious. We aim to draw forth leadership potential in all students to enable them throughout their lives to be agents of change where they find themselves, overcoming injustice and engendering the fullness of life.

Students work with the department chair or minor advisor to determine a specific focus.

The minor in religious studies is not available to religious studies majors.

Minor Requirements. The minor requires a minimum of 16 credit hours (four courses).
1-2. Two REL courses at any level 8 credits
3. One REL course a the 200 level or above 4 credits
4. One REL course a the 300 level or above 4 credits
Total credit hours required for religious studies minor 16 credits

SOCIOLOGY
Thomas Guthrie, Department of Sociology and Anthropology

The Department of Sociology and Anthropology promotes the study of society and culture. Since people live every aspect of life within a complex socio-cultural environment, it is possible to develop the self fully only with extensive knowledge of that environment. Both disciplines focus on the ubiquitous processes of social organization and the ways in which human knowledge, behavior and institutions are socially and culturally influenced. Sociology at Guilford includes an added focus on structural analysis of the institutionalization of values that contribute to social problems such as violence, racism, sexism, class stratification and intolerance generally in organizations.

The minor in sociology is not available to sociology/anthropology majors.

Requirements. The minor requires a minimum of 16 credit hours (four courses).
1. SOAN 100 Introduction to Sociology 4 credits
2. One elective in sociology at the 200 level from: 4 credits
   SOAN 245 Race and Ethnicity in Latin America
   SOAN 250 Special Topic*
   SOAN 265 Racial and Ethnic Relations
Two electives in sociology at the 300 level from: 8 credits

- SOAN 313 Sociology of Sex and Gender
- SOAN 323 Gender Health and Illness
- SOAN 330 Inequality in Latin America
- SOAN 331 Latino Migration Patterns
- SOAN 337 Social Research Methods
- SOAN 342 Social Theory
- SOAN 350 Special Topics*
- SOAN 362 Popular Culture and Media Studies

Total credit hours required for sociology minor 16 credits

Note: Only certain SOAN special topic courses can count toward the sociology minor; check course listings and syllabi to make sure.

Internships and independent studies cannot count toward the minor.

A student interested in taking a 400 level anthropology course must receive permission from both the instructor and department chair; if the course is successfully completed, it may then count for one of the 300 level elective requirements.

Credit for courses taken at other institutions or while studying abroad: Before attending other institutions, students should obtain a “Request to Take Coursework at Another Institution” form from the registrar’s office and have their courses approved in writing by the SOAN department chair. Departmental approval to take a course off campus is contingent upon the content and evaluation requirements of the course (which should meet SOAN departmental standards), whether the course is regularly offered by the SOAN department, the student’s academic standing and level, and the extent to which the course is consistent with the student’s educational goals.

**SPANISH FOR THE WORKPLACE**

Sylvia Trelles, Department of Foreign Languages

As the Spanish-speaking population in the United States continues to grow and business becomes more global, the ability to communicate in Spanish will remain a necessity for many individuals, and at least a large advantage for others, in their work environment. Those working in social services, the court system and law enforcement, health services, and education encounter the need to communicate in Spanish practically on a daily basis, while people in the manufacturing and agricultural businesses will find it advantageous to be able to communicate with workers in the native language of the employees, and those working with companies that deal in international business will find it to their advantage to be able to communicate in another one of the most spoken languages in the world.

The Spanish for the workplace minor should be particularly appealing to students in the business management, justice and policy studies, education studies, psychology and health sciences programs at Guilford. This minor might also interest students in sociology and anthropology and economics.

In a set of four sequenced courses, students pursuing the Spanish for the Workplace minor and certificate program learn the Spanish language with an emphasis on business vocabulary and cultural practices that they will encounter in a Hispanic environment. These are not business courses but rather language courses where students learn the four skills of
listening, speaking, reading and writing, emphasizing vocabulary of various work situations and using relevant cultural material while learning Spanish grammar.

**Minor Requirements.** The minor requires a minimum of 16 credit hours (four courses).

Prerequisites: SPAN 111 or 101 and SPAN 112 or 102, or placement by exam. Students will take, in sequence, the following courses:

1. SPAN 211 Intermediate Spanish for Business I 4 credits
2. SPAN 212 Intermediate Spanish for Business II 4 credits
3. SPAN 221 Advanced Spanish for Business 4 credits
4. SPAN 310 Contemporary Latin America or SPAN 311 Contemporary Spain 4 credits

Total credit hours required for Spanish for the workplace minor 16 credits

**SPANISH LANGUAGE AND SOCIETY**

Sylvia Trelles, *Department of Foreign Languages*

This minor provides access to Spanish-speaking cultures as well as insights into our own culture. The program focuses on language-learning as a living, functioning and fun activity and combines the development of language skills with the discovery of new ways to see and think about different cultures. It fosters international understanding and provides knowledge and skills that are becoming increasingly essential in our evolving global society.

The minor in Spanish language and society is not available to Spanish majors.

**Minor Requirements.** The minor requires a minimum of 16 credit hours (four courses).

1. SPAN 301 Advanced Grammar and Phonetics 4 credits
2. One course from:
   - SPAN 310 Contemporary Latin America 4 credits
   - SPAN 311 Contemporary Spain
   - SPAN 340 Film, Life and Literature of Latin America
   - Any SPAN course at the 200 level or above taught in Spanish in a Spanish-speaking country.
3-4. Two SPAN courses at the 200 level or above excluding
   - SPAN 260, 290, 360, 390, 460 8 credits
   - SPAN 201 Intermediate Spanish
   - SPAN 202 Intermediate Conversation and Composition
   - SPAN 211 Intermediate Spanish for Business I
   - SPAN 212 Intermediate Spanish for Business II
   - SPAN 221 Advanced Spanish for Business
   - SPAN 310 Contemporary Latin America
   - SPAN 311 Contemporary Spain
   - SPAN 320 Culture and Society: Mexico, Central America and Caribbean
   - SPAN 321 Culture and Society: Golden Age of Spain
   - SPAN 322 Culture and Society: South America
   - SPAN 323 Culture and Society: Beginnings of a Nation
   - SPAN 340 Film, Life and Literature of Latin America
   - SPAN 342 Latino Culture in the United States
   - SPAN 402 Senior Seminar: Latin America
   - SPAN 403 Senior Seminar: Spain
   - SPAN 250, 350, 450 Special Topics

Total credit hours required for Spanish Language and Society minor 16 credits
SPORT ADMINISTRATION
Robert Malekoff, Department of Sport Studies

The sport administration minor provides students the basic competencies desired in the administration of athletics, recreation and sport. In addition to obtaining theoretical knowledge in the classroom, students have the opportunity to apply their knowledge in a practical experience of organizing and managing a sport event. Students are not required to major in either the sport studies or sport management departments. Students choosing this minor should be motivated in the proper and ethical administration of sports programs.

The minor in sport administration is not available to sport management majors.

Minor Requirements. The minor requires a minimum of 16 credit hours (four courses).
1. SPST 130 Introduction to Sport Management 4 credits
2. SPST 430 Integrative Sport Management 4 credits
3. One course from:
   SPST 231 Facility Design and Management 4 credits
   SPST 234 Sport Finance 4 credits
   SPST 335 Sport Communication 4 credits
4. One course from:
   SPST 335 Sport Communication 4 credits
   SPST 431 Sport Marketing 4 credits
   SPST 432 Legal Aspects of Sport and Exercise 4 credits

Total credit hours required for sport administration minor 16 credits

SPORT MARKETING
Robert Malekoff, Department of Sport Studies

The sport marketing minor provides students the basic competencies desired in the promotion and marketing of athletics, fitness, recreation and sport. Its goal is to develop ethical, competent, thoughtful, confident and creative practitioners of sport marketing for organizations such as the YMCA, community recreation departments, sport facilities, professional sports teams, sporting goods manufacturers, fitness centers and interscholastic athletic departments. In addition to the theoretical knowledge obtained in the classroom, students have the opportunity to apply their knowledge in a practical experience through course assignments.

Students from any department are eligible to have a minor in sport marketing. Students choosing this minor should be motivated in the proper and ethical promotion and marketing of sport programs and products.

The minor in sport marketing is not available to sport management majors.

Minor Requirements. The minor a minimum of 16 credit hours (four courses).
1. SPST 232 Sociology of Sport 4 credits
2. SPST 335 Sport Communication 4 credits
3. SPST 431 Sport Marketing 4 credits
4. An approved 4th course 4 credits

Total credit hours required for sport marketing minor 16 credits
THEATRE STUDIES
John Zerbe, Department of Theatre Studies

The Department of Theatre Studies offers three different minor tracks: the theatre arts track, the musical theatre track, and the film and video track.

The theatre arts track provides students with the opportunity to study an intensely collaborative art form from three perspectives: design or technical production; dramatic literature or theatre history; and performance. It explores the unique responsibilities carried by different members of the creative staff as they conceive and execute a theatrical production.

The theatre arts track is not available to theatre studies majors.

The musical theatre track provides an opportunity to develop performance skills and knowledge of a significant American theatrical tradition and its literature. Coursework includes: acting, singing, dance, and work on production.

The musical theatre track is not available to theatre studies majors, who may take any and all of the courses as part of the major field of study in theatre.

The film and video track serves students of any major who seek a serious exploration of film as an artistic medium. The track examines filmmaking as an important component of modern culture in the following aspects: a reflection of society, an artistic medium of the auteur and a medium of influence and social change.

The film and video track is available to theatre studies majors.

Minor Requirements.

- One course from each of the three perspectives areas listed below (12 hours)
- One other four-credit course with a THEA prefix (or the equivalent in two-credit offerings). Ideally, this course should enhance the student’s understanding of their perspective area (four hours)
- One practicum assignment (THEA 295, one to four hours) to be determined in a meeting with a theatre studies advisor. Options include stage management, properties management, costuming, lighting, publicity, sound, box office, house management, makeup and scenic art.

Theatre Arts Track. A minimum of 17 credit hours (five courses):

1. One course from: 4 credits
   THEA 111 Backstage Production
   THEA 171 Introduction to Theatrical Design
2. One course from: 4 credits
   IDS 408 East Asian Theatre
   THEA 130 Theatre and Culture I
   THEA 131 Theatre and Culture II
   THEA 151 HP: Birth of the Avant-Garde
   THEA/ENGL 215 Play Analysis
3. One Theatre course at any level 4 credits
4. THEA 295 Practicum Course 1 1-4 credits
5. THEA 125 Acting 1: Basic Tools 4 credits

Total credit hours required for theatre arts track minor 17-20 credits
Musical Theatre Track. A minimum of 17 credit hours (six courses):

Acting
1. THEA 126 Acting 1: Acting in Song 4 credits
2. One course from: 4 credits
   - THEA 125 Acting 1: Basic Tools
   - THEA 227 Acting 2: Play the Action
   - THEA 228 Acting 2: Creating the World

Dance
3. THEA 103 Beginning Ballet 2 credits
4. ONE course from: 2 credits
   - THEA 104 Jazz Dance
   - or any appropriate 4 credit substitution by departmental approval

History
5. One course from: 4 credits
   - THEA 131 Theatre and Culture II
   - THEA/MUS 152 HP: America and Its Musicals

Backstage Work
6. THEA 295 Practicum 1-2 credits

Total credit hours required for musical theatre track minor 17-18 credits

Film and Video Track. A minimum of 17 credit hours (five courses):

1. THEA 161 Masterpieces of Cinema 4 credits
2. THEA 265 Artistry in Film 4 credits
3. THEA 365 Documentary Filmmaking 4 credits
4. One course from: 4 credits
   - ENGL 272 World Cinema
   - ENGL 286 Classic American Cinema
   - ENGL 287 Cult Movies
   - ENGL 288 Shakespeare and Film
   - FREN 315 French & Francophone Cinema
   - THEA 262 Gay and Lesbian Cinema
5. THEA 295 Practicum: Film Festival or THEA 366 Filmmaking Capstone 1 credit

Total credit hours required for film and video track minor 17 credits

Students will process the coherence of their minor experience in a formal “post-mortem” critique with the minor coordinator following the film festival.

VISUAL ARTS
Roy H. Nydorf, Department of Art
Kathryn Shields, Department of Art

The visual arts minor allows students from any major to pursue a focused exploration of ceramics, design, drawing, painting, photography, printmaking, sculpture or art history.

The visual art minor in a studio area is not available to students obtaining an A.B. degree in art. The visual arts minor is available to students obtaining a B.F.A. degree provided that the medium chosen for the minor is different from the student's studio focus area for the degree. Students obtaining an A.B. or B.F.A. degrees in art may minor in art history.
Minor Requirements. Each of the eight tracks in the visual arts minor requires a minimum of 16 credit hours (four courses).

Art History
1. One course from:
   - ART 100 Introduction to Visual Arts
   - ART 172 Arts of Africa, Asia, and the Americas
   - ART 271 Art History Survey
   4 credits
2-3. Two courses from the following list or approved art history courses:
   - ART/HIST 235 Renaissance in Florence
   - ART 250 Special Topics in Art History
   - ART 275 Modern Art
   - ART 276 Contemporary Art
   - ART 278 History of Photography
   8 credits
4. One ART course at any level
   4 credits
Total credit hours for visual arts, art history track
16 credits

Ceramics
1. ART 106 Three-dimensional Design
   4 credits
2. ART 140 Ceramics I
   4 credits
3. ART 240 Ceramics II
   4 credits
4. One ART course at any level
   4 credits
Total credit hours for visual arts, ceramics track
16 credits

Design
1. ART 102 Two-dimensional Design
   4 credits
2. ART 106 Three-dimensional Design
   4 credits
3. ART 245 Digital Darkroom or CTIS/THEA 274 Digital Graphic Design
   4 credits
4. One ART course at any level
   4 credits
Total credit hours for visual arts, design track
16 credits

Drawing
1. ART 104 Drawing I
   4 credits
2. ART 204 Life Drawing I
   4 credits
3. ART 205 Drawing II
   4 credits
4. One ART course at any level
   4 credits
Total credit hours for visual arts, drawing track
16 credits

Painting
1. ART 102 Two-dimensional Design
   4 credits
2. ART 211 Painting I
   4 credits
3. ART 212 Painting II
   4 credits
4. One ART course at any level
   4 credits
Total credit hours for visual arts, painting track
16 credits

Photography
1. ART 102 Two-dimensional Design
   4 credits
2. ART 130 Photography I
   4 credits
3. ART 231 Photography II or Art 245 Digital Darkroom
   4 credits
4. One ART course at any level
   4 credits
Total credit hours for visual arts, photography track
16 credits
Total credit hours for visual arts, photography track 16 credits

**Printmaking**
1. ART 102 Two-dimensional Design or Art 104 Drawing I 4 credits
2. ART 221 Woodcut 4 credits
3. ART 323 Etching 4 credits
4. One ART course at any level 4 credits

Total credit hours for visual arts, printmaking track 16 credits

**Sculpture**
1. ART 106 Three-dimensional Design 4 credits
2. ART 251 Sculpture I 4 credits
3. ART 353 Sculpture II 4 credits
4. One ART course at any level 4 credits

Total credit hours for visual arts, sculpture track 16 credits

---

**WOMEN’S, GENDER & SEXUALITY STUDIES**

Lisa McLeod, *Departments of Philosophy and Women’s, Gender & Sexuality Studies*
Julie Winterich, *Departments of Sociology and Anthropology, and Women’s, Gender & Sexuality Studies*

The women’s, gender, and sexuality studies minor is designed to provide the opportunity for students to focus on concepts of gender, sexuality, and multiple identities, as well as women’s experiences from a number of different disciplinary perspectives. This minor also seeks to study efforts to foster gender equality and explore gender oppressions in several contexts.

The minor provides an opportunity for analyzing and theorizing about an area of important social change.

The women’s, gender & sexuality studies minor is not available to women’s, gender & sexuality studies majors.

**Minor Requirements.** The minor requires a minimum of 16 credit hours (four courses). Minors must take one course in each of the following four categories. In addition, two courses must be on Women of Color (WoC), and one must be identified as an IDS 400 course.

1. One introductory course from: 4 credits
   - ENGL 151 Black Women’s History and Literature (WoC)
   - HIST 223 Gender and Power in U.S. History
   - PHIL 232 Philosophy and Gender
   - REL 222 Feminist Theologies
   - WGSS 110 Introduction to Women’s, Gender & Sexuality Studies

2. One course focused on the lives and experiences of women in different contexts from: 4 credits
   - ENGL 331 Black Women Writers (WoC)
   - FREN 311 The Francophone World (WoC)
   - HIST 268 History of Chinese Women (WoC)
   - HIST 343 Women in Modern Africa (WoC)
   - IDS 411 Gender & Development in Africa (WoC)
   - IDS 482 Ecofeminism and Environmental Justice (WoC)
JAPN 220 Women in Modern Japan (WoC)
PSY 351 Psychology and Gender
REL 317 Women in Tibetan Buddhism (WoC)
SOAN 330 Inequality in Latin America (WoC)
SOAN 432 Women of Color in the U.S. (WoC)

3. One course focused on gender theory and analysis from:  4 credits
ECON 441 Labor Economics
ENGL 331 Black Women Writers
ENGL 400 Arab Women Writers (WoC)
IDS 481 Notions of Beauty
IDS 482 Ecofeminism and Environmental Justice (WoC)
IDS 485 Arab and Islamic Feminisms (WoC)
PHIL 232 Philosophy and Gender
PHIL 336 Social and Political Philosophy
PSCI 305 Politics of Gender (WoC)
PSY 351 Psychology and Gender
REL 341 Liberation Theologies (WoC)
SOAN 267 Race and Gender in Media Focus (WoC)
SOAN 313 Sociology of Sex and Gender
THEA 262 Gay & Lesbian Cinema

4. One course focused on sexuality from:  4 credits
IDS 409 Gay, Lesbian and Queer Studies
IDS 418 Science, Sex and Nature
IDS 455 Human Sexuality
JAPN 220 Women in Modern Japan (WoC)
PHIL 231 Philosophy and Sexuality
PHIL 232 Philosophy and Gender
SOAN 234 Culture and Sexuality in Africa (WoC)
SOAN 313 Sociology of Sex and Gender
THEA 262 Gay and Lesbian Cinema

Total credit hours required for women’s, gender and sexuality studies minor     16 credits

Note: At any level, an internship or independent study may serve the function of one of the above courses. However, a student may count no more than one internship or one independent study toward the minor. Approval from the program chair or one of the co-chairs shall be required for an internship or independent study to count for the minor.
VI. Studies Abroad

Guilford offers over 365 study abroad options throughout the world during semesters, summers, and the January term. Semester programs carry up to 18 credits, while summers range from 4-6 credits, and January term study away projects typically earn 4 credits. All programs are serious academic experiences that seek a balance between formal study and the opportunity for exposure to life in a different culture.

Students can choose from three different types of programs: faculty-led, faculty coordinated, and independent affiliate programs. Each program is suited to different types of students. Some offer broad cultural enrichment while others focus specifically on the international dimension of a single discipline in action. For information and guidance on how to select the right program, students should visit the study abroad Web page (https://www.guilford.edu/studyabroad) and speak with study abroad staff.

The cost of Guilford faculty-led programs is usually only slightly higher than the cost for a full semester on the Guilford campus; some financial aid is available. Many affiliate programs may necessitate a surcharge. Information is available from the study abroad office and Web site.

NOTE: A student must be in academic good standing to be eligible for participation in any study abroad program. Various Guilford-affiliated programs have specific cumulative GPA requirements. Study abroad staff also review and consider a student’s judicial record during the application process.
VII. Other Special Study Opportunities

Guilford offers numerous special study opportunities, including internships, independent study, senior thesis, special topic courses, the honors program, departmental honors work, off-campus seminars and course work, and summer school.

Internships

Designated by the course numbers 290 and 390 in the curriculum and carrying one to four credits, internships provide students with part-time involvement in public and private agencies while they are enrolled at Guilford. Internships are open to students who have accumulated 24 or more credits and who have a cumulative grade-point average of at least 2.50. Applications are available in the Career Development Center. The development of a learning plan and approval by the student’s faculty advisor, faculty sponsor, site supervisor and internship coordinator are required.

Summer internship credit is also available. Students wishing to complete internship hours during the summer with credit applied to fall semester must have their internship application approved prior to beginning their on-site work hours. Regular contact with the faculty sponsor is expected throughout the duration of the internship.

Deadlines for registering for an internship with the Registrar’s Office are posted in the academic calendar. Retroactive credit will not be awarded.

A student may apply a maximum of 12 credits obtained through internships to her/his degree requirements. Internships cannot, however, be used to satisfy general education requirements.

Independent Study

Academic departments offer independent study opportunities under the 260, 360 and 460 course numbers. The success of such independent work depends in large measure on the student’s initiative in shaping the terms of the investigation and her/his reliability in carrying out commitments.

A descriptive proposal of the project must be approved by the supervising instructor and the chairperson of the department. It is understood that the subject of the independent study must be supervised by someone in the department most relevant for that subject. The proposal must set forth the subject, scope, method and materials to be used during the project. It also must indicate the evaluation procedures agreed upon by the student and the supervisor. When the instructor and the chairperson have indicated their approval by signing the proposal, the student should take a copy of the proposal to the Registrar’s Office. The instructor agreeing to supervise an independent study is expected to be available for consultation while the project continues.

First-year students are not allowed to do independent studies. Further, no student may enroll for more than two independent studies or more than eight credits of such work in a single semester; also, independent studies cannot be used to satisfy general education requirements.

Independent studies normally carry from one to four credits.

Because each credit corresponds to three hours of dedicated work per week, assistant dean for student academic affairs must approve independent studies of five or more credits. To request such approval, students must first obtain the approval of the student’s academic advisor, instructor and department chairperson and then submit a written petition request that explains why such a large time commitment is appropriate for this work.
SENIOR THESIS
A written senior thesis (470 course number) may be undertaken as a separate project or as the culmination of a program of independent study. The academic department determines the format of the final work. The thesis should represent both independent research and thought. In most departments, the student submits a written thesis and defends the thesis in an oral presentation to a committee.

SPECIAL TOPICS COURSES
Under the 150, 250, 350 and 450 designations, most academic departments offer upper-level courses exploring topics according to special interests and capabilities of groups of students and instructors. These courses may take an interdisciplinary approach and may be taught by faculty members from different departments working together as a team. Special topics courses are not scheduled on a regular basis, but as student interest warrants or as a department desires to make them available. Courses on the same topic normally are not offered more than twice.

DEPARTMENTAL HONORS WORK
Some academic departments offer an honors option (490 course number) consisting of extensive reading, independent study and perhaps a research paper. Detailed requirements are defined in each department’s course descriptions. Students successfully completing this program are awarded departmental honors at graduation.

QUALITY ENHANCEMENT PLAN (QEP)
Guilford has adopted Writing in the Academic Programs as the focused topic of a quality enhancement plan. Based on the premise that in an excellent undergraduate education, all students are expected to produce representative forms of writing common to their fields of study, Writing in the Academic Programs aims to improve student writing in the participating academic programs, as well as to improve student writing overall. As an integral part of the QEP, the Writing Studio, housed in the Learning Commons, offers professional and student tutors (Writing Fellows) trained in discipline-specific genres, and serves as the repository for all Web-based program-specific writing guidelines and resources related to writing. In addition, Hege Library provides students with program-specific bibliographic support and instruction in information literacy in order to enhance student writing. Writing in the Academic Programs also provides students with opportunities to participate in nationwide academic conferences related to their fields of study.

HONORS PROGRAM
Donald A. Smith, *Director of the Honors Program*

The Honors Program at Guilford College provides a supportive community for students who are committed to achieving academic excellence and have demonstrated the ability to excel. The Honors Program supports a vision of students as active, empowered agents of their own education, and also as vital co-contributors to our academic community. Through seminars, extra-curricular activities, and one-on-one collaboration with faculty members on coursework and research, the program provides students with opportunities to develop their knowledge and skills, to explore multiple disciplines for the love of learning, and to share the fruits of their investigations with others.

We forge this community of intellectual camaraderie through a sequence of 1-credit seminars for each yearly cohort, interwoven with particular academic milestones: a
contracted course (scholarly research) in the second year, study abroad in the third year, and participation in research culminating in a public presentation (and perhaps also a professional conference) in the fourth year. Under the individual supervision of a faculty advisor, each student completes a senior thesis or project. Monthly meetings of the whole program, as well as social and academic events, provide an opportunity for honors students to get to know each other. A faculty council oversees and supports the activities of the program. A student advisory council works with faculty to help design, promote and lead activities, providing intellectual leadership opportunities. In addition to class work and independent study, students in the Honors Program are encouraged to attend professional and undergraduate research conferences. The Honors Program offers travel support to students who present papers, research or creative projects. The program is open to all full-time, degree-seeking, students majoring in all departments and programs of the College. Successful completion of the Honors Program is noted at graduation and on the student's transcript.

In keeping with the College's Quaker heritage, honors students at Guilford participate fully in the larger campus community. They live in residence halls and take courses with the full student body. Honors students are active in a full range of campus activities, including athletics, student government, campus publications, choir, theater, community service projects and special interest clubs.

Guilford College, a founding member of the North Carolina Honors Association, participates in the National Collegiate Honors Council and Southern Regional Honors Council. Students, faculty members and administrators from the College attend the conferences of all three organizations.

Admission Process: Most students are admitted to the Honors Program as entering first-year students. Based on standardized test scores, high school achievement, writing samples and recommendations, students are invited to apply to the program.

In addition, currently matriculated students who have earned a cumulative GPA of 3.5 or higher are invited to join the program.

SUMMER SCHOOL

Guilford provides a summer program of two primarily daytime five-week sessions and one 10-week evening session. Students may attend on either a full-time or part-time basis, and it is possible to earn a full semester of credit during the summer. Courses are also open to all visiting students and community residents during the summer. Students may take courses in the summer to accelerate completion of their degree program, to fulfill general education, major and minor requirements or to explore new areas of interest. Summer School is considered to be a third term, and the same academic standards apply to Summer School that exist during the regular academic year. Dismissed and suspended students must normally wait at least one full calendar year before petitioning for reinstatement and are not eligible to enroll in Summer School during that period. However, students who have been suspended may petition early to attend Summer School. Contact the Center for Continuing Education for further information.

THE EARLY COLLEGE AT GUILFORD

Benjamin Marlin, Liaison for Early College at Guilford

The Early College at Guilford College is a collaborative venture of Guilford College and Guilford County Schools (GCS) for academically talented high school students (9th through 12th graders). The Early College at Guilford is North Carolina's first early college high school and is ranked among the nation's best high schools in U.S. News and World Reports. It is situated on the Guilford campus.
ECG students in ninth and 10th grades take honors or AP classes each semester on a block schedule. These students are taught by certified high school teachers and advised by a high school guidance counselor. Their classes are located in the ECG classroom building on the College campus. They have access to the College’s library, information technology and services, computer labs, Learning Commons and the cafeteria. By the end of tenth grade, students complete most requirements for high school graduation.

Junior and senior high school students are dually enrolled in Guilford and GCS. These students take a full-time College load and graduate at the end of their senior year with a high school diploma and two years of college course credits from Guilford. In grades 11 and 12, students are dispersed in courses across the campus, enrolling in a pattern of classes similar to Guilford’s first- and second-year students. These students are assigned to a Guilford faculty advisor and also work with a high school guidance counselor. Upon high school graduation, students may apply to Guilford or another college to complete their final college degree.

Students accepted by Early College must have qualifications similar to those who are invited to participate in Guilford’s Honors Program. All applicants are required to complete an application for GCS that includes an essay, transcript and test information. Rising eleventh and twelfth grade students also complete an application for Guilford College. Representatives from GCS and the Guilford Office of Admission review the materials submitted. Both Guilford and GCS are committed to attracting a diverse pool of applicants and to making Early College available to all qualified students.

OFF-CAMPUS EDUCATION

Washington, D.C., Semester. Any Guilford student with second-semester sophomore, junior or senior status and a cumulative grade-point average of at least 2.75 (3.0 for some agencies) is eligible to spend a semester in Washington, D.C., at The Washington Center. A full-time internship and seminar provide 12 credits and, in special cases, a student may earn four additional credits by registering for a second course through The Washington Center. Last-semester seniors must obtain special approval before applying.

The cost of a TWC semester is equal to full-time tuition for traditional-age students. Housing is optional and available through TWC. All financial aid normally awarded a student applies to the costs. Students are also encouraged to apply for any scholarships offered through The Washington Center. Additional information is available through Career Development Center and on The Washington Center’s website.

Off-Campus Seminars. Fall, spring and summer break programs are regularly planned under faculty leadership. For example: in New York City students may study art, drama and urban problems; in Washington, D.C., national government; on the coast and in the mountains of North Carolina, ecology and geology; and in the South, African American experience and culture. One credit is granted for each seminar. The College arranges for lodging, and a minimal charge to the student covers meals and travel.

Two off-campus geology seminars are offered. Natural Science Seminar travels to different locations. Seminar West, a three- to five-week field camp conducted jointly by the biology and geology departments, studies the geology and ecology of the Rocky Mountains, Colorado Plateau and the East African Rift. Both of these geology seminars fulfill the natural science and mathematics requirement.

Consortium Arrangements. Guilford students may supplement their course selections by cross-registering for courses at nearby colleges and universities under Greater Greensboro Consortium arrangements. Besides Guilford, the Greater Greensboro Consortium includes www.guilford.edu
Bennett College, Elon University, Greensboro College, Guilford Technical Community College, High Point University, North Carolina Agricultural & Technical State University and the University of North Carolina at Greensboro.

Students enrolled at Guilford may, with the appropriate Guilford department chair’s and registrar’s approval, take fall and spring semester courses for credit and without additional registration at any of seven other consortium institutions.

Cross-registration privileges assume that courses are of a general nature acceptable to Guilford College and are not offered at Guilford during the selected term. There are no additional charges beyond the payment of Guilford tuition unless the selected courses carry special fees.

As much as possible, consortium calendars are synchronized. However, because consortium academic calendars are not the same as Guilford’s, grades from consortium courses may arrive after graduation and thereby delay a student’s graduating and thus prevent him or her from participating in the graduation ceremony. Consortium schools are not required to give exams early to accommodate students. Students should check a consortium school’s academic calendar before registering for classes there.

Library resources are shared by consortia members, with many college libraries’ holdings available on-line through Guilford’s computers.

Students must be signed up for an equal or greater number of credits at Guilford before registering for consortium courses. Dual admission and dual enrollment outside of the cross-registration procedures are prohibited, and any changes to consortium registration must be done at Guilford and the consortium school. It is the right of each college or university to allow consortium students to take on-line courses.

Guilford students attending consortium schools are subject to the rules, regulations and deadlines of the consortium school. Consortium parking stickers are given by the home institution.

Study at Other Institutions. Guilford students with a cumulative grade-point average of 2.00 or higher may request permission to take coursework as a visiting student at other accredited colleges and universities. Guilford encourages its students to study for the summer, a semester or a year at other American or international universities when such programs are consistent with the student’s educational goals and interests. After a student reaches junior classification standing, transfer credits from 2 year institutions are limited to 100 and 200 level courses.

Students who want to attend another institution as a visiting student during the summer must process an “Authorization for Study at Another Institution.” The form is available online and at the registrar’s office. It approves coursework equivalency so that transfer credit applies to Guilford as agreed and also serves as a letter of good standing to the host institution. Students with a cumulative grade-point average lower than 2.00 may not attend summer school at other institutions; if they want to attend summer school they must attend at Guilford.

During fall or spring semesters, traditional-age students planning to attend another institution as a visiting student must complete a leave of absence through the Office of Campus Life; adult students must submit a Withdrawal form through the Center for Continuing Education.

Only course credit, not grade points, can be transferred to Guilford from other institutions, and students must pass courses with grades of C- or better if the courses are to apply to the Guilford degree.
VIII. CENTER FOR CONTINUING EDUCATION (CCE)

HISTORY AND PROGRAMS

Guilford established the first undergraduate educational program for adult students in Greensboro in 1953. The present Center for Continuing Education (CCE) at Guilford offers students 23 years of age or older the opportunity to complete a quality undergraduate degree through day, evening and weekend study. Faculty and staff assist adult students in the re-entry process and throughout their time at Guilford.

The adult degree program at Guilford is characterized by quality academic instruction, a liberal arts tradition, convenient day, evening and weekend classes, support services for working adults and an atmosphere of care and concern for each student. Guilford provides its CCE students with advising on admission and courses, special registration, an Adult Transitions course, assistance with study skills, career development services and an active adult student government association.

Additional special features of Guilford’s adult services include an adult student lounge, canteen and mailboxes in Hendricks Hall, evening office hours and convenient campus parking in an accessible and safe location. Senior citizen discounts are available for auditing courses.

CCE students experience Guilford’s Quaker values and heritage in a student-centered learning environment with small classes, cordial and informal relationships with faculty and staff, flexibility of programs and services, and an atmosphere of respect for all persons.

THE CCE STUDENT BODY

Adult students select Guilford for a variety of reasons as the best choice for undergraduate education or the fulfilling of personal academic goals. Most CCE students enroll because they wish to begin or complete an undergraduate degree in the liberal arts or selected applied professional areas to advance their careers, qualify for certain positions, prepare for examinations in particular fields or enrich personal knowledge and skills. Some CCE students already have an undergraduate degree and wish to increase their professional competence or to expand skills and knowledge in new directions by adding a second bachelor’s degree or certification.

While the majority of adult students transfer credits from two- and four-year institutions and plan to complete degrees at Guilford, some have not yet attended college and plan to work on a degree program, earn a certificate of study or take courses for personal enrichment. CCE students are enrolled in nearly every major offered at Guilford.

CRITERIA FOR CCE STATUS

To qualify as a CCE student, an individual must meet one of the following criteria: 1) be 23 years old by the last day of the first term of enrollment at Guilford; or 2) hold a baccalaureate degree from an approved accredited institution. Under special circumstances, a waiver of the age requirement may be requested through the Center for Continuing Education.

ADMISSION

Applicants are required to submit an application, official transcripts from all schools
previously attended and a $25 application fee. An admission statement (essay) also may be requested. There are additional requirements for visiting/transient students, applicants requiring a student visa and applicants with a native language other than English.

Transcripts. Adult students who wish to be accepted to pursue a first or second baccalaureate degree program or a certificate of study must have official transcripts from all previous institutions attended submitted directly to the CCE admission office at Guilford. If you have fewer than 24 transferable college credits from accredited institutions, you must also submit an official high school transcript or official GED scores.

Students who are college graduates taking courses for personal or professional interest need only furnish an official transcript from the institution that awarded the baccalaureate degree.

For all international transcripts, a World Education Services, Inc. evaluation is required.

Application Materials. Application materials are available online at www.guilford.edu. Please call 336-316-2179 or email cce@guilford.edu with questions. Material may be mailed to:

Guilford College
Center for Continuing Education
5800 West Friendly Avenue
Greensboro, NC 27410

Auditors. Adults who wish to pursue college-level work without receiving grades or college credit may enroll as auditors. These students do not complete the application form and do not furnish the credentials required of degree candidates. They may register on a space-available basis by obtaining written permission from the instructor on a registration form on the first day of the course. Please call 336-316-2179 or email cce@guilford.edu to request detailed instructions. (See Class Standing: Classification of Students section of catalog.)

PROGRAMS OF STUDY

Degree Programs. CCE students are fully integrated into the College program and are eligible to enroll in any of the College’s majors.

For students who can attend classes only at night, Guilford currently offers these evening majors: accounting, African American studies, business, community and justice studies, computing technology and information systems, criminal justice, education (K-6), education (9-12), forensic accounting, forensic biology, history, political science and psychology. The evening schedule provides a full range of courses to complete a degree in one of the evening majors.

Re-entry Assistance: Adult Transitions Course. As a support for adults returning to school, Guilford offers a distinctive four-credit course, Adult Transitions. The course focuses mainly on “coming to terms with problems as well as prospects involved in life changes.”

Certificate of Study Programs. In addition to degree-granting programs, certificates of study are available. The certificate of study program consists of four to eight courses in a clearly defined sequence. It is designed for the person who seeks an organized and well-planned learning experience but does not wish to embark upon a complete bachelor’s degree program. It also appeals to the person who has completed undergraduate studies in one area
and seeks to develop and document serious study in one or more additional areas of expertise without pursuing a graduate degree.

Certificates of study are offered in the following areas:

**Accounting Requirements:**
30 semester hours minimum to include:
- ACCT 201 Introduction to Accounting
- ACCT 301 Intermediate Accounting I
- ACCT 302 Intermediate Accounting II
- ACCT 303 Intermediate Accounting III
- ACCT 311 Cost Accounting

Approved elective from:
- ACCT 321 Taxation of Individuals
- ACCT 322 Taxation of Corporations and Partnerships
- ACCT 401 Advanced Accounting
- ACCT 411 Auditing

One additional course not previously chosen from the list above.
Courses listed above, approved independent study, business law course or other approved course.

**Chemistry Requirements:**
- CHEM 111 Chemical Principles I
- CHEM 112 Chemical Principles II
- CHEM 231 Organic Chemistry I
- CHEM 331 Physical Chemistry I
- One additional chemistry course
- MATH 121 Calculus I
- PHYS 122 Classical and Modern Physics II or PHYS 212 College Physics II

**Forensic Accounting Requirements:**
- ACCT 200 Introduction to Fraud Examinations
- ACCT 300 Advanced Fraud Examinations
- ACCT 320 Criminology and Legal Issues for Forensic Accountants
- ACCT 412 Advanced Forensic Investigations

Two courses from:
- BUS 215 Business Law and Environment
- BUS 241 Computers and Management
- IDS 402 Business Ethics or IDS 417 Ethics of Capitalism
- JPS 200 Criminal Procedures
- JPS 270 Interpersonal Communications
- PSY 232 Introduction to Personality
- SOAN 100 Introduction to Sociology
- SOAN 103 Cultural Anthropology

**Forensic Science Requirements:**
- JPS 200 Criminal Procedure
- BIOL 245 Introduction to Forensic Science
- BIOL/CHEM 246 Forensic Chemistry
- BIOL 349 Forensic Anthropology
**Interpersonal Communication Requirements:**
Introductory course
- JPS 270 Interpersonal Communications
- JPS 244 Conflict Resolution Strategies
- JPS 323 Diversity at Work

Capstone course – JPS 437 Multicultural Communications

**Organizational Communication Requirements:**
Introductory course – JPS 271 Organizational Communication and Teamwork
Three electives chosen from:
- BUS 321 Human Resources Management
- JPS 244 Conflict Resolution Strategies
- JPS 323 Diversity at Work
- PSY 332 Industrial and Organizational Psychology

**Spanish for the Workplace Requirements:**
- SPAN 111 Communicating in Spanish for Business I
- SPAN 112 Communicating in Spanish for Business II
- SPAN 211 Intermediate Spanish for Business I
- SPAN 212 Intermediate Spanish for Business II
- SPAN 221 Advanced Spanish in Business
- SPAN 310 Contemporary Latin America or SPAN 311 Contemporary Spain

**Non-credit Courses and Workshops.** CCE also sponsors a variety of workshops and seminars for the community through its Professional Development and Training Center. These offerings develop knowledge and skills without awarding academic credit. Topics might address grant writing, financial education, standardized test preparation, workplace competencies, self-assessment and improvement and topics of interest to older adults. Programs leading to paralegal certification and notary public workshops are also available. There is a fee for most of the non-credit workshops. Specialized training programs are also provided by CCE on an individualized basis to local businesses, industry, schools and other organizations to develop human resources and manage businesses more effectively.

**THE ACADEMIC SCHEDULE**
Classes are offered during the day in several formats, ranging from an hour and a quarter to three hours in length. Evening classes are available one to four nights a week between 6 p.m. and 10:10 p.m. during the fall and spring semesters and summer school.

Saturday Classes. These are designed exclusively for CCE students, enabling them to attend on Saturdays. However, not all majors offer Saturday classes and degree programs cannot be completed by attending Saturday only.

**CCE STUDENT SERVICES**
**Adult Student Government**
The CCE Student Government Association (SGA) is composed of all students registered for college-credit work through CCE. The association exists to serve the welfare and interests of its members and works toward the establishment of a community supportive of the continuing education of adults. Among other activities the association sponsors social and cultural events.
The SGA operates under the direction of an elected executive board. The executive board derives its authority from the president of the College and is responsible for the allocation of CCE student activity fees.

**Adult Student Lounge.** A study and activities lounge is provided for CCE students in Hendricks Hall. Telephones for local calls, study space, wireless access and computers for student use are also available. Building hours are 7:30 a.m.-10:30 p.m. M-F and 7:30 a.m.-6:30 p.m. on Saturdays, when classes are in session. The building is not available on Sundays unless special permission is obtained in advance.

**EXTRACURRICULAR ACTIVITIES**

CCE students may participate free of charge in academic clubs, departmental clubs and activities, intramural sports and the campus fine arts series, as well as all events sponsored by their student government association. CCE students are not eligible to be elected officers in student clubs and activities designed for traditional-aged students. CCE students are welcome to participate in other traditional student clubs and organizations upon payment of a CCE Plus activity fee of $25.00 per semester.

**PAYMENT OPTION PLANS**

Payment in full is due by August 1 for the fall semester and January 2 for the spring semester.

Payment can be made by cash, check, cashier’s check or money order.

Payment by Credit Card. The College will accept payment in full, subject to confirmation, by VISA, MasterCard, Discover or American Express. Please use the credit card authorization form enclosed with the invoice.

Payment by monthly payment plans
It may be convenient to pay education costs on a monthly basis. Guilford College has partnered with SallieMae/TuitionPay and College Foundation, Inc. to provide expanded payment plan programs which offer services such as:

- **SallieMae Tuition/Pay-Academic Management Services (AMS) – Monthly Payment Plan** offers a flexible 10-month installment, interest-free monthly payments beginning June 5th for the academic year. This plan also offers tuition protection coverage, extended customer service hours, internet access to your account, monthly statements mailed to you, and Western Union phone pay option, along with other payment options. Please contact AMS at TUITION (884-8466) or 800-635-0120 to learn more about the AMS plan.

- **College Foundation, Inc. – CFI Payment Plan** offers a monthly payment plan with extended customer service hours, Internet access to your account, monthly statements mailed each month, and Western Union phone pay option, and other payment options. Please contact CFI at 866-866-CFNC or 866-866-2362, or visit to learn more about the CFI plan.

**Financial Aid.** Accounts may be settled with financial aid funds. Please contact the Student Financial Services Office at 336-316-2176 or 336-316-2354 for more information, or visit our website at [www.guilford.edu](http://www.guilford.edu) and choose the “Adult Programs” tab.
BILLING INFORMATION

Semester invoices are mailed approximately one month prior to the due date of payment. Invoices are sent to students at their permanent residence and to all other addresses provided by the student. If any student wishes to have a student invoice sent to another party, it is the responsibility of the student to forward the invoice to another address.

Please make checks payable to Guilford College and send in the envelope included with your invoice. Be sure to return the enclosed payment worksheet with your payment indicating any changes in the amount of the invoice, and include copies of any documents relating to outside awards, scholarships, loans, etc., which you have as payment on the balance due. Payment should be mailed in sufficient time to be received by the date due.

Subsequent invoices will be sent during the first week of September, October and November for fall and during the first week of February, March, and April for spring. Mid-semester bills will only be sent to those students with a balance due. You can query the status of your account through BannerWeb. Logon to BannerWeb > Student and Financial Aid > Student Records > and select either Account Summary or Account Summary by Term. In the event that there is a need for a copy of the statement of your account, you can request one from the Student Financial Services Office. An updated statement will be mailed to you.

ONCE REGISTERED, YOU ARE OFFICIALLY ENROLLED AT GUILFORD AND FINANCIALLY RESPONSIBLE FOR CHARGES. IF YOU DECIDE NOT TO ATTEND CLASSES, YOU MUST COMPLETE AN OFFICIAL WITHDRAWAL FORM AND MEET WITH A CCE ADVISOR IN THE CENTER FOR CONTINUING EDUCATION LOCATED IN HENDRICKS HALL.

ACCOUNTS RECEIVABLE HOLDS/PAST DUE ACCOUNTS

Accounts Receivable HOLDS are placed on a student’s account when the amount billed is not settled by the due date. A student’s account becomes PAST DUE after the first day of classes at the beginning of each semester. All charges incurred subsequent to the first day of classes are expected to be paid in full immediately. If those charges are not paid immediately, they then become PAST DUE at the time of the next billing period where the account will be listed as PAST DUE. An Accounts Receivable HOLD will remain on the student's account until the balance is settled in full. An Accounts Receivable HOLD will prevent students with past due balances from registering for future semesters and from receiving transcripts.

REFUNDS AND ADJUSTMENTS

Registration at Guilford College is considered a contract binding the student for charges for the entire semester. The College makes plans regarding teaching faculty based on student registrations. It is the policy of Guilford College to give partial refunds when students officially withdraw from the College. A “refund” is defined as a reduction in assessed charges. Cash reimbursements are only available to students with credit balances on their accounts.

Tuition Adjustments. Subject to the advisor’s approval, a student may change registration and add courses through the end of the Drop/Add period – defined as one week and one class day after the first day of the official start of term. If the course load is reduced to below 12 credits during the Drop/Add period and the student is no longer eligible for financial aid requiring half-time or full-time enrollment for the term, then the financial aid will be reduced or canceled in accordance with state and/or federal requirements.
Adjustments are calculated based on the date the withdrawal or drop form is officially received in the registrar’s office. Any course change must be completed in the registrar’s office.

**Withdrawal from the College.** Students who officially and completely withdraw from Guilford College before the first day of the official start of term will receive a full refund of tuition and academic and student activity fees assessed. However, any non-refundable deposits and/or registration fees will not be refunded. The first day of the official start of terms each semester is defined on the academic calendar.

Withdrawal forms must be obtained from and submitted through the Center for Continuing Education office. Tuition/fees and refunds are based on the date the form is submitted. A request to the registrar for a transcript of credits shall not be considered notice of withdrawal from the College. Similarly, nonattendance is not a notice of withdrawal. Students are not considered officially and completely withdrawn from the College if they have not met with a CCE advisor and submitted the correct withdrawal form.

For students who officially and completely withdraw after the beginning of classes, their assessed tuition charges will be prorated according to the schedule below. All academic and student activity fees assessed are not refundable after classes begin.

- First day of class through the end of the Drop/Add period – 90% Adjustment
- One to seven days beyond the end of the Drop/Add period – 75% Adjustment
- Eight to 14 days beyond the end of the Drop/Add period – 50% Adjustment
- 15 to 21 days beyond the end of the Drop/Add period – 25% Adjustment
- 22 or more days beyond the end of the Drop/Add period – No Adjustment

Students should be aware that withdrawal from classes may result in adjustments to financial aid awards, including eligibility for the North Carolina Need Based Scholarship. For withdrawing students who are receiving federal financial aid through Guilford College, the aid adjustment is dictated by federal regulations.

**Reimbursement of Credit Balances.** Reimbursement of credit balances from overpayments will be made approximately two weeks from the day the credit is created. To the extent that funds paid to Guilford College on behalf of the student exceed the total amount of tuition, fees, and other expenses due from the student, the College will reimburse such excess payments (excluding any non-refundable financial aid) directly to the student, regardless of whether funds were paid by the student, the student’s parents or any other third party. Guilford College assumes no responsibility for remitting such excess payments to any person other than the student.

The Student Financial Services office is open for service in the basement of New Garden Hall on Monday, Thursday and Friday from 8:30 a.m. to 5 p.m., and Tuesday and Wednesday from 8:30 a.m. to 5:30 p.m., exclusive of College holidays. Additional office hours are held in Hendricks Hall on Monday and Tuesday evenings from 5 p.m. to 8 p.m. The email address for the Student Financial Services Office is sfs@guilford.edu.

**EXPLANATION OF FEES**

**Student Activity Fee.** The student activity fee is charged to all students and administered by the CCE student government to cover the budget of activities, special events and publications. It also contributes to the support of the Learning Commons and Career
Development Center providing access and benefits to all CCE students.

Motor Vehicle Registration Fee. Parking registration is required for every vehicle on campus. Parking registration will be automatically charged to ALL students’ accounts at the beginning of the school year. If parking is NOT desired, students must notify Student Financial Services to waive the registration fee. A parking waiver form will accompany the first invoice for the semester.

ID Replacement Charge. Guilford has a permanent ID card system. If your ID has been lost or damaged beyond use, there is a $25 replacement fee.

Returned Check Charge. Returned checks will be re-deposited one time unless we are notified otherwise. A $25 handling charge will be added to the student’s account each time a check is returned because of insufficient funds or other reasons. This is applicable to all checks written to Guilford College.

Veterans should see the VA service representative in the Registrar’s Office. Veterans who do not plan to pay in full by the due date and who wish to set up a payment plan should contact SallieMae TuitionPay-AMS or College Foundation, Inc.-CFI. See “Payment by monthly payment plans” above.

THE FEDERAL TAX CREDITS FOR EDUCATION

There are two potential tax credits for education, the American Opportunity Credit and the Lifetime Learning Tax Credit. Guilford College is required by the Internal Revenue Service (IRS) to issue the form 1098-T to students with transactions during the calendar year. The form 1098-T will report any eligible tuition and fees billed, and qualified scholarships and/or grants credited during the calendar year.

Form 1098-T will be mailed by January 31.

If you have any questions or concerns about the amounts reported please consult your Student Financial Services counselor at 336-316-2176 or 336-316-2354 or e-mail us at sfs@guilford.edu. Remember, Guilford College cannot offer any tax advice or assistance. Please direct any tax questions to the IRS at 800-829-1040 or refer to their web page.

MOTOR VEHICLES AND PARKING

A Guilford student may operate a motor vehicle on campus provided that it is properly registered. Students who operate motor vehicles on campus are required to pay a registration fee and park in a designated parking area. Students are required by law to comply with North Carolina state motor vehicle insurance requirements and all local, state and federal ordinances. Temporary parking permits may be obtained free of charge at the Office of Public Safety for vehicles operated by guests and visitors to the campus.

The Office of Public Safety is responsible for reporting violations of College motor vehicle regulations to Guilford officials.

Details of traffic and parking regulations are included in the Student Handbook.
IX. LEARNING RESOURCES

Many facilities and programs support Guilford’s academic curriculum. Descriptions follow of the library, computing and information technology, the Learning Commons, first-year program, science and language laboratories, classroom buildings, physical education building, performing arts spaces and Guilford’s art studios and galleries.

HEGE LIBRARY

Hege Library provides a wide range of services for the College community, advancing the College’s mission of producing critical thinkers and principled problem solvers. The library shares a catalog with its NC-PALS consortium-member partners, Bennett College, Greensboro College and Salem College and offers reciprocal borrowing privileges with them as well as other area colleges. Desktop computing is available in the library’s Information Village and the Betty Place Classroom and laptops are available for checkout.

Hege Library houses more than 250,000 volumes of books and periodicals, films, and provides access to thousands of electronic resources. Constructed in four phases beginning in 1908 from Andrew Carnegie funding, the library now comprises 53,000 square feet due to a major renovation in 1989. Hege Library also houses the Friends Historical Collection and Archives, the Learning Commons and the Art Gallery. The library offers numerous services including instructional technology assistance, instructional services and reference, interlibrary loan, and provides study space for 400 users.

Friends Historical Collection. The Friends Historical Collection, located in Hege Library, is a comprehensive research collection of materials pertaining to the Religious Society of Friends (Quakers) worldwide and serves as a recognized primary source research facility for Quaker history and belief, anti-slavery activities, and family history. The collection is open to Guilford students and faculty, Friends, visiting scholars and the general public. It is the center for Quaker study in the southeastern United States, housing the records of North Carolina Quakers from 1680 to present. The collection also includes rare books and periodicals, manuscript collections of personal and organizational papers the College archives images, and artifacts.

North Carolina Piedmont Academic Library System (NC-PALS). This organization includes Bennett College, Greensboro College, Guilford College and Salem College. The most significant cooperative efforts of the consortium are a shared library catalog and reciprocal borrowing agreements that serve all member colleges.

COMPUTING AND INFORMATION TECHNOLOGY

Computing Resources. Guilford features a fully wired and wireless networked campus with connectivity to academic and administrative buildings and residence halls. The campus has fiber-optic connectivity between all buildings within the main campus. Wireless networking is available campus wide. Each of the residence halls and most of the student houses have a data connection per resident and cable TV connection per room. Local phone service is provided and voicemail service is available upon request. The campus has a high-speed connection to the Internet.

Computer labs are available to Guilford students and community. Two 24-hour computer labs and three computer classrooms are available in the Bauman Telecommunications Center.
Guilford also maintains multimedia and computer classrooms across campus. Guilford supports both Windows and Macintosh computers. The Guilford Web site provides up-to-date information on the computer labs and the College standard hardware and software.

All computers on the Guilford network have access to network servers managed by the Department of Information Technology & Services and to high-speed networked printercopiers. Every student, staff and faculty member has an account on the network servers with private disk space that is accessible from all networked computers. Guilford provides multiple ways to access the network from off-campus.

Information Technology & Services. This department is located in the Bauman Telecommunications Center, which houses the campus network and servers, the telephone and voice mail systems, the cable TV systems and the Information Technology & Services Solution Center, which is a part of the Solution Center. IT&S provides support for academic computing, all College standard software and hardware, the Guilford network and the College’s connection to the Internet. The IT&S Solution Center is located in Bauman 101. The Solution Center provides technical support for campus computer hardware and software issues. Requests for assistance can be made by phone, e-mail, voicemail or by just walking in. Both professional staff and student workers are employed at the Solution Center. IT&S provides training in the use of the College standard software and hardware. Faculty may work with IT&S’s instructional technologist to provide training in specific information technology areas for their classes.

Multimedia Equipment. Information Technology & Services provides the campus with multimedia resources. Media Services are provided for classroom activity and special events only by contacting the Solution Center. Equipment such as data projectors, laptops, sound, projection screens, conference phones, recording devices and digital media-playing devices can be reserved for checkout or setup when one of the many multimedia rooms is not available. Students may check out digital video and still cameras plus external hard drives for class projects and may use the recording equipment at the Solution Center to transfer video media from one format to another (i.e. VHS, Hi8 to DVD).

LEARNING COMMONS

The Learning Commons (LC) is located on the second floor of Hege Library and serves the learning needs of Guilford’s diverse student population. The department offers a variety of academic support services: professional tutors who assist with writing, study skills, time management, quantitative skills and learning differences; peer tutors who assist with course-specific needs; Writing Fellows who assist with discipline-specific needs in academic majors; Learning Strategies and Alternative Learning Strategies classes; group and class presentations on a variety of topics, such as writing process and time management; and a campus reading series for creative writers.

The LC also has a variety of resources: the Study and the Writing Studio, where students can write and study independently or in groups, as well as work with tutors; books, handouts and other valuable resources, such as semester-at-a-glance calendars; a helpful link on the Guilford Web site, as well as support technology such as Kurzweil Reader (scans texts and reads them), JAWS (screen reading software for PCs) and a magnifier for use with printed texts.

The LC provides guidance and additional instruction as students strive to learn more effectively and efficiently across the curriculum and throughout their lives. It is not a remedial center; rather, the staff provides support for all students, including Early College, adult,
traditional, honors, under-prepared, those with special needs and on academic probation, as well as those doing advanced course work or writing senior theses.

**Students with Disabilities.** Guilford does not discriminate against qualified individuals with disabilities and provides reasonable accommodation(s), as required by law, to otherwise qualified applicants for admission. Such accommodations bear on education programs, activities, services and practices, including application procedures, admissions, student assignment, course assignment, the awarding of degrees, discipline and dismissal. Educational opportunities will not be denied to an otherwise qualified applicant or student because of the need to make reasonable accommodation(s) or modification(s) for the physical or mental impairments of any such individual.

If you have a documented physical, learning or psychological disability for which you would like to request appropriate accommodations, you must complete the Disabilities Disclosure found in the Course Registration Guide, Disability Services or online at [www.guilford.edu](http://www.guilford.edu). Please be sure to include specific information regarding your disability and how it affects your academic work, class schedule, residential living situation and co-curricular involvement. You should attach appropriate documentation. Please indicate whether or not you are requesting assistance in arranging for accommodation.

The form and documentation will be directed to the appropriate campus area (Counseling Center, Learning Commons, Student Health, Residence Life, etc.) for consideration. A staff member from the appropriate area will be in touch with you to discuss your accommodations and if you are approved, you will receive a copy of your confidential 504 Accommodation Plan that you may share with instructors, resident advisors, staff members and others as appropriate.

**CAREER DEVELOPMENT CENTER**

The Career Development Center (CDC) staff works with members of the Guilford College community to aid in career preparation through self and major exploration and the coordination of internships and on-campus student employment. The CDC works to connect each individual’s academic knowledge and experiential learning in ways that lead to fulfilling employment. The department employs a holistic approach to career development by teaching career-related skills through classes, workshops and individual career counseling. Special programs, career fairs and a one-credit course also assist students in their planning. An alumni network gives students access to Guilford graduates who are willing to share their expertise.

The CDC houses a library of rich resources that help students plan a major, investigate graduate programs, develop a polished resumé, conduct an effective job search or find an internship (the internship program is discussed in Chapter VII). Reference materials on national and international companies and agencies in the nonprofit sector are also available.

The CDC serves all students and alumni and encourages early involvement.

**Student Employment Service.** The Student Employment Service (SES), a part of the Career Development Center, assists students seeking part-time (on- and off-campus) and summer employment. The SES also maintains lists of students who are available for childcare and tutoring employment. These lists are distributed to Greensboro-area residents upon request.

**INTERNATIONAL STUDENT SERVICES**

Services are available to international students through the international student advisor, who advises them on institutional rules, government regulations, academic resources
and extra-curricular opportunities offered by both the College and the larger Greensboro community. Prior to the general orientation program, international students participate in an orientation program specifically tailored to their needs. Students spend two days familiarizing themselves with the school and other international students, have conversations about cultural adjustment, and spend time bonding as a group.

The international student advisor is available throughout the academic year to help students with any issues they may encounter, both academic and personal. The advisor also works with other staff, faculty and students to create a welcoming environment for international students through formal and informal activities. There is also an international student organization that promotes the understanding of international cultures at Guilford.

CULTURAL OPPORTUNITIES

Arts Programs and Lectures. Each year Guilford presents programs in music, the performing arts and public affairs for students, faculty and staff. The College presents departmental lectures such as the Sheridan Simon Lecture (physics), the James L. Fleming Lecture (peace and conflict studies) and the Rembert W. Patrick Lecture (history).

Since 1996, the Bryan Series has been creating community conversation with an annual series of lectures in the arts, humanities and public affairs. Events are held in War Memorial Auditorium in Greensboro. Recent visitors have included President Bill Clinton, former British Prime Minister Tony Blair, Garry Trudeau, Yo-Yo Ma, Christiane Amanpour, Salman Rushdie and Khaled Hosseini. For more information, visit www.guilford.edu/bryanseries.

FRANK FAMILY SCIENCE CENTER

The Frank Family Science Center houses the four science departments at Guilford. In addition to providing modern laboratory facilities, the science center serves as a popular teaching facility for the entire academic community. It provides computerized multimedia classrooms, a computer visualization facility, a multi-function auditorium, an observatory and formal and informal meeting facilities. The new science building was named The Frank Family Science Center to honor the late Stanley Frank – a local community leader and a trustee of the College from 1969-2006 – and his family.

The 54,000-square-foot facility was planned “from the inside out” to support Guilford’s unique vision of science education. Laboratory design consultants worked with each member of the science faculty to design laboratories which would enable hands-on learning with intense student-teacher interaction. These facilities were then combined with student work spaces, classrooms and easily accessible faculty offices to create learning communities for each discipline – biology and forensic biology; chemistry; geology and earth sciences; and physics and astronomy. The result is a building that facilitates interactions among the disciplines and so encourages the growth of interdisciplinary programs such as environmental science and health professions.

Scientific Computation and Visualization Facility. The chemistry, geology and physics departments host the Guilford Scientific Computation and Visualization Facility, which was made possible by a grant from the National Science Foundation. This facility is equipped with a Silicon Graphics server and more than 20 Sun and Silicon Graphics workstations, running Unix. Students ranging from first-year students to seniors use these computers for class work, independent projects and senior theses. Specific uses include molecular modeling, geographical information system work, numerical modeling, development of computer graphics and computationally intensive calculations.
**Biology.** The Department of Biology has seven large, well-equipped laboratories on the first and lower floors of the Frank Family Science Center, a greenhouse, several instrument/prep rooms and faculty research space. Two additional laboratories are designed specifically for biology majors who are conducting individual research projects. All of the teaching laboratories in the Frank Center are fully wired and equipped with computer projection facilities, audio-visual equipment and multiple computer terminals for student use. The student research lab and the teaching laboratories are furnished with modern molecular biology equipment that gives students practical experience in research methods. The forensic biology laboratory is furnished with a gas chromatograph-mass spectrophotograph (GC-MS) and a wide variety of new instrumentation used both in teaching and research. In addition, modern crime scene software and a collection of Bone Clone replicas are available for student use. The physiology laboratory provides equipment and computer hardware and software for studies of animal and human functions.

The Bailes Greenhouse provides opportunities for student and faculty research and also serves as a depository of typical vascular plants for observation and study. A herbarium is also available for botanical reference. An ornithological collection housed in the field biology laboratory dates back over a century to the work of Guilford alumnus T. Gilbert Pearson, one of the first presidents of the National Audubon Society. The department maintains a collection of specimens of vertebrates from North Carolina. The College woods and lake serve as a “living laboratory” with over 240 acres for research and study in forest ecology, ornithology, herpetology and limnology.

**Chemistry.** The Department of Chemistry occupies the third floor of the Frank Family Science Center. The laboratories and other department facilities were designed by the faculty to allow access to students in all chemistry courses, including the introductory courses, to state-of-the-art instructional and research facilities. The general chemistry lab is equipped with downdraft hoods for each student, as well as data ports at each station. The organic chemistry lab provides individual access to research-grade fume hoods that allow modern experiments to be performed safely. Both labs are equipped with computer projection systems to facilitate demonstration of laboratory techniques and concepts. The advanced chemistry lab is a flexible space that can be used by junior and senior chemistry students to perform more advanced procedures in physical, analytical inorganic and materials chemistry. A research lab permits students to pursue thesis research under the direction of a faculty member.

Instrumentation available to students in these laboratories includes a 90 MHz NMR spectrometer, double beam UV-visible spectrophotometers, an FT-IR spectrophotometer, high-performance liquid chromatographs, a fluorimeter, calorimeters for solutions and polymer analysis, a potentiostat-galvanostat, and an ion chromatograph. Student offices give chemistry students spaces within the department to study, read journals or analyze data in a comfortable setting, near faculty offices.

**Geology.** Geology facilities support a complete field and laboratory program and complement Guilford’s student research program in geology. The Frank Family Science Center has eight state-of-the-art geology classrooms and laboratories, including ample and comfortable student research and study space, with excellent access to faculty.

The department owns an extensive map, rock, mineral and fossil collection. The department is equipped with rock and mineral analysis capabilities, including polarizing petrographic microscopes, photomicrographic facilities, dissecting microscopes, sample preparation facilities, gem analysis equipment and basic sedimentation equipment. Field studies are enhanced by a portable magnetometer, gravimeter and a 12-channel seismograph.
The department has outstanding facilities for hydrologic studies, including eight monitoring wells that have been installed on campus, dataloggers, pumps, water level tapes and other standard equipment. A small lake on campus is also available for study, and a permanent weir has been installed on the College creek for surface water studies.

The department also maintains a geochemistry lab and has field equipment for environmental investigations, including a portable spectrophotometer for contaminant analysis. These are complemented by Geographic Positioning System hardware and software, and excellent computer facilities (UNIX and PC), that include image-processing capabilities (computer, software and images), computer graphics and mapping capabilities, and a digitizing pad and color plotter.

**Physics.** The physics curriculum helps students to learn the science of physics and become physicists. To accomplish these goals, the Department of Physics emphasizes undergraduate research – especially projects initiated and designed by students – as a critical element in the physics learning process. Beginning in the first year, students are asked to initiate and design their own investigations. More than 3,000 square feet of laboratory space within the department supports undergraduate research. Many of the experiments that students conduct here are independent projects that are not associated with any particular course. Equipment for these experiments is constructed and modified in the modern shop facilities in the basement of the Frank Family Science Center.

The department offers two endowed physics awards, the Jeglinski Physics Award, in memory of Boleslaw Jeglinksi and Michael Jeglinski, and the Helen and Winslow Womack Physics Research Award. These awards are given annually to students to support their research and fund their travel to professional scientific meetings such as the National Conference on Undergraduate Research.

The department’s introductory laboratories rely on a microcomputer-based data gathering and analysis system connected to the campus network. The advanced laboratories, created with support from the National Science Foundation, focus on experimental modern physics and include cryogenics, optics, atomic and nuclear physics, electronics centers and modern astronomical observing tools in the visible, Infra-red and 14 MHz radio frequencies. Students learn to control the sophisticated equipment in these centers using LabVIEW™ programs running on the department’s many personal computers. For more complicated computational studies, students use Sun and Silicon Graphics Unix workstations from Guilford’s Scientific, Computation and Visualization Facility.

In addition to the laboratory space, the department houses two rooms of student office space. Each physics major is given a desk and may use this space as a place to study or to store books. These rooms, provided by gifts from the physics alumni, are wired to the campus network and contain a personal computer and a Sun work station for student use.

**OBSERVATORY**

The Frank Family Science Center houses the J. Donald Cline Observatory and an astronomy lab, a photographic darkroom and an observatory support room. The principal instruments are a 16-inch Ritchey-Chretien optical telescope on a robotic mount and a seven-foot-diameter radio telescope on a fully motorized altazimuth mount. Instrumentation for the optical telescope includes CCD cameras, photometers and a spectrometer. This facility is used in the introductory astronomy and physics classes, for public viewing and for undergraduate student research. The College also shares a research-grade 32-inch telescope at the Three-College Observatory that is located about 33 miles from campus.
CLASSROOM BUILDINGS
The three main classroom buildings are Duke Memorial Hall, Frank Family Science Center and King Hall. In addition to classrooms and faculty offices, Duke Memorial Hall also houses the foreign languages laboratory. Film viewing and demonstration lectures for groups up to 75 people can be accommodated in Duke Memorial Hall’s C. Elmer Leak Audiovisual Center, with equipment for video projection of both computer graphics and videotape on a large screen.

The Frank Family Science Center houses a 135-seat domed auditorium that is a video, audio and computer multimedia facility used for lectures, films, concerts and student theater productions. In addition to classrooms and faculty offices, the Frank Family Science Center also houses the science library and laboratories in biology, chemistry, geology and physics including a weather station and both optical and radio telescopes on the roof.

In addition to classrooms and faculty offices, King Hall also houses the Center for Principled Problem Solving, the Career Development Center, the academic dean’s office and the Multicultural Education Department.

Classes are also held in Bauman Telecommunications Center, Dana Auditorium, Founders Hall, Hege-Cox Hall and the Ragan-Brown Field House.

PHYSICAL EDUCATION CENTER
All students are encouraged to participate in intercollegiate and intramural sports. Guilford College’s Physical Education Center, dedicated in 1980, affords students the opportunity for physical development, recreation and athletic competition.

The center consists of:
• Alumni Gym, built in 1940, which has one basketball court as well as offices for coaches and some faculty members.
• Ragan-Brown Field House, which has a 2,500 seating capacity and three full-size basketball courts. Classrooms for physical education studies are also housed here.
• Fitness center, featuring Hammer Strength equipment.

Adjacent outdoor athletic areas to the PE Center include:
• Fields for baseball, football, lacrosse, rugby, soccer and ultimate Frisbee.
• Four tennis courts.

Adjacent outdoor athletic areas to New Garden Road include:
• Four tennis courts.
• Softball field.

FOUNDERS HALL
Rebuilt on the site of the original building of New Garden Boarding School, Founders Hall provides office space for many student service departments and traditional-age student organizations. Its facilities include the College cafeteria, meeting rooms, lounges, an art gallery, a recreation room, traditional-age mailroom, a snack shop, the College bookstore, a student operated radio station, The Grill, Pizzeria and Student Organizations Center.

Housed in the basement is the Department of Theatre Studies, including faculty offices, box office, costume shop, dressing rooms and a rehearsal hall.

PRACTICING, PERFORMING AND MEETING SPACE
Charles A. Dana Auditorium, completed in 1961, is a proscenium theatre that seats 1,000 people and is used for major musical events as well as for lectures and conferences. The
south wing houses teaching classrooms, music practice rooms and a large choir room for rehearsals and small informal concerts. The Mary Pemberton Moon Room is suitable in size and arrangement for worship, informal lectures and monthly faculty meetings. Dana Auditorium hosts classes from a variety of disciplines and houses offices for the music and the religious studies departments. In the summer, Dana is home to the Eastern Music Festival and the Eastern Philharmonic Orchestra.

**Sternberger Auditorium**, adjacent to Founders Hall, is a flexible performance space that seats up to 250 people and is equipped for stage productions, concerts, lectures and dances.

**STUDIOS AND GALLERIES**

**Hege-Cox Hall** houses the Department of Art offices, outdoor kilns for firing ceramics, darkroom and studios for wood and mixed-media sculpture, welding, ceramics, printmaking, painting and drawing. There is a hallway gallery for the exhibition of student work. Gallery spaces in Founders Hall also exhibit work by students. In the Hege Library, the Guilford College Art Gallery houses a permanent teaching art collection and features exhibitions emphasizing modern and contemporary art reflecting social and cultural issues congruent with the College’s Quaker tradition. Art history classes are taught in the Bauman, Frank and Duke classrooms. Senior thesis students have private studio spaces in Hildebrandt House.

**The Guilford College Art Gallery**, housed in Hege Library, the Guilford College Art Gallery opened in 1990 with more than 3,500 square feet devoted to exhibiting the College’s permanent art collection and occasional temporary exhibitions. In addition to an enclosed main gallery, there are eight atrium galleries, vitrines and an art storage area utilized by the College’s art curator.

As the “scholarly crossroads” of the Guilford campus, Hege Library offers an ideal location for the gallery. The addition of visual arts to the library enriches the environment for students who may view fine works of art while pursuing their studies. The original works of art on display function as a primary source of knowledge for faculty, students and the community at large. Students analyze and study these objects in a variety of contexts; creative artists draw inspiration from them; and faculty use them to reinforce their interdisciplinary approach to teaching. The gallery’s exhibitions emphasize modern and contemporary art reflecting social and cultural issues congruent with the College’s Quaker tradition.

The College seeks to collect works of art representing a broad range of periods, styles and cultures. Formed in 1973, the permanent collection was significantly expanded in 1986 with generous contributions by Rachel and Allen Weller and by Ruth and Ira Julian, dedicated art collectors. The collection was further enhanced with a gift of important 19th and 20th century traditional African sculptures from Dr. A. Kelly Maness Jr.

Spanning more than 40 centuries and four continents, the collection now includes more than 1,100 objects by more than 450 artists, with an emphasis on 19th and 20th century American and European paintings, prints and drawings. The collection includes original works by Rembrandt, Picasso and Dali as well as an impressive selection of 20th century American artists, featuring works by Grant Wood, Leon Golub, Sue Coe, Miriam Schapiro, Robert Bechtle, Josef Albers, Roger Brown, Joseph Stella and Abraham Rattner.
X. ADMISSION AND FEES FOR TRADITIONAL-AGE STUDENTS

Guilford accepts applicants whose qualities of intellectual capability, personality and social awareness potentially enable them to benefit from both the academic program and campus life. Further, the College seeks students whose backgrounds and talents will enrich the experience of the College community and whose concerns promise constructive leadership and service in the society in which they live. The College seeks to build a community of individuals whose diverse geographic and ethnic origins and varying races, religions, ideologies, sexual orientations and socioeconomic backgrounds will enrich and enhance the educational experience at Guilford.

NOTE: For admission and fee information specific to CCE students, please see chapter VIII.

ADMISSION PROCEDURES

Criteria for Selection. The Admission Committee reviews each application individually, with consideration given to all aspects of an applicant’s record, keeping in mind the admission objectives set out above.

Academic Record. The Admission Committee examines an applicant’s past scholastic achievement, as demonstrated by course selection, grades, class rank and other presented materials. There is no specific number or pattern of units required for entrance to Guilford. The College is primarily interested in the quality of a student’s overall academic performance. However, to be better prepared for academic success in Guilford’s liberal arts curriculum, a student should include among the 16 high school units at least 14 academic units (four units in English, three in mathematics, three or four in natural sciences, two in social sciences and two to six in a foreign language). In the evaluation of applications, the Office of Admission will use the unweighted high school grade-point average using core high school courses (English, mathematics, natural and social sciences, and foreign languages). This grade-point average will be utilized for evaluation.

In addition to their course work in high school, prospective students are urged to read widely outside of class to broaden their general background and acquaintance with contemporary issues. Students also are encouraged to increase their competence in writing and to develop the ability to express ideas accurately.

Entrance Tests/Standardized Test Optional Plan

To assist the Admission Committee in evaluating a prospective student’s academic potential, each applicant is expected to either take the Scholastic Aptitude Test (SAT I) administered by the College Entrance Examination Board, or the test of the American College Testing Program (ACT) and have scores sent directly to the College or submit a portfolio of written work in lieu of standardized test scores.

Guilford is an SAT/ACT-optional institution. For students who feel that their standardized test scores, such as the SAT or ACT, do not provide an accurate indication of their ability to be successful in college, we provide the option to submit an academic portfolio of written work in lieu of standardized test scores. The academic portfolio must include 2 writing samples (at least one should be a graded expository written work). For more information about Guilford’s Test Optional Policy, please contact your admission counselor.
**Personal Characteristics.** Personal characteristics are evaluated through recommendation forms and an interview, preferably on campus. Guilford encourages students to visit, have an interview with an admission officer, talk with different members of the College community, and become familiar with the campus. Personal contact also lets the admission staff become better acquainted with an applicant. Arrangements for a personal interview and a campus visit may be made by calling the Office of Admission. Call 336-316-2100 or 800-992-7759 to arrange a campus visit.

**Other Materials.** Applicants should submit information concerning unusual circumstances, achievements or abilities which would be relevant to the process.

**International Student Applications.** To be admitted to Guilford, international students must fulfill the following requirements:
- Submit a completed application along with all supporting documentation, including records of prior academic work and recommendations. If records are not in English, an official translation must be included.
- Achieve a minimum TOEFL score of 213, 550 paper test, or 80 Internet-based test.
- In lieu of TOEFL, students can submit a minimum IELTS score of 6.5.
- SAT or ACT scores (optional, but can be beneficial for obtaining scholarships)
- Provide a complete and true Certificate of Finances.
- Transfer students must also complete the Visa Clearance Form
- $25 application fee. If the application is submitted online, we will waive the application fee.

**NOTE:** Students who are Americans living abroad do not need a Certificate of Finances. They do need a TOEFL if English is not their first language. Both Americans living abroad and international students use the same application form.

Application Deadlines:
- Fall admission – Feb 15; Spring admission – Dec 1; Transfer – April 1

The goal of the Guilford admission process is to select those international applicants who will benefit most from a Guilford education and contribute significantly to the Guilford community. The Admission Committee thoroughly reviews each applicant to determine academic preparation as well as to evaluate other qualities such as leadership, creativity, and school and community involvement.

For first-year applicants, we consider your coursework and grades, with the expectation that you will have at least four college-preparatory courses each year and the hope that you have challenged yourself with advanced courses where available. To the extent that we can, we also consider the level of competition in your secondary school. Along with your test scores, academic record and extracurricular activities, Guilford also looks at a personal essay as well as school recommendations from a counselor and a teacher.

Guilford welcomes applications from international students as either first-year students or transfer students from other universities. Transfer students may transfer up to 64 credit hours from another university.

All foreign transcripts must be evaluated by World Education Services, Inc. before any transfer credits will be awarded.

**Transfer Applications.** Qualified students from other accredited and approved colleges and universities are welcome to apply to Guilford. In order to be considered for admission, a

www.guilford.edu
prospective transfer student needs at least a C average in all academic work taken at the college level. Consideration is given to the academic reputation of the college from which the student wishes to transfer and the type of courses taken at that institution. Transfer applications are evaluated according to the same criteria used for firstyear applications. The materials necessary to complete an application for transfer are:

- the transfer application for admission and the $25 application fee (fees are waived for online applications);
- if the student is transferring in with at least 30 hours of college credit: a transcript from every college attended;
- if the student is not transferring in with at least 30 hours of college credit: a transcript from every high school attended and results of one of the college entrance examinations (SAT or ACT scores earned while in high school are acceptable), in addition to a transcript from every college attended;
- a recommendation from the dean of students of each college the student has attended (this form is separate from the application for admission).

**English and Foreign Language Evaluation**

All first year students are evaluated for proficiency in English and in the foreign language they wish to continue studying. On the basis of these evaluations, students are placed in the most advanced courses for which they are qualified. Students also will be evaluated for proficiency in mathematics.

**Immunizations.** North Carolina law requires that all students submit proof of immunization against diphtheria and tetanus pertussis (DPT), polio, measles (rubeola), mumps and rubella within 30 days of enrollment. Also, students born after July 1, 1994, must submit proof of three Hepatitis B shots. Students failing to do so must be suspended.

**Advanced Placement, International Baccalaureate and ACE credit.** Advanced standing may be earned through the Advanced Placement Program of the College Board or the College Level Examination Program (CLEP) for a total of 32 credits for those examinations that correspond to courses in the Guilford curriculum.

The required courses, First Year Experience 101, 102 and IDS 400, cannot be waived by examination. The appropriate department chairperson must approve placement and credit decisions in the student’s major.

Placement requires Advanced Placement scores of three or better, or CLEP scores of 50 or better; credit requires Advanced Placement scores of four or better, or general CLEP scores of 55 or better. Subject CLEP scores must be at least 50 for placement and at least 55 for credit. General examination scores may apply only to courses taken to satisfy the general college or distribution requirement. Students may obtain credit for other courses only by taking subject area examinations.

Guilford also recognizes the International Baccalaureate (IB) for admission purposes. IB credit will be awarded to students who have achieved scores of four through seven on the Higher Level tests.

The College will also award up to 16 credits for educational experiences during military service, according to the recommendations of the American Council on Education. All foreign transcripts must be evaluated by World Education Services, Inc. before any transfer credits will be awarded. For further information, the student should contact the registrar’s office or the Office of Admission. Continuing Education students should consult an
academic advisor in the Center for Continuing Education.

**Early Entrance.** Guilford’s Early Entrance program welcomes applications through the normal admission process from qualified students who wish to pursue their educational objectives at an accelerated rate. Students of proven academic ability and exceptional motivation and maturity may be considered for admission before completion of the full fouryear high school program. Any high school student with superior academic potential is eligible to apply. Usually these applicants wish to enroll after completion of the 11th grade, but capable students who wish to enter college even earlier may, in some cases, be considered. Minimum age for application is 14.

For details, contact the Office of Admission.

**Application Procedure.** Applications are processed as soon as an application form and all supporting materials are received in the Office of Admission. The materials needed are:

- the completed application form with a $25 application fee (fees are waived for online application);
- a transcript of all secondary school work;
- results of one of the college entrance examinations (SAT I or ACT) or a test-optional portfolio;
- the School Report Form and prefer a counselor recommendation;
- other recommendations at the discretion of the applicant.

Accepted students confirm their intention to enroll by paying a non-refundable $400 Enrollment Fee required of all students by May 1, National Candidates Reply Date.

**For more information.** Inquiries concerning admission to Guilford should be addressed to:

Guilford College Office of Admission
5800 West Friendly Avenue, Greensboro, NC 27410
336-316-2100 or 800-992-7759 or admission@guilford.edu

**Early Action Plan.** To allow prospective Guilford students who clearly are interested in the College but have not yet determined that it is their first choice, Guilford offers an Early Action Plan. To apply to Guilford under the Early Action Plan, students should take the SAT I or ACT examination no later than December of their senior year in high school and submit their applications, with all supporting material, by Jan. 15 of that year.

Through this arrangement, students who have strong academic and personal qualities may have a decision from the Admission Committee by Feb. 15 of their senior year rather than April 1. Additionally, Guilford agrees to waive the $25 application fee for all Early Action applicants.

Students choosing the Early Action Plan may apply to other colleges and are under no obligation, if accepted, to notify Guilford of their college choice until May 1.

A Deposit in ESCROW is a deposit held by Guilford College to offset outstanding student charges while the student is enrolled. It is required of all NEW students prior to enrollment. When the student graduates or withdraws from Guilford, the Deposit in ESCROW is refunded less any outstanding charges.

*** The $1,179 fee pays for coverage for one academic year. For Guilford students who only need medical coverage for Spring 2012, the charge is estimated at $845.00, subject to change. All students involved in intercollegiate athletics are required to carry special athletic insurance and pay an additional premium of $350 (subject to change). The basic student health insurance fee can be waived by completing the on-line insurance waiver with UnitedHealthcare insurance.
Standard Fees

Tuition per Credit (less than 12 credits) $951.00
Tuition Overload Fee per Credit (more than 18 credits) $321.00
Registration Fee (less than 12 credits) $15.00
Motor Vehicle Registration
  Residence Student (for one Academic Year) $70.00
  Residence Student (for one Semester ONLY) $35.00
  Day Student (for one Academic Year) $45.00
  Day Student (for one Semester ONLY) $25.00
  Bicycle Registration $5.00
Fee for Late Drop/Adds and Registration $50.00
Student Health Insurance Fall 2012 to Summer 2013 $1,179.00
Student Health Insurance Spring 2013 to Summer 2013 (subject to change) $845.00
Audit Fee per Credit (If full-time traditional student – audit fee is charged for over 18 credits) $80.00

Special and/or Non-Recurring Fees

Application Fee $25.00
Orientation Fee 1st Time Students ONLY (Non-refundable) $75.00
Deposit in ESCROW- 1st Time Students ONLY (Non-Refundable if enrolled for less than a full semester) $400.00
Duplicate Diploma Fee $50.00
Returned Check Charge $25.00
Duplicate ID Charge $25.00
Key Replacement and Recoding Charge $75.00

Special Course Fees
(subject to change)

Modern Dance I $70.00
Modern Dance II $90.00
Education 440 (student teaching) $95.00
Education 440 (student teaching for two teachers) $125.00
Music Fees-Guilford; one ½ hour lesson per week $390.00
Music Fees-Guilford; one 1 hour lesson per week $780.00
Private Music Fees-Music Academy of NC; one ½ hour lesson per week $495.00
Private Music Fees-Music Academy of NC; one 1 hour lesson per week $900.00
Inter Networking Computer Fee $50.00
Computer Security Course Fee $60.00
Guitar Class $185.00
Voice Class $185.00
African Drumming Class Fee $185.00

Payment Option Plans
Payment in full is due by July 15 for the Fall Semester and December 15 for the Spring Semester.

Payment can be made by cash, check, cashier’s check or money order.

Payment by Credit Card. The College will accept payment in full, subject to confirmation, by VISA, MasterCard, Discover or American Express. See credit card authorization form at the end.
Payment by monthly payment plans. It may be convenient to pay education costs on a monthly basis. Guilford College has partnered with SallieMae/TuitionPay and College Foundation, Inc. to provide expanded payment plan programs which offer services such as:

**SallieMae Tuition/Pay-Academic Management Services (AMS)** – Monthly Payment Plan offers a flexible ten-month installment, interest-free monthly payments beginning June 5 for the academic year. This plan also offers tuition protection coverage, extended customer service hours, internet access to your account, monthly statements mailed to you, and Western Union phone pay option, along with other payment options. Please contact AMS at TUITION (884-8466) or 800-635-0120 to learn more about the AMS plan.

**College Foundation, Inc. – CFI Payment Plan** offers a monthly payment plan with extended customer service hours, Internet Access to your account, monthly statements mailed each month, and Western Union phone pay option, and other payment options. Please contact CFI at 866-866-CFNC or 866-866-2362 to learn more about the CFI plan.

**Financial Aid.** Accounts may be settled with financial aid funds. Please contact the Student Financial Services office at 336-316-2541 or 336-316-2354 for more information, or visit our website at www.guilford.edu.

**ONCE REGISTERED, YOU ARE OFFICIALLY ENROLLED AT GUILFORD COLLEGE AND FINANCIALLY RESPONSIBLE FOR CHARGES. IF YOU DECIDE NOT TO ATTEND CLASSES, YOU MUST NOTIFY ONE OF THE OFFICES LISTED BELOW TO WITHDRAW OFFICIALLY.**

Traditional-Age First-Year students should contact the First Year Center. All other Traditional-Age students should contact the Office for Campus Life to process a withdrawal from school effective at the end of this semester.

**Student Financial Services office hours for services in the basement of New Garden Hall are:** Monday, Thursday, and Friday from 8:30 a.m. to 5 p.m., Tuesday and Wednesday from 8:30 a.m. to 5:30 p.m., exclusive of College holidays. Email address is: sfs@guilford.edu.

**Billing Information.** Semester invoices are mailed approximately one month prior to the due date of payment. Invoices are sent to students at their permanent residence, mailing address, and the second billing address where applicable. If any student wishes to have a student invoice sent to another party, it is the responsibility of the student to forward the invoice to another address. In special cases, you may submit a request on the Special Billing Request Form listed below.

Please make checks payable to Guilford College and send in the envelope included with your invoice. Please return the enclosed payment worksheet with your payment indicating any changes in the amount of the invoice. Please include copies of any documents relating to outside awards, scholarships, loans, etc., which you have as payment on the balance due. Please mail payment in sufficient time to be received by the date due. Thank you.

Subsequent invoices will be sent during the first week of September, October and November for fall and during the first week of February, March, and April for spring. Mid-semester bills will only be sent to those students with a balance due. You can query the status of your account through BannerWeb. Login to BannerWeb>Student and Financial Aid>Student Records>and select either Account Summary or Account Summary by Term. In the event that there is a need for a copy of the statement of your account, you can request
one from the Student Financial Services Office. An updated statement will be mailed to you.

**Special Note: TRADITIONAL-AGE STUDENTS**

Bills for the fall semester will be sent by the first week in June and should be settled in full by July 15. Bills for the spring semester will be sent by the third week in November and should be settled in full by December 15.

Students who have NOT settled their accounts in full by July 15 for the fall and by December 15 for the spring will have an Accounts Receivable HOLD placed on their accounts.

All outstanding balances after the first day of classes will be charged a $250.00 Late Fee.

One week after the due date: If the outstanding balance on the student’s account is over $500.00, the student will receive a letter from us stating the status of the student’s account. If the balance is NOT settled in full by July 31 for the fall semester and by December 23 for the spring semester, the student will receive a letter warning of potential administrative withdrawal unless the balance is settled immediately. Withdrawal occurs approximately one week after the letter date—course registration and room and board assignments will be canceled.

Students who have been administratively withdrawn for non-payment will be charged a $450.00 Processing Fee for readmission. This fee will be charged to the student’s account and must be paid in addition to the balance due before the student can reapply and be considered for readmission.

All administratively withdrawn students who have settled their outstanding balances must apply for readmission. The application can be found at www.guilford.edu. Please submit the completed form to the associate director of admission, via mail or fax, or feel free to call 336-316-2220. When the student has been accepted for readmission, the email account and ID card will be reactivated. The student must contact the associate academic dean, to add classes. Remember that the last day to add classes for fall 2012 without charges is August 27, 2012, and for spring 2013, February 4, 2013. The student must contact Kris Gray, housing coordinator, to request room and board assignment.

If the balance is settled in FULL after withdrawal and the student is readmitted, the student will need to repeat the whole registration process, including course selection, and room and board assignments.

**ACCOUNTS RECEIVABLE HOLDS/ PAST DUE ACCOUNTS**

Accounts Receivable HOLDS are placed on a student’s account when the amount billed is not settled by the due date. A student’s account with a balance due becomes PAST DUE after the first day of classes at the beginning of each semester. All charges incurred subsequent to the first day of classes are expected to be paid in full immediately. If those charges are not paid immediately, they then become PAST DUE at the time of the next billing period where the account will be listed as PAST DUE. An Accounts Receivable HOLD will remain on the student’s account until the balance is settled in full. An Accounts Receivable HOLD will prohibit students from completing check-in at the beginning of the semester, making changes to current schedule, registering for future semesters, and receiving grades and transcripts.

**EXPLANATION OF FEES**

**Student Activity Fee.** The student activity fee is charged to all residential students and full-time day students and administered by the student government to cover the budget of certain student organizations in which all students may participate or from which they receive benefits.
Deposit in ESCROW. A $400 deposit is charged to all full-time traditional program students and is held in escrow while the student is enrolled. It is required of all NEW students prior to enrollment. When the student graduates or withdraws from Guilford, the Deposit in ESCROW is refunded in full less any outstanding charges.

Orientation Fee. The orientation fee is a one time, mandatory charge for all entering first year and transfer students at Guilford College, to provide funding for CHAOS programming, alcohol education, meals and small group sessions. This fee will be charged to all first year and transfer students regardless of attendance at CHAOS.

Tuition Overload Fee. Students are charged tuition based on full-time enrollment (12-18 credit hours). If the student's course load exceeds 18 credit hours, there is a charge of $321 for each credit hour over 18. Exceptions to this policy are extra credit hours for private music lessons and students who have been on the Dean's List for the previous three semesters.

Injury and Sickness Insurance. Guilford College makes available a Student Injury and Sickness Insurance Plan with UnitedHealthcare Insurance Company. The basic policy features a $100 deductible and a $50,000 maximum per injury or sickness. Details of the policy are subject to change each year. Information on details of coverage is provided during the summer preceding each academic year. The premium for insurance appears as a charge for the first semester. Students or parents must complete the online electronic insurance waiver process with UnitedHealthcare. The online waiver petition must be completed and approved between July 15 and August 31 if the insurance coverage is not desired. If the online insurance waiver petition is denied, the charge for student health insurance remains on the student’s account. For further information please contact UnitedHealthcare Insurance Company at 800-237-0903, or fax 727-570-9128 or email scraven@uhcsr.com.

* International Student Insurance. International students attending Guilford College full time are required to carry the basic sickness and accident/major medical coverage for the academic year by a United States based insurance carrier. If not accepting the College’s insurance, proof of coverage with a United States based insurance carrier must be provided prior to check-in day.

* Athletic Insurance is required of all students participating in intercollegiate athletics. The Athletic Department will send information about this coverage.

Motor Vehicle Registration Fee. For information on motor vehicle registration and regulations, refer to the Student Handbook. Parking registration is required for every vehicle on campus. Parking registration will be automatically charged to ALL students’ accounts at the beginning of the school year. If parking is not desired, students must notify the Student Financial Services Office to waive the registration fee. A parking waiver form will accompany the first bill for the semester.

ID Replacement Charge. If your Guilford College issued ID has been lost or damaged beyond use, there is a $25 replacement fee. Replacement cards are issued in the Quaker Card Office located behind the information desk on the first floor of Founders Hall during the academic year.

Returned Check Charge. Returned checks will be re-deposited one time unless we are notified otherwise. A $25 handling charge will be added to the student’s account each time a check is returned because of insufficient funds or other reasons. This is applicable to all
checks written to Guilford College.

**Fee for Late Drop/Adds and Registration.** For information on fee for late drop/adds and registration, please refer to the catalog, Student Handbook or Advising Handbook.

**Room and Board.** Guilford College is primarily a residential campus, therefore, unmarried students are required to live on campus and eat in the College dining hall. Local students may commute from their homes but must specify when they apply that they intend to live at home with their parents and commute. Any exceptions to this policy must be approved through a petition submitted to the Office for Campus Life. If you have not been granted permission to live off campus and have not completed a housing application, you will be assigned a room and must pay all related charges. Please go to www.guilford.edu to complete the application. If you do not plan to live on campus, you must complete an Off-Campus Petition and Notification Form located in the Office for Campus Life. Any concerns should be directed to Kris Gray at kgray2@guilford.edu.

**FINANCIAL AID INFORMATION**

**Incomplete Financial Aid.** If you have been awarded financial aid from Guilford College which is not showing up on your student account invoice, please use the worksheet enclosed with the invoice and write in the name of the fund and the amount. Deduct any aid not already deducted from your balance due when making your payment. The worksheet is also available as a downloadable form at our website, www.guilford.edu. **DO NOT DEDUCT WORK-STUDY AWARDS FROM THE BALANCE DUE AS THE FUNDS ARE PAID DIRECTLY TO THE STUDENT AS THEY ARE EARNED THROUGH A CAMPUS JOB.** Your aid could change after your invoice is sent. In this case, you will be sent a revised Award Letter from the Student Financial Services Office. You may adjust your payment due based on the revised aid since time may not permit the Office of Student Accounts to send a corrected invoice.

**Estimated Federal Pell Grants and Stafford Loans not received** are shown as “Total Expected Financial Aid” on the Student Account Invoice. Any credit balances remaining on your account will be reimbursed, where applicable, within two weeks of the loan disbursement from the lender. Only refundable credit balances will be reimbursed to students. Estimated Federal Pell Grants will not be credited to your account until all required documentations are received in the Guilford College Student Financial Services Office. Failure to submit the above documents within 15 days of the start of classes MAY result in the cancellation of the Federal Pell Grant, and you will be billed the amount of the grant award at that time.

**College Work-Study.** If you have been allocated work-study funds, you should be reminded that this is an authorization to work – it is not a guarantee of employment. It is your responsibility to secure employment through the College’s Student Employment Services. These funds are never credited to a student’s account in the Office of Student Accounts, but are paid directly to the student each month based on the number of hours worked. If desired, students can have their paychecks directly deposited to a bank of their choice. One cannot count on work-study funds for the purchase of books and supplies at the start of school.

**Bonner Scholar Stipends.** Two checks which will be issued to the student for the Bonner work. These checks will be issued to the student, when authorized by the Bonner Office, if the balance due has been cleared. If the student has a balance due, the Bonner checks may be used as payment toward that balance. Students will need to sign a release form, authorizing www.guilford.edu
the Student Financial Services Office to use Bonner stipends to settle account balance due.

**Outside Scholarships and Loans.** A student who has been awarded any outside scholarships and loans must produce a letter of confirmation indicating the source of the money and the estimated date of payment. Make any corrections to the payment worksheet enclosed with the invoice. Please contact the Student Financial Services Office 336-316-2354 or 336-316-2541 with information about any additional scholarship or loan funds. Upon receipt of the letter, the student’s account will be credited. If the payment for the scholarship/loan is not received by the end of the semester, the student’s account will be debited and payment is required from the student.

**Please Note.** If your financial aid has been based on your status as a full-time enrolled residential student and you are granted permission to move off campus or your enrollment changes to less than 12 credits, your aid will very likely be revised. If such changes occur, students should check with the student financial services counselors to determine if their aid will be affected.

Additional information regarding financial aid options at Guilford is available on the Student Financial Services Office Web page at [www.guilford.edu](http://www.guilford.edu).

**REFUNDS AND ADJUSTMENTS**

Reimbursements of credit balances from loan disbursements or overpayments where applicable will be made approximately two weeks from the day credit is created. To the extent that funds paid to Guilford College on behalf of the student exceed the total amount of tuition, fees and other expenses due from the student, Guilford College will reimburse such excess payments (excluding any non-refundable financial aid) directly to the student, regardless of whether any funds were paid by the student, the student’s parents or any other third party. **Guilford College assumes no responsibility for remitting such excess payments to any person other than the student. Reimbursement checks for only those students with refundable credit balances as of August 31 for fall and January 31 for spring will be available within two weeks after the credit balance is on the account, but not before the last day to drop a regular/-intensive course without a grade.**

**Tuition Adjustments.** Subject to the advisor’s approval, a student may change registration and add courses during the first week of classes. Students who reduce their course load to below 12 credits during the first 8 calendar days will have their charges changed and be billed on a per-credit-hour basis.

A student who is billed for an extra-credit overload (in excess of 18 credits) may drop courses to reduce total credits to 18 or less through the eighth calendar day beginning with the first day of classes and receive 100 percent adjustment of the extra-credit charges. **No adjustment of charges will be made after this date.**

Adjustments are calculated on the date the withdrawal or drop form is received in the Registrar’s Office. Any course change must be completed in the registrar’s office.

**Withdrawal from the College.** Students receive a pro-rata refund of tuition up to the fourth calendar week of the term. Students receive a pro-rata refund of room charges up to the first calendar week of the term. Students receive a refund for unused meal charges up to the week after the students are no longer on the meal plan. All refund checks are made payable to the student. Financial aid that requires half-time or full-time enrollment for the term will be canceled in accordance with state and/or federal requirements.
For students who officially and completely withdraw after the beginning of classes, their assessed tuition, room and board charges will be prorated according to the schedule below. All academic and student activity fees assessed are not refundable after classes begin. Students should be aware that withdrawal from classes may result in adjustments to financial aid. For withdrawing students who are receiving federal aid through Guilford College, the aid adjustment is dictated by federal regulations.

First day of class through the end of the Drop/Add period – 90% Adjustment  
One to seven days beyond the end of the Drop/Add period – 75% Adjustment  
Eight to 14 days beyond the end of the Drop/Add period – 50% Adjustment  
15 to 21 days beyond the end of the Drop/Add period – 25% Adjustment  
22 or more days beyond the end of the Drop/Add period – No Adjustment

A refund schedule for COMPLETE WITHDRAWAL ONLY can be obtained from the Student Financial Services Office located in the basement of New Garden Hall. Withdrawal Petition forms are obtained from and returned to the Office for Campus Life. A request to the registrar for a transcript of credits shall be considered neither a notice of withdrawal from the College nor a cancellation of room and/or board reservation.

REGISTRATION AND GRADUATION REQUIREMENTS
Refer to the Academic Calendar regarding registration and dates for fall and spring semesters.

Registration will not be allowed if you have any HOLDs.

Graduation: Student Financial Services Requirements. A balance due on your account will prevent you from participating in commencement if not paid in full prior to commencement exercises. Personal checks to cover PAST DUE balances must be received 10 days prior to graduation to allow time to clear the bank.

Students who still have outstanding debts will not be issued diplomas or have transcripts forwarded. For further information, see Guilford College Catalog.

The Deposit in ESCROW will be refunded approximately six weeks after graduation less any outstanding charges. This allows for residence halls to be inspected and all room damage charges and charges for keys NOT returned to be received in the Student Financial Services Office.

Please notify the Student Financial Services Office of any address changes to where the ESCROW Deposit refund should be mailed.

THE FEDERAL TAX CREDITS FOR EDUCATION

There are two potential tax credits for education, the American Opportunity Credit and the Lifetime Learning Tax Credit. Guilford College is required by the Internal Revenue Service (IRS) to issue the form 1098-T to students with transactions during the calendar year. The form 1098-T will report any eligible tuition and fees billed, and qualified scholarships and/or grants credited during the calendar year.

Form 1098-T will be mailed by Jan. 31.

If you have any questions or concerns about the amounts reported please contact the Student Financial Services Office at 336-316-2541 or sfs@guilford.edu. Remember, Guilford College cannot offer any tax advice or assistance. Please direct any tax questions to the IRS at 800-829-1040 or refer to their web page.
XI. Financial Aid

Basis of Awards

In granting or renewing financial aid, the Office of Student Financial Services takes into consideration both satisfactory academic performance and financial need, according to the terms of the particular scholarships available.

NOTE: Financial aid based on need is not automatically continued but must be applied for each year.

Application for Awards

Guilford evaluates financial need by the Free Application for Federal Student Aid (FAFSA). Completed FAFSA applications must be submitted to the Department of Education by Feb. 15.

FAFSAs may be filed online at www.fafsa.ed.gov. (Guilford’s Federal School Code is 002931.)

Applications for scholarships and other financial assistance, or requests for additional information, should be addressed to:

Guilford College
Office of Student Financial Services
5800 West Friendly Avenue
Greensboro, NC 27410
336-316-2354

SCHOLARSHIPS

Merit Scholarships

Incoming traditional students are awarded merit scholarships by the Office of Admission based on their academic performance in high school.

Aid for Quaker Students

To the extent that funds are available, Guilford follows the guidelines below for financial aid to Quaker students.

Quaker Leadership Scholarship Program

In an effort to recognize leadership potential among young Friends and to cultivate that potential, Guilford offers an average of eight to 10 Quaker Leadership Scholarships to each entering first-year class. Scholars are selected on the basis of interest in the Religious Society of Friends, leadership and academic potential.

Students selected as Quaker Leadership Scholars receive financial awards renewable for four years. Selected QLSP recipients may apply for the “Sojourners” program after their first year. Sojourners undergo a more intense series of self-examinations and program requirements. Quaker Leadership Scholars must participate in a variety of program activities that include mentoring, community service, internships, Quaker studies courses and involvement in campus groups. The program is coordinated through the Campus Ministry Office and Friends Center.

Other Aid for Quaker Students

Guilford matches scholarship funds provided by a student’s Meeting House up to a maximum of $500.
**AID TO NORTH CAROLINA RESIDENTS**

To qualify for North Carolina state grants, a student must have established legal residence (domicile) in North Carolina and maintained that legal residence for at least 12 months immediately prior to the beginning of the semester. Grants are not available for students who have earned a bachelor’s degree or have qualified for such a degree.

**North Carolina Need Based Scholarship (NCNBS)**

The State of North Carolina provides scholarship assistance to North Carolina students with demonstrated need. The NCNBS is awarded to students by the North Carolina Student Education Assistance Authority. The amount of each grant is determined by a legislature-approved schedule.

**FEDERAL GRANTS AND LOANS**

Guilford administers the Federal Pell Grant Program. The amount of each grant is determined by a congressionally approved schedule. Application for a Pell Grant is made via the Free Application for Federal Student Aid.

Federal Supplemental Educational Opportunity Grants (FSEOG) are available for students from low-income families with exceptional financial need who require these grants to attend college.

The Federal Perkins Loan Program offers loans to be repaid within 10 years. Payments begin nine months after the student leaves school. Deferments may be granted with no interest to be charged for up to three years for a variety of postgraduate study and working experiences.

Federal Stafford Student Loans. Guilford also participates in the William D. Ford Federal Direct Loan Program. A completed Free Application for Federal Student Aid (FAFSA) serves as the official application for a Federal Direct Student Loan. Stafford loans are federally funded and insured. If a loan is awarded, it will be included on the Financial Aid Award. Students will complete their Promissory Note and Entrance Counseling. Funds will be transferred electronically to the student’s tuition account. In instances where students are due a refund, a College check will be issued.

**WORK OPPORTUNITIES**

Guilford operates a Student Employment Services office to assist students who need to work while in school. Placements are made in a variety of jobs, both on and off campus. The College also administers a federally funded work-study program as well as an institutionally funded work program for which students may qualify on the basis of need.

**SATISFACTORY ACADEMIC PROGRESS POLICY FOR FINANCIAL AID RECIPIENTS**

Guilford seeks to provide a high quality educational experience for all who choose to benefit from this opportunity. Guilford is committed to extending all possible resources in pursuit of this goal. However, students have responsibilities in regard to their educational pursuits. These responsibilities include, but are not limited to, the completion of course work in a reasonable time and with a quality of performance that meets accepted grade point standards. These benchmarks are described in detail below.

In compliance with appropriate federal regulations, Guilford adheres to policies stated herein for determination of satisfactory academic progress compliance relative to eligibility for financial aid. This includes federal, state and institutional funds. Certain academic...
awards and some endowed scholarships may require higher academic performance than this Satisfactory Academic Progress (SAP) policy. Students must be maintaining Satisfactory Academic Progress before financial assistance can be awarded.

SATISFACTORY ACADEMIC PROGRESS POLICY DEFINED
A Guilford student is maintaining Satisfactory Academic Progress towards the completion of a degree if he/she is meeting standards according to the following measurements:

1) QUALITATIVE MEASUREMENT OF ACADEMIC PROGRESS
GPA of 2.0 or greater after two or more terms of enrollment. GPA of greater than 1.0 after first term of enrollment.

2) QUANTITATIVE MEASUREMENT OF ACADEMIC PROGRESS
A. Successful Completion of 66 Percent of Hours Attempted for Academic Credit
   In order to maintain Satisfactory Academic Progress, a student must successfully complete with a grade D- or better at least 66 percent of all hours attempted for credit. At the end of each term all enrolled students' credentials will be reviewed for compliance with this requirement. Any class enrolled in for which the student does not receive a 100 percent refund when withdrawing will be considered “attempted hours” for purposes of this policy. Any student who does not pass at least 66 percent of these attempted hours will be placed on SAP warning status. These students will be allowed to continue to receive financial assistance during the next term of enrollment. Students failing to meet the 66 percent threshold during this warning term will not receive financial assistance in the subsequent term. Upon reaching a cumulative mark of hours passed equal to or greater than 66 percent, students will be removed from SAP warning status. A student that fails to reach a cumulative mark for hours passed of 66 percent, by the end of this warning semester, will be ineligible for aid in the subsequent semester.

B. Maximum Time-Frame for Degree Completion
   Students are expected to enroll and satisfactorily complete the required number of credit hours for completion of their chosen degree. Federal regulations limit the maximum time frame for receipt of financial assistance to no more than 150 percent of the length of the academic program. Students are allowed to “attempt” a total number of credit hours not to exceed 150 percent of the total credit hours required for completion of their program. (At Guilford this regulation limits eligibility to 190 attempted hours. If a student exceeds this regulatory limitation, financial assistance will be discontinued.) Maximum allowable credit hours attempted includes all terms of enrollment at Guilford:
   • Semesters during which students are not maintaining Satisfactory Academic Progress
   • Semesters during which students are enrolled for less than half-time
   • Semesters during which students do not receive financial assistance
   
   NOTE: All credit hours for which students enroll for credit during any term of enrollment are included as “attempted hours,” whether or not the student successfully completes the course or officially withdraws. (Exception: Courses which a student drops and receives a 100 percent refund for are not included in “attempted hours”).
   
   Satisfactory Academic Progress will be evaluated each semester for determination of eligibility for assistance for the subsequent semester.
REINSTATEMENT OF FINANCIAL AID ELIGIBILITY

Should a student have his or her financial aid eligibility revoked due to this policy, termination will continue until the student completes one full-time semester or the equivalent, without benefit of financial assistance, to reach the required performance threshold. Once satisfactory progress is achieved, eligibility may be re-instated for the next term. A student should request reconsideration of aid when he/she has met the satisfactory academic progress definition. Re-instatement of aid will depend on the type of funds requested and the availability of funds.

GENERAL INFORMATION

Transfer students: Transfer credits from other institutions are used in determining Satisfactory Academic Progress.

Incomplete courses: Credits of incomplete courses are counted in the number of attempted hours and GPA calculations.

Course withdrawals: W’s are not considered in computing grade-point averages. They are counted in attempted hours.

Withdrawal from the College: When a student withdraws from Guilford with grades of W in all courses, these courses will be counted in the number of attempted hours.

Audited courses: Because students do not receive credit for audited courses, these courses are not counted as hours attempted or completed. (Financial aid is not awarded for classes taken on an audit basis.)

Grades: In evaluating coursework for Satisfactory Academic Progress compliance, all coursework attempted for academic credit for which tuition charges are assessed will be counted in the number of attempted hours to determine the pass-rate percentage. All grades will be included in measuring the pass-rate, including W, WP, WF, F and XF.

Re-admitted students: Students who return to Guilford after an absence of one semester or more will have their Satisfactory Academic Progress status continued.

Enactment of policy: This updated Satisfactory Academic Progress policy became effective with the 2010-11 academic year. The policy will be reviewed periodically to determine its effectiveness and compliance with federal regulations.

APPEALS OF FINANCIAL AID TERMINATION DUE TO SAP NON-COMPLIANCE

To appeal financial aid termination a student must be able to demonstrate unusual circumstances affecting his/her academic performance. A student must appeal, in writing, to the Assistant Director of Student Financial Services. This written appeal must include the reason(s) why the student did not make Satisfactory Academic Progress, a plan of action that states the steps the student will take to meet the minimum guidelines governing SAP and any pertinent documentation pertinent to the appeal. This written appeal should be received in the Office of Student Financial Services within 30 days of the date of the notification email the student receives informing them of the termination of eligibility.

The appeal will be reviewed within three to five business days of receipt and the student will be notified, via email, of the decision.

Academic Probation. A Guilford student will be on academic probation if the cumulative grade-point average is below the level required for graduation: 2.00. Students placed on academic probation are not allowed any unexcused absences from classes. Their eligibility to continue at Guilford is contingent upon earning at least a C (2.00) average
during each term of academic probation. Earning a C average during a given term may not remove a student from academic probation, but it will assure eligibility to continue at Guilford. Failure to meet the conditions of academic probation will result in suspension or dismissal. Academic probation is not considered a punitive measure, but rather an indication that the student needs to make greater effort. Students on academic probation are advised to seek special counseling from their academic advisor, staff of the Learning Commons or from the campus life staff to help surmount difficulties that might lead to suspension or dismissal.

**Academic Suspension or Dismissal.** If a student fails to attain a term average of C while on academic probation, the student will either be suspended for an academic year or dismissed for academic deficiencies. After any semester, if a student’s term and cumulative grade-point averages are both a 1.00 or less, the student will be dismissed from the College without a probationary period. Suspended students may apply for readmission through the assistant dean for student academic affairs after their suspension period. The assistant dean for student academic affairs has the authority to readmit students whom the College has previously dismissed. If they are readmitted, students who have been suspended or dismissed return on academic probation. These students may become eligible again for financial aid; the returning student must file an appeal with the assistant director of student financial services. Similarly, readmitted students are permitted to resume athletic participation if all eligibility standards are met.

**Disciplinary Suspension or Dismissal.** The Student Handbook outlines rules and regulations for disciplinary suspension or dismissal.
XII. Academic Regulations

Academic regulations are established by the faculty to ensure the academic integrity of Guilford. It is the student’s responsibility to be familiar with all academic regulations of the College.

Academic regulations are subject to change. Students may choose to graduate according to the academic regulations stated in the catalog that is active their first semester of enrollment or in any later catalog that becomes active before they graduate. However, students are not permitted to satisfy requirements by mixing catalogs. Students must choose one catalog and meet all graduation requirements from that catalog. It is the responsibility of students, aided by their advisors, to familiarize themselves with academic regulations and to plan courses of study that meet all departmental and College graduation requirements.

The Academic Honor Code

To foster individual responsibility, Guilford subscribes to the principles of an honor system and encourages a mature understanding and acceptance of the code.

Honor Code. The statement, “I have been honest and have not observed any dishonesty,” gives testament to the honor system and should be pledged in writing on all academic work. Compliance is assumed even if the statement does not appear on College work. Faculty members may insist that the statement be written on all academic work and may refuse to extend credit for work on which it does not appear.

Student Responsibility to the Honor System. In addition to adherence to the honor code, students are expected to confront other students who have apparently violated the code and to report such violations. A failure to confront or report such violation may be considered a violation of the honor code.

Violation of the Academic Honor Code. Academic honesty and integrity represent central elements of the liberal arts education at Guilford. As scholars pursuing knowledge and truth, informed by the Quaker testimony on integrity, we seek a community where each member acts responsibly and honorably in all activities and at all times. Acts of dishonesty represent a serious offense at Guilford. The academic honor code is violated when anyone claims credit, implicitly or explicitly, for work and ideas that are not her or his own. Violations of the academic honor code include, but are not limited to, the list below:

Plagiarism. Guilford defines plagiarism broadly as presenting the interpretations, wording, images or original conceptions of others as one’s own without appropriate acknowledgement. Individual faculty members determine what constitutes “appropriate acknowledgement” within the context of their courses, either by specifically stating requirements or by acknowledging the standard practice within a given discipline. The charge of plagiarism applies to any and all academic work whether done inside or outside the classroom and whether submitted as a rough draft or a final product.

Unauthorized Collaboration. Students may not combine efforts on any and all academic work, done inside or outside the classroom, submitted to an instructor as a rough draft or a final product, unless specifically permitted by the instructor. Although instructors should clearly define the limits of collaboration allowed, the absence of any instructions indicates
that collaboration is not permitted. When uncertain, the student should seek clarification from the instructor.

In cases of unauthorized collaboration, any student giving aid is as responsible as the recipient, unless the former is unaware that she/he has provided aid. A student who seeks unauthorized aid is responsible for participating in unauthorized collaboration whether the aid was given or received. The charge of unauthorized collaboration applies to any and all academic work whether done inside or outside of the classroom and whether submitted as a rough draft or a final product.

Unauthorized Use of Materials. It is the student’s responsibility to ascertain what materials may be used in any and all academic work whether done inside or outside of the classroom and whether submitted as a rough draft or a final product. The submission for credit of the same written work in more than one course is not permitted without the prior permission of both instructors.

CLASS STANDING: CLASSIFICATIONS OF STUDENTS

Class standing for students admitted to a baccalaureate degree program is determined at the beginning of each semester. A first-year student has completed fewer than 24 credits toward a degree; a sophomore, at least 24 credits; a junior, at least 56; and a senior, at least 88.

An unclassified student is one who already holds a baccalaureate degree. Such students may or may not be seeking a second degree.

A visiting student is not seeking a Guilford degree, but is earning college credit to be applied to a degree program at another college or university. Students visiting in spring or fall semesters must go through the admission process, but students visiting only for summer are not required to do so. Summer visiting students need only complete the summer school registration form and submit it to the registrar’s office by the last day to add courses for that session.

An auditor is a student who attends class, listens to lectures and may participate in class discussion without receiving credit. These students do not go through the admission process. They are not required to fulfill course assignments.

Auditors may enroll in any college course for which they have the stated prerequisites, with permission of the instructor and payment of a course fee where applicable. However, students may not audit classes with preparatory content other than class discussion, for example studio art courses, physical education activities, private music lessons, choir, theater production, theater practicums, laboratories, independent studies and internships.

Auditors may not register before the first day of class and the deadline to register is the last day to add a class. Should a course be filled beyond capacity, students enrolled for credit will have priority over auditors, and the instructor may request that the student withdraw from the course or the registrar will administratively withdraw the student from the course. A full tuition refund is made in such cases.

CLASS ATTENDANCE

Individual faculty members and academic departments define individual requirements for their particular courses and publish these requirements in their syllabi. Failure to meet such requirements may result in lowered grades or an involuntary withdrawal from a course and, if the last day to withdraw with a W has passed, a failing grade.

The College also grants the assistant dean for student academic affairs the right, following
a consultation with the faculty member of record, to withdraw a student administratively from any course in which he or she has reached the number of absences listed below. In no way should students interpret these limits as acceptable or automatically allowable. Instead, they represent the point at which College policy authorizes administrative withdrawal; a student with this number of absences will have missed 20 percent of a given course, and fairness to other students dictates the administrative withdrawal.

- Courses meeting once per week, full semester: three absences
- Courses meeting twice per week, full semester: six absences
- Courses meeting three times per week, full semester: nine absences
- Courses meeting four or five times per week, full semester: 12 absences
- Courses meeting once per week, Fast Track and half of semester: two absences
- Courses meeting twice per week, Fast Track and half of semester: four absences
- Summer school courses, five-week session: four absences
- Summer school courses, 10-week session: four absences

Students on academic probation are allowed no unexcused absences unless approved by the assistant dean for student academic affairs. If administrative withdrawal occurs by the published last day to withdraw with a W grade, the student is awarded a grade of W. When withdrawal occurs later, the student is awarded either a WP (withdrawn passing) or WF (withdrawn failing) grade. A WP has no effect on the cumulative grade-point average, but a WF is calculated into the cumulative grade-point average as a zero. No tuition refunds will be granted for administrative withdrawals other than those allowable under published policies.

NOTE: Laboratory attendance is considered an essential part of science and language courses. Also, the success of classes using discussion techniques and seminars emphasizing student participation depends on regular attendance by the participants.

**Registration Cancellation Policy.** A student who has registered for one or more classes but has not attended any classes may request a complete registration cancellation through the last day to drop a course without a grade. A registration cancellation will delete the student’s entire schedule and no tuition is owed. The College does not allow registration cancellations after the last day to drop a course without a grade; after this date dropping all classes is considered a withdrawal (see “Withdrawal from the College” below).

To request a registration cancellation, traditional-age students should contact the Office for Campus Life. CCE students should contact the Center for Continuing Education.

CCE students are not charged for registration cancellations completed before the first day of the official start of term; however, there is a $200 late fee for registration cancellations received the first day of the official start of term or later.

**CANCELLATION OF CLASSES**

Classes are scheduled to assist students in the learning process, and it is the policy of the College to hold all classes as scheduled. Classes are normally not cancelled in times of inclement weather. However, in case of severe weather hazards, the president and the vice president for academic affairs and academic dean will determine if scheduled classes will be held. Cancellations will be announced via campus voice mail, local radio and television stations, 316-CLOS and on the College Web site. Instructors may make arrangements for makeup classes if they choose to do so.

When classes are not cancelled and commuting students miss classes because of
hazardous driving conditions, their absences will be excused and special arrangements will be made to enable each student to make up missed work.

NORMAL SEMESTER LOAD

Traditional-age students working toward a degree normally enroll in 16 credits (four courses) each semester. Enrollment in 12 or more credits is considered a full-time load. When calculating full-time status in the summer, the three sessions of summer school are considered one term rather than calculating each session separately.

Guilford assigns course credit hours on the combination of student effort outside, as well as inside, the classroom. For example, in four-credit courses students are expected to spend 12 hours per week of consistent effort outside the classroom. This expectation is based on the faculty-approved standard that students are awarded one credit for every three hours per week that the typical student is expected to spend on course work. This policy stems from the College’s Quaker heritage that encourages students to be active partners with faculty in the learning process. One of Guilford’s five academic principles, “student-centered learning,” means that Guilford expects faculty members to “serve less as lecturers and more as tutors, resource persons and critics.”

As a result, the College considers student interaction with faculty, other students, community members and organizations outside the classroom as vital to the learning experience. In addition to standard reading, research projects and papers, Guilford faculty members who teach courses that yield four credit hours and meet the standard 2.5 hours per week in classroom time are expected to incorporate learning activities outside of the classroom which may include, but are not limited to:

- Conferences and workshops
- Experiential and service learning
- Fieldwork and field trips
- Foreign language conversation tables
- Group work and cooperative work
- Journaling
- Online discussion groups
- Labs
- Lectures, performances and film showings
- Research projects

REGISTRATION

Students new to Guilford must apply and be admitted to the College before they are allowed to register for classes, with the exception of auditors and visiting summer school students. Students who have attended Guilford but withdraw or skip one or more semesters, not including summer, must be readmitted before they are allowed to register.

All degree-seeking students are required to satisfy the Foundations requirements of the general education program in a timely manner after beginning their studies at Guilford. Specifically, students must satisfy all Foundations requirements within the first 40 credits they complete at Guilford. Students who have not done so are expected to register for at least one course that satisfies the remaining Foundations requirement(s) in their next immediate fall or spring semester of enrollment.
COURSE REGISTRATION RESTRICTIONS:

First-Year Traditional-age Students:
Students enrolled in FYE may not enroll in any of the following:

- Fast Track classes
- Courses beginning later than 6 p.m. other than courses such as astronomy, learning strategies, music and theatre
- Consortium courses
- Independent studies
- Internships

Early College Students
Early College students may not enroll in any of the following, unless approved by their advisor:

- Fast Track classes
- Courses beginning later than 6 p.m. other than courses such as astronomy, learning strategies, music and theatre
- Consortium courses
- Independent studies
- Internships

Fast Track Courses.
To enroll in a Fast Track course students must:

- have completed a minimum of 24 credit hours of approved College work;
- have fulfilled the English 102 requirement; and
- be in good academic standing.

Saturday Classes.
These are designed exclusively for Center for Continuing Education students, enabling them to attend on Saturdays. There are no exceptions to the policy.

NOTE: Not all major programs offer Saturday classes.

CCE-Only Classes.
GST 101 Adult Transitions, GST 103 Gateways to Success, SPAN 111 Communicating in Spanish for Business I and SPAN 112 Communicating in Spanish for Business II are restricted to CCE students only. Some special topic classes may also be restricted to CCE students only.

During fall and spring semesters, many evening courses are limited to CCE students only. This is done primarily to ensure class space for CCE students in evening classes.

Changes in Registration.
Once registered, the student is academically and financially responsible for all listed courses and may change registration using BannerWeb until the first day of classes or by delivering to the Registrar’s Office an appropriately completed and signed drop-add slip. Students can drop or add courses with just an advisor’s signature until the last day to add. However, adding courses that are full or closed requires the instructor’s signature. Refer to the academic calendar for specific registration-related dates such as the last day for students to add courses, drop courses without a grade, and drop courses with a W grade.

Requests for registration changes are dated according to when the request is received by the Registrar’s Office or completed in BannerWeb. Students are financially responsible for courses dropped after the last day to drop a course without a grade.

Students should check BannerWeb for an updated schedule of classes in which they
are registered and report any discrepancies to the Registrar’s Office within one week of submitting the drop/add form. Corrections will not be made after one week.

All registration or transcript-related petitions should be directed to the registrar, whose decision is final. A denial of a registration or transcript-related petition may only be appealed to the assistant dean for student academic affairs on procedural grounds.

**Withdrawal from the College.** Attending students will receive W grades when they withdraw between the first day of class and the last day to withdraw with a W grade. After the last day to withdraw with a W grade, students who either withdraw voluntarily or are administratively withdrawn from the College will be awarded grades of WP (withdrawal with a passing grade, when a student has earned a D- or higher) or WF (withdrawal with a failing grade). Students who receive a medical withdrawal from the College will be granted grades of W for all courses in progress at the date of withdrawal. (For further information on withdrawal from the College see section entitled Separation From The College below).

**OVERLOADS**

Students who wish to take more than 18 credits fall or spring semester, or more than 16 credits in summer school; 12 credits during the ten-weeks and 8 credits during each five weeks) must submit a petition to the registrar requesting permission to overload. The petition must include the approval signature of the student’s advisor. Students who have completed fewer than 24 credits at Guilford, have a cumulative GPA less than 2.5 or wish to take more than 20 credits must also receive the permission of the assistant dean for student academic affairs.

Traditional-age students are assessed additional charges for all credits over 18 per semester, with the exception of students taking music courses that require an extra music fee and students taking FYE 102. Students who have made the full-time Dean’s List for the previous three semesters (not including summer) and have approval from their advisor may petition to register for 20 credits and not be charged for the two-credit overload.

**THE GRADING SYSTEM**

A student’s grades are determined by daily preparation, participation in class discussion, the quality of written and laboratory work, and the results of quizzes and examinations.

The grade of A represents exceptional achievement and is awarded for original insight, sound reasoning and the ability to evaluate the scope of the materials studied. The grade of B is granted for superior work and reflects interpretive skill on the part of the student and a clear understanding of the meaning and interrelatedness of the course materials. A grade of C is given for average work and indicates thorough familiarity with the basic facts and concepts considered in the course, even though underlying principles may not have been grasped. Although D is labeled a passing grade, it reflects a lack of fundamental knowledge of the subject. The grade of F is assigned for failing work. There is no one numerical scale associated with these letter grades. Faculty assign grades based on requirements in their course syllabus.

Plus (+) and minus (-) suffixes to letter grades may be assigned and will be shown on the student’s permanent transcript. Plus (+) and minus (-) suffixes may not be used when assigning the grade of F, and the plus (+) suffix may not be used when assigning the grade of A.

Only grades of C or better may be counted toward the major.

The possible grades for credit/no-credit graded classes are CR and NC, respectively. A grade of CR signifies that the student achieved at the C- level or better and is given only to
students that are taking a class for credit/no-credit. A grade of NC signifies that the student achieved below the C- level or better and is given only to students that are taking a class for credit/no credit.

A WN (Withdrawn, Never Attended) grade is given by an instructor when a student registered for a class but failed to attend a single class. For full-term courses: If by the deadline for reporting interim grades, a student has yet to attend one class, the instructor will award this student, at this time, a final grade of WN. For half semester and summer courses: If, by the deadline for reporting final grades for this course, a student has never attended a class, the instructor will award this student a final grade of WN. A WN grade does not affect the student’s grade-point average but, because it represents a withdrawal from the course, may adversely affect the student’s subsequent financial aid eligibility. No tuition refunds will be granted for such administrative withdrawals other than those allowable under policies published in the College catalog.

Provisional grades are preceded by an X (i.e., XB, XC, XD, and XF). A provisional grade is a temporary grade which an instructor may choose to give whenever, through unavoidable circumstances, the student is unable to complete the work in a course by the end of the semester. The student must receive instructor’s approval to qualify for the extension. Unavoidable circumstances are defined as verifiable cases of extended personal illness, death or serious illness in the family, significant accident or other grave circumstances beyond a student’s control. A student must request approval for a provisional grade from her/his instructor as soon as possible and, for unavoidable circumstances that occur before the Friday before the last week of classes, no later than this date. In addition, beginning students (those with fewer than 32 Guilford credits) and students on academic probation must also obtain the approval of the assistant dean for student academic affairs. This approval must be obtained following instructor approval but before the instructor submits the grade to the Registrar’s Office. To facilitate this process, the instructor submits an electronic Provisional Grade Request Form.

Instructors must calculate provisional grades under the assumption that the student will complete no additional work (i.e., by awarding zeros on all outstanding assignments). Provisional grades may only be replaced with an equal or better mark upon the student’s completion of the remaining work. The provisional grade becomes the final grade if the course work has not been finished by the deadline set by the instructor. Instructors may not set a deadline that is later than interim of the next regular semester without first obtaining approval from the assistant dean for student academic affairs. No student with an outstanding provisional grade can graduate. Graduating seniors who require a provisional grade must therefore notify the registrar’s office of their revised expected graduation date.

Provisional grades may only consist of one of the following: XB, XC, XD and XF. Plus (+) and minus (-) suffixes may not be used. Instructors should assign an “I” (Incomplete) grade when a credit/no-credit graded course is incomplete. Provisional grades affect a student’s grade point average as if the “X” was not there.

A WP (Withdrawn Passing) has no effect on the cumulative grade-point average, but a WF (Withdrawn Failing) is figured into the cumulative grade-point average as a zero.

A grade of WP, which does not affect a student’s grade point average, shall be used only to indicate withdrawal while passing when a student who is passing the course (D- or above) (a) withdraws completely from the College or (b) is administratively withdrawn for poor attendance (see Attendance Policy). A grade of WF, which affects a student’s grade-point average as if it were an F, calculated into the grade-point average as a zero, may be used to indicate withdrawal while failing when a student who is passing the course (a)
voluntarily withdraws or is administratively withdrawn completely from the College, (b) is administratively withdrawn for poor attendance (see Attendance Policy) or (c) voluntarily withdraws or is administratively withdrawn from a class after the published last day to withdraw with a W grade and before the end of classes for that semester. The grade of WN, which does not affect a student’s grade-point average, is given when a student registers for a course but neither attends nor withdraws (see Attendance Policy).

Occasionally, RD (Report Delayed) is recorded to indicate that the Registrar’s Office did not receive a grade from the instructor. The grade for auditing is AU (Audit).

Once academic standing has been processed for the semester, final grades cannot be changed unless a faculty member discovers a computation or clerical error and the assistant dean for student academic affairs grants approval for such a change or an official grade appeal results in an approved change (See Grade Appeal Procedure section).

**Grades. Interim and final** grades are viewed online using BannerWeb. At the end of each semester, including the end of the summer term, final grades are posted to the permanent transcript. Because transcripts are sealed and may not be changed for any reason after a student graduates, graduating seniors have only until 5 p.m. two days before the graduation date to appeal final regular, intensive, second-half semester and Saturday course grades and have them corrected.

Permanent transcripts are unabridged records of all academic work attempted by students at Guilford. Confidentiality of student records is maintained according to guidelines published by the Office for Campus Life.

**Numerical values assigned to grades:**

<table>
<thead>
<tr>
<th>Grade</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.0</td>
</tr>
<tr>
<td>A-</td>
<td>3.7</td>
</tr>
<tr>
<td>A+</td>
<td>4.3</td>
</tr>
<tr>
<td>B</td>
<td>3.0</td>
</tr>
<tr>
<td>B-</td>
<td>2.7</td>
</tr>
<tr>
<td>C</td>
<td>2.0</td>
</tr>
<tr>

<td>1.7</td>
</tr>
<tr>
<td>D</td>
<td>1.0</td>
</tr>
<tr>
<td>D-</td>
<td>0.7</td>
</tr>
<tr>
<td>F</td>
<td>0.0</td>
</tr>
</tbody>
</table>

**Grade Points (Quality Points).** One grade point is assigned for each credit of D work, two for C, three for B, and four for A; zero points are assigned for grades of F, XF, and WF. Plus (+) and minus (-) suffixes add and subtract .3, respectively, to the numerical value of the grade affected. A student must have a cumulative C (2.00) average to graduate.

Cumulative grade-point averages are determined by dividing the accumulated grade points by the total credits attempted, minus credits attempted in courses marked AU, W, WN, WP, CR (Credit), NC (No Credit) or RD and transfer credits. Each time a course is taken or repeated, the attempted credits and grade points are entered into the statistics used to compute the grade-point average.

Grade-point averages are computed at the end of each term and include all work done at Guilford plus work completed during fall and spring semesters at consortium institutions. Summer work completed at Guilford is included in the computation of a student’s grade-point average; summer work taken at other institutions is not included.

**Grade Replacement Policy.** A student may repeat a course for grade replacement. When a course is repeated, it counts only once for credit toward the degree. Each grade appears on the academic transcript, but only the most recent grade will be considered in the calculation of the cumulative grade point average. The following restrictions apply to grade replacement:

- The original and repeated course must be taken at Guilford College or on Guilford faculty-led study abroad programs and the repeated course must have the same number and title as the course originally taken.
- Courses in which a violation of the Academic Honor Code has taken place may not be
The following courses may not be repeated for grade replacement:
- Courses initially taken or repeated at consortium institutions during fall or spring semesters.
- Courses taken after the degree has been granted.
- FYE 101, FYE 102 and GST 101.
- Courses with the same number and title that may be repeated for credit, such as practicum and physical education courses.

Students and advisors should be aware of the potential effects of repeating courses on financial aid and veteran’s benefits.

**Credit/No Credit Option.** To encourage students to broaden their course selections after the first year, the College offers students the opportunity to elect one course each semester (a maximum of eight credits a calendar year) on a credit/no credit basis.

Students electing credit/no credit grading by the last day to add classes who meet all the normal requirements of the course at the C- level or above are awarded credit for the course with a grade of CR (Credit). Unsatisfactory progress is indicated with a mark of NC (No Credit). Neither grade affects the student’s grade-point average.

To elect credit/no credit grading for a regularly graded course, the student secures the consent of the instructor by obtaining the instructor’s signature on a completed drop/add form, then submitting the form to the Registrar’s Office by the last day to add the course. Students who decide to adopt credit/no credit grading may not reverse the option.

The credit/no credit options may not be used in courses required in the student’s major, nor in any other required course (including the minor and general education requirements), nor by students enrolled in FYE. Veteran’s benefits are not available for courses taken on a credit/no credit basis.

A few Guilford courses, as indicated in the catalog, are graded exclusively credit/no credit.

**Good Academic Standing.** Students with a cumulative grade point average of 2.00 or better are in good academic standing at Guilford. A student new to Guilford is considered to be in good academic standing.

**Grade Appeal Procedure.** Grade appeals may not be made simply because a student wants a better grade or because of a disagreement over a subjective evaluation of submitted work. In addition, once posted, grades may not be lowered.

**Grounds for grade appeals are:**
- Clerical error by the instructor (e.g., misplacing an assignment that had been submitted properly by the student, mistyping a grade in a spreadsheet, or “clicking” on the wrong grade in BannerWeb); and
- Computational error by the instructor (e.g., combining individual grades incorrectly); and
- Deviation from the grading scheme provided in the syllabus so significant as to affect a student’s grade (e.g., assigning a different weight to an assignment than stated in the syllabus so as to change the final grade).

The following procedures are followed by the Office of the Academic Dean in cases of student appeals of final course grades. In all cases, the appeal of a final grade must first be
made to the instructor within 10 business days after the official due date for final grades at the close of any given grading period. In the event that the instructor is unavailable, the student must contact the department chair or assistant dean for student academic affairs within the 10-business-day period.

NOTE: Because transcripts are sealed and may not be changed for any reason after a student graduates, graduating seniors have only until 5 p.m. two days before the graduation date to appeal final regular, intensive, second-half semester and Saturday course grades and have them corrected.

1. Either the student or the professor may contact the Conflict Resolution Resource Center to request assistance in their communication, or each may invite one individual from within the Guilford community to attend the discussion. If the student and/or the professor is uncomfortable with meeting face-to-face, even with the assistance of others, it is possible to have this discussion in writing.

2. If the student remains unsatisfied, she or he must then discuss the situation with the chairperson of the academic department involved, unless the faculty member is the chairperson. The student shall bring all relevant materials and information to this meeting, including papers, tests, syllabi, etc. The student must contact the department chair within five business days of having finished discussing the matter with the faculty member.

3. If still unresolved, the case may be appealed to the Office of the Academic Dean, where the assistant dean for student academic affairs will continue to try to achieve an appropriate resolution. The student must contact the assistant dean for student academic affairs within five business days of having discussed the matter with the department chair and present to the assistant dean for student academic affairs a complete, written account of the facts and an argument that explains the justification for a grade change.

4. If the student wishes to appeal the decision made by the assistant dean for student academic affairs, he or she must submit this appeal in writing to the academic dean within five business days of the date of the assistant dean for student academic affairs’ decision. This appeal must include a discussion of the grounds upon which the assistant dean for student academic affairs’ decision should be reviewed; such grounds could include the discovery of additional information or a procedural irregularity so substantial as to have compromised the student’s right to a fair hearing. The academic dean will review the matter and make a determination whether or not the appeal warrants calling together a special hearing board. If the academic dean decides there are no grounds on which to proceed further with the appeal, the decision of the assistant dean for student academic affairs will be considered final. If the academic dean decides otherwise, a special hearing board will be constituted.

5. At the discretion of the academic dean, a special hearing board will be instituted, composed of Guilford faculty and professional staff. The student and the instructor will each be asked to submit a list of requested faculty the academic dean might appoint to such a committee. Utilizing each list, the academic dean will appoint a group, drawing one individual from the student list, one from that of the faculty member and nominating a third. Both the student and the faculty member will have the opportunity to reject up to three proposed members of the projected hearing board, until a group of three individuals satisfactory to the academic dean, the faculty member and the student have been chosen and have agreed to serve.

6. The hearing board may meet with the student, the faculty member and anyone else appropriate and examine all relevant documentation. It will then make a final recommendation to the academic dean.
7. After receiving the recommendation of the hearing board, the academic dean will make the final decision regarding the student’s grade.

TRANSFER CREDITS

Students are required to provide official transcripts from all secondary and post-secondary educational institutions that they have attended. All foreign transcripts must be evaluated by World Education Services, Inc. Falsification of information or failure to list a secondary or post-secondary school on a student’s application for admission will result in judicial charges. No transfer credits will be awarded for courses taken before a student enrolls at Guilford that are not listed on a student’s application to Guilford.

A student must complete a minimum of 32 credits at Guilford. Half the credits for a major and a minor must be completed at Guilford. Credit for courses completed with a grade of C- or above and that are appropriate to Guilford’s liberal arts curriculum may be transferred from regionally accredited junior colleges, community colleges, senior colleges or universities. No maximum is placed on the number of credits transferred from regionally accredited four-year institutions. A maximum of 64 credits total may be transferred from regionally accredited two-year institutions. After a student reaches junior classification standing, transfer credits from two-year institutions are limited to 100- and 200 level courses.

Guilford may transfer up to 32 credits from non-regionally accredited educational institutions if the coursework is deemed similar in content, level and scope to courses offered at Guilford. Courses to be applied to major, minor and general education requirements at Guilford must be approved by the appropriate chairperson. The final evaluation of transfer of credits is approved by the registrar. Students transferring from educational institutions on a three-credit per course or quarter hour system, may receive 16 credits for each 15 semester hours applied to Guilford’s degree. All transferable credits will be listed on a student’s Guilford transcript.

Guilford does not award academic credit for courses completed at non-accredited educational institutions, for work taken on a non-credit basis, for job-related experience or for non-academic experiential learning. Guilford does not allow students to be enrolled at Guilford and another institution at the same time. Unless prior approval has been granted, transfer credit will not be awarded for dual enrollment.

Traditional-age transfer students entering Guilford with 12 or more semester credits are waived from taking FYE 101 and 102.

Students who enter with appropriate credit for a second semester of first-year composition may take either a history course or a designated Historical Perspectives course to complete the Historical Perspectives requirement.

All traditional-aged students whose native language is not English are screened by either SAT or ACT scores or by an English placement essay, and their placement in English 101 or 102 is determined by scores on these tests.

A foreign language proficiency test is available to transfer students who have not satisfied the foreign language requirement with at least 2.7 transfer credits in a language from a non-English speaking country. Through scores on this test, students may not be required to participate in further language study.

ACADEMIC PROBATION

A Guilford student is placed on academic probation if the student’s cumulative grade-point average is below the level required for graduation: 2.00.
Students placed on academic probation are not allowed any unexcused absences from classes. A student’s eligibility to continue at Guilford is contingent upon the student earning at least a C (2.00) average during each term that the student is on academic probation. Earning a C average during a given term may not remove a student from academic probation, but it will assure eligibility to continue at Guilford. Failure to meet these conditions of academic probation will result in academic suspension or academic dismissal from the College.

Students must have a cumulative grade-point average of 2.00 or greater to graduate from Guilford. Students cannot graduate from the College while on academic probation.

Academic probation is not considered a punitive measure, but rather an indication that the student needs to find a better strategy for academic success. Students on academic probation are encouraged to consult with her/his academic advisor, the staff of the Learning Commons or the campus life staff to help surmount difficulties that might lead to academic suspension or academic dismissal.

SEPARATION FROM THE COLLEGE

Involuntary Withdrawal

Academic Suspension or Dismissal. If, while on academic probation, a student records a semester grade-point average between 1.75 and 1.99, inclusively, the student will be academically suspended. Suspensions from the College are nominally for at least one calendar year. If, while on academic probation, a student records a semester grade-point average below 1.75, the student will be academically dismissed.

If a student begins a semester in good academic standing but ends the semester with a cumulative grade-point average of 1.00 or less and a semester grade-point average between 0.75 and 1.00, inclusively, the student will be academically suspended from the College without a probationary period. Suspensions from the College are nominally for at least one calendar year. If a student begins a semester in good academic standing but ends the semester with a cumulative grade-point average of 1.00 or less and a semester grade-point average less than 0.75, the student will be academically dismissed from the College without a probationary period.

To be reinstated as a student at Guilford, academically dismissed and academically suspended students must reapply and be readmitted to the College following the guidelines in the Student Handbook. Readmission, though, is not guaranteed. A student who has been academically suspended from Guilford may, however, apply to take summer courses at Guilford in an effort to gain admittance to Guilford in the following fall, without spending a full year out of school. If readmitted to Guilford for attendance in summer school, an academically suspended student would be required to work with the assistant academic dean (traditional-age students) or assistant director for student success (adult [CCE] students) to select and enroll in two approved four-credit academic courses. During the summer, students would be required to obtain the approval of the academic advising liaison (traditional-age students) or the student success and persistence coordinator (CCE students) before the student could make any changes in her/his summer course registration. A student who earns a “C” average (summer term GPA greater than or equal to 2.00) would qualify to continue her/his study at Guilford as a full-time student beginning that fall semester.

Academic suspension or dismissal from Guilford cannot be appealed.

Disciplinary Suspension or Dismissal. The Student Handbook outlines rules and regulations for disciplinary suspension or dismissal.
Voluntary Withdrawal

Regular Withdrawal. All students who have attended class but wish to withdraw from the College during a semester or at the end of a semester must complete an official withdrawal form. Withdrawal forms can be obtained through the Office for Campus Life for traditional students or at the Center for Continuing Education for adult students. If an official withdrawal form is not completed, it could result in “F” grades causing academic probation, academic suspension or academic dismissal. Attending students will receive W grades when they withdraw between the first day of class and the last day to withdraw with a W grade. Students who voluntarily withdraw after the last day to drop a course with a W will receive a W (grade), reflecting the grade at the time of withdrawal, i.e. “WP” or “WF.” All students who withdraw must complete and submit applications for readmission if they wish to re-enroll.

Medical Withdrawal. When illness, injury or psychological/psychiatric disorder occurs while a student is enrolled, a student or guardian may request a medical withdrawal from school. The dean of students must approve all medical withdrawals. Documentation of the illness, injury or psychological/psychiatric disorder from a medical professional (employed by Guilford or not) is required prior to this approval. Medical documentation supporting a request for a medical withdrawal must be submitted within 30 days of the last attended class unless medical documentation is provided that satisfactorily explains a longer time period. Students who are granted medical withdrawals receive grades of W (withdrawn) in all courses in progress at the date of the medical withdrawal. Specific conditions for re-admittance are stipulated at the time of withdrawal. These conditions may specify a minimum period of time for the withdrawal and/or may require a letter of medical clearance from a physician, psychologist or psychiatrist stating that in the professional expert’s opinion the student is now capable of handling the academic and social demands of College.

Leave of Absence. A traditional-age student in good academic and financial standing may apply for a leave of absence for one or two semesters. A leave of absence may be approved for students with financial, personal or medical concerns, students participating in non-Guilford educational experiences and students who need a break. Students considering this option need to meet with a member of the campus life staff who will provide full details and assist in working out specific arrangements related to the leave. All students who take a leave of absence must complete and submit applications for readmission when they wish to re-enroll.

Vacating Residence Halls. Students residing on campus who withdraw or take a leave of absence from the College are required to vacate residence halls within 24 hours of their effective date of withdrawal.

Readmission. All students receiving withdrawals or leaves of absence from Guilford who subsequently wish to return to Guilford as a student are required to reapply through the appropriate admission office (Center for Continuing Education, Early College or traditional-age student). Academically suspended and academically dismissed students may apply for readmission after one calendar year. Applications for Readmission are available on the Guilford website.

After reviewing a student’s application for readmission, the appropriate admission office (Early College, Center for Continuing Education, traditional-age students) may, at its discretion, refer the application to the assistant dean for student academic affairs for her/his
advice.

However, if an applicant that is applying for readmission is otherwise admissible but had been academically suspended or academically dismissed from the College or has a pending academic honor code charge, the admission office must refer the person's application to the associate academic dean for advising (AADA) for her/his approval before the person may be offered readmission. The AADA may either grant or deny such approval with or without soliciting advice from the Readmission Advisory Group.

If an applicant who is applying for readmission is otherwise admissible but had been suspended or dismissed from the College for judicial violations, has a pending judicial charge or left the College with a medical withdrawal, the relevant admission office must first refer the person's application to the dean of students before then forwarding the application to the AADA for her/his approval.

In considering an application for readmission, the AADA and the Readmission Advisory Group may use information provided by the dean of students and any other appropriate College officials. For an application following a medical withdrawal, the AADA and the Readmission Advisory Group may also consult the director of student health and/or the director of counseling services.

Readmission is not guaranteed. If readmitted following academic suspension or dismissal, a student will be required to satisfy the conditions of academic probation explained above. A student who withdrew while on academic probation returns on academic probation. A student returning from academic suspension or dismissal may become eligible again for financial aid. The returning student must file an appeal with the office of student financial services. A readmitted student is permitted to resume athletic participation if he/she meets all athletic eligibility standards.

Nonpayment of Tuition and Fees. Students must pay tuition and fees according to the schedule established by the Office of Student Financial Services. Students who do not fulfill their financial obligations to the College according to this schedule, or who fail to make satisfactory arrangements with the Office of Student Financial Services to pay according to some other mutually agreed-upon schedule, may be dismissed from the College.

STUDENT RECORDS

Various records are maintained on each student. Original documents submitted to Guilford become a permanent part of a file and cannot be returned to the student or sent to another party. Guilford adheres to the privacy of student records as required by the Family Educational Rights and Privacy Act of 1974 (FERPA).

Student records and where they are housed:

• Academic Curricular Records – Registrar’s Office
• Academic Disciplinary Records – assistant dean for student academic affairs’ office
• Admission Records – When the process for admission is completed, the Office of Admission and the Center for Continuing Education will send appropriate documents to the appropriate office for maintaining of the student’s records
• Advising Records – the student’s assigned advisor
• Alumni Records – Office of Alumni Relations
• Course Records – the student’s instructor
• Disciplinary Records – Office for Campus Life
• Financial Aid Records – Office of Student Financial Services
• Health Records – Office of Health Services
NAME CHANGES
A name change will only be made when legal documentation is provided; driver’s license and social security cards are not acceptable.

TRANSCRIPTS
The registrar will release transcripts only upon the written request of the student. The cost for each official transcript requested in advance is $10; faxed copies are $20 each. The cost for transcripts needed immediately (on demand) is $20. The registrar will not issue a student’s official transcripts when there is a hold on their Guilford account (e.g., there is an outstanding financial or judicial obligation to the College).

DEGREE CANDIDACY
Diplomas are dated at the time of degree completion (May, July or December). Commencement exercises are held in May.

One semester before expected graduation, each degree candidate must submit an application for graduation to the registrar online. The Registrar’s Office evaluates the candidate’s transcript and must approve the application, indicating that the student could complete all degree requirements at the end of the next semester. A student who fails to complete all degree requirements by the scheduled graduation date will not graduate as scheduled and must reapply for a later graduation date.

To receive a diploma or participate in commencement, a student must have satisfied all academic requirements, must have cleared all outstanding accounts with the Office of Student Financial Services and must have no judicial action pending. Diplomas will not be awarded to any student against whom unresolved judicial charges exist.

Diplomas are issued for the graduation date for which the student has applied and the student's legal name will be listed on the diploma.

Once all requirements for graduation have been completed, students are only allowed to participate in the ceremony that applies to the graduation date for which they applied.

When a degree program is discontinued by Guilford, that degree may continue to be awarded for a subsequent five year period, provided all requirements for the degree can be met. However, once the degree program has been terminated, the College is not obligated to continue offering courses necessary to complete that degree.

SECOND DEGREES
Any college graduate who desires an additional bachelor’s degree from Guilford must apply and register through the Center for Continuing Education.

To be awarded an additional degree, a student must complete, with an overall grade-point average of 2.00 or better, the following: a minimum of 32 credits beyond those used to fulfill the requirements for the first bachelor's degree, all of which must be taken in residence at Guilford; all prescribed major requirements; and all of Guilford’s general education requirements. At least half the major courses must be completed at Guilford after completion of the first degree. General education requirements may be satisfied either by courses taken at Guilford or courses transferred from a prior institution.

When a Guilford graduate is awarded a second undergraduate degree from the College, notation of the new degree and the date it was awarded will be added to the permanent transcript. The general education requirements from the Guilford graduate's first degree satisfy those for the second bachelor’s degree.

A student who has received a bachelor’s degree from an accredited institution other than
Guilford may receive a second degree from Guilford by fulfilling the conditions outlined above.
NOTE: Guilford’s required general education courses must be satisfied either by courses taken at Guilford or courses transferred from the prior institution.

WITHDRAWAL/REFUND POLICY FOR STUDENTS CALLED TO ACTIVE DUTY DURING A SEMESTER

With a copy of their orders, students may withdraw for military reasons without academic penalty. If the student has paid for the term, they will receive a 100 percent refund, regardless of when they are withdrawn. If the student is receiving financial aid during the semester, the aid will be prorated and returned, based on the effective withdrawal date, according to federal and state regulations. Students will be accountable to the Department of Education and/or Guilford College for any outstanding balances.

Upon return, students will need to complete a readmission application but the fee will be waived if a copy of their orders is provided.
XIII. CAMPUS LIFE FOR TRADITIONAL-AGE STUDENTS

Campus life at Guilford is influenced by the College’s Quaker heritage. The Division of Student Affairs provides co-curricular programs and services designed to address student development, success and problem solving. Campus Life staff assist the College with system-wide planning efforts as they relate to the lives of students outside the classroom and serve as advocates for student needs and concerns. The division takes the lead in setting policy for non-academic student matters in the context of student development best practices that comport with the mission and core values of the College.

Specific guidelines for campus life are available online at www.guilford.edu. It is the responsibility of every student to be informed of College policies and regulations, specifically the Student Handbook, and to abide by them in good faith.

STUDENT GOVERNMENT

Student government at Guilford is organized around a Community Senate composed of student representatives from various segments of the student body and two advisors, one from campus administration and the other a member of the faculty. Executive officers of the senate are chosen each spring in campus-wide elections.

The Community Senate, within the policies and regulations established by the Board of Trustees, derives authority from the president of the College to govern the student body and to coordinate and direct the several subsidiary organizations of student government. The president of the Community Senate, with the consent of its members, appoints student representatives to Board of Trustees committees and to faculty and administrative committees. The Senate acts as a forum for campus concerns and determines the annual allocation of student activity fees.

RESIDENCE LIFE

Residence Life “seeks to provide a safe and viable living and learning atmosphere for all residential students and to foster community and leadership. Residence Life provides a clean, comfortable, well-maintained and secure campus living environment that enhances collaboration, community, programming and scholarship between and among students, faculty and the staff, while expecting students to accept responsibility for their role in creating a positive living environment.

Residence Life is a vital part of Guilford’s educational mission. Residence Life provides many points of interaction with others for friendship, the formulation of values and the exercising of communal and personal responsibility. Resident Advisors (RAs) and Hall Directors (HD) maintain a constant presence in all residence hall areas to aid students’ successful transition through life at Guilford. Resident Advisors and Hall Directors are required to hold intentional social and educational programming for residential students each semester, focusing on the student development goals outlined by the College’s Core Values. The purpose of this programming is to promote positive change and provide valuable learning experiences for students. By providing programs and activities for residents, Residence Life has the opportunity to help shape the living environment into a community where students experience meaningful interaction by learning with and from each other.

Because Guilford values the community of students in a residential setting, students
are required to live on campus. Local students may commute from their homes but must specify when they apply that they intend to live at home with their parents and commute. Traditional-age students (including commuters living at home) wishing to live off campus must acquire prior approval from the Office of Campus Life. There are no opportunities for married or CCE students to live on campus.

During fall and spring breaks and Thanksgiving, residence halls are open to students who have registered to remain in the halls; no meals are served at these times. The residence halls are closed and vacated during the winter break.

Upon notification of admission to the College, new students should complete the housing application online through “My Housing” in BannerWeb. Housing assignment requests become effective with the signing of the contract and payment of the admission deposit.

For additional information on residence halls, please refer to the Residence Life website or the Student Handbook.

RESIDENCE HALLS

**Binford Hall.** (average room size 17 ft. 4 in. x 11 ft. 9 in.), a coed residence hall completed in 1962, contains rooms for approximately 155 first year students, with lounges on each floor. The hall has carpeted rooms and central laundry facilities. The building is designed in a T-shape and has bathroom facilities, lounges and kitchens in the center of each floor. The room furnishings are all built-in.

**Bryan Hall.** (average room size 13 ft. 7 in. x 11 ft. 1 in.) A coed residence hall completed in 1968, Bryan houses approximately 215 students. The hall is designed for eight students per suite (4 bedrooms) who share a bath and an unfurnished common area. There are also central laundry and lounge facilities, and a small kitchenette on the second floor. The central courtyard houses many social activities throughout the year. Bryan Hall is a mixed-class hall.

**English Hall.** (average room size 16 ft. 4 in. x 11 ft. 8 in.), built in 1957, is an all-male hall with approximately 50 students. The hall has carpeted floors and rooms on either side of a corridor with central bathroom facilities. Each room has a sink and there are kitchen, lounge and laundry facilities. Although a mixed-class hall, it mainly houses upper-class students.

**Mary Hobbs Hall.** (average room size 13 ft. 6 in. x 12 ft.), built in 1907 and with more recent renovations in 1977, 2004 and 2005, houses approximately 54 female residents. This unique building is not only the oldest residential facility on campus, but home to a coffee cooperative in the basement. The hall has rooms on either side of long and short corridors with central bathroom facilities, a kitchen in the basement and three lounges. The lounges are carpeted and the halls and rooms have hardwood floors.

**Milner Hall.** (average room size 11 ft. 1 in. x 18 ft. 5 in.), completed in 1962, is a coed residence hall with approximately 250 first year students. The rooms are carpeted. Most bedrooms have a lofted bed set-up. There are rooms on either side of a corridor with central bathroom, kitchen, lounge and laundry facilities. Milner Hall is the largest of the residence halls. and houses

**Shore Hall.** (average room size 13 ft. 7 in. x 11 ft. 9 in.), built in 1954 and renovated in 2003, is an all-female residence hall housing approximately 60 students. Shore has carpeted floors on either side of a corridor with central bathrooms, kitchen, laundry facilities and a spacious lounge.
Student Apartments North. (size?) These 24 student apartments, completed in 1991, house 96 students in air-conditioned single rooms, are available for upper-class students. The apartments, shared by four students, are carpeted and feature furnished bedrooms, a full kitchen, one bathroom and furnished dining room and living room. They are located in a wooded area north of Milner Hall.

Student Apartments South. (size?) These 35 student apartments, completed in 2005, house 140 students in air-conditioned single rooms. The apartments, each shared by four students, are carpeted with furnished bedrooms, fully equipped kitchen and furnished living room; they contain two bathrooms per apartment. They are located between the Apartments North and Milner Hall.

Theme Houses. Guilford offers the opportunity for groups of students to live together in special interest housing or theme houses. There are four houses that accommodate six to 10 students and are organized around common social or academic interests, such as the study of languages, science or cultural themes. Students may apply as a group each spring for special interest housing for the following academic year. The houses are not available for first-year students.

STUDENT SERVICES
Orientation
The orientation of new students and their parents happens throughout the summer, with a July orientation date focusing on academics and business, and a four-day orientation just prior to the beginning of classes. New students work with trained student leaders in small groups to get acquainted with campus resources, meet with their academic advisors, participate in social events and become acquainted with campus life so that they may begin College as smoothly as possible.

Orientation includes community-building experiences designed to challenge students, help them think about themselves as learners and break down barriers by interacting in an experiential setting with several faculty members and upper-class students.

Orientation is the first component in student retention and success. By giving students a strong base of knowledge about the core values, resources available to them, and by providing opportunities to begin to create their bonds with the Guilford College community, orientation serves as a platform for following experiences to build upon. Orientation assists in confirming for the student that they made a good choice, and helps give them the tools to be successful both socially and academically. Orientation also serves to answer questions for parents and families about financing College, academics, who to contact with questions and how they as parents, and we as a College, can support their students and help them to be successful physically, mentally, socially and academically. The Core Values of Excellence, Equality and Community form the basis for much of the programming during the four-day orientation process. In addition, the Quaker Testimonies underlying the College’s Core Values also receive attention during the early days of the First Year Experience academic course and the accompanying lab component.

Student Health Service. The mission of the Student Health Center is to “deliver individualized medical care for traditional-age students. The staff provides assessment and referrals, comprehensive medical evaluations, and treatment for chronic and acute illness. The Student Health Center staff is committed to assuring that the quality of care is evaluated regularly and in accordance with State Law & Guilford’s principles and the core values.”
Prior to attending classes, each new student is required by North Carolina law to submit certification of immunization to the Student Health Center. The required health form and immunization form must be completed by a physician. International students are required to have a physical and TB skin test. Students who fail to comply with this state law must be withdrawn from class.

The Student Health Center strives to further the College’s Core Value of Excellence in terms of providing students with basic, but exemplary medical care in a friendly and caring environment. We are a low cost option for students. This prevents costly physicians visits and preserves student time for curricular pursuits; lining up directly with the Core Value of Stewardship of College and student resources. We strive to include health education alongside providing proper treatment for a range of injuries and illnesses. By providing good medical care, we can keep the students healthy for learning, developing and succeeding at Guilford. This enables increased retention and persistence. Healthy and happy students perform better in class and out of class.

The Student Health Center is located in the Milner Student Health and Counseling Center. The office keeps daily hours during the week, and a nurse practitioner holds clinic visits on a scheduled basis. Contracted services from a local medical clinic provide nurse practitioner services up to 15 hours per week.

After-hours emergency care can be accessed through local walk-in clinics, hospital emergency rooms or by contacting Campus Security at 336-316-2911. The medical service included in the tuition charge for full-time traditional-age students covers routine illnesses and the nurse practitioner appointments in the Student Health Center. Additional charges for lab work are billed to the student’s account.

If a student does not have medical insurance that is accepted in this area, he or she must purchase the insurance policy provided through UnitedHealthcare Student Resources.

Counseling Center. The Counseling Center seeks to provide students with opportunities for personal growth and exploration in a safe and caring environment. The staff is committed to helping students navigate the transitions and challenges of College life, including relationship concerns, feelings of anxiety or depression, alcohol or drug issues, issues with food and body image, academic and social pressures, and other concerns. The center provides crisis intervention, assessment and short-term counseling, with referral into the community for longer-term or more specialized treatment. This work with students is confidential and free of charge. The center is located in the Milner Student Health and Counseling Center and is open from 9 a.m. - 5 p.m. Monday - Friday. Please call 336-316-2163 to make an appointment.

Career Development Center. The Career Development Center (CDC) works to connect student’s education, values, experiences and passion in ways that lead to fulfilling careers. The center’s philosophy is developmental in nature, and seeks to assist students on their journey by equipping them with developmentally appropriate tools for self-exploration, career preparation and jobs searching. The CDC assists students seeking part-time (on and off campus) and summer employment. The CDC also posts available on-campus jobs for students who have been awarded work-study as part of their financial aid package.

Services for Students of Diverse Ethnicity. Many services are available to students of diverse ethnic heritage. The mission of the Multicultural Education Department is to educate and celebrate diversity and multiculturalism at Guilford with an inclusive approach that also seeks to build bridges on campus and in the greater Greensboro community.
The Multicultural Education Department is comprised of various programs; Latino Community, Bayard Rustin Center for LGBTQ+ Activism, Education, and Reconciliation, Native American Community, Africana Community, Multicultural Leadership Scholars, International Student Community and Africana CHANGE.

Through various programming initiatives on campus and community outreach, the department seeks to provide a safe space for all people. The Multicultural Resource Center, located in the Multicultural Education Department suite (King 128), is a regular meeting place for student leadership groups, brown bag lunch discussions, and conversation ranging from everyday topics to deeper discussion of the various "isms" in society. The staff of the department works diligently to make the office suite and all programming multicultural, diverse and inclusive of all.

**Conflict Resolution Center**

The CRRC at Guilford College offers an effective approach to resolving conflicts that inevitably occur among people living in a close community. Our style of conflict resolution is compatible with the Quaker tradition of understanding, listening and cooperation. The center is a safe and confidential environment that is free for students, faculty and staff. Some of the services and activities provided by the center include:

- CRRC speakers for groups such as classes, residence hall gatherings and student organizations to provide educational programs related to conflict management.
- Expert advice on how you can resolve conflicts yourself.
- Facilitation services for running tough meetings in your own organization or between organizations.
- Mediation for interpersonal conflict.
- Mediation for groups or committees working on policy issues.

We are always looking for folks who are interested in volunteering at the center. We provide mediation training services at least twice a year. The CRRC involves students, faculty and staff in a unique collaborative effort. The center receives support from a wide range of campus offices, programs and organizations.

**CULTURAL OPPORTUNITIES**

**Bryan Series.** Guilford College’s Bryan Series enriches the educational and cultural experience for residents of Greensboro and the central North Carolina region with provocative speaker programs featuring well-known figures in the arts, humanities and public affairs.

Past speakers have included President Bill Clinton, Mikhail Gorbachev, Madeleine Albright, Desmond Tutu, Sidney Poitier, Bill Bradley, Bill Moyers and Toni Morrison. Five heads of state; five Nobel Prize laureates; two former U.S. Secretaries of State; and winners of MacArthur Fellowships and Academy, Tony, Grammy and Emmy Awards have been speakers in the series.

The Bryan Series is presented at 2,400-seat War Memorial Auditorium in the Greensboro Coliseum Complex. In the fall of 2010, the event featuring President Clinton was presented to a crowd of 4,200 in the Coliseum Arena.

**Campus Activities Board.** The Campus Activities Board (CAB) is a student organization that sponsors campus social, recreational and cultural programs. CAB committees plan recreational events, films, concerts, lecturers, dances and more. CAB’s purpose is to encourage community and provide a variety of co-curricular activities during which students can build social connections. The Guilford Formal in the fall and Serendipity in the spring are major
events that CAB coordinates.

**Campus Organizations.** Guilford has over 50 student organizations funded by Community Senate and supervised by the Office of Student Leadership and Engagement. These student organizations fulfill students’ co-curricular interests including engaged citizenship and awareness issues, student publications and media, diverse religious observances, social connections, and club sports teams. Student organizations are all represented on the Inter-Club Council (ICC) and greatly enhance the programming, involvement and leadership opportunities at Guilford. Organizations play a crucial role in enhancing personal development and leadership for all Guilford students. Organizations may vary from year to year, depending on student interest, and our students continuously create new ones to meet expanding interests.

A few of these clubs include:

**WQFS (90.9 FM).** Licensed to Guilford by the Federal Communications Commission, WQFS allows students interested in broadcasting to maintain and operate a radio station. Annually recognized as one of the country's best student-run College radio stations, WQFSFM offers programming that includes music, news, lectures and a variety of offerings providing an educational service to the College community and people in the surrounding area.

**Blacks Unifying Society (BUS).** Previously the African American Culture Society (AACS), BUS was organized by the Guilford African American student community to foster unity among African American students while encouraging full participation in the academic, social and policymaking processes of the College community. BUS is open to all members of the Guilford community as it strives to sponsor projects and cultural activities that foster greater awareness of the African American experience in the United States and abroad.

**Other Special Interest Groups.** There are many other special interest groups on campus including Guilford Pride, Hillel, Slow Food, Ultimate and Guilford Peace Society. Information about these and other student groups is available from the Office of Student Leadership and Engagement in Founders Hall.

(A full list of the current clubs and organizations can be found at www.guilford.edu).

**Intramural Sports.** The Guilford College Intramural Sports Program seeks to facilitate social interaction, and leadership development experiences for the diverse members of the Guilford College community. This is achieved by providing competitive and co-educational athletic opportunities that support the physical and mental well-being of our community in accordance with the Guilford College mission and institutional core values.

Events sponsored by the Intramural Sports Program include: dodgeball, first-year hall Olympics, tennis, floor hockey, volleyball, slow-pitch softball, free throw/three point/skills challenge for basketball, 3-on-3 basketball tournaments, flag football, Texas Hold ‘Em, ping pong and pool. This diverse array of programming strives to provide a healthy social outlet for the College community.

**Departmental Clubs.** Majors and other interested students in various departments such as biology, foreign languages, geology, history, physics, psychology, sociology and anthropology, and sport studies have organized clubs for discussion of issues relevant to learning in their
fields. Beta Beta Beta Biological Society endeavors to cultivate an interest in the life sciences and recognizes academic achievements in biology.

**STUDENT PUBLICATIONS**

*The Guilfordian*, a newspaper produced for and by students, serves as a forum for student and faculty opinion through its editorials, columns and letters to the editor. Each issue covers campus news events and provides publicity for various activities and cultural programs. The student staff, working with a faculty advisor, gains practical journalism experience in writing, editing, layout and publishing.

*The Greenleaf Review*, published by a student staff, features original poetry, prose and graphics contributed by students and faculty. Its purpose is to promote creative writing, develop artistic talents and provide opportunities for critical dialogue in the arts.

**RELIGIOUS LIFE**

Guilford at first might appear to be a secular institution. No chapel dominates the campus; no religious symbols adorn the buildings and rooms; no religious services or courses are required. Upon closer scrutiny, however, one quickly learns that even the absence of overtly religious symbols is part of the College’s Quaker heritage. Friends seek to encourage an inward experience of religion within a community of respect for spiritual receptivity.

The Religious Society of Friends (Quakers) originated in a radical 17th century Christian movement that sought to turn from an experience of God based on external authority to an inward experience of the divine with the power to transform lives and society. Guilford remains committed to the importance of inward spiritual development. The College sustains Quaker principles of community service, respect for individual integrity, global understanding, moral decision-making and the fostering of equality, peace, simplicity and justice. Governance of the College is by the Friends’ tradition of seeking a “sense of the meeting.”

Consistent with Quaker faith and practice, Guilford seeks to enable students to harmonize their lives with their own religious tradition or to explore other forms of spirituality. Guilford dedicates itself to recognizing the universality of divine guidance and to fostering an awareness of the many ways in which spirituality is developed. The campus welcomes communities of many faiths.

The Office of Campus Ministry, located in the Hut, in cooperation with a student organization, the Guilford Community of Religious Observants (GCRO), facilitates campus religious life through regular worship opportunities, small-group discussions, forums, speakers, service projects and an annual Religious Emphasis Week. Max Carter, director of Friends Center and campus ministry coordinator; Frank Massey, gifts discernment coordinator; and Deborah Shaw, assistant director of Friends Center and campus ministry, are available to all in the College community for conversation and counsel. The staff of the Quaker Leadership Scholars Program are also available as a resource for spiritual discernment, counsel and conversation.

Active student organizations include the Guilford Catholic Community, Unitarian Universalist Students, Hillel, Guilford Christian Fellowship, Quaker Concerns, St. Mary’s House (Episcopal), Pagan Mysticism, Fellowship of Christian Athletes, Muslim Students Association and Buddhist meditation. Each weekday begins with Quaker worship and ends with Vespers. College Meeting for Worship is held weekly on campus, with occasional Taize
services. Many students become active in the more than 400 churches, meetings, temples, mosques, synagogues and other congregations in the Greensboro area. New Garden Friends Meeting, First Friends Meeting and Friendship Friends Meeting, all located near the College, welcome students of all faiths.

COMMUNITY INVOLVEMENT

Guilford recognizes the educational value of participation in the larger world of which the campus is a part. The College encourages students to use Greensboro and the surrounding community as an adjunct to the classroom. More than 300 students make a weekly commitment each semester in the wider community through internships, field work linked to an academic class or volunteer service.

Project Community, a student-run community service office, promotes a campus-wide ethic of service by sponsoring special service events on and off campus, and by connecting students with opportunities in non-profit and community organizations. More than 50 agencies attend the Volunteer Fair held each fall to recruit Guilford volunteers to their programs.

Guilford students have made an ongoing commitment at 10 sites where they volunteer on a weekly basis, with transportation provided. Each of these ongoing commitments operates with a student project coordinator, who works with the volunteer training coordinator to recruit, train and support Guilford student volunteers. Ongoing commitments include: Pathways Shelter for homeless families; Prison Literacy at a minimum-security prison; English as a Second Language tutoring with refugees at the Montagnard Dega Association and the Greensboro Buddhist Center; a.i.d.s. (acquiring information, destroying stereotypes) about AIDS; Environmental Outreach at High Point Environmental Center; HOME (repairs for low-income home owners); and Shelter Outreach working with adults who are homeless.

Some students gain practical experience by working with local political parties and political action groups. Other campus organizations, such as the African American Cultural Society and Forevergreen, an environmental organization, also pursue their special interests in the community at large.

ATHLETICS AND RECREATION

Guilford considers physical activity, growth and the wellbeing of the individual student to be important components of the educational mission. The College values participation, sportsmanship, quality competition, skill advancement, achievement and striving for excellence. The coaches take personal interest in every student on their team and strive to create positive experiences for all team members.

Student-athletes are amateurs and receive financial aid based only on need and academic excellence. Guilford and the Department of Athletics share the philosophy of the NCAA Division III.

NCAA Division III Philosophy Statement

Colleges and universities in Division III place highest priority on the overall quality of the educational experience and on the successful completion of all students’ academic programs. They seek to establish and maintain an environment in which a student-athlete’s athletic activities are conducted as an integral part of her or his educational experience, and in which coaches play a significant role as educators. They also seek to establish and maintain an environment that values cultural diversity and gender equity among their student-athletes and athletics staff. To achieve this end, Division III institutions:
Expect that institutional presidents and chancellors have the ultimate responsibility and final authority for the conduct of the intercollegiate athletics program at the institutional, conference and national governance levels;

Place special importance on the impact of athletics on the participants rather than on the spectators and place greater emphasis on the internal constituency (e.g., students, alumni, institutional personnel) than on the general public and its entertainment needs;

Shall not award financial aid to any student on the basis of athletics leadership, ability, participation or performance;

Encourage the development of sportsmanship and positive societal attitudes in all constituents, including student-athletes, coaches, administrative personnel and spectators;

Encourage participation by maximizing the number and variety of athletics opportunities for their students;

Assure that the actions of coaches and administrators exhibit fairness, openness and honesty in their relationships with student-athletes;

Assure that athletics participants are not treated differently from other members of the student body;

Assure that athletics programs support the institution’s educational mission by financing, staffing and controlling the programs through the same general procedures as other departments of the institution. Further, the administration of an institution’s athletics program (e.g., hiring, compensation, professional development, certification of coaches) should be integrated into the campus culture and educational mission;

Assure that athletics recruitment complies with established institutional policies and procedures applicable to the admission process;

Assure that academic performance of student-athletes is, at a minimum, consistent with that of the general student body;

Assure that admission policies for student-athletes comply with policies and procedures applicable to the general student body;

Provide equitable athletics opportunities for males and females and give equal emphasis to men’s and women’s sports;

Support ethnic and gender diversity for all constituents;

Give primary emphasis to regional in-season competition and conference championships; and

Support student-athletes in their efforts to reach high levels of athletics performance, which may include opportunities for participation in national championships, by providing all teams with adequate facilities, competent coaching and appropriate competitive opportunities.

The purpose of the NCAA is to assist its members in developing the basis for consistent, equitable competition while minimizing infringement on the freedom of individual institutions to determine their own special objectives and programs. The above statement articulates principles that represent a commitment to Division III membership and shall serve as a guide for the preparation of legislation by the division and for planning and implementation of programs by institutions and conferences. – 2011-2012 NCAA Manual

Guilford sponsors 20 intercollegiate teams. Men may participate in baseball, basketball, cross country, indoor and outdoor track, football, golf, lacrosse, soccer and tennis. Women may participate in basketball, cross country, indoor and outdoor track, lacrosse, soccer, softball, swimming, tennis and volleyball.

The following Guilford teams have participated in national championship tournaments: baseball, men’s basketball, women’s basketball, golf, volleyball, and men’s and women’s
tours. The men’s basketball team and women’s tennis team were National Association of Intercollegiate Athletics (NAIA) champions in 1973 and 1981, respectively. More recently, the 2009 and 2010 men’s basketball teams both finished third in the NCAA Division III Tournament. Guilford’s golf team won the 1989 NAIA National Tournament and NCAA Division III titles in 2002 and 2005. The golf team also has five second-place finishes at national tournaments.

Guilford is a member of the Old Dominion Athletic Conference, which includes: Bridgewater College, Eastern Mennonite University, Emory & Henry College, Hampden-Sydney College, Hollins University, Lynchburg College, Randolph College, Randolph-Macon College, Roanoke College, Shenandoah University, Sweet Briar College, Virginia Wesleyan College, and Washington and Lee University.

FAMILY ASSOCIATION

All parents are members of the Guilford College Family Association, which was formed in 1984. The association initiates programs related to Guilford families and assists in fundraising and student recruitment. The association provides a direct channel of communication among parents, College faculty and staff via Guilford College Magazine, the Guilford website, and the College’s e-mail newsletter, The Beacon. The Family Leadership Council assumes the leadership role of the Family Association. Parents, grandparents and other family members are invited to visit their students for the fall Family Weekend, which includes seminars, cultural and sporting events, and the association’s annual meeting. Please contact Elizabeth Hansen at hansenea@guilford.edu for more information.

MOTOR VEHICLES AND PARKING

A Guilford student may operate a motor vehicle on campus provided it is properly registered with the Department of Public Safety. Students who operate motor vehicles on campus are required to pay a registration fee and park in a designated parking area. Students are required by law to comply with North Carolina state motor vehicle insurance requirements and all local and state laws and ordinances. Temporary parking permits may be obtained free of charge at the Office of Public Safety for vehicles operated by guests and visitors to the campus.

The Office Department of Public Safety is responsible for reporting violations of College motor vehicle regulations to Guilford officials.

Details of traffic and parking regulations are included in the Student Handbook.
XIV. Scholarships and Other Awards

SCHOLARSHIPS

Bradford Ross Adams Endowed Scholarship Fund. The fund was begun in 2001 to provide scholarships to Guilford history majors with demonstrated financial need.

George I. Alden Excellence Scholarship Fund. The endowment was established in 1981 to provide scholarships to rising juniors without regard to need, with a GPA greater than or equal to 3.25.

Dr. Malcolm U. Alexander Scholarship Fund. The endowment was established in 1996 to provide scholarship assistance for female students in good academic standing majoring in education studies, with preference given to minister-of-music students.

Alumni Association Scholarship Endowment Fund. The endowment was established by the Alumni Association in the names of E. Garness Purdom and Clyde A. Milner. Awards are made annually to two rising seniors.

Karen Baldwin Endowed Quaker Scholarship. The fund was established in 2008 to provide one scholarship annually to a financially deserving Quaker student selected by Guilford.

The Barrow Family Endowed Scholarship Fund. The endowment was established to provide need-based scholarships to business or elementary education majors from North Carolina.

The Beaman Family Scholarship Fund. The endowment was established to provide unrestricted scholarships.

B. J. Beason Scholarship Fund. The fund was established to provide scholarship grants to Quaker students enrolled at Guilford with preferential consideration given to, but not limited to, Quaker students from North Carolina.

The fund was established to provide scholarships with preference given to students majoring in education studies (with an intent to enter careers in teaching or educational administration); business (economics, management or accounting); or, foreign languages (French, German, Spanish and Japanese). Additional preference shall be given to students from Judeo-Christian traditions. Recipients will be Guilford students with documented financial need.

David J. White Memorial Fund. The fund was established to provide scholarship assistance to Guilford students with demonstrated financial need.

Henryanna H. White Scholarship. The scholarship was created in 1923 to provide scholarships to aid-deserving students seeking an education.

Nell Chilton White Scholarship. The scholarship was established in 1987 to provide tuition scholarships for Guilford students who are members of First Friends.

V. R. and Ruth L. White Scholarship Fund. The fund was established in 1968 to provide scholarships to Guilford students.

Robert and Lottie Wall Wildman Scholarship Fund. The fund was established in 1977 to provide scholarships to Guilford students.

Merry Moor Winnett Scholarship Fund. The fund was established in 1995 to provide scholarship assistance for Guilford students who are in good academic standing and who have a demonstrated need, with preference given to students studying art, especially photography.

Woodland Friends Scholarship Fund. The fund was established in 1995 to assist Quaker students studying at Guilford in the field of Christian service (ministry, music, Christian education, or missions).

Thomas Wesley Wooten Scholarship Fund. The fund was established in 1964 to provide scholarships for students preparing for Christian service, preferably members of the Society of Friends.

Atha C. Wright Endowment Fund. The fund was established in 1994 to provide scholarships for Guilford students.

William L. Yates Scholarship Fund. The fund was established in 2001 to provide scholarships to worthy students from North Carolina and South Carolina who need financial assistance to attend Guilford.

LOAN FUNDS

Charles Fletcher Allen Endowed Student Loan Fund. The loan fund was established in 1993.

Robert A. Blaylock Endowed Loan Fund. The fund was established to provide a loan fund for Guilford students with the following guidelines: (A) Recipient(s) will be Guilford students with demonstrated financial need (as determined by the director of Student Financial Services) with preference given to U.S. citizens. (B) Recipient(s) will be working while attending College and will provide proof of employment. (C) Recipient(s) will maintain at least a C grade-point average. (D) Recipient(s) will agree to repay the loan upon leaving the College and under the same terms as outlined in the Community Senate Loan Fund.

Argyle Elliott Brown ’31 Student Loan Fund. The fund was established in 1988 to provide loans to students enrolled at Guilford.

Seth C. and Hazel M. Macon GOAL Student Loan Fund. The fund is designed to duplicate the existing GOAL fund currently being administered by Guilford that offers needy students an interest-free loan while they are enrolled full-time at Guilford for a period not to exceed eight academic semesters. The Macon GOAL loans offer the opportunity to have a
portion of the debt cancelled for academic achievement.

**Sarah B. Price Educational Loan Trust Fund.** The fund was created to provide loans to students or parents of students to meet educational expenses while at Guilford. Selection of students is based on academic performance and financial need.

**George & Nita Roughgarden Loan Fund.** The fund was established in 1990 to make loans to deserving students to enable them to continue their education while attending Guilford.

**PRIZES AND CASH AWARDS**

**Fred I. Courtney Fund for Scholars in Management.** The fund was established to provide scholarship grants to one or more students based primarily on academic excellence in management and demonstrated leadership potential.

**Frederic and Margaret Crownfield Religious Studies Fund.** The fund was established in 1982 to provide an annual prize to the student who submits the best paper in the field of religious studies as judged by the religious studies faculty.

**Leora Sherril O'Callaghan (Class of 1924) Memorial Fund.** The fund was established in 1953 to provide a cash prize to a graduating senior excelling in English with a preference to English composition. Each member of the junior class is to be eligible for the prize on the record of his or her junior year in English or on the judging of an English composition, as determined by committee approval.

**E. Garness Purdom Memorial Fund for Women in Physical Science.** The fund was established to encourage female students enrolled at Guilford to consider a major in the physical sciences or in science education. Students of physics, chemistry, mathematics, environmental studies, geology, astronomy and physical science education will submit proposals for consideration by a faculty committee from the physical science and mathematics departments. The award may be used for, but not limited to, funding travel to a meeting, seminar or workshop, travel or equipment or materials for research. Students would be encouraged, under the guidance of a faculty member, to propose creative and appropriate uses for the award.

**Womack Research Award.** The fund was established in 1997 to provide awards to encourage students, with demonstrated financial need, to continue their studies in the field of physics through a research project. The award recipient or recipients will be chosen by the faculty in the Department of Physics, and the selection should be independent of prior academic performance. This award or awards will usually be made annually and a recipient can receive this award more than once.

**STUDENT AWARDS**

**Dean's List.** The Dean's List, published at the end of each semester, consists of the names of students who carried at least eight credits of academic work for the part-time Dean's List and at least 12 credits of academic work for the full-time Dean's List in the previous semester and earned a 3.50 grade-point average.

**Graduating Honors.** Honors are awarded to graduating seniors who have attained a grade point average of 3.50. High Honors are awarded to seniors who have attained an average of 3.70.

**Eugene S. Hire Award.** Given to an outstanding upperclassman who exhibits a willingness to help others in their learning efforts.

**Guilford College Scholarship Society.** The Society was organized in 1937, the centennial year of the College, to encourage and recognize high academic achievement. Students with a cumulative grade-point average of 3.50 are eligible for election upon passing 60 credits of academic work at Guilford.

**Student College Marshals.** The Convocations and Celebrations Committee presents candidates for the role of student College marshal to the faculty each spring. Eligible students are sophomores or first-semester juniors with at least a 3.50 grade-point average. The marshals serve at commencement and public functions for the following two years. The student receiving the highest number of votes is designated chief marshal.

**Who's Who in American Universities and Colleges.** Based on nominations, seniors
excelling at leadership and scholarship are named to this national list of high-achieving students.

FACULTY/STAFF AWARDS

Board of Visitors Award for Excellence in Academic Advising. This award was established by the Board of Visitors in 2011 to be given to a faculty advisor that has advised at least two of the previous three years and will be nominated by the Academic Dean’s Office with final selection of the $1,000 award done by a committee of three faculty advisors, two students and one representative from the Board of Visitors.

Bruce Stewart Teaching and Community Service Awards. Named in honor of Stewart, a 1961 Guilford graduate who served the College as director of admissions, assistant professor of education, assistant to the president, acting academic dean, provost, acting president, associate to the vice president for development, trustee, chair of the Board of Trustees and trustee emeritus. Stewart is currently head of school at Sidwell Friends School in Washington, D.C. The awards of $5,000 each were generously established and endowed by Trustee Bill Soles ’81; his wife, Melanie; his sister, Jan Soles ’87; and their father, the late W. Roger Soles. The College awards three Stewart awards: two teaching awards for faculty and one community service award for staff.

PROFESSORSHIPS

Raymond Binford Memorial Professorship Fund. The professorship is to be used to provide, as a part of the core curriculum, such functioning knowledge of the scientific bases of physical and mental health as will enable the student to appreciate the significance of these fundamentals, and to make practical use of them in the intelligent direction of his own life and the maintenance of all phases of his personal health.

Charles A. Dana Professorship. The endowment was established to subsidize four Dana professors’ salaries.

Eli Franklin and Minnie Phipps Craven Professorship of Religion. The fund was established to be used for the purpose of promoting the teaching of religion at Guilford.

Glaxo Wellcome Professorship in the Natural Sciences. The professorship was established in 1997.

H. Curt and Patricia S. Hege Professorship in the Arts and Humanities. The professorship was established in 1985.

Jefferson-Pilot Professorship Fund. The professorship was established in 1970. It may be awarded in any academic discipline within the College.

Robert K. Marshall English Professorship Fund. The fund was established to support a professorship in the Department of English.

Sulon Bibb Stedman Professorship. The professorship was established in 1990 to be used toward the compensation and benefits of an outstanding faculty member in the academic areas of accounting, economics or management.

John K. Voehringer, Jr. Business Professorship. The fund was established to support a professorship in any academic discipline within the business management department.

John A. Von Weissenfluh Chair of Ethics and Religion. The chair was established with preference given to senior faculty in areas of religion, philosophy, ethics or psychology. The chair is concerned with the interdependence of the culture of any society and its religion with special emphasis on that function of religion which deals with the definition and maintenance of the mores of that society.
Guilford College’s Board of Trustees is a governing body exercising ultimate institutional authority as set out in the *Bylaws of Guilford College*. This authority, upon the recommendation of the president of the College, includes: determining and periodically reviewing the College’s mission; monitoring the College’s financial condition and approving the annual budget, tuition and fees; approving institutional policies bearing on faculty appointment, promotion, tenure and dismissal; reviewing and approving proposed substantive changes in degree programs; approving degrees as recommended by the faculty; and authorizing the construction of new buildings, the major renovation of existing buildings, and the purchase or sale of land. The board’s authority and responsibilities also include participating actively in strategies to secure sources of support, contributing to fundraising goals, appointing the president and annually assessing the president’s performance.

**Board of Trustees 2011-12**

Joseph M. Bryan, Jr. ’60, Chair, CEO, Jayembe, Greensboro, N.C.
Ann T. Raper, Vice Chair, Retired Gerontologist, Summerfield, N.C.
Edward C. Winslow III, Vice Chair, Managing Partner, Brooks, Pierce, McLendon, Humphrey & Leonard, LLP, Greensboro, N.C.
W. S. Cross III ’72, Secretary, Chairman, Cross Sales and Engineering Company, Greensboro, N.C.
Lawrence W. Newlin, Treasurer, President, Garden Discoveries, Inc., Chapel Hill, N.C.
Gilbert D. Bailey ’91, Vice President Marketing and Business Development, Beanstalk Data, Charlotte, N.C.
Walter P. Blass, President, Strategic Plans Unlimited, Warren, N.J.
Daryle L. Bost ’93, Sales Director, Womble Carlyle, Charlotte, N.C.
Carole W. Bruce, Partner, Smith Moore Leatherwood LLP, Greensboro, N.C.
Kelly Dempster ’73, Senior Staff Geologist, Chevron Energy Technology Company, Houston, Texas
Martin D. Eakes, CEO, Self-Help Credit Union, Durham, N.C.
Linda F. Edgerton ’74, Owner, Linda Edgerton Communications, Greensboro, N.C.
Graedon, Teresa L., Treasurer, Graedon Enterprises, Inc., Durham, N.C.
Esther S. Hall ’74, Executive Director, North Carolina Legal Education Assistance Foundation, Raleigh, N.C.

XVII. Faculty
(The date following the name indicates the year of appointment)

ALFONSO ABAD-MANCHEÑO (2006), Assistant Professor of Foreign Languages; B.A. 1995, Universidad de Alicante, Spain; M.A. 1998, Arizona State University; Ph.D. 2008, University of Texas, Austin

DIYA ABD (2008), Assistant Professor of English; B.A. 1996, Yarmouk University; M.A. 1998, Ph.D. 2005, Drew University

KATHRYNN A. ADAMS (1980), Charles A. Dana Professor of Psychology; B.S. 1973, M.A. 1976, Ph.D. 1977, University of Alabama

DAMON AKINS (2007), Assistant Professor of History; B.A. 1993, Oklahoma City University; M.A. 1995, University of California, Los Angeles; Ph.D. 2009, University of Oklahoma.

MARIA L. AMADO (2002), Associate Professor of Sociology and Anthropology; B.A. 1997, University of Santa Maria La Antigua; M.A. 1991, Ph.D. 2003, Emory University

MATTHEW ANDREWS (2011), Visiting Instructor of History; B.A. 1991, University of California, Los Angeles; M.A. 2000, San Francisco State University; Ph.D. 2008, University of North Carolina, Chapel Hill

EVELYN V. BLOUNT (1999), Head Reference Librarian, with the rank of Senior Librarian; B.S. 1980, Elizabeth City State University; M.L.S. 1985, North Carolina Central University

PETER B. BOBKO (1984), Associate Professor of Business; B.S. 1962, U.S. Air Force Academy; M.B.E. 1972, Claremont College; D.B.A. 1983, Indiana University

MARIA P. BOBROFF (2004), Assistant Professor of Foreign Languages; A.B. 1994, Dartmouth College; M.A. 1998, Ph.D. 2003, Duke University

CHAFIC BOU-SABA (2011) Visiting Assistant Professor of Computing and Information Technology; B.S. 1998, Notre Dame, Lebanon; M.S. 2000, Ph.D. 2007, North Carolina A&T State University

BRYAN W. BRENDLEY (2004), Assistant Professor of Biology; B.S., B.A. 1991, College of William and Mary; Ph.D. 1995, Penn State University

CHRISTOPHER BRINK (2010) Visiting Assistant Professor of Theatre Studies; B.S. 2003, Indiana State University; M.F.A. 2009, Purdue University

MICHAEL BRUNO (2011), Assistant Professor of Chemistry; B.A. 1999 Dartmouth College; Ph.D. 2007, Weill Medical College of Cornell University

JULIE BURKE (2004), Assistant Professor of Education Studies; B.A. 1983, Smith College; M.Ed. 2000, North Carolina State University

DEENA BURRIS (2001), Assistant Professor of Business; B.A. 1989, University of North Carolina at Charlotte; M.A. 1995, University of Denver; Ph.D. 2007, University of Southern Mississippi

MAX CARTER (1990), Director of the Friends Center/Campus Ministry Coordinator and Adjunct Professor of Religious Studies; B.A. 1970, Ball State University; M. Min. 1975, Earlham School of Religion; Ph.D. 1989, Temple University

KENT JOHN CHABOTAR (2002), President and Professor of Political Science; B.A. 1968, St. Francis University; M.P.A. 1969, Ph.D. 1973, Syracuse University

ZHIHONG CHEN (2008), Assistant Professor of History; B.A. 1966, M.A.1999, 2003,
Beijing University; Ph.D. 2008, University of Oregon

JOE COLE (2007), Visiting Assistant Professor of Philosophy; B.S. 1988, Pennsylvania State University; Ph.D. 1995, Duke University

KYLE DELL (2003), Associate Professor of Political Science; B.A. 1993, Kalamazoo College; M.A. 1995, Ph.D. 2007, Boston College

DAVID M. DOBSON (1997), Associate Professor of Geology and Earth Sciences; B.A. 1991, Harvard University; M.S. 1994, Ph.D. 1997, University of Michigan

MYLÈNE DRESSLER (2011) Visiting Assistant Professor of English; B.A. 1988, Ph.D. 1993, Rice University

ROBERT DUNCAN (2002), Visiting Assistant Professor of Political Science; B.A. 1961, M.A. 1964 Texas Technological University; Ph.D. 1995, George Mason University

ALVIS DUNN (2006), Assistant Professor of History; B.A. 1980, UNC Chapel Hill; M.A. 1985, Appalachian State University; M.A. 1990, Ph.D. 1999, UNC Chapel Hill

LEAH DUNN (2009), Director of Hege Library with the rank of Senior Librarian, B.A. 1992, M.L.S., 1995, University of North Carolina at Chapel Hill

CRAIG EILBACHER (2001), Assistant Professor and Coordinator of Sports Medicine; B.A. 1995, University of North Carolina at Wilmington; M.S. 1996, University of Akron; Ed.D. 2010, UNC Greensboro

GWENDOLYN GOSNEY ERICKSON (2000), Librarian of Friends Historical Collection and Archivist, with the rank of Senior Librarian; B.A. 1994, Earlham College; M.A. 1996, M.L.I.S. 1997, University of North Carolina at Greensboro

THOMAS P. ESPINOLA (1984), Glaxo Wellcome Professor of Physics; B.S. 1976, Ph.D. 1989, Michigan State University

SARAH ESTOW (2006), Assistant Professor of Psychology; B.A. 1993, Wesleyan University; M.S. 1998, Ph.D. 2001, Tufts University

VICKI FOUST (2006), Visiting Instructor of Business; B.S. 1988, University of North Carolina, Greensboro; M.B.A.1996, Elon University

LOIS FUCHS (2005), Visiting Instructor of Justice and Policy Studies; B.S. 1993, M.A. 1995, St. John's University

HOLLYCE C. GILES (2007), Associate Professor of Justice and Policy Studies; B.A. 1978, University of Texas, Austin; M.Div. 1983, Union Theological Seminary; Ph.D. 1991, Columbia University

KENNETH E. GILMORE (1998), Associate Professor of Political Science; B.A. 1988, Ursinus College; Ph.D. 1997, Rutgers University

ANNE G. GLENN (1992), Professor of Chemistry; B.S. 1984, North Carolina State University; Ph.D. 1989, Texas A&M University

G. RUDOLPH GORDH, JR. (1974), Professor of Mathematics; A.B. 1966, Guilford College; Ph.D. 1971, University of California at Riverside

H. GARLAND GRANGER III (1983), Associate Professor of Accounting; B.S. 1968, Atlantic Christian College; M.A. 1971, Appalachian State University; CPA, North Carolina; CIA

WILLIAM A. GRUBBS (1981), Sulon Bibb Stedman Professor of Accounting; B.A. 1963,
GEORGE XUEZHI GUO (2002), Associate Professor of Political Science; B.A. 1982, South China University of Technology; M.P.A. 1993, University of North Florida; Ph.D. 1999, University of Virginia

THOMAS GUTHRIE (2006), Assistant Professor of Sociology and Anthropology; B.A. 1997, Davidson College; M.A. 2001, Ph.D. 2005, University of Chicago

DAVID HAMMOND (2006), Professor of Theatre Studies; B.A. 1970, Harvard University; M.F.A. 1972, Carnegie-Mellon University

NAADIYA HASAN (2007), Assistant Professor of Sociology and Anthropology; B.A. 1996, University of Virginia; M.A. 1999, M.Phil. 2003, Ph.D. 2006, Yale University

KAREN HAYES (2003), Associate Professor of Psychology; B.A. 1978, Guilford College; M.A. 1982, Ph.D. 1984, University of North Carolina at Chapel Hill

DREW HAYS (2008), Assistant Professor of Music; B. Music 2002, D.M.A. 2007 Duquesne University

HEATHER R. HAYTON (2004), Associate Professor of English; B.A. 1992, University of California at Davis; M.A. 1994, Ph.D. 2000, Penn State University

CHRISTOPHER HENRY (2006), Assistant Professor of Psychology; B.S. 1988, Georgia Southern University; M.A. 2000, University of West Georgia; Doctoral candidate, University of Georgia

DAVID P. HILDRETH (2000), Associate Professor of Education Studies; B.S. 1990, University of North Carolina at Chapel Hill; M.A. 1991, Eastern Carolina University; Ph.D. 1997, University of North Carolina at Greensboro

HIROKO HIRAKAWA (1997), Associate Professor of Foreign Languages; B.A. 1982, M.A. 1988, Southeast Missouri State; M.S. 1991, Ph.D. 1998, Purdue University

JAMES HOOD (1999), Professor of English; A.B. 1979, Guilford College; M.A.R. 1981, Yale University Divinity School; Ph.D. 1991, University of North Carolina at Chapel Hill

ADRIENNE M. ISRAEL (1982), Professor of History and Intercultural Studies; B.A. 1968, M.A. 1973, Howard University; M.A. 1979, Ph.D. 1984, Johns Hopkins University

JULIA JACKS (2010), Visiting Assistant Professor of Psychology; B.A. 1988, Hope College; Ph.D. 1995, University of Wisconsin, Madison

JEFF JESKE (1986), Charles A. Dana Professor of English; B.A. 1970, Cleveland State University; M.A. 1972, University of Toledo; Ph.D. 1978, Kent State University

RAYMOND E. JOHNSON (1990), Associate Professor of Accounting; B.S. 1971, M.B.A. 1973, East Carolina University; CPA, North Carolina

JERRY JOPLIN (1999), Professor of Justice and Policy Studies; B.A. 1973, Central Washington University; M.S. 1976, Ph.D. 1986, Southern Illinois University

BETTY T. KANE (1990), Associate Professor of Business; B.A. 1972, Vanderbilt University; M.B.A. 1974, University of Tennessee; J.D. 1983, Vanderbilt University; Member of North Carolina State Bar

FRANK P. KEEGAN (1975), Raymond Binford Professor of Biology; B.A. 1968, M.A. 1973, Queens College (NY); Ph.D. 1975, City University of New York

AMAL KHOURY (2008), Assistant Professor of Peace & Conflict Studies; B.A. 1996, M.A.
TIMOTHY KIRCHER (1989), Professor of History; B.A. 1982, Yale College; M.A. 1984, Ph.D. 1989, Yale University

BARBARA LAWRENCE (2006), Assistant Professor of Justice and Policy Studies; B.S 1994, John Jay College; M.P.A. 2004, Purdue University; J.D. 2004, Indiana University

EVA K. LAWRENCE (2003), Associate Professor of Psychology; B.S. 1995, Loyola University; M.S. 1998, Ph.D. 2002, Virginia Commonwealth University

MELANIE J. LEE-BROWN (2002), Associate Professor of Biology; B.S. 1993, North Carolina A & T University; Ph.D. 1998, North Carolina State University

DAVID J. LIMBURG (1993), Professor of Foreign Languages; B.A. 1984, Augustana College; M.A. 1987, Ph.D. 1992, Ohio State University

WENDY LOOKER (2003), Assistant Professor of Music; B.A. 1997, State University of New York at Geneseo; M.M. 1999, University of Michigan; Doctoral candidate, Indiana University

DIEGO LORENZETTI (2010), Visiting Instructor of Biology; B.S. 1991, M.S. 1993, Universita’ degli Studi di Milano, Italy; Ph.D. 2004, Baylor College of Medicine

ROBERT MALEKOFF (2005), Associate Professor of Sport Studies; B.S. 1976, Bowling Green State University; M.S. 1978, University of Delaware; Ed.M. 1986, Harvard University; Doctoral candidate, Ashland University

JONATHAN W. MALINO (1976), John A. Weissenfluh Professor of Ethics and Religion; B.A. 1966, Brandeis University; Ph.D. 1975, Columbia University; M.A.H.L. and Rabbinic Ordination 1979, Hebrew Union College/Jewish Institute of Religion

MICHELE MALOTKY (2003), Assistant Professor of Biology; B.A. 1985, St. Olaf College; Ph.D. 1994, Northwestern University

BENJAMIN MARLIN (2006), Associate Professor of Mathematics; B.S. 1991, Southwest Missouri State University; M.S. 1993, Ph. D. 2000, University of Missouri, Rolla Rolla

SANJAY MARWAH (2006), Assistant Professor of Justice and Policy Studies; B.A., B.S. 1990, University of California, Davis; M.A. 1995, Claremont Graduate School; Ph.D. 2005, George Mason University

MARLENE L. MCCAULEY (1986), Professor of Geology and Earth Sciences; B.A. 1979, University of California at San Diego; Ph.D. 1986, University of California at Los Angeles

LISA J. MCLEOD (1999), Associate Professor of Philosophy; B.A. 1987, University of California at Santa Cruz; J.D. 1990, University of California at Los Angeles; Ph.D. 2000, Stanford University

DAVID MILLICAN (2006), Visiting Assistant Professor of Chemistry; B.S. 1981, Louisiana State University; Ph.D. 1990, Duke University

ANGELA MOORE (2003), Associate Professor of Geology and Earth Sciences; B.S. 1992, Edinboro University of Pennsylvania; M.S. 2002, Ph.D. 2003, University of California at Davis

ERIC D. MORTENSEN (2004), Associate Professor of Religious Studies; B.A. 1993, Carleton College; Ph.D. 2003, Harvard University

LYNN J. MOSELEY (1977), Charles A. Dana Professor of Biology; B.S. 1970, College of William and Mary; Ph.D. 1976, University of North Carolina at Chapel Hill

CYNTHIA M. NEARMAN (2004), Assistant Professor of English and Director of Writing; B.A. 1993, Wingate University; M.A. 1995, Ph.D. 2002, University of North Carolina at
ROY H. NYDORF (1978), Professor of Art; B.A. 1974, State University of New York at Brockport; M.F.A. 1976, Yale University School of Art

ELWOOD G. PARKER (1968), Professor of Mathematics; B.S. 1964, Guilford College; M.A. 1967, Ph.D. 1972, University of North Carolina at Chapel Hill

PARAG BUDHECHA PARKER (2011), Writing Director and Instructor in English;

K. BETH PARKS (2008), Visiting Assistant Professor of Accounting; B.A. 1988, UNC Chapel Hill; M.S. 1992, Appalachian State University

JAMES PARRIGAN (2010), Information Literacy Librarian with the rank of Associate Librarian; B.A. 1997, Ohio University; M.A. 2002, University of Akron; M.L.I.S. 2003, Kent State University

ANNA PENNELL (2003), Assistant Professor of Education Studies; B.A. 1991, Loyola University; M.Ed. 1995, Ph.D. 2001, University of North Carolina at Greensboro

CHAD PHILLIPS, (2003), Visiting Assistant Professor of Theatre; B.A. 2000, Augusta State University, M.F.A. 2003, University of North Carolina at Greensboro

DANIEL RHODES (2010), Visiting Instructor of Justice and Policy Studies; B.S. 1994, University of North Carolina at Greensboro; M.S. 1996, University of North Carolina, Chapel Hill; Ph.D. 2008, University of North Carolina at Greensboro

VANCE A. RICKS (1998), Associate Professor of Philosophy; B.A. 1992, Guilford College; Ph.D. 2005, Stanford University

Teresa Rinaldi, (2012), Visiting Instructor of Foreign Languages; B.A. 2008, M.A. 2009, University of North Texas, Denton; A.B.D., University of California

JEREMY RINKER (2011), Visiting Assistant Professor of Peace and Conflict Studies;

MARIA ROSALES (2005), Associate Professor of Political Science; B.A. 1994, California State University, Stanislaus; M.A. 1996, Ph.D. 2005, University of California at Berkeley

KAMI ROWAN (2005), Assistant Professor of Music; B. Music 1988, NC School of Arts; M.M. 1990, D.M.A. 2010, Shenandoah University

DARRYL SAMSELL (2007), Assistant Professor of Business; B.B.A. 1980, James Madison University; M.B.A. 2003, Doctoral candidate, Old Dominion University

RICHARD SCHILHAVY (2011), Visiting Instructor of Business; B.S. 2003, University of Evansville, Indiana; M.S. 2004, Indiana University; A.B.D. University of North Carolina at Greensboro

CARYL SCHUNK (2005), Assistant Professor of Education Studies; B.S. 1968, Sam Houston State University; M.Ed. 1975, Ed. D. 1982, University of Houston

JESSICA SENDER (2011), Instructional Technology Librarian with the rank of Assistant Librarian; B.A. 2009, College of Wooster; M.L.I.S. 2011, Indiana University

STEVEN S. SHAPIRO (1995), Associate Professor of Physics; B.A. 1986, Colby College; Ph.D. 1995, Massachusetts Institute of Technology
NATALYA SHELKOVA (2009), Assistant Professor of Economics, B.A., 1996, Irkutsk State Academy of Economics, Russia, M.A., 2000, Northeastern University, Ph.D., 2009, University of Connecticut

EDITH SHEPHERD (2010), Visiting Instructor of Foreign Languages, B.A. 1971, Guilford College; M.Ed., Spanish, 1974, University of North Carolina at Greensboro

KATHRYN SHIELDS (2007), Assistant Professor of Art; B.A. 1992; Virginia Tech University; Ph. D. 2001, Virginia Commonwealth University

PHILIP SLABY (2005), Assistant Professor of History; B.S. 1992, M.A. 1998, Ph.D. 2005, Brandeis University

CHARLES G. SMITH (1983), Professor of Biology; B.A. 1968, Ohio State University; M.S. 1972, Cleveland State University; Ph.D. 1977, Ohio State University

DONALD A. SMITH (2005), Assistant Professor of Physics; B.A. 1992, University of Chicago; Ph.D. 1999, Massachusetts Institute of Technology

ROD B. SPELLMAN (2005), Visiting Instructor of English; B.A. 1996, Valdosta State University; Doctoral candidate, University of North Carolina, Greensboro

JANET STARMER (2006), Visiting Instructor of Foreign Languages and Language Lab Supervisor; B.A. 1993, Wake Forest University; M.A. 1998, University of Virginia

KAYLENE SWENSON (2006), Visiting Instructor of English; B.A. 1994, Harding University; M.A. 1997, Louisiana State University

CHARLES TEFFT (1999), Half-Time Instructor in Art; B.F.A. 1997, Guilford College

DAVID TEMPLE (2011), Visiting Assistant Professor of Education Studies; B.A. 1984, Elon University; M.S. 1998, Ph.D. 2006, University of North Carolina at Greensboro

JENNIE THOMPSON (2008), Visiting Writing Instructor; B.A. 2003, Centre College; M.F.A. 2005, UNC Greensboro

KAREN M. TINSLEY (1998), Associate Professor of Psychology; B.A. 1985, Sweetbriar College; M.S. 1987, Pennsylvania State University; Ph.D. 1991, University of Virginia

SYLVIA TRELLES (1984), Professor of Foreign Languages; B.A. 1969, Ripon College; M.A. 1971, Ph.D. 1984, University of Michigan

KATHLEEN A. TRITSCHLER (1984), Professor of Sport Studies; B.S. 1972, University of Wisconsin at Madison; M.S. 1978, University of Arizona; Ed.D. 1985, University of North Carolina at Greensboro

WENLING WANG (2011), Visiting Assistant Professor of Business; B.A. 2003, Beijing Technology and Business University, China; M.S. 2004, University of Leeds, U.K.; Ph.D. 2011, Drexel University

ADELE WAYMAN (1976), H. Curt and Patricia S. Hege Professor of Art; B.A. 1965, Vassar College; M.F.A. 1978, University of North Carolina at Greensboro

GAIL WEBSTER (2004), Associate Professor of Chemistry; B.S. 1987, Virginia Commonwealth University; M.S. 1990, Ph.D. 1994, North Carolina State University

MEGAN WHITE (2011), Visiting Assistant Professor of Biology; B.S. 2003, Judson College; M.S. 2005, Troy University; Ph.D. 2011, Wake Forest University

CAROLYN BEARD WHITLOW (1993), Charles A. Dana Professor of English; B.S. 1969, Wayne State University; M.S. 1976, Cornell University; M.F.A. 1984, Brown University

ROBERT M. WHITNELL (1994), Professor of Chemistry; B.A. 1983, Reed College; Ph.D. 1988, University of Chicago

LAVON WILLIAMS (2004), Associate Professor of Sport Studies; B.S. 1982, Texas Christian University; M.S. 1991, University of Oregon; Ph.D. 1996, University of North Carolina at Greensboro
MARC A. WILLIAMS (2012), Visiting Instructor of Theatre Studies;  
ROBERT B. WILLIAMS (1987), Professor of Economics; B.S. 1976, University of Denver; Ph.D. 1984, University of North Carolina at Chapel Hill  
JULIE WINTERICH (2008), Assistant Professor of Sociology; B.A. 1987, Miami University; M.A. 1996, Ph.D. 2002, University of Texas at Austin  
JOHN ZERBE (1988), Professor of Theatre Studies; B.A. 1979, Oberlin College; M.F.A. 1982, Indiana University; Doctoral Candidate, University of California  
RICHARD L. ZWEIGENHAFT (1974), Charles A. Dana Professor of Psychology; B.S. 1967, Wesleyan University; M.A. 1968, Columbia University; Ph.D. 1974, University of California at Santa Cruz  

Emeriti and Retired Faculty  
REXFORD E. ADELBERGER, B.S., Ph.D., Professor of Physics, 1973 - 2007  
MARITZA B. ALMEIDA, B.A., M.A., M.A., Ph.D., Professor of Spanish, 1970 - 2002  
CHARLES C. ALMY, JR., B.S., M.A., Ph.D., Professor of Geology, 1972 - 2003  
RUDOLPH S. BEHAR, B.A., M.A., Ph.D., Professor of English, 1968 - 1997  
KAREN A. BEHM, B.S., M.L.S., Head Circulation Librarian with rank of Associate Librarian, 1984 - 2000  
O. THEODOR BENFEY, B.S., Ph.D., Charles A. Dana Professor of Chemistry and History of Science, 1973 - 1988  
DOROTHY V. BOREI, B.A., M.A., Ph.D., Professor of History, 1979 – 2007  
MARY G. BROOS, B.S., M.S., Instructor of Sport Studies, 1979 - 2008  
CAROL A. M. CLARK, B.A., M.S., Ph.D., Professor of Economics, 1981 - 1999  
JOYCE P. CLARK, B.S., M.Ed., Associate Professor of Sports Studies, 1959 - 2002
